CHAPTER 513, ACTS 1908, ACCEPTED BY TOWN

Yes	709	141	850
No	265	16	281

TOWN MEETING MARCH 8, 1909

Article 1. To choose a moderator, by ballot, to preside at said meeting.

Thomas G. O'Connell was elected moderator.

Art. 2. To act upon the reports of the town officers as published.

Voted. That the reports of town officers as printed be accepted and laid upon the table.

Art. 3 To choose all town officers not required to be chosen by ballot.

Voted. That a committee of seven be appointed to bring in a list of town officers not chosen by ballot. Chair appointed S. T. Parker, Frank Long, S. E. Ryder, Wm. T. Curley, Daniel Evans, P. J. Kelley, Melvin W. Boardman.

Art. 4. To see if the town will authorize its Treasurer to hire money to pay all demands in anticipation of taxes.

Voted. That for the purpose of procuring temporary loans to and for the use of the Town of Wakefield the Town Treasurer is hereby authorized and directed, with the approval of a majority of the Board of Selectmen, to borrow money from time to time in anticipation of the taxes of the present municipal year, not exceeding \$240,000, and to execute and deliver the note or notes of the town therefor. Any debt or debts incurred by a loan or loans to the town under this vote shall be paid from the said taxes of the present municipal year.

Art. 5. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.

Voted. To raise and appropriate as follows :

Schools :

Pay rolls	\$44,093 34

Art. 6. To hear and act upon the report of the committee appointed under Article 25 of the last annual town warrant relative to the Light Plant.

Voted. To dispense reading report.

Report filed with Moderator.

Voted. To adjourn this meeting to next Thursday night at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 11, 1909.

Meeting called to order by Moderator.

Article 6 being in order

Voted. To lay report of Committee on table.

Art. 5.

Voted. To take up this Article.

Voted. To reconsider the vote taken under this Article appropriating \$12,000 for Highway Department.

Voted. To raise and appropriate \$6,000 to be expended according to recommendation of Finance Committee.

Art. 6.

Voted. To take Article 6 from table.

Committee presented their report.

It was accepted by the town and a vote of thanks given them for the good work they have done.

Voted. That so much of report that relates to the electric part of the Plant be referred to a new committee of five, to report at adjourned meeting.

W. E. Arnold, George H. Taylor, C. Donovan, C. L. Sopher, Elroy N. Heath appointed this committee.

Art. 7. To see if the town will authorize and instruct the Municipal Board to construct a new gas holder and a new gas bench, to replace the gas meter at the plant, to extend the coal sheds, and to renew certain gas mains.

Voted. On motion of Finance Committee

That the Municipal Light Board be authorized to construct a new gas holder and a new gas bench to replace the gas meter at the Plant, to extend the coal shed and renew certain gas mains and the sum of \$25,000 is appropriated.

Art. 8. To see if the town will authorize an issue of bonds to an amount not exceeding \$26,000 for terms not exceeding 10 years; make provision for the payment of said bonds and

interest thereon; and appropriate the proceeds of said bonds to the payment of the additions, enlargements, reconstruction and renewals authorized under the preceding article, toward meeting the \$25,000 appropriation under Article 7.

Voted. The Selectmen and Town Treasurer are authorized to issue and sell bonds of town to amount of \$25,000 dated 1st of April, 1909, payable \$2,500 annually for 10 years on the first day of April with interest at a rate not exceeding 4 per cent. per annum, payable semi-annually, the said bonds to be authenticated by the certificate of the City Trust Company of Boston.

Art. 9. To see if the town will authorize and instruct the Municipal Light Board to contract for the purchase of electric current for the light plant for a term not exceeding five years.

Voted. To lay on table.

Art. 10. To see if the town will vote to discontinue the night watch, and that the Police Department furnish police protection, in the district heretofore covered by the night watch, or what they will do about it.

Art. 11. To see if the town will authorize the Selectmen to appoint a night watch and raise and appropriate money therefor.

Voted. To lay on table.

Art. 12. To see if the town will raise and appropriate a sufficient sum of money to macadamize Richardson avenue, or what they will do about it. George A. Wheeler and others.

Art. 13. To see if the town will vote to build a sidewalk on the easterly part of Green street, from Oak street northerly to the residence of L. Willard Flint, and raise and appropriate money therefor, or what they will do about it. L. Willard Flint and others.

Art. 14. To see if the town will raise and appropriate \$900 to repair Cordis street, from No. 33 Cordis street to Vernon street, work to be done in the same manner as Sweetser street was repaired in 1908. George N. Whiting and others.

Voted. To refer Articles 12, 13, 14, to Selectmen.

Voted. To adjourn until next Monday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 15, 1909.

Article 15. To see if the town will raise and appropriate the sum of \$400 to repair sidewalks on Emerson street, from Chestnut to Prospect street, or what they will do about it. W. J. Dinan and others.

Voted. \$400 appropriated.

Voted. To take up Article 3.

Committee appointed under this Article presented the following list of officers not chosen by ballot which was accepted and adopted :

Field Drivers—Lester K. Finney, George K. Walton, Alexander Glass, Palmer Corbett, J. E. Hopkins, C. E. Classen, W. F. Shedd.

Measurers of Wood—G. W. Killorin, A. L. Mansfield, H. N. Oliver, E. S. Oliver, W. C. Crocker, T. E. Toomey, L. P. Curley, Thomas Hickey, Denis Greany, P. Lannergan, A. A. Mansfield, H. A. Feindel, W. T. Curley, Wm. Hickey, L. E. Bennett.

Measurers of Lumber—A. T. Locke, H. B. Parker, J. B. Foster, W. A. Prescott, H. A. Feindel, A. P. Webber, L. E. Bennett.

Weighers of Coal and Merchandise—P. McLaughlin, H. A. Simonds, John Toomey, W. C. Crocker, Wm. Hickey, T. E. Toomey, A. A. Mansfield, N. E. Cutler, A. L. Mansfield, W. T. Curley, L. E. Bennett, Thos. Hickey, G. A. B. Merrill, L. P. Curley.

Finance Committee, 3 years—Frank J. Henkel, Arthur S. Hill, Charles T. Dunham, J. W. Murphy, Waldo E. Cowdrey.

Finance Committee, 2 years—Forest A. Seavey.

Finance Committee, 1 year—James H. Murphy.

Art. 16. To see if the town will raise and appropriate \$200, to repair the sidewalk on Valley street, from the residence of Napoleon Munier to the junction of Melvin, Valley and Water streets. John Shea and others.

Voted. To refer article to Selectmen.

Art. 17. To see if the town will raise and appropriate a sufficient sum of money to shingle and repair the Greenwood Hose House. William E. Cade and others.

Voted. \$225.

Art. 18. To hear and act on the Board of Fire Engineers, in reference to a fire alarm box in Greenwood, and raise and appropriate money for the same. William E. Cade and others.

Voted. \$85 for fire alarm box near corner of Warren and Madison avenue.

Art. 19. To see if the town will complete the furnishing of hats and coats for the members of the Fire Department, and raise and appropriate money for the same. William E. Cade and others.

Voted. \$200.

Art. 20. To see if the town will vote to install a new gong and repeating fire alarm box in the Central Fire Engine House, and raise and appropriate money therefor, or what they will do about it. William E. Cade and others.

Voted. To lay on table.

Art. 21. To see if the town will raise and appropriate \$300 for the purpose of Memorial Day. Charles F. Hartshorne and others.

Voted. \$300.

Art. 22. To see if the town will amend the rule adopted for the Water Department, beginning "Bills for the use of water shall be payable semi-annually in advance on the first day of June and December of each year," by striking out the words "June and December" and inserting in place thereof the words "May and November," the same to take effect after June 1st, 1909, or what they will do about it. Charles A. Dean and others.

Voted. The subject matter of this article be adopted.

Art. 23. To see if the town will vote to purchase the lot of land

opposite the pumping station, situated on the north side of Broadway, bounded southerly by Broadway 267 feet, easterly by Foundry street 150 feet, northerly by land formerly of Daniel G. Walton 278 feet, and westerly by land of Greany about 163 feet, as an addition to the Water Plant, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. Charles A. Dean and others.

Voted. That Water Commissioners be authorized to purchase this land at a price not exceeding \$600, provided the title be perfect. Expense to be taken from surplus of the Water Department.

Art. 24. To see if the town will provide a room for the Wakefield Historical Society for the preservation of its library and many articles of historic value. Ashton H. Thayer.

Voted. Free use of unoccupied room at the northeast corner of third floor of Town Hall building.

Art. 25. To hear and act on the report of the Committee of Seven appointed under Article 19 at the annual March meeting, 1907, to consider the advisability of creating a Board of Public Works, or making others changes in the management of the Gas, Water, Street and Sewer Departments. Edwin C. Miller.

Voted. Committee presented report, recommended to consolidate the Sewer Department with Water Department and the Board of Sewer Commissioners be abolished.

That our Representative to the Legislature be instructed to obtain necessary legislation soon as possible.

Report accepted and adopted.

Art. 26. To see if the town will raise and appropriate a sufficient sum of money to make certain changes in the method of lighting the Town Hall, or what they will do about it. George L. Wakefield and others.

Voted. To lay on table.

Art. 27. To see if the town will authorize the Selectmen to purchase all the coal for the town with the exception of that

used by the Municipal Light Plant and Water Department, under one bid or contract, or what they will do about it.

Voted. That Selectmen be so authorized.

Art. 28. To see if the town will raise and appropriate \$1,300 for the suppression of the Gypsy and Brown Tail moths. W. W. Whittredge and others.

Voted. \$1,300. \$94 of which is to complete Town's liability for 1909.

Art. 29. To see if the town will vote to add additional men to the Police Force, and raise and appropriate money therefor, or what they will do about it. M. E. S. Clemons and others.

Voted. \$400 to be expended for police protection on west side of Town under direction of Board of Selectmen.

Voted to adjourn until next Thursday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 18, 1909.

Voted. To take up Article 5.

Voted. To raise and appropriate \$14,000, including receipts for Municipal Light Plant.

TOWN MEETING NOVEMBER 8, 1909

Article 1. To choose a moderator, by ballot, to preside at said meeting.

Thomas G. O'Connell was elected moderator.

Art. 2. To see if the town will raise and appropriate \$3,635.64 for the suppression of the Gypsy and Brown Tail Moth.
W. W. Whittredge.

Voted. \$3,635.64.

Art. 3. To see if the town will raise and appropriate the sum of \$306.25 for fuel, School Department. Charles E. Montague and others.

Voted. \$306.25.

Art. 4. To see what sum the town will vote to raise and appropriate for Highways. Edw. E. Lee and others.

Voted. \$1,100.

Art. 5. To see if the town will raise and appropriate a sufficient amount of money to pay the balance of the salaries of the Town Officers for the current year. M. E. S. Clemons and others.

Voted. \$1,013.75.

Art. 6. To see if the town will raise and appropriate a sufficient sum of money for the purpose of repairs and replacements to the Fire Alarm system, to be expended under the direction of the Board of Municipal Light Commissioners. Curtis L. Sopher and others.

Voted, \$1,025 for purposes outlined in this article, and to install a Gamewell Indicator in house of Hose 2, under direction of Municipal Light Board and Fire Engineers.

Art. 7. To see if the town will authorize and instruct the Board of Municipal Light Commissioners to purchase a water gas set, so called, for the purpose of manufacturing water gas in conjunction with the manufacture of coal gas, and to erect a suitable building in which to install the same. Curtis L. Sopher and others.

Voted. The Municipal Light Commissioners be so authorized, as asked for in this article.

Art. 8 To see if the town will appropriate the balance of the proceeds of the bonds authorized by the town under Article No. 3, of the April 15th, 1909, meeting, now in the hands of the Treasurer, and such further sum as may be necessary, the same to be taken from the depreciation fund of the Mu-

municipal Light Plant, for the purpose of erecting a building, purchasing and installing a water gas set as proposed in the preceding article. Curtis L. Sopher and others.

Voted. To appropriate \$7,000, to include the balance of the proceeds of the bond authorized by the town under Article 3 of the meeting April 15, 1909, now in hands of Treasurer, and the balance of \$7,000 be taken from the depreciation fund of the Municipal Light Plant, for the purpose asked for in the preceding article.

Art. 9. To see if the town will authorize and instruct the Board of Selectmen to provide suitable quarters in the Town Hall, or elsewhere, away from the Municipal Light Plant, for offices for the accounting department of said plant. Curtis L. Sopher.

Voted. That the subject matter of this article be referred to a joint committee of the Selectmen and the Finance Committee, with authority to take such action as they may consider desirable.

Amended that the Municipal Light Board be added to the committee.

Amendment carried, and motion as amended, voted in affirmative.

Art. 10. To see if the town will instruct the Municipal Light Board to install an incandescent light on Lawrence street, east of Pleasant. R. J. Cuff.

Voted. Town instruct Municipal Light Board to install a light as asked for in this article

Art. 11. To see if the town will raise and appropriate a sufficient sum of money to erect poles and wires to light the southerly end of Jordan avenue from Byron street to Albion street, or what they will do about it. Greenleaf A. Goodale and others.

Voted. To instruct the Municipal Light Plant to install a light on Jordan avenue, as outlined in Article 11.

Art. 12. To see if the town will increase the salary of the Clerk

of the Board of Selectmen, and appropriate money therefor, or what they will do abot it. H. A. Simonds and others.

Voted. That the town increase the salary of Clerk of Board of Selectmen at rate of \$100 per annum, dated from Nov. 1, 1909. That town raise and appropriate \$33.33, amount necessary to complete current salary year.

Art. 13. To see if the town will vote to elect Overseers of the Poor in the following manner. At the annual town meeting in 1910, to elect one Overseer of the Poor for the term of one year, one for the term of two years, and one for the term of three years, and at each annual meeting thereafter to elect one Overseer of the Poor for the term of three years. George M. Poland.

Voted. To indefinitely postpone.

Art. 14. To see if the town will vote to sell, lease or otherwise dispose of its property on Albion street, formerly the Thomas Flynn estate, or what action if any it will take in relation thereto.

Voted. That town retain property mentioned in article for the present, and Selectmen rent same and report the same at the next March meeting.

Art. 15. To see if the town will authorize its Treasurer, with the approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a term not exceeding one year, and to issue the notes of the town therefor.

Voted. That the Town Treasurer, with the approval of the Selectmen, be authorized to hire the sum of \$7,113.33, for a term not exceeding one year, to meet the appropriations made at this meeting, and to issue the notes of the town therefor.

Voted. To dissolve the meeting.

TOWN MEETING, NOVEMBER 29, 1909.

Article 1. To choose a moderator by ballot, to preside at said meeting.

Thomas G. O'Connell was elected moderator.

Art. 2. To see what action the town will take for the preservation, protection and improvement of Lake Quannapowitt and its shores for the use and benefit of the town and its inhabitants. S. K. Hamilton and others.

S. K. Hamilton offered the following motion :

That acting under Article 2 of the present warrant the town appoint a Citizens' Committee, consisting of 50 legal voters [which motion was amended that the Moderator appoint a Committee of 15 instead of the Town appointing a Committee of 50] to inquire into the past and present condition of Lake Quannapowitt and its shores, all sources of pollution thereof, methods of purification and means of prevention of further pollution, the relations of the Town to the Commonwealth of Massachusetts and the Town of Reading, the determination and maintenance of a proper level for the water in said Lake, and report to the Town at its next annual Town Meeting or at any other meeting called at the request of said Committee for that purpose, which Committee shall have power to fill all vacancies in its own number.

It is hereby empowered to take such action for the purposes above set forth as it may deem to be in the interest of the Town and its inhabitants and especially to make such applications as it may deem advisable to the Board of Harbor and Land Commissioners, the State Board of Health, the Board of Highway Commissioners and to the Legislature of the Commonwealth of Massachusetts.

It shall organize by the choice of a Chairman and Secretary and shall keep a record of its proceedings and at its dissolution file the same with the Town Clerk.

It shall continue in office until discharged by a vote of the Town.

It shall incur no expense to the Town and shall serve without pay.

The Selectmen are hereby instructed to furnish said Committee with a suitable room for its meetings and supply it with stationery and postage.

The following named voters shall constitute said Committee.

The Moderator appointed the following Committee: Charles A. Dean, H. M. Dolbeare, J. Fred Parker, Joseph W. Heath, C. Donovan, E. C. Miller, Junius Beebe, Thomas E. Dwyer, George M. Tompson, John A. Meloney, Curtis L. Sopher, Arthur G. Walton, M. E. S. Clemons, Frank A. Long, A. W. Flint.

The motion as amended was carried.

Art. 3. To see if the town will raise and appropriate a sufficient sum for the estimated expense of taking all or any of the land lying along the shores of Lake Quannapowitt, which is not now owned by the town of Wakefield and authorize the Board of Park Commissioners to take for park purposes all or any part of said land. M. E. S. Clemons and others.

Voted. That the Chair appoint a Committee of five to take the subject matter of this Article into consideration and report at next March meeting.

Board of Selectmen appointed this Committee.

Art. 4. To see if the town will instruct the Municipal Light Board to install an incandescent light on Converse street, near the residence of Timothy F. Murphy.

Voted. That the Municipal Light Board be instructed to install a light on Converse street as asked for in this Article.

Art. 5. To see if the town will authorize its Treasurer, with the

approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a term not exceeding one year, and to issue the notes of the town therefor.

Voted. To indefinitely postpone.

Voted. To dissolve this meeting.

SELECTMEN'S REPORT

TO THE CITIZENS OF THE TOWN OF WAKEFIELD :

The Board of Selectmen respectfully submit their annual report for the municipal year ending December 31st, 1909, together with the reports of the several departments and committees under their control and supervision.

The board organized March 2nd with the election of J. Fred Parker, chairman, Arthur L. Wiley, secretary and the appointment of H. A. Simonds, clerk.

RESIGNATIONS AND APPOINTMENTS

Mr. H. G. Brockbank resigned as Chief of Police and Chas. E. Bullard was appointed but before qualifying, an illness of the eyes developed. He was granted a month's leave of absence but at the end of that time his condition was such that he resigned.

J. J. Pollard was then appointed.

A joint meeting was held with the School Committee to fill the vacancy caused by the resignation of Darius Hadley and resulted in the election of Arthur H. Boardman.

C. O. Anderson resigned as Sealer of Weights and Measures and A. A. Mansfield was appointed.

Report of Town Counsel

TO THE HONORABLE BOARD OF SELECTMEN.

GENTLEMEN—I hereby submit my report as to matters which are or have been in the Courts during the past year.

The following is a list of cases and unless otherwise noted the town is defendant :—

Actions of tort—Thomas L. Harris, Emma Doyle, Mary A. Doucett, Hannah S. Wait, Richard Mirabito and Wm. Baragnawath.

Actions of contract—Willard Welch, Susan Romney, both to recover on tax title, Conway Contracting Co. and Wakefieldvs. American Surety Co.

Other matters pending—Six petitions to set aside sewer assessments.

PROCEEDINGS IN COURT

Case of John A. Keefe tried before jury, verdict for town.

Case of Willard Welch tried before the court at Malden, and finding for plaintiff, on appeal tried before Superior Court, finding for town.

Claim of Josephine Stone for injury from fall on sidewalk at Greenwood settled for \$150.

Old case of Peter Corbett disposed of by Insurance Co. at no cost to town.

The case against the American Surety Co. will probably be heard in the Supreme Court in April on the defendant's exceptions.

Respectfully submitted,

M. E. S. CLEMONS.

Engineers Report

TO THE HONORABLE BOARD OF SELECTMEN :

GENTLEMEN—The board of Fire Engineers herewith present their report for eleven months, beginning February 1, 1909, and ending December 31, 1909, giving the record of fires, with losses and insurance as nearly as we can ascertain them, and such other information as may be of interest to the town.

THE DEPARTMENT

The department consists of seven pieces of apparatus, as follows :

1 Amoskeag Steam Engine.

- 1 Silsby Steam Engine (Relief).
- 1 Hook and Ladder Truck.
- 1 Combination Hose and Chemical Wagon.
- 1 Auto Hose Wagon, owned by Volunteer Library Assn
- 1 Hose Wagon, owned by Greenwood Library Assn.
- 1 Hose Wagon, Montrose.

There are eight horses in the department one of which is owned by the Greenwood Library Association.

There are 55 men in the department, divided as follows: 3 engineers, 4 permanent drivers, 1 relief driver, 14 Hook and Ladder men, 2 engineers of engine and 33 hose men.

During the past year we have had the combination wagon and supply wagon painted. The combination wagon has again shown its usefulness as a great saver of water damage at the smaller fires.

HOSE

There is in the department 6100 feet of hose and it has all been tested this year. 1000 feet has been lined at a cost of \$393.34. This we have been able to do from the regular appropriation on account of there being several vacancies in the department. All of this hose has been in the department a number of years and is liable to give out at any time. 800 feet is in poor condition.

FINANCIAL REPORT

The financial report is given in the auditors' report and shows receipts of \$10,035.33 and expenditures of \$9,894.57, leaving an unexpended balance of \$140.76. This is an increase over previous year and is caused by the raising of the pay of the department at the annual town meeting. This action is much appreciated by the members of the department and enables the Board to retain the services of experienced men. The earnings of the department are \$2,027.23. This with an appropriation of \$8,008 makes the income \$10,035.33. We return \$140.76 to the town making the total amount that enters into the tax levy \$7,857.24, the balance coming from the earnings.

RECORD OF FIRES

During the year the department has responded to 34 general

alarms and 43 still alarms, the largest number responded to in one year or 11 months. Excepting the fire at the Congregational church, Feb. 21, the losses were small. The number of still alarms shows a steady increase, showing that our townspeople are becoming educated to the fact that there are two horses and a driver at the Central Fire Station at all times to respond to small fires without ringing in the alarm. We have responded to three out of town calls; the church fire at Reading, another church fire at Stoneham and to a call from Saugus where a number of buildings were burned. At these fires we appreciated the fact that our sister towns have come to our assistance on several occasions with their best and in responding to these calls we have endeavored to do the same.

Monday, Feb. 15. Still alarm, 9 a. m. Dwelling 10 Crescent court. Owned by Fred H. Henry, occupied by D. H. Bodwell. Loss \$900. Cause, probably from smoking.

Monday, Feb. 15. Still alarm, 6.10 p. m. Supposed fire in greenhouses corner of Yale and North avenues. Cause, smoky chimney.

Thursday, Feb. 18. Still alarm at 12.52 p. m. No. 24 Chestnut street, occupied by Mrs. D. P. Rolfe. Cause, chimney.

Sunday, Feb. 21. Box 34, 8.15 a. m., followed by second alarm. Congregational church, corner Church street and Lake avenue. Loss \$83,000. Cause, unknown.

Monday, Feb. 22. Still alarm, 10.30 a. m. Re-kindling of above fire.

Tuesday, Feb. 23. Still alarm, 12.40 a. m. Ruins of Congregational church.

Tuesday, March 2. Still alarm, 12.20 p. m. Shea's block, Turnbull avenue. Chimney fire.

Friday, March 5. Out of town call, 7.40 p. m. Congregational church at Reading; aid asked for. Steamer and hose wagon sent. Returned at 11.20 p. m.

Tuesday, March 16. Box 6, 10.10 a. m. Poor farm, Farm street. Loss \$827. Cause, careless smoking.

Wednesday, March 17. 12.03 p. m. Dwelling, 756 Main street, occupied by W. E. Thurston. Loss small. Cause, kettle of fat.

Friday, March 19. Still alarm 1.40 p. m. Coal yard owned by Thomas Hickey. Grass fire.

Sunday, March 21. Still alarm, 10.20 p. m. Grass fire on Hopkins street.

Tuesday, March 23. Still alarm, 3.10 p. m. Henhouse on Greenwood avenue owned by Margaret Marble. Loss \$75. Cause, burning grass.

Wednesday, March 24. Still alarm, 2.40 p. m. Brush fire on Greenwood street.

Wednesday, March 24. Out of town call at 4.52 p. m. Methodist church, Stoneham. Steamer and wagon responded. Returned at 8.05 p. m.

Saturday, March 27. Still alarm, 3.55 p. m. Grass fire, Parker Road.

Sunday, March 28. Box 27, 9.22 a. m. Dwelling house 6 Avon court, occupied by Ed. Eaton. Loss small. Cause, blanket catching afire from stove.

Thursday, April 1. Still alarm, 11.54 a. m. Grass fire, Shumway Circle.

Thursday, April 1. Box 43, 2.24 p. m. Grass fire, Lawrence street.

Friday, April 2. Still alarm, 10.32 a. m. House occupied by John Barron, Salem street, chimney fire.

Monday, April 5. 8.45 a. m. Department answered Box 12 wild blows on fire alarm.

Monday, April 5. 10.44 a. m. Grass fire on Nahant street.

Monday, April 5. Box 10, 12.15 p. m. Brush fire off Parker Road.

Monday, April 5. Box 28, 3.37 p. m. Grass fire off Elm street.

Tuesday, April 6. Still alarm, 1.05 p. m. Wood fire off Nahant street.

Tuesday, April 6. Still alarm, 3 p. m. Grass fire off White avenue.

Thursday, April 8. 10.15 a. m. Out of town call, Cliftondale, Saugus. Steamer and hose wagon sent. Nine houses destroyed. Loss \$40,000.

Monday, April 12. Still alarm, 1.07 p. m. Woods off Bear Brook road.

Monday, April 12. Still alarm, 1.45 p. m. Grass fire off Hopkins street.

Monday, April 19. Box 21, 1.23 p. m. Brush fire off Jordan avenue.

Wednesday, May 12. Box 22, 9.01 p. m. Fire in yard of Smith & Anthony Co., Foundry street, among patterns. Loss \$75. Cause, sparks from locomotive.

Friday, May 14. Box 9, 5.31 a. m. Dwelling house, 144 Water street, owned by Miss Agnes Farrington; occupied by Patrick Farrington. Loss \$40. Cause, probably from smoking.

Wednesday, May 26. Still alarm, 12.17 p. m. Fence fire, Railroad and Water streets. Cause, sparks from locomotive.

Tuesday, June 1. Box 41, 6.17 a. m. Dwelling house on Central street, owned by M. B. Raynes; occupied by F. Howard. Loss \$30. Cause, spark from chimney.

Friday, June 4. Box 12, 1.27 p. m. Union church, Oak street, Greenwood. Loss \$1500. Cause, set by children.

Sunday, June 27. Box 58, 6.12 p. m. False alarm.

Monday, July 5. Box 23, 3.40 a. m. Ticket office, Railroad and West Water streets, owned by Wakefield Baseball Assn. Loss \$40. Cause, incendiary.

Monday, July 5. Box 14, 9.15 p. m. Dwelling, 826 Main street, owned by A. W. Corey, occupied by Geo. Bloom and A. F. Young. Loss small. Cause, fire baloon.

Monday, July 5. Box 15, 10.43 p. m. Out-building, Main street, opposite Franklin street, owned by Charles Cushing. Loss \$35. Cause, incendiary.

Wednesday, July 7. Box 35, 10.40 a. m. Rear of 88 Albion street, owned by O. H. Fessenden. Lot of straw bedding, probably set by children. Loss small.

Friday, July 16. Still alarm, 2.15 p. m. Grass fire on Church street.

Friday, July 16. Still alarm, 3.55 p. m. Rear of 63 Pleasant street. Stable on W. K. Perkins estate. Loss \$10. Cause, lightning.

Friday, July 16. Box 41, 4 p. m. Building on Pleasant

street extenslon, used for storage and owned and occupied by Junius Beebe. Loss \$1500. Cause, struck by lightning.

Friday, July 16. Still alarm, 8.20 p. m. Fire in tree on Crescent court. Cause, electric wires.

Saturday, July 17. Still alarm, 11.40 a. m. 6 Herbert street, occupied by Manuel Dingle. Chimney fire.

Saturday, July 17. Still alarm, 12.05 p. m. Dump afire on Richardson street.

Tuesday, Aug. 3. Still alarm, 9 a. m. 10 Crescent court, owned by Fred Henry. Loss small. Cause, gasoline stove.

Friday, Aug. 13. Box 35, 2.20 p. m. Dwelling and stores, 418, Main street, store occupied by G. H. Lee as restaurant, owned by Wakefield Real Estate and Building Association. Cause, kettle of fat. Losses : G. H. Lee, \$350 ; Wakefield Bldg. Assn., \$2500 ; S. E. Ryder, druggist, \$2,200 ; A. W. Achorn, provisions, \$300 ; C. H. Blanchard, dwelling, \$500 ; No. 8 Center street, owned by Wakefield Bldg. Assn., occupied by Mrs. Abbie Hawkes ; loss \$47.

Friday, Aug. 13. Still alarm, 5.30 p. m. Rekindling of above fire.

Monday, Aug. 23. Still alarm, 1.25 p. m. Supposed brush fire off Prospect street.

Wednesday, Aug. 25, 12 m. Store corner of Main and Albion streets, occupied by Esner Bros., owned by Middlesex Traders. Cause, burning rubbish. No loss.

Thursday, Aug. 26. Box 23, 10.05 p. m. Dwelling 20 Gould street, owned by Mrs. Annie Kernan. Loss, \$1800. Cause, kerosene lamp.

Tuesday, Sept. 7. Box 35, 6.45 p. m. Store, No. 13 Albion street, owned by William A. Giles, occupied by E. Caldwell as furniture store. Cause, careless use of matches. Loss \$65.

Wednesday, Sept. 22. Still alarm, 5.15 p. m. Dwelling at Park avenue and West Chestnut street, owned and occupied by H. I. Thayer. Loss small. Cause, gas jet.

Friday, Sept. 24. Box 48, 2.18 a. m. Dwelling on Lakeview avenue, owned by Mrs. Ida Johnson ; unoccupied ; loss, \$1500. Cause, unknown.

Friday, Oct. 8. Still alarm, 9.35 a. m. Dwelling, 310 Main

street, owned and occupied by Geo. F. Wilson. Cause, stove smoking.

Wednesday, Oct. 13. Still alarm, 8.15 a. m. Rear of Main and Water streets, owned by Cutler Bros. Fire in old rubbish.

Tuesday, Oct. 19. Box 9, 5.25 p. m. Dwelling house, 108 Water street; owned by James Johnson, occupied by Louis Wanghist. Chimney fire.

Wednesday, Oct. 27. Still alarm, 5.10 p. m. Electric car afire on Main street.

Friday, Oct. 29. Box 35, 7.22 p. m. Dwelling 384 Main street, owned by Geo. Cheney, occupied by John Hatfield. Lounge afire, caused by smoking. Loss small.

Friday, Oct. 29. 3.10 p. m. Dwelling, 28 Richardson street, occupied by Felix Muse. Chimney fire.

Loss on buildings and contents . . .	98,717.00

PROPOSED INTER-COMMUNICATING METROPOLITAN ALARM

Plans are now being formulated by the fire and electric departments of Boston, and about thirty other cities and towns, for the establishing of an inter-communicating Metropolitan Fire Alarm, to cover an area of about twenty miles from the state house in Boston. This system if installed will make it possible to assemble quickly the largest and best equipped fire fighting force in the world which can be summoned all at one time, or as much of it as is desired.

With such a system in operation at the time of the great Chelsea fire it is very probable that that fire would have been confined to a much smaller area and would have saved an immense amount of property.

With the proposed system every fire department in the cities and towns attached to the same will be kept informed at all times of any fires requiring help from other places, and it will also be possible for any city or town to call help as needed from other municipalities, at the same time keeping all the fire departments

nformed as to assistance given, who responded to the call, and will also allow for a proper covering in system of all districts from which apparatus has moved.

The establishment of this proposed fire alarm will have to be done by an act of the legislature to apportion the building and maintaining of the proposed system, and also making it mandatory as to the response to be given by the various fire departments covered by this alarm.

Competent committees are now at work and have been for about two years, formulating plans for the establishment of the proposed system and also for the best and quickest method of transportation of apparatus to the cities and towns where the system will be connected.

The system of mutual aid will be a very great safeguard to the property of all cities and towns connected with it, will allow for the quickest concentration of apparatus, besides keeping other sections covered by apparatus that would have to move if such an arrangement was not in force. The details and expense of the proposed system are not as yet thoroughly planned, but will be, in all probability, submitted to the citizens for consideration at an early date.

Wakefield is to a great extent a manufacturing town with large fire liability and, like many other towns, cannot afford to maintain a fire department in proportion to its liability for a large fire.

A system such as proposed should, in the opinion of your board of engineers, meet with the approval of the entire town.

RECOMMENDATIONS

It is not generally known that about all the property in the Greenwood Hose House is owned by the Greenwood Library Association. The Board have had a conference with the trustees of the association who desire to sell the property to the town. The Board are of the opinion that if the town can obtain it at a fair price it should do so and recommend its purchase. We also recommend that the town purchase at least 500 feet of new hose.

CONCLUSION

In conclusion we wish to thank the officers and members of the

department for the prompt and efficient manner in which they have performed their duties as firemen and to express our appreciation of the co-operation we have received from your honorable board, through Mr. Donovan, the committee on the fire department; and to the finance committee for their assistance in our efforts to bring the department up to a high standard of efficiency, and for other courtesies; to the Municipal Light Board and to the Police Department we also extend our thanks. The streets have been lighted when fires have occurred in the night and the Police Department have rendered valuable assistance.

Respectfully submitted,

WM. E. CADE,

F. F. ANDERSON,

EDWARD S. JACOB,

Board of Engineers, Wakefield, Mass.

Jan. 13, 1910.

Highway Department

TO THE HONORABLE BOARD OF SELECTMEN OF THE TOWN OF
WAKEFIELD :

GENTLEMEN,—I have the pleasure to submit my annual report of the Highway Department for the year ending December 31, 1909.

Bound over to the Superior Court	6
Committed to the House of Correction for non-pay- ment of fine	2
Committed to the House of Correction	1
State Farm	3
Danvers Insane Hospital	4
Concord Reformatory	4
Continued for sentence	11
Delivered to other officers	3
Discharged by order of Court	17
Defaulted	4
Fined and paid	28
Placed on file	42
Released	86
	<hr/>
Total	211

Amount of imprisonment in the House of Correction
imposed during the year 69 months, 16 days
Amount of fines imposed by the Court \$408

MISCELLANEOUS BUSINESS

Accidents reported	11
Broken wires reported	16
Broken water pipes reported	11

Complaints received and investigated	688
Disturbances suppressed without arrest	17
Defects in streets and sidewalks	49
Dogs shot	24
Escorts furnished	8
Fires extinguished without alarm	16
Horses found cast and loose in stables	1
Horses shot	1
Injured and sick persons assisted	12
Lights furnished for dangerous places	47
Liquor search warrants served	4
Lost children found	14
Runaway boys secured and returned home . . .	4
Store doors found open and secured	172
Notice to delinquent dog owners	153

There have been 397 dogs registered and licensed during the year.

LIQUOR LAW ENFORCEMENT

There have been 4 liquor search warrants procured from the court during the year and served. Of this number 4 raids were successful.

RECOMMENDATIONS

I would recommend that the town make provision for the appointment of a police matron to take charge of female prisoners and to receive compensation for each day that she is in service: the pay to be regulated by the Board of Selectmen.

A police department is one of the most essential things in any community; to it is intrusted the care and moral welfare of the community, and by it the moral condition of the community is represented.

The primary duty of a police officer is to prevent crime, and failing this, is to procure its punishment.

For this purpose he is invested with broad powers and may perform any act consistent with the rights of others and with the exercise of a sound discretion on his part.

But it should be understood that neither the state nor the muni-

cipality whose officer he is, assumes any responsibility for his wrongful action.

Physical and mental ability and moral character should be considered and politics eliminated.

The town has, year after year, neglected to provide suitable police protection for its inhabitants, and I want to simply repeat what other chiefs have told you, that is, that the town should have at its command a police department. I will not enter into details in this matter, but I will say this, however, that no man who has the best interest of this town at heart can help but see that this is true.

I would recommend that you have a Police Department to consist of five patrolmen and a chief; and that for the maintaining of such a department the sum of \$5,500, together with the court fines, be appropriated. I would also recommend that not over four special police be assigned for the extra police work.

In conclusion I wish to thank your honorable board for the kindly assistance and advice given me.

To his Honor, Judge Bruce, and his assistant Judges Fernald and Sweetser, and also to the Clerk of the District Court, Wilfred B. Tyler, and his able assistant, Henry C. Bacon, I wish to extend my sincere thanks for the kind and courteous treatment accorded me throughout the year.

To the Special Police officers who have contributed to the success of this department, you have my thanks.

Respectfully submitted,

JAMES J. POLLARD,

Chief of Police.

Report of Forest Warden

HONORABLE BOARD OF SELECTMEN:

GENTLEMEN:—I herein make my second report as Forest Ward.

Number of fires, 1909	37
A decrease from last year of	17

Average cost per fire, including loads of water delivered
 at a fire by one or more teams \$5 27
 I have purchased 5 Underwriter Extinguishers, for use of
 this department at a cost of \$50 00

I have received timely assistance in many cases from the Wakefield Fire Department, which I appreciate, not only by saving hard work but also saved money for the town.

The dry season lasted until Dec. 24th, nearly six weeks late than usual.

Respectfully submitted,

SAMUEL T. PARKER,

Forest Ward, No. 208.

SARAH A. CUTLER,

Treasurer.

December 31, 1909.

Early in the year the Board took up, with the representatives of the B. & M. R. R., the question of a new freight house and better freight accommodations.

Our requests were cordially received, plans shown and assurances given that our wishes would be granted. The Railroad has filled the land on Railroad street preparatory to erecting a new freight house, and have already laid several permanent tracks, and we now feel assured that by spring or early summer our town will have freight facilities equal to its needs.

The house on [the Flynn property, Albion street, belonging to the town, was in such a deplorable condition that the Board deemed it inadvisable to repair, and would recommend the sale of the whole property.

A petition was received from residents of Montrose requesting the laying out of a street, connecting Lowell and Salem streets, at

or near Wharton Park Place. On account of the question of land damages, action was deferred, but we feel that the residents of that section are entitled to relief.

The Selectmen held a conference with the Water Commissioners in reference to moving their offices to a part of the old police court room, in the Town Hall, but they found it inadequate for their needs.

CONCLUSION

The Board of Selectmen have held, this year, forty-nine regular meetings and five specials.

There have been 3079 orders drawn on the Town Treasurer, aggregating \$235,432.21.

Eighty-three building permits have been granted representing an estimated value of \$135,815.

Careful attention and consideration have been given to all matters pertaining to the town's welfare.

Our thanks are extended to the several boards of the town for courtesies received, and to the citizens for their cooperation and support.

J. FRED PARKER, Chairman,
ARTHUR L. WILEY, Secretary,
CORNELIUS DONOVAN,
EDWARD E. LEE,
ANDREW G. ANDERSON.

Treasurer's Report.

TO THE CITIZENS OF WAKEFIELD :

FINAL STATEMENT

During the year 1910 the following payments will come due, which are to be included in the tax levy for that year by votes which the town has already passed, except water and light plant which are paid from income of plant.

Municipal light plant	\$6,000.00
Warren school house	2,000.00
Water	4,000.00
Greenwood school house	2,000.00
Junction school house	2,000.00
Sewerage	3,000.00
North school house	1,000.00
Metropolitan park	500.00
Fire station	1,000.00
High school repairs	1,000.00
Greenwood gas extension	1,000.00
Gas bench renewal	550.00
Insurance.	500.00
Street light plant extension	1,000.00
Municipal light plant, 2d	2,500.00
Appropriations since annual meeting	8,663.33
Total	<u>\$36,713.33</u>

There will also be required about \$31,325.00 to meet interest charges for ensuing year.

Respectfully submitted,

ALBERT W. FLINT,

Treasurer.

Wakefield, Jan. 7, 1910.

WILLIAM E. PITTOCK,

Secretary Board of Auditors.

Jan. 1, 1910.

* Overdrawn.

Auditors' Final Statement

The Board of Auditors herewith present to the town their report for the fiscal year ending January 1, 1910.

From February 1, 1909 to January 1, 1910, the Selectmen have drawn 3079 orders on the town treasury amounting to \$235,432 21.

We have examined the vouchers for these payments and have also verified the arithmetic of all bills coming before the Board of Selectmen for payment during the year.

We have verified the accounts of such departments as pay money into the treasury, and have examined the books of the collector of taxes, and of Albert W. Flint, treasurer of the library and reading room, and find them correct.

We have also examined the accounts of Mr. Flint as town treasurer, and find them correct, with the proper vouchers for all payments made by him, and that he has a cash balance of \$4,581.53 in the Wakefield National Bank.

We also certify that he has securities and deposits representing the various trust funds now in his charge.

A list of balances available for next year, either on account of unpaid bills or by past votes of the town, appears in the treasurer's report.

We have also examined the accounts of all departments and find them correct.

All payments made by this department are paid by orders drawn by the Selectmen, and vouchers for the same are on file at the Town Hall where they can be seen at any time.

In compliance with the vote of the town we have compiled the annual town report and submit the same.

Respectfully submitted,

WILLIAM O. ABBOTT,

WILLIAM J. STOUT,

WILLIAM E. PITTOCK,

Auditors.

Report of Library Trustees

The Board of Trustees herewith submits its annual report. The Board met for organization on March 3, 1909, reelecting officers and reappointing Mrs. Harriet A. Shepard, Librarian. At a meeting a week later, for the appointment of sub-committees the following self-explanatory letter was presented.

WAKEFIELD, MASS., MARCH 10, 1909.

To the Honorable Board of Trustees of the Beebe Town Library of Wakefield.

GENTLEMEN:—I herewith present my resignation as Librarian of the Beebe Town Library to take effect, by your favor, November 1, 1909. I have occupied my present position for many years and now feel that I would like a change and rest from the duties of Librarian.

I take this opportunity to thank all former Boards of Trustees and especially the members of the present Board for their uniform kindness and the many courtesies shown me during my term of office.

If in the future I can serve the interests of the Library in any way, it will be a pleasure to do so.

Very truly yours,

HARRIET A. SHEPARD.

Coming as a complete surprise to all members of the Board it was voted to lay the resignation on the table and on March 16, a sub-committee composed of Miss E. Florence Eaton and Mr. Edson W. White was appointed to see if Mrs. Shepard would not reconsider the resignation. They reported that her decision was final and that her reasons were those given in her letter. Her resignation was then accepted and the following resolutions were adopted:

WHEREAS, After a long and faithful service of twenty-four years, Mrs. Harriet A. Shepard, Librarian of the Beebe Town Library, desiring to be relieved of the increasing burden, has tendered to the Trustees her resignation, which has this night been accepted with reluctance ; therefore be it hereby

RESOLVED, That we, the Trustees of the Beebe Town Library, do hereby extend to Mrs. Shepard our sincere regret at her leaving and express to her our deep appreciation of the grand work she has always so cheerfully done for the institution of which she has so long been the head.

RESOLVED, That by Mrs. Shepard's withdrawal, the town loses one of its most popular and efficient officials, whose service in her chosen field, that of the broad educational interests of the masses, can never be estimated.

RESOLVED, That copies of these resolutions be sent to Mrs. Shepard and to the two local papers and that they be spread on the records of the Board."

It then became the duty of the Board to select a new librarian and on May 3rd a sub-committee was appointed which sought information and counsel among others, from the late chairman of the Library Commission, C. B. Tillinghast and the Director of the Library Department at Simmons College, Miss Mary E. Robbins.

On May 19th the Board unanimously elected Miss H. Gertrude Lee as Librarian. In making this selection the Board was not only influenced by the advice received, but also by the high grade of work Miss Lee had already done in developing the Greenwood Branch. Although in office but two months the Board feels that so far their decision has been for the welfare of the library as well as that of the town.

At the close of Mrs. Shepard's long term of service the Trustees, as individuals, gladly but quietly raised among a few of her many friends a purse of gold which was left at her house on the last day of her administration. Her letter of acknowledgment which follows suggests the kindly feelings which existed.

WAKEFIELD, NOV. 1, 1909.

RICHARD DUTTON, M. D., Chairman of the Board of Trustees of the Beebe Town Library of Wakefield.

Dear Dr. Dutton :—

Will you kindly express to the members of the Board of Trustees my sincere thanks for their efforts and share in the handsome purse and its contents of two hundred dollars in gold presented to me, October thirtieth, nineteen hundred and nine. The gift was beautiful in itself, but the good will that came with it is of priceless value to me and deeply appreciated.

Very sincerely yours,

HARRIET A. SHEPARD.

Because of the changes in the management of the Library the Trustees have felt it unwise during the past year to branch out in any special line but have rather "marked time" until the new Librarian could become acquainted with the details of the work and with the faces of the public.

An important step in creating a demand for the more serious literature in the Library is to be instituted at the beginning of the coming year. Patrons are to be allowed the usual general card and also a non fiction card on which they may obtain two or more books of non fiction and retain them a month, subject to certain regulations. Teachers' privileges are to be increased and it has also been voted to extend the privilege of the Library to non resident pupils in the High School.

At the Greenwood Branch it has been found necessary to open the Library an hour longer Saturday evenings. On the promotion of Miss Lee to the main Library, Mrs. Idabelle F. Studley was appointed attendant at the Greenwood Branch.

This fall the electric wiring at the main Library has been completely overhauled and by installing numerous convenient switches it is hoped to diminish the lighting bills. For the first time the library has its own meter.

The need of a new Library building is becoming more urgent

and more and more apparent to the entire public. Within the coming year or the year following the Board believes a fund should be started with the Treasurer of the town with this object in view. The Board is convinced that nearly everyone would be glad to contribute occasionally to this fund and that in a comparatively short time, a well-equipped Library building would be one of Wakefield's many attractions.

The expenses of the Library and Reading Room may be found in the Treasurer's report.

For the coming year the Board of Trustees recommends the appropriation of \$700 and the Dog Tax for 1909 (provided the amount available from the Dog Tax, which is not known at this writing, amount to at least \$840). The above was the appropriation the past year.

For the Reading Room the Board recommends the appropriation of \$275 which is an increase of \$25, due to the decided advance in magazine rates.

RICHARD DUTTON,

For the Trustees.

Report of Cemetery Commissioners

The Cemetery Commissioners herewith respectfully submit the following report for the year ending December 31, 1909 :

We recommend that the town give us Seventy-five dollars (\$75) to clean up and take care of the Old Cemetery the coming year.

We recommend that the town give us the income of the Forest Glade Cemetery the coming year, and One hundred and fifty dollars (\$150) to lay out Section A.

OLIVER WALTON,

HOYT B. PARKER,

E. S. OLIVER, Secretary,

Cemetery Commissioners.

Report of the Board of Health.

WAKEFIELD, MASS., January 1, 1910.

The Board of Health herewith submits its annual report. The number of contagious diseases reported to the Board the past year are as follows :

Typhoid fever	9
Measles	112
Scarlet fever	8
Diphtheria	18
Tuberculosis	7
Whooping cough	1
Chicken pox	1
Ferrecilla	2

NUISANCES ABATED AND OTHER DETAILS.

Dumping offal	16
Unsanitary cow barns ordered cleaned	9
Permission to board state children	1
Overflowing privy vaults	24
Offensive and defective water closets	11
Overflowing cesspools and catch basins	29
Leaking traps	2
Defective drains	8
Filthy yards ordered cleaned	5
Unsanitary cow yards	4
Wet cellars	2
Filthy hen coops	2
Swill wagons ordered repaired	3
Hog pens complained of and ordered cleaned	3
Dead animals disposed of	10

JOSEPH W. HEATH, M. D., Chairman.

AUGUSTUS D. JENKINS, Secretary.

JOHN M. CATE, Health Officer.

Report of the Inspector of Plumbing.

TO THE HONORABLE THE BOARD OF HEALTH :

Gentlemen :— The work in the Plumbing Department for the year ending Dec. 31, 1909, was as follows :

Applications filed	99
Applications left over 1908	4
Applications left over 1909	4
Inspections and calls made	324
Investigations	17
Number of fixtures set	409
Water closets set	103
Bath tubs set	69
Bowls set	73
Sinks set	80
Wash trays set	69
Butler sinks set	1
Alterations	14
Surface drains	1
Sewer connections	26
Cesspools	36

Several inspections have been made at the request of the Board and defects remedied.

Thanking the Secretary, the Board, my craft and the citizens at large for their kind co-operation, I am,

Respectfully,

GREENLEAF S. TUKEY, Plumbing Inspector.

Jan. 1st, 1910.

Report of the Inspector of Milk.

TO THE BOARD OF HEALTH:

Gentlemen:—I herewith present my report as Inspector of Milk for the year ending Dec. 31, 1909. During the year I have collected from stores, wagons, dairies, etc., one hundred and forty-five samples, and upon analysis they show the following result:

Solids, less fat	9.076
Butter fat	3.854

Total solids	12.930 plus
--------------	---	---	---	---	---	-------------

Two complaints have been made in court during the year. One was discharged on a technicality, the other was withdrawn.

Respectfully submitted,

H. A. SIMONDS, Inspector of Milk.

Jan. 1st, 1910.

Thirty-fifth Annual Report of the Fish Committee

The season of 1909 opened auspiciously May 30th and closed November 1st. A few reports of catches will be of interest:

AT ROSSON'S BOAT-HOUSE

Bass	34
Eels	2,420
Perch	8,750
Pickarel	3,670
Pout	458
White perch	4
Total	15,336

AT WILEY'S BOAT-HOUSE

Bass	53
Eels	1,758
Perch	9,224
Pickarel	7,482
Pout	642
White perch	18
Total	19,177
Total from Rosson's boat-house	15,336
Total from Wiley's boat-house	19,177
Grand total	34,513

NOTES

Fishing has been on the decrease this last season as you can see by this report. The Committee think that if all other fishermen

had made their reports the number of fish caught would have been larger than last year.

Mr. J. C. Hartshorne caught the largest pickerel of Wakefield, weighing 5 pounds. His report is as follows ;

Bass	1	weight $1\frac{1}{2}$ pounds.
Eels	3	weight 2 pounds.
Perch	15	{ two of which together weighed $1\frac{1}{2}$ pounds. { 12 in. and 14 in. long
Pickerel	85	weighing from 4 oz. to 5 pounds.
<hr/>		
Total	104	

He also caught in Crystal lake, fishing from the west shore, at various times :

Bass	4	weighing $2\frac{1}{2}$ to 3 pounds each.
Perch	4	quite large
Pickerel	6	weight $\frac{1}{2}$ pound to 2 pounds.
<hr/>		
Total,	14	

Report from Robbie Fitz, son of Judge Fitz, of Main Street :

Pickerel	31	weight 1 to $2\frac{1}{2}$ pounds.
Perch	40	weight 1 pound.
Eels	3	
<hr/>		
Total,	74	

Mr. William Arnold of Wakefield caught a bass weighing 5 pounds.

Largest fish a 5 pound pickerel, caught by Ben White of Reading. A 4 pound eel by Mr. Foster of Reading.

Mr. Samuel Parker caught about 56 pickerel weighing from $\frac{1}{2}$ to 2 pounds.

OUR GAME PRESERVES

Ducks scarce ; a few coot and black ducks have been shot.

Two geese have been shot—one by Frank Heath of Wakefield, the other by Abraham Levine of Wakefield.

Game in the woods more plenty ; partridges, quails, gray squirrels, pheasants and deer more plenty.

One deer was seen on Main street in front of Warren Poland's at 2 a. m.

Respectfully submitted,

SAMUEL PARKER,

Chairman.

WILL H. WILEY,

J. FRANK WHITING

REGULAR MEETINGS OF SCHOOL COMMITTEE.

Second and Fourth Fridays of each month at 8 p. m., at Com-
mittee Rooms, Flanley Block.

Report of the School Committee.

School problems demand consideration from the educational and from the economic standpoint. In Wakefield the latter is pressing more and more to the front. A study of the reports of the State Board of Education shows that our expenditures for schools per thousand of the valuation are increasing faster than the expenditures per pupil. For example: taking the last seven years available, the expense per pupil has increased not quite nine per cent., while the increase per thousand of the valuation is almost twenty-seven per cent. During these seven years no substantial change has been made in the curriculum, and the only definite change in the budget was the increase of salaries for teachers voted by the town, which accounts for about two-thirds of the increased cost per pupil. This much, then, seems evident, that the children of school age are increasing faster than the taxable property. Such a situation demands the most careful attention and the most rigid economy in the administration of school matters. It precludes the undertaking of many things which our neighbors in better financial conditions can do easily, and holds us pretty closely to those lines of education which have been tested and found good. But this same condition places increased responsibility also upon those directing the educational forces of our town. For children properly educated are the best asset of a community, and an increasing number of children with relatively decreasing property valuation is preferable to the opposite, but to the degree that children are an asset, so much the greater is the need of giving them the best possible education and equipment, for selfish reasons if for no other. It then becomes a problem not only whether the Town can afford to do certain things for education, but can it afford not to do them. There are certain changes pending in the public school system. The most heralded at present is the so called vocational or industrial training. Whether we can afford to establish it in our schools or can not

afford to pass it by is at present undecided. It is a matter that should be carefully considered, and decided after the experimental details have been worked out by those better able to stand the financial burden. It is a matter in which our Superintendent is deeply interested and of which he has made a careful study. We commend to your consideration his report on this matter. It seems that our school population is a legitimate field for this sort of training.

SCHOOL PROPERTY.

The usual amount of repairs have been made, and there is no large problem presenting itself except the heating and the plumbing in the Hamilton School. The furnaces are worn out and it is only by continual patching that they are usable. There is no modern plumbing. Two years ago this matter was brought up in town meeting and the question was raised of moving the building on account of adjacent conditions. This was referred to the Selectmen and School Committee jointly and they reported that it was not advisable to move the building, and that the heating and plumbing should be installed at the same time. This ought to be done this year.

MALE PRINCIPALS.

For several years the feeling has been gaining ground that as vacancies occurred men should be substituted for women as principals of the larger buildings. This has arisen not from any dissatisfaction with the present incumbents, but as the expression of a well defined and generally accepted statement of fact that men are more successful than women in dealing with adolescence, particularly boys. The first vacancy to occur was at Greenwood and a man has been engaged as principal of that building. This again raises the question of salary, for it is necessary to pay slightly more for a male than for a female principal. It is not a question of worth, or whether a woman should have as much pay as a man for the same work, but it is simply a question of demand and supply.

WRITING.

Several years ago vertical writing was adopted and has been taught consistently. This was generally adopted throughout the State at the time. Latterly there has been a general trend toward some medial slant system, and this has replaced the vertical in most cities and towns. Last year a careful study of the various systems in use was undertaken by the Superintendent. Specimens of writing from the various grades in towns where the leading systems are in use were obtained for inspection. Speed tests were made. After careful consideration the "Whitehouse System" was adopted and is now in use. We hope for a material improvement in appearance, legibility and speed of writing.

In November Miss Clara E. Emerson submitted her resignation. She had been a teacher in Wakefield since 1879 and has measured up to the full standard of teacher and friend to a generation. Our regret is that we are unable to give such teachers a pension when they retire.

We ask the co-operation of parents and all interested in the schools, and particularly invite parents to become acquainted with teachers and visit schools frequently.

APPROPRIATIONS.

We recommend appropriations as follows :

Salaries	\$49,727 80
Fuel	4,800 00
Contingent	2,800 00
Books and supplies	3,000 00
Evening School	800 00
	<hr/>
	\$61,127 80

and that the tuition to the estimated amount of \$2,000 be added to the appropriation.

The salary list and the detailed statement of Contingent expenses and of Books and Supplies appears in the Auditors' Report

on pages 127 to 135, also the expenditures for the evening school, the tuition account and list of unpaid bills.

Signed,

CHARLES E. MONTAGUE, M. D., Chairman,
MRS. IDA FARR MILLER, Secretary,
ASHTON H. THAYER, Treasurer,
MISS ELIZA M. GREENWOOD,
H. LEE M. PIKE,
A. H. BOARDMAN.

Report of the Superintendent of Schools

TO THE MEMBERS OF THE SCHOOL COMMITTEE :

I hereby submit my fifth annual report. In submitting this report there is likely to be a general similarity from year to year, and the public may feel that about the same things will be mentioned. However, this same public ought to welcome a report of school conditions, and recommendations which mean progress and efficiency for the school system. I am of the opinion that every community wants the best schools, and the most done for the pupils which will make them efficient men and women.

We might speak of school accommodations, since every year we are obliged to mention more or less crowded conditions. These crowded conditions remain and will continue until the taxpayers fully realize that inefficiency in school work is the inevitable result of overcrowded buildings. We are expected to turn out a certain product and it is right and proper that such results should be expected, but without proper equipment we can not be held responsible for results. With double grades in rooms where one grade ought to be; with 48 to 54 pupils in grades where there should be not more than 35 to 40; with over 30 pupils to a class in the High School where no greater number than 25 should be, and added to this a general shifting about in every conceivable manner to accommodate even these, it really follows that our

accommodations are inadequate. It seems to me that the average citizen does not fully realize the true conditions under which the school work is being done. The Town has been willing to grant quite liberal appropriations for school purposes, yet to bring these appropriations within what appears to the public a reasonable cost it is necessary every year to cut out many essentials that are needed.

EQUIPMENT FOR EFFICIENCY, OR VOCATIONAL TRAINING

There are other equipments than school accommodations for housing pupils. Efficiency, or the fullest development of each individual pupil is also a matter of deepest concern. It is true that education may be defined as the development of character and the training for good citizenship, but education means more than this. It may mean "preparation for complete living," "the organization of experiences that shall serve to modify and render more efficient man's adjustment to his environments;" or, "the preparation for life's worthy interests and activities through participation in them." It may mean any and all of these; in fact, all converge to the same end—the complete development of the individual that he may be able to participate in life's activities. From this point of view what shall we say as to our equipment? Have we the facilities for developing the individual that he may be not only a good citizen but also a useful citizen and one who is able to adjust himself to his environments and to take some part in life's activities?

I believe the time has come when every community should give to all boys and girls the opportunity, to a greater or less degree, of vocational training. It is a fact, that many boys and girls tired of the study of books leave school at the age of fourteen and apply for work in our factories and mercantile establishments and who are wholly unfit to assume responsibility of any kind, and know nothing of work. These factories and mercantile establishments say they do not want these same boys and girls, and they are therefore agreed in the opinion that these young people should remain in school a longer time—at any rate until they are sixteen years of age. The parents, however, feel the need of the wages

that may be earned by these boys and girls, but the money they may be able to earn, is very little. Employers say that, should these pupils remain in school until sixteen the development would insure a greater capacity for earning; when asked what instruction is of most value, answer,—vocational instruction. This suggestion is not made on the basis of money getting, but rather on the basis of efficiency. The boy at fourteen is undeveloped mentally and physically, yet many of them have lost interest in books and in school generally. They have no aim; they drift first into one thing and then into another and after two or three years, many have lost all desire for steady employment. This is evidence, then, that at the age of fourteen provision should be made for teaching vocations. It gives an added interest to school life. It places before the pupil the possibility of getting something which will be of real value to him.

At the age of fourteen our school curriculum may well be divergent. There are three lines of development which may be followed. First,—the class of pupils who are naturally inclined to pursue the study of literature, mathematics, and the classics, which carries them forward to a preparation for the professions; a second class is inclined toward the study of commercial branches which leads into commercial pursuits; a third class, by no means weaker in mental ability than the first class nor any the less susceptible to culture, tends towards the arts and sciences, vocations, trades. We should give equal opportunity to the one class as to the other. Equip the schools with facilities for work with machines; learn weaving, chair making, metal working, making of shoes, rattan products; carpentry, dressmaking, millinery, cooking, sewing, mechanical and free hand drawing. At present we have courses in our High School leading to the classics and the commercial pursuits. It is evident to one who has observed the work of different pupils in the High School, that many who have not seemed interested and who leave, might have been kept in school had there been an opportunity to devote a part of the time to vocational training. This vocational training pursued in the schools is not, as thought by some, the only work to be done by these pupils. A portion of the time is to be devoted to academic training in the following subjects: English, Mathematics, History,

Physiology, Civics, Spelling, Geography, Physics, Chemistry, and possibly a modern language.

Vocational training is not a new thing. The newness about it is the fact that it is to be applied in a different manner than heretofore. The State has come to see that her existence cannot depend upon a few. We have not questioned the advisability of training lawyers, physicians, ministers—all vocational, and the State itself has assumed to educate and train teachers which is vocational. Self protection and the possibility of holding her position in the commercial world has led the State also to recommend and to encourage by statute, the establishment of vocational schools. It would be unwise for any community to educate its boys and girls or any particular number of them for mere industrial pursuits. This would create caste, the thing which American citizens wish of all others to avoid. No system of education can afford to teach for vocational pursuits alone; neither can any system afford to give pure intellectual training alone. It is the combination of the two in proportion to make for the greatest efficiency, that every pupil will have opportunity to develop his latent powers, and at the same time to give culture, develop character and train for citizenship.

The Massachusetts Commissioner of Education, Dr. Snedden, says in a recent article in the *Educational Review*. "It is well known, for example, that large numbers of boys, from twelve to fifteen years of age take little interest in their school studies, while their vocational interests are strong. The number of such children who now leave school at the earliest possible moment is disconcertingly large. But under present conditions their liberal education abruptly ceases when they withdraw from school, but too frequently the character of the industrial pursuits which they enter is such, owing to long hours, highly specialized labor, and unfavorable surroundings, as to deprive them of incentives to preserve and develop the little cultural training they have received. But if the public schools could provide for this class in the later years of their school work, opportunities for vocational experience and training while still reserving a portion of time for the most vital cultural and civic teaching that could be derived, there can be hardly any doubt but that large numbers of such youth

would make a far more effectual adjustment to the conditions of modern life than is now the case."

Dean Russell of the Teachers' College, Columbia University, N. Y., says in a recent article. "There is a concession of opinion that specialization should not begin before the twelfth or thirteenth year of age. Some would defer it two years or more. With six years of good fundamental training, the child is ready at thirteen or fourteen to look forward to his life work. For those who go to college it is time to begin specialization along academic lines; for those who are to become artisans or tradesmen, as soon as possible, it is time to begin vocational training. Specialization at the age of fourteen years should begin gradually, and in the vocational lines it should be essentially preparatory to the later years of trade school or apprentice training.

My point is, that when the boy or girl hears the call of vocational life, specialization should begin and gradually narrow into technical training for specific occupations."

It might be well to add some examples by way of illustration as to what is being done in different places. It has been my privilege to investigate the subject quite thoroughly during the past year or more, and some of the schools already established, both private and public, may be of interest. In our own state the most recent established are those at Lawrence, Beverly, Fitchburg, New Bedford, Northampton and Montague.

At Lawrence the school is under the direction of the city and the state, and is supported by the city, the state, and by private funds. The school department has no control or direction, although the principal consults freely and often with the Superintendent of Schools with respect to the management and the work. The work is confined largely to the study of manufactured articles in the textiles, tracing the raw material through the various machines performing and each part until the finished product is produced. In addition to this there is a thorough course in electricity and its application. For the girls there are courses in sewing and cooking. There is no particular trade taught to any of the pupils, but the entire process and the handling of the machines is taught to all alike. These pupils are taken only after they have reached fourteen years of age and have finished a certain amount

of work in the public schools. Part of the time is devoted to the machine while the remainder is devoted to academic subjects—all pertaining to industrial work.

At Beverly the arrangement has been made with the United Shoe Machinery Company whereby boys, having become fourteen years of age, and having finished a portion of the Grammar School course, are given opportunity to work in the shop for remuneration during one week, while the next week is devoted to academic subjects in the High School. These subjects—English, Mathematics, History, Physics, etc., are taken, each specifically applicable to industrial and commercial pursuits. The same person teaching in the school instructs the same set of boys at the shop, thus giving to them the equality of supervision in both places. Here the School Department has supervision of the work, cooperating with the factory in joint responsibility.

At Fitchburg, the boys are divided into relays of ten, one week being devoted entirely to academic instruction in the High School, the next week giving the whole time to shop work in one of the large machine shops, where they receive a nominal wage. In both Beverly and Fitchburg the attempt is not to teach a trade but to make efficient apprentices who will soon become able to take charge of a machine and earn a living wage. In Lawrence the object is to fit boys to enter the factories, begin at the bottom and, because of the previous training received, will more rapidly advance and become efficient all round workmen. From these ranks will be developed intelligent workmen who can turn their hands to any part of the business, and all things being equal become foremen and superintendents. The plan at New Bedford is similar to that at Lawrence, except that it is under the School Department. Both are purely vocational.

At Montague the work is purely agricultural, and of High School grade, thus developing intelligent and thoroughly equipped and scientific agriculturalists.

At Gloversville, N. Y., there has been organized, in connection with the public schools, a plan for the making of gloves, an industry in which that town is particularly interested. The plan is not to teach any particular part of glove making, but to give a knowledge of the whole process. It is more an apprentice

school, and fits the pupils that in a short time they may become efficient workmen.

Possibly the one place that has attracted as much attention as any is Columbus, Ga. Here in connection with the public school under the Board of Education has been established a department of vocational training. There is an advisory board consisting of five members including superintendents or managers of various industries, men of education and technical training. This Board holds meetings once a month, examines the work and reports to the Board of Education after each meeting, thereby keeping the industrial interests in touch with the school at all times. The school is open to boys and girls over fourteen possessing sound bodies and school education equivalent to the first five or six grades. The vocations taught are practical carpentry, pattern making, lathe work, forging and machine work; in the textiles, carding, spinning, weaving, dyeing and designing. In this department the girls receive the same instruction as the boys. In the business course the girls receive instruction in stenography, typewriting, bookkeeping and cabinet filing. All girls are required to take cooking, care of the house, sanitation and decorative arts. All the courses are three years in length; the number of hours, including shop work, is from forty-eight to fifty per week. The school is open from nine to four except Saturday when it closes at noon.

I have referred to the above men and places and quoted from addresses to show how intense is the interest in this vital question of giving equal opportunity to all classes. I trust the interest in this community will cause everyone to ask the questions, What are we doing to help the average man better to do his life work and better to realize his real inheritance as an American citizen? Is it too costly to prepare the boys and girls for an existence that will be richer in itself because of their ability sooner to find their places in the activities of life? I hope this matter will soon be taken up by the Town. There is no time like the present.

SALARIES

In the matter of salaries for teachers no doubt the amount asked for as a whole seems to the public a large sum. Taking it

as a matter of remuneration for the individual, however, it has far less significance. The fact has been published recently that living expenses have advanced about 37 per cent. This being the case, a salary of \$400 to \$600 which the town pays can scarcely be called a sufficient remuneration for an individual whose necessary expenses are high even when living expenses are normal. It must be remembered that this salary is paid for ten months only and the teacher is under expense for twelve months of the year. Estimate board and room at \$6 per week, the average for today, and it amounts to, at least, \$250 for ten months: wearing apparel costs at least \$150: books, stationery, and other necessary expenses to keep abreast with her profession will cost not less than \$50: traveling expenses and means of entertainment, other incidentals as church expenses and the like will certainly cost \$50: counting no other expenses, not even for doctor's bills, and we have \$500. To one receiving even \$600 there is little left for the summer vacation of two months. Then, too, each individual ought to be able to put aside something for the immediate future as well as for the remote future unless a system of pensions is established. The above is cited simply to show that our teachers are not overpaid although the lump sum seems large. It might be questioned whether they are not underpaid?

As one has said: "We expect that our teachers will conform to the increased standards of living, and besides their professional duties they shall take their share of other forms of social services, that they shall provide for their own professional growth, attend lectures, read current literature, keep up with the times, take advantage of opportunities offered by various summer schools and college courses. We are not willing that they shall cheapen their services in any way, nor that they shall in any way shun or shirk their obligations to church or other forms of community life. Of what other form of labor so poorly paid, are such demands required?" The above is given with a full appreciation of the recent advance required by the town which was highly commendable, yet it is fair that the Town should fully appreciate how much is actually received by the individual teacher and how much is really demanded in return.

BACKWARD CHILDREN.

I would again call the attention of the Committee to the advisability of establishing a room in the town for the instruction of backward pupils,—call it a “mixed room” if you please,—but a room to which may be sent those children who have been two or three years in the same grade. Place here a teacher who has force, sympathy, skill and good common sense, and transfer certain pupils to this room from different grades and give them a chance for that special individual instruction they so much need. In this room should be bench work and sewing as well as other branches, especially arithmetic, reading, English, spelling, geography, and hygiene. Some of these pupils may be able to go ahead and be placed again with the grade and finish the grammar-school course, others will be able to get enough to make them fairly intelligent workmen. At any rate the special instruction received will be much more than they can possibly receive if they remain with pupils who are much younger. To do this would seem to some an unnecessary expense, and a waste; but a second thought will certainly reveal the fact that it is economy. These same pupils, otherwise, will soon drop out of school because they have reached the age limit, and they will have gained little or nothing under the present condition of things because their need is individual and special. They are unable to do anything with their hands and are not sufficiently capable from an intellectual standpoint to originate, investigate, or to rely upon themselves to assume any specific responsibility.

They are, therefore, unable to do anything but the simplest kind of work and the community is obliged in some way to see that they are employed in unskilled labor. If given a chance to develop even a slight degree of skill with their hands with what intellectual training they might obtain from special instruction, they could be made self-supporting. This is economy in the end.

AN EFFICIENT SCHOOL SYSTEM

An efficient school system for any community means as much as the community demands. There is no community that willingly places a low standard for its schools. Everywhere the highest

educational standards are sought, and the product demanded must be that of the greatest practical efficiency.

Business men and others sometimes complain of the graduates of our schools because of their inability to perform, for instance, the simplest problems in interest, fractions or the like ; to write a concise letter in good form, or to grasp simple situations and to assume responsibility. There is no doubt but some of these complaints are well grounded, but is a system to be judged and passed upon as inefficient because of a failure to perform some specific operation in arithmetic given off hand and under irregular conditions.

True, the average pupil coming from our schools should be thoroughly and specifically acquainted with the simple forms of arithmetic and English, but are there not also other things necessary by which a pupil may be judged? It seems to me that the development of the pupil in character, health, judgment, responsibility, citizenship, participation in life's activities, adjustment to environment, have their part in an efficient system.

I believe, however, in some respects we are attempting too much. We hold to traditions tenaciously, although it is demonstrated over and over again that they are not educational or even practical in the development of an individual. We still believe that the same things in mathematics, geography, history and the ancient languages should be taught as they were taught forty years ago. We feel that it is impossible to omit certain portions of arithmetic and that every pupil must pursue the subjects of algebra and geometry ; that to omit the numerous map questions in the old geography is a sin ; that we must pursue the subjects of Latin and Greek in the same old manner, learning all rules of syntax, form, etc., as well as reading a large number of books of various authors.

The efficient system would give greater attention to the real development of the child. I believe we lose sight of the child, and are too likely to think only of the course of study, the amount of work in the different subjects to be covered during the year.

When we are able to throw aside the definite limits of the course of study and take into consideration what the child can do and what he OUGHT to do ; when we as teachers are not bound by

the covers of a book, or what we are to do in any one year; when we can take the class, the individual, and develop them body and mind, make them capable of doing something, and doing that something with hand and brain according to the natural development of each individual with reference to his capabilities, then we shall have what may rightly be called an efficient system.

To do this means a greater study of conditions and a more practical study of "teacher psychology," I call it "teacher psychology" for want of a better name, because it means a psychology which the average teacher is able to understand, to interpret in terms of every day class work. She must be able to look into things and to realize that practical psychology means an application of the simple laws of the mind which are every day before her as a teacher.

These ordinary things seem simple to her, and yet she feels that she must reach after something large and scientific; still a careful study of real child psychology will prove that a logical law exists which when followed will bring results of which she has not yet even dreamed. The teacher is the school—yet teaching must be done according to certain laws, which laws the teacher must know if she would make her teaching effective. This is an efficient system.

MUSIC

The music under Mr. Wilson, the supervisor, is moving as usual. In his report he states somewhat in detail the kind of work done in each year and comments upon the results as obtained in the different grades. With some grades he is securing the results desired while in others he finds the music considerably below this standard; however, as a whole the work is quite satisfactory to him.

During the greater part of last year and thus far this year our school programs have been arranged that a short period—regular—is given to music each day, and not a long period twice or three times a week as heretofore. At the opening of the morning session the class sings one or two songs; at the regular music period of the day, the effort is made to teach some definite thing and to drill on that already learned. This period, in fact, is devoted to

real, definite, spirited music teaching; as much effort is put into it and required as is given to a recitation in arithmetic.

By this means it is felt the music will receive what is due the subject, and places it upon a basis with every other. It is my firm belief that unless we place music, drawing, manual training and sewing upon a basis that requires real, definite work on the part of teacher and pupil, we shall not get from these subjects the results that the amount of money expended for their maintenance demands.

Mr. Wilson suggests that more small organs be bought and placed in the different rooms. He also suggests that a book containing patriotic songs might be purchased and be of much profit to the eighth and ninth grades. These suggestions are worth considering.

The High School music is indeed a large problem to handle. There is very little that can be done in two periods other than chorus singing; this is up to the standard of former years and he reports that much enthusiasm exists.

I feel that the time is at hand when music in the High School should receive more attention, and that classes for special instruction—vocal and instrumental—could be formed with profit to the pupils and to the school; that credit for work done be given just the same as in other subjects. Colleges like Harvard recognize music for an entrance subject, and credit is given the same as for any other subject. This is a long step in advance, and it is well to recognize this in our High Schools.

DRAWING

The drawing in our schools is a subject which sometimes is the least appreciated of any of the subjects. To many, drawing simply means the ability to draw straight or curved lines with the pencil, that to draw a simple figure on a flat surface according to some model is all that drawing means and all that ought to be taught.

Nature drawing with the brush or colored crayon, design work, fundamental principles of color with the combinations and harmony, do not appeal to many. It is forgotten that all these are

the basis of both freehand and mechanical drawing. Nature, color, design, are everywhere present in all drawing. in all commercial pursuits, in all house decoration, in all dress, in every artistic piece of furniture, house furnishings, beautifying of streets, lawns, erection of buildings—everywhere. To appreciate these and to lay the foundation of all commercial pursuits is the real value of the subject as taught in the schools. We think the work under our supervisor is accomplishing all this.

The supervisor has given more of her time to the High School during the present school year than in the past, because of the large number electing the subject. This made it necessary to so arrange her time for the first four grades of the elementary schools to once in four weeks instead of once in two weeks as before. The plan, she reports, has been successful, in that it has placed more responsibility upon the teacher who has proven herself equal to the task.

It seems to me that in the near future if our High School continues to increase, the whole time of a teacher will be necessary in this department. The subject of drawing will become more effectual, and better work and more interest the more we place the responsibility upon the regular teacher and give the supervisor more opportunity to supervise. At present the teacher feels too little responsibility inasmuch as she expects the supervisor to do most of the teaching.

The supervisor has very little opportunity for thought and effective planning if her whole time is devoted—each hour—to teaching. Giving of model lessons, directing, observing the teacher give the lesson, followed by conferences would be much more advantageous than our present plan.

Ex-President Elliot said in a recent address—"Drawing is as valuable and important a mode of expressing thoughts and making exact records as language itself."

MANUAL TRAINING AND SEWING

In regard to Manual Training and Sewing, the kind of work done is about as was reported last year. This part of the school curriculum has been dwelt upon at length in the first part of my

report advocating a more extended course and making it vocational. There is a necessity, however, that the foundation be laid somewhat as we are now doing.

The chief aim, to quote from the report of the Manual Training teacher, "is to develop the brain by the most natural method, through the activity of the body." One of the essential things to obtain this development as he says is "interest" and to acquire this—"is to insist upon a high standard of workmanship by means of which the boy has surprised himself." Another essential is "INDEPENDENCE," the ability to solve a new problem alone. Thus the boy has been trained in habits of exactness, interest, self-activity, independence and self-reliance, and gained a love and respect for honest work."

The number of boys instructed each week is 275, and the number of classes fifteen. Each class is given one and one-half hours per week. The models made, the character of the work, and the interest manifested are worthy of commendation. Each boy is taught and is able by the end of the first year to draw, saw out of rough material and make with little help any simple model. The foundation is thus laid for any vocational work which may seem proper to inaugurate.

The sewing has been changed somewhat, in that a less amount of work is required; but to compensate for this, greater efficiency is demanded. Not only the development of brain power, through the activity of the body, but also in every task the practical is uppermost. We are not trying, as above stated, to see how many models may be made, but to see how well each may be done. Care is taken to see that each girl knows what she is doing and that she does that thing as it ought to be done. Plain sewing, different stitches, darning, patching, working button-holes, tucking, gathering, cutting, fitting and designing are carried forward. Added to this the girls are taught the value of different materials, the selection as to harmony of colors and shades, and to determine the pattern and style suited to different types of individuals. All this, it seems to me, is eminently practical. Would that we might, as suggested in another place, establish what would well follow this; real dressmaking, millinery, cooking, home making, home decoration, and real genuine house keeping.

ATTENDANCE

While the registration in the schools is large, the daily attendance is not all that it might be. From the report of the attendance officer it is found that for the year ending December 31, 1909, there were 137 cases investigated. Of these 30 were cases of truancy, 13 sickness, and 94 were cases of negligence of the parents and a general disregard for the law. Two cases of truancy were carried into court. It would seem to me that 30 cases of truancy and 94 cases of negligence are too many for a system the size of ours. Too many parents, especially in certain quarters, have too little regard for school requirements and do not fully realize what the law demands. The law recognizes only sickness as a valid excuse for absence, and it would be wise to have copies of the law printed and distributed in different localities. Parents' associations and meetings, as we are endeavoring to hold at present, it is hoped will do much to help us in this particular, especially in the lower grades. Enlarging the scope of our school curriculum to include vocational work, will help the upper grades and High School. While the above facts of attendance are not what we would like to have them, still these are an improvement over one year ago. The statistics reported for the last two years for absence and tardiness, are as follows :

No. of half days absence, 1909	33,539	1908,	39,643
No. of cases of tardiness, 1909	3,363	1908,	4,259

It will be noticed that there is a falling off ; but we want to do better and we want the hearty cooperation of all.

Attention is called to the report of the Principal of the High School which is both interesting and instructive.

Taking the opportunity to express my appreciation of the hearty support and good-will of the teachers, the generous support of the public, and the many encouraging words and appreciative efforts of the School Committee, I am,

Very truly yours,

J. H. CARFREY,

Superintendent of Schools.

High School Principal's Report

TO THE SUPERINTENDENT OF SCHOOLS :

Dear Sir :—Herewith I submit my fifteenth annual report of the High School and the seventeenth in the series of High School Principals' reports.

INDUSTRIAL TRAINING, PRACTICAL ARTS, ETC.

No question occupies a larger place in the mind of the public at the present time than that of industrial or vocational training. The movement, however, toward a closer articulation between school and life is in hardly more than an experimental stage. No unanimity of opinion as to the best method of attack is apparent. Experiments are being tried in various parts of the country. Schools of various types have been established, some under public control and others from private initiative. Just what will eventually be the relation of schools for industrial training to the general educational system does not yet appear. That they will bear some intimate relation is not to be doubted. The Committee of the National Society for the Promotion of Industrial Education, appointed to consider the relation of industrial education to the general educational system of the country in its report says in part as follows :

“The committee believes that all types of schools for industrial education are to be welcomed as experiments in the general problem. Success in industrial training does not depend upon the adoption of one type of school. A measure of success is likely to be achieved by all of these efforts and in the judgment of your committee it is wise for those who have to do with industrial education to welcome during the next decade of experimentation all these forms of industrial education. Ultimately all these efforts will, by the force of educational gravitation, relate themselves to the public school system of the country, partly by the adaptation of the public system itself, partly by the adaptation of these industrial schools. The committee feels, therefore that

any of these efforts, undertaken in an intelligent, sympathetic and proper spirit is to be welcomed as a new contribution to the general problem of industrial education in the United States."

In view of the above considerations, it appears to me that anything in the way of information upon the subject would not be out of place. Below will be found a brief description of a few of the latest and apparently most successful attempts to provide rational industrial education. For a portion of the data, I am indebted to the last report of the Commissioner of Education of the United States.

PUBLIC SCHOOL, No. 100. NEW YORK CITY

Last September this school opened with twenty-five men teachers, chosen, among other qualifications, on account of their mechanical skill. The "New York Tribune" of Aug. 30, said in the course of an extended article upon the subject:

"Various equipments of the best quality and design are rapidly being installed for the use of those boys who enter the course. In wood, the pupils will learn carpentry, joinery, wood-turning, pattern-making and the manipulation of milling machinery. In metal, they will have forge work, sheet metal work and a complete line of machine-shop work.

"There will be courses in plumbing, printing, architectural and mechanical drafting, including the making of plans and the drawing up of specifications and blue prints.

The non-vocational subjects that will occupy LESS THAN ONE-FOURTH OF THE STUDENT'S TIME will include trade mathematics, elementary bookkeeping, industrial history, civics, industrial and commercial geography and English. 'Every topic that is introduced,' says the principal of the school, 'will be tested in terms of its efficiency as a correlative of the vocational subjects.' The hours will be from 9 a. m. to 5 p. m. The atmosphere of the school will be the atmosphere of the shops."

The boys are to be led to feel that they are working in an environment closely approximating that of a well conducted shop.

This will mean a radical breaking away from ordinary school methods and conditions.

The instruction will be mainly individual; mass work will have no place in this new venture and no pupil will be compelled to mark time because of the inability of his fellows to keep pace with him. The principal describes the difference between the aim of the manual training schools and the new vocational school as follows:

“The manual training idea is not to give a boy mastery of tools; it is simply an added appeal in the line of general culture. The vocational teaching idea aims specifically to give mastery of tools.”

Speaking of the object of the school, Supt. Maxwell says: “The Board of Education does not intend to turn out ‘half-baked’ journeymen to compete with union labor. What it proposes is to fit boys and girls more completely than they are fitted at present to COMMENCE learning any trade requiring skill of hand.”

The principal also says: “I don’t plan to turn out boys who are going to take journeymen jobs.”

INDUSTRIAL SCHOOL AT SPRINGFIELD, MASS.

This school opened September, 1909. The vocational work will be begun in two centers and preparations are being made for 60 boys, 30 in each place. Boys from 14 years of age and upward, those who have completed the work of the seventh and eighth grades and who but for the institution of the vocational school would drop their education for good, will attend the school.

All of the work done at the school will be book work, these sessions coming from 9 to 12 o’clock in the morning. In the afternoon, the same classes will take their shop work from 2 to 5 o’clock. There will be shop work also Saturday mornings. The book work will center largely about the shops, having to do with the economic and industrial conditions of the country, descriptions of the machinery used, etc. The school will not fit boys for finished trade workmen, as they will have to serve apprenticeships in factories after attending the school.

THE MILWAUKEE SCHOOL OF TRADES

A part of the public school system. The school is in operation fifty-two weeks in the year and forty-four hours a week. Day courses are given in pattern making, machinists' and tool making trade, and carpentry and woodworking, and plumbing and gas fitting. The instruction in each trade comes under five heads: (1) shop practice and trade lectures; (2) mechanical and free hand working drawing; (3) workshop mathematics; (4) lectures and illustrated talks on subjects pertaining to the trade; (5) shop inspection trips. About three-fourths of the students' time is devoted to the actual shop practice. Each boy is a class by himself and may finish his course in less than the prescribed time.

The school does not claim to turn out journeymen mechanics. Its aim is to instruct its students thoroughly, in as short a time as possible, in all the fundamental principles and in the practice of the trade in question so that they may on graduation possess ability and confidence and be of more immediate practical value to their employers and receive a fair remuneration at once.

THE CLEVELAND TECHNICAL HIGH SCHOOL

This school is a public charge and is intended to be a finishing school whose graduates will leave school prepared to enter a vocation. It offers a course of study for boys and a course for girls. The school year is divided into four quarters of twelve weeks each, and may be completed in either three or four years at the option of the pupils. The department for girls has domestic science and domestic and industrial art for its basis. The school numbers 600 pupils. Of this number 500 are pupils who would not have gone to High School, had not this school been opened to them.

GIRLS' HIGH SCHOOL OF PRACTICAL ARTS, BOSTON

This school numbers 300 pupils. Its purpose is to give full opportunity for the development of that type of student whose talents lie more in lines of doing and expressing than in lines of acquisition.

The course of study is presented under two general heads,

academic and industrial. No electives are offered in the academic work except a choice of French or German, but pupils are allowed to choose different lines of vocational training.

The Industrial Department offers at present three courses; Dressmaking, Millinery, Household Science. The course in Household Science is offered to girls who desire to make an intelligent study of the home from the standpoints of sanitation, furnishing, decoration and care. The Dressmaking and Millinery courses aim to give ideals, taste and skill which shall have money earning value for the possessor.

The Art Department of this school has been highly developed. Its purpose is the cultivation of taste through a study of the principles of beauty and their application to the problems of dress and the home.

Costume design and its many phases with special reference to the individual, and household decoration and furnishing are important features of the course.

PETERSHAM (MASS.) AGRICULTURAL HIGH SCHOOL

This school is a new departure in secondary agricultural education in New England. Four courses are offered, a college preparatory course: a course in agriculture: a course in manual training, and a course in domestic science.

The course in agriculture includes instruction in

1. The wild flowers, birds, animals, and their habits.
2. How to care for domestic animals, poultry, bees.
3. The noxious representatives of the insect world, harmful fungi and the methods of destroying them.
4. How to manage the dairy and culinary departments.
5. The rocks, their chemical composition, and the process by which the earth has been changed from a molten mass to a fit home for man.
6. The kinds of soil, their physical and chemical properties, the crops best suited to each, and the proper methods of improving, cultivating and fertilizing them.
7. How to raise the best hay crop and the culture of each of ten standard crops grown on a farm.

8. How to raise, care for, and market both the large and small fruits.

9. How to conduct a market garden business both in the open and under glass.

10. The principles of forestry and landscape gardening.

11. How to use the saw, plane, chisel and keep tools in good order.

12. The cost, description and practicability of the most modern machinery for each kind of farm work.

13. The principles of rural architecture, road making and village improvement.

The instruction in agriculture is based on the sciences and correlated with them where it is practicable. The pupils' time is not consumed in manual labor. His compulsory part in field and garden work is intended merely to supplement the discussions and experiments of the class room. While crops and fruit are not grown for the pecuniary return, they are in all cases managed so that the pupil may draw correct conclusions as to the practicability of those pursuits from a business standpoint.

*Estimated.

The dark faced figures of the table indicate the membership of the present senior class throughout the course.

MISCELLANEOUS

Graduates of the school are to be found in the following colleges and higher institutions :—Harvard University, Yale University, Massachusetts Institute of Technology, Worcester Polytechnic Institute, Tufts College, Dartmouth College, Brown University, Smith College, Mount Holyoke College, Cornell University, University of Maine, Boston University, Boston College, Massachusetts Agricultural College, Wellesley College, Radcliffe College, U. S. Naval Academy, University of Rochester, Sargent School of Gymnastics, Normal Art School, Framingham Normal School, Salem Normal School, University of Illinois, Norwich University.

The following graduates of the school are continuing their studies as follows :—

Lucia Bailey, Wellesley College.
 Robert D. Bonney, Massachusetts Institute of Technology.
 Alice F. Griffiths, Smith College.
 Ernest W. Jackson, Harvard University.
 Ruth Preston, Boston University.
 Ruth Shepard, Tufts College.
 Jennie E. Taggart, Sargent School of Gymnastics.
 Harry F. Ambrose, University of Illinois.
 Wm. W. Anthony, Tufts Dental School.
 Wm. D. Donovan, Tufts Dental School.
 David P. Guillow, Norwich University.
 F. Manning Hartshorne, Yale University.
 Arthur E. Howlett, Massachusetts Institute of Technology.
 Maude W. Nelson, Salem Normal School.
 Hazel M. Chamberlain, Boston University.
 Allen F. Sederquest, University of Maine.

Respectfully submitted,

CHARLES H. HOWE.

GRADUATION EXERCISES, WAKFIELD HIGH SCHOOL,
CLASS OF 1909

Town Hall, Thursday, June 24, 8 o'clock.

PROGRAMME

Overture

Chorus—When the Roses Bloom Again Adams
(Arr. by G. F. Wilson)

Declamation—Education and the Self-made Man Grover Cleveland
HUGH McCUSH KELSO

Essay (Salutatory rank)—“Look here, upon this
picture, and on this”
RUTH PRESTON

Chorus—Song of the Armorer Nevins

Recitation—The Ride for Life Ralph Connor
BESSIE MARTHA O'CONNELL

Semi-Chorus—Over the Water Hosmer
The Hawthorn Tree Wooler

Oration—The Call of the East
ERNEST WEBSTER JACKSON

Recitation (Honor rank)—From Rebecca of Sunnybrook Farm Wigg
MAUDE WELLINGTON NELSON

Chorus—The Gallant Troubadour Watson

Recitation—The Soul of the Violin Merrill
RUBY MELISSA BUTLER

Chorus—Massa Dear Johnson

Oration (Valedictory rank)—The Promised Land
ROBERT IRVING MAYER

Presentation of Diplomas—Dr. Charles E. Montague
Chairman School Committee

Class Song

Benediction—Rev. Warren S. Perkins, D.D.

Motto :—Honor, Not Honors

CLASS SONG

MAUDE WELLINGTON NELSON

“Now the time has come of parting !”

This to us the wee bird sings,
Soaring forth from leafy bowers,
Forth to try our youthful wings ;
Gently reared and kindly guarded
From the winter's chilling blight ;
But the crowded nest is whisp'ring,
“It is time for taking flight.”

Dim before us lies the future,
Filled with perils, joys, and pain ;
Some may climb to heights of glory,
Others tread the beaten plain.
Restless wait we for the morrow,
Anxious our frail strength to try,
Stretching wide our untried pinions,
Forth into the world we fly.

Here we nobly struggle onward
In the broad wide fields of chance ;
To the plough our weak hand turneth
And we scorn the backward glance.
Firm our hearts, our eyes uplifting
To the golden prize above,
With true purpose, never drifting,
Trusting in the God of Love.

GRADUATES

CLASSICAL

Lucia Bailey	Ernest Webster Jackson
Margaret Grayson Bartley	Mary Agnes Mullen
Robert Daland Bonney	Ruth Preston
Perie Marion Brett	Ruth Shepard

ANNUAL REPORT

OF THE

Municipal Light Board

AND MANAGER

OF THE

TOWN OF WAKEFIELD

Report of the Municipal Light Board.

The year just past has been, at the Light Plant, one largely of reconstruction, reorganization and repair. So fully were the conditions at the Plant set forth in last year's Town Meeting that it remains for your Board to report only what has been done to improve the then existing conditions.

ELECTRICAL DEPARTMENT.

Installation of the new switchboard was completed and the final payment of \$800 made thereon. To carry out the plan for unifying the station, a second hand 90 K.W. alternating current generator was purchased and installed to replace the old direct current machine, together with a switchboard panel with instruments for controlling the machines, the cost being \$700. The 1000-volt alternating generator was rewound, making it a 2200-volt machine, which is the standard voltage of the station, the expense of this work being \$93.50. The small alternating generator burned out its armature during the year, repair of which occasioned an expense of about \$85.

A new constant current transformer was purchased and installed at an expense of \$510, the engine and dynamo room renovated and painted, besides many minor changes and repairs. To make these changes and still keep the town supplied with current is highly creditable to the head of the electrical department, William E. Weare, and the engineer, James A. Sederquest.

The old contract under which the Town purchased its day cur-

rent of a private corporation having expired, your Board concluded a two-year agreement with the town of Reading through its Light Board at a better rate and on better terms than under the former contract, the annual rate for Non-Peak current being, for the first 35,000 Kilowatt hours, three cents, and all further current, two cents. Peak current, unlimited in amount, three cents.

RATES FOR POWER.

Power rates will not be given on motors smaller than 1 horsepower.

400 Kilowatt hours or less	.10	Gross	.07	net
Over 400 and under 500 K. W. H.	.09	"	.06	"
Over 500 and under 750 K. W. H.	.08	"	.05	"
Over 750 and under 1000 K. W. H.	.07	"	.04	"
Over 1000 and under 1500 K. W. H.	.06½	"	.03½	"
1500 and over	.06	"	.03	"

A minimum charge based on the rated Horsepower of motors will be made of 75c. per H.P. on from 1 to 3 H.P. inclusive, and 50c. per H.P. on all larger motors.

GAS DEPARTMENT.

A new gas holder to contain 100,000 cubic feet of gas was erected on the site of the old holder house, the building and ring of which had to be removed for the purpose. The foundation for the new holder was put in by the management of the Plant and is a thoroughly satisfactory job. The steel work was furnished and erected by Davis & Farnum, and does that firm full credit. The entire expense of the holder, foundations and all preliminary work, was \$12,932.39. In connection with the new holder a street governor was required, the cost of which, with all connecting piping, was \$608.90.

A new station meter of sufficient capacity for the future needs of the Plant was bought, with the necessary valves and piping, at an expense of \$682.41. The replacement of much of the old gas pipe by new mains, as ordered by the town at the beginning of the year was carried out, parts of this work proving very difficult because of the great depth at which the pipes required to be laid.

The expenditure on these replacements amounted to \$6,782.47. Thirty feet of stone retaining wall was constructed to hold the railroad embankment and give increased yard room.

We were forced to renew the retorts in two of the gas benches and rebuild the furnace in the third at an expense of \$1,496.95.

Many minor changes were made in the gas department, including a new tar pump, enlargement of the retort house by the removal and rebuilding of its west wall, construction of a passageway from the retort house to the coal shed, etc.

The Town at the fall meeting ordered your Board to purchase and install a Water Gas Set. This has been contracted for, the building is in process of erection and the set should be in operation by the beginning of spring.

The execution of the vast amount of work in this department, indicated above, in addition to supplying the largest gas demand in the history of the works, reflects the greatest credit on the head of this department, Patrick McLaughlin.

FIRE ALARM.

A repeating box was installed in the Central Fire Station, thereby giving the Fire Engineers the power to ring any box number from the engine house. In compliance with the vote of the fall meeting we have purchased an indicator for the Volunteer Hose House and also one for the Greenwood Hose House, and seven new fire alarm boxes to replace an equal number that are worn out. A set of storage battery cells, also a replacement, and sufficient wire to renew one fire alarm circuit. This apparatus will be installed as fast as it is received and will much improve the service in this department.

REAL ESTATE.

A large number of repairs have been made in the real estate, the buildings entirely repainted, the roofs repaired, glass replaced, etc.

OFFICE.

Because of the increasing business of the Plant, your Board requested the Town, at the fall meeting, to provide suitable quar-

ters in the Town Hall for the Light Plant Office. This request was granted and a portion of the "old court room" is being fitted up for this purpose. This change will be a great benefit to the Department, and an undoubted convenience to the public.

An expert accountant is now at work simplifying and improving our system of book-keeping, and also providing for the establishment of a stock system, the absence of such a system in the past rendering a true and accurate statement of the Department's business almost impossible.

These changes in the office and accounting will, we believe, tend to relieve to a certain degree the severe labor that has fallen to the part of our very efficient head book-keeper, Miss Maud V. Howard.

We would call attention to the fact that the fiscal year contains only eleven calendar months, and in making comparisons between this report and the reports of other years this fact should not be lost sight of.

In spite of the fact that such an amount of extraordinary work has been performed at the Plant the manufacture of gas has increased at the rate of about six per cent. and the sales of electricity at about twenty per cent. Upon the completion of the improvements now provided for the Town will own one of the best Gas Plants of its size in New England, and an Electric Plant that may be run at small expense until the demands upon it exceed its capacity.

That so much has been accomplished in a time so short is due in large measure to the efficiency of the Manager of the Plant, A. B. Morton, whom your Board is pleased to commend.

CURTIS L. SOPHER, M. D., Chairman,
EDWIN C. MILLER,

L. WALLACE SWEETSER, Secretary.

Wakefield Municipal Light Board.

Report of Manager.

MESSRS. DR. CURTIS L. SOPHER

L. WALLACE SWEETSER and E. C. MILLER.

Municipal Light Board of Wakefield :

GENTLEMEN,—The sixteenth annual report (covering a period of eleven months) of the manager, showing the operation of the plant for the year ending December 31st, 1909, is respectfully submitted.

COMPARATIVE REPORT OF FISCAL YEAR ENDING DECEMBER 31st, 1909.

	Ending Dec. 31, 1909.	Ending Jan. 31, 1909.
Hours street lights were operated . . .	1,516	1,801
Hours commercial and house incandescent lights were operated (24 hour service) . . .	8,016	8,760
Total number gas consumers . . .	1,262	1,161
Showing gain on previous year . . .	101	92
Total number electric consumers . . .	304	285
Showing gain over previous year . . .	19	34
Services laid during year . . .	78	70
Gas ranges connected . . .	68	81
Hot plates . . .	7	18
Water heaters connected . . .	5	4
Gas heaters connected . . .	13	15

We have now 931 gas ranges connected.

	Ending Dec. 31, '09	Ending Jan. 31, '09
Gas manufactured	31,810,000	33,576,000 cu. ft.
Gas accounted for	25,709,800	27,848,500 "
Gas not accounted for	6,100,900	5,727,500 "
or	19 per ct.	17 per ct.
Tons of steam coal used in electric dept.	614 tons	1,077 tons
Tons of coke used in electric dept.	167 "	54 "
Tons of gas coal carbonized	2,938 "	3,160 "
On hand :		
Gas coal	150 "	467 "
Steam coal	65 "	51 "
Coke	400 "	275 "
Tar	6,500 gal.	6,600 gal.
Number of street lamps in operation :		
Arc lamps	48	50
Incandescent lamps	407	394
Electric extensions were made on the following streets :		

STREET LIGHT EXTENSIONS.

Bartley Street	125 feet
Crescent Street	250 "
Foster Street	137 "
Jordan Avenue	500 "
Main Street	20 "
Nahant Street	290 "
Salem Street	500 "
Stedman Street	350 "
Winn Street	255 "
Total number of feet	2,427

COMMERCIAL EXTENSIONS.

Byron Street	735 feet
Cordis Street	95 "
Eustis Avenue	770 "
Francis Avenue	660 "

Foster Street	150 feet
Main Street	1,040 "
Mechanic Street	125 "
Summit Avenue	100 "
Shumway Circle	250 "
West Chestnut Street	180 "

Total number of feet 4,105 "

Gas mains were extended on the following streets :

Ayon Court	2 in.	195 feet
Cordis Street	2 in.	550 "
Curve Street	2 in.	175 "
Cedar Street	2 in.	276 "
Eustis Avenue	1½ in.	123 "
Turnbull Avenue	¾ in.	50 "
Vine Street	¾ in.	340 "

Number of feet each size pipe laid :

¾ in.	390 "
1½ in.	123 "
2 in.	1,196 "

MANUFACTURING ACCOUNTS.

Actual earnings and expenses, the inventories as of Jan. 31, 1909 and December 31, 1909 respectively considered :

	<hr/>	\$36,425 49
A gross profit		9,914 20
The following to be deducted		
Commissioners' salaries, one-half of \$300	\$150 00	
*Interest on bonds and notes	3,390 44	
*Depreciation of 3 per cent.	3,189 16	
	<hr/>	\$6,729 60
		<hr/>
A net profit		\$3,184 60

The seeming discrepancy between report of net earnings Jan. 31, 1909, and Dec. 31, 1909, is explained by the following facts:

First. The present year's earnings cover but eleven months, with the month of largest receipts and smallest expenses omitted. (January, 1910.)

Second. An expense charge of "Repairs real estate," \$1,271.50, covers repairs and improvement of buildings at Plant.

Third. An expense charge of "Repairs on benches," \$1,496.70, covers repairs of gas benches.

The above charges include several years use, and justly should be distributed over that period, instead of entire amount against the present year. It has been deemed advisable that the above should show as an expense against this account rather than elsewhere as extraordinary expenditures.

Fourth. A mistake in coal inventory Jan. 31, 1909, occurring through taking into inventory coal that was paid for in succeeding months, owing to custom of carrying over unpaid bills \$1,714.35.

Eliminating the foregoing from these charges (for comparison) it is obvious that the net earnings would be quite in accord with previous reports and estimates.

Net earnings as per statement	\$3,184 60
Expenses unusual and extraordinary	4,482 55
	<hr/>
Estimated net earnings 11 months	\$7,667 15

*Interest and depreciation, here stated, are the same per cent. of total interest and depreciation as electric plant is of the total combined plant, as shown by the books.

ALBERT B. MORTON,
Manager.

Sewer Commissioners' Report

TO THE CITIZENS OF WAKEFIELD :

Your Sewer Commissioners herewith submit their tenth annual report.

MAINTENANCE

The usual inspections in spring and fall have been made, all pipe sewers brushed and frequent flushings made, monthly inspections made of all places where trouble might occur, outfall sewer patrolled and all things necessary to keep the system in good repair attended to.

With the exception of one section on North Avenue where a slight settling has occurred and one on Converse Street where surface water enters pipe the system is in first class condition ; these two defects are not serious enough at present to warrant any repairs.

The tree roots are finding their way into the pipes and causing some trouble, this is common to all sewer systems and is to be expected as the system grows older.

One case of stoppage in the pipe sewer on Foster Street was reported caused by improper substances being discharged from some building, trouble was discovered early and remedied before any damage was done.

Several house connections have been clogged by roots and either cleaned or relaid.

CONSTRUCTION

On July 19, 1909, the Town voted to construct sewers in Lake and Foundry Streets and appropriated \$1,300 therefor, that

being the estimate of cost secured by the Commissioners from Engineer 'Tompson ; while the Department was not fully equipped with tools for this work the Commissioners decided to have the work done by town labor, thus saving any possible chance for litigation and also giving the town the advantage of the contractors' profit ; following is a summary of the work.

Work started August 18th, completed September 8th.

Pipe laid, Lake Street, 407.14 feet, eight inch.

Pipe laid, Maple Street, 341.50 feet, six inch.

Maximum depth of trench, 11.09 feet.

Minimum depth of trench, 7.40 feet.

Number of manholes, 2.

Number of buildings served, 12.

Cost of construction, \$960.40.

Assessments levied, Lake Street, \$686.79.

Assessments levied, Maple Street, \$660.61.

Excess of assessments over cost \$387.00.

The department now has on hand a good equipment of tools, trench braces, lumber, etc., necessary for any extensions.

HOUSE CONNECTIONS

Forty-two connections have been installed this year as against thirty-seven last year.

Following is a summary of work and expenses :

Total number of applications to date	.	.	.	517
Total number of connections made	.	.	.	516
Total number made during 1909	.	.	.	42

SEVENTH ANNUAL REPORT

OF THE

Board of Water Commissioners

OF THE

TOWN OF WAKEFIELD

FOR THE

ELEVEN MONTHS ENDING DECEMBER 31, 1909

Water Commissioners' Annual Report

The seventh annual report of the Wakefield Water Board is herewith presented, together with the usual statistics necessary to a complete knowledge of the work of the department.

When it is considered that the water rates collected have been for but eleven months, while the expenditures have been, with the exception of a few items, the usual expenditures of a full year, the financial statement shows that there has been a remarkable continuation of the financial success of the plant. There has also been quite a satisfactory gain in the condition of the works.

There have been many improvements made in the plant during the year, the cost of which was covered by the maintenance appropriation. The large engine room of the pumping station has been furnished with a new maple floor, supported by new beams and floor timbers, and the station has been newly painted. New sills have been laid under the storage house and stable, adding very much to the durability and to the appearance of the plant.

The intake pipe, in the lake, has been cleaned and repairs made to the cage. It was necessary to employ a diver for this work, which has already resulted in clearer and better water, and it is expected that further improvement will be obtained, as the diver has reported additional work that can be done at the intakes when the weather conditions shall be favorable.

The largest extension work done was the construction of a new main, with hydrants on Renwick Road, a distance of 2100 feet, taking in a section near the Melrose line formerly supplied with water by the City of Melrose, and containing considerable good residential property. From this main a section was run across

the railroad to Myrtle avenue, thus giving a double line of pipes to the Boyntonville district.

Needed repairs have been made on the stand-pipe.

A substantial reduction was again made in the water rates, to the evident satisfaction of the water takers. This reduction amounts to about \$2500 a year, in addition to the former reductions. The plant has made good that amount, as the total receipts have been about \$35,500, the total expenditures \$32,600, leaving a balance of \$2,900. This surplus indicates that, in the near future, a further reduction may safely be made in the rates. The Town, as well as the Board, may well feel a pride in this very successful result of municipal ownership.

The section of the town known as Bellevue Park, which has been supplied with water from a private source, has asked for town water. The expense will be heavy, but, with the usual guarantee, we think that it will be for the public interest to extend the pipes to that section by crossing under the railroad from the Oakland Park extension. This district has a large residential population that ought to be supplied with town water.

Many other extensions and improvements are planned for the coming year.

FINANCIAL STATISTICS OF THE WATER PLANT

FROM DECEMBER 1908 TO DECEMBER 31, 1909

Value of plant in 1903	\$235,000 00
New construction and improvements, 1904	14,000 00

“ “ “ “ December 31, 1909 . . .	1,954

In addition, seventeen services have been laid to houses where the water is not yet turned on.

HYDRANTS

Number of hydrants, February 1, 1909 . . .	191
New hydrants added during the year . . .	8
	<hr/>
Present number of hydrants . . .	199

Four of the new hydrants were paid for from the maintenance appropriation and four from the construction appropriation.

LOCATION OF NEW HYDRANTS

Church Street, opposite west corner of Cong. Church.

Eustis Avenue, corner of Nichols Street.

Renwick Road, near railroad crossing.

Renwick Road, near Melrose line.

Foundry Street, between Albion and Maple Streets.

Maple Street, opposite Knitting Mill driveway.

Oak Street, opposite Hose House.

Vernon Street, near Otis Street.

WATER PUMPED DURING THE YEAR

January	19,439,688
February	18,720,284
March	20,136,730
April	19,214,168
May	20,829,326
June	22,889,702
July	26,848,106
August	25,549,695
September	20,401,878
October	20,689,996
November	20,223,800
December	19,990,352

Total number of gallons	254,933,725
-----------------------------------	-------------

Greatest amount pumped in 1909, July 12, 1,292,424 gallons.

Greatest amount in a week, July 8 to 14, 7,945,896 gallons.

Average daily pumping for year, 695,709 gallons.

Average daily per head of estimated population, 66 gallons.

We close this report with detailed accounts of the expenditures under the maintenance and construction appropriations.

 Wakefield Water Commissioners.

Report of the Overseers of the Poor

In submitting our report we invite your thoughtful consideration, that you may be the better informed as to the importance and value of the work.

The members of the Board have worked together faithfully and for the best interest of the Town, not forgetting, however, their obligations to those who were in their care, or those who applied for relief. We have endeavored to attend in a prompt and careful manner to all applicants, but oftentimes find ourselves condemned for giving aid, or for withholding it, where others think it should be withheld or granted.

We are pleased to report an improved condition of affairs at the Farm during the past year, under the management of Mr. and Mrs. C. E. Gault.

We have increased our herd of cows until we now have twenty in all—good judges say they are as fine a herd as can be found anywhere in this vicinity. We have also built a silo for storage of ensilage (108 tons capacity). Although we did not have quite corn enough to fill it we did succeed in raising and storing about 80 tons. Another year it can be easily filled as it is the intention to plant more corn, and thus be able to increase the herd of cows each year until we have thirty in all.

When the farm is brought up to a high state of cultivation we see no reason why the income from the sale of its products will not care for the Poor Department.

The total receipts from the farm, including wood and potatoes, amount to	\$4,979 70
Add to this the milk and eggs used in house	200 00
	<hr/>
makes a total of	\$5,179 70

There is now due from other towns and cities some \$400, for aid rendered people residing here with settlement elsewhere.

We believe all the bills are paid to Dec. 31, 1909.

We have at present thirteen inmates at the Almshouse, mostly old people who are in feeble health and require a great deal of attention and care, and we have done our best to do everything necessary for their comfort.

Respectfully submitted,

HUGH CONNELL, Chairman,
WILLIAM C. STRONG, Sec'y,
WILLIAM F. BOWMAN.

TOWN FARM INVENTORY, DEC. 31, 1909

20 Cows	\$1,300 00
1 Bull	35 00
3 Horses	750 00

CHARLES F. HARTSHORNE,

Town Clerk.

Report of Finance Committee

The Finance Committee herewith respectfully submits its recommendations for the year ending December 31st, 1910.

It is pleasing to note that in several of our Municipal Departments, principally the Poor, Light and Water, the financial showing is very much improved, due largely to increased receipts which effects a direct saving in the amount required to be raised from taxation. The changes recently made at the Light Plant, which have had the Town's attention for some time, have effected economies and improved service, and the large increase in receipts of the past year, which we have been assured may be expected to further increase in the future, is a source of gratification and cause for drawing a deep breath of relief. It will also be noted that the Poor Department has made a very creditable showing during the past year, the receipts having increased nearly 100 per cent. It requires a certain amount of money to care for the less fortunate of our town's people and it must be apparent to all, upon consideration, that any permanent increase in receipts will result in a corresponding reduction in the amount required to be appropriated from taxation. The Water Department has also made a very favorable showing in that it has met all financial obligations from the receipts of water consumers and has a balance on hand of \$2,900.

To offset the reductions noted in this report, as compared with previous years, attention is called to the amounts required for Metropolitan Parks, approximately \$4,500, and for Sewer, \$21,250.

The maintenance of our School System, equivalent to about \$7.00 of the Town's tax rate, should receive careful consideration

as it represents the largest individual amount that the Town is called upon to provide from taxation, viz., \$61,127.80, and \$2,000 from tuition receipts, which does not include the bond and interest payments or the money invested in school buildings. While this amount is large the Committee does not wish to convey the impression that our School Teachers, or other employes serving the town in any capacity, are overpaid, yet when the valuation of the Town is taken into consideration, also the relatively small amount received from personal taxes, the burden falls heavily upon many of our citizens.

In the judicious expenditure of money for our Highways, we have a perplexing problem to meet as, under present conditions, the wisdom of utilizing the Town's money for macadam construction to any large extent is an open question. In communities where the lack of revenue is not so pressing as in Wakefield large expenditures for macadam work have been made, but to keep a street in the condition in which it was originally placed is almost despaired of the world over. This phase of the question is receiving universal consideration, and until some method or preparation is evolved which will tend to bind and hold firmly the construction material so that it will withstand the wear and tear given the highways by motor vehicles especially, any extensive new work is not recommended. We would call, however, the attention of those having our streets in charge to the large amount of tar that the Town manufactures in its Light Plant, in the hope that same may be utilized, possibly with the addition of a certain amount of pitch, in effecting an improvement in the lasting qualities of our streets. The Committee strongly urges the expenditure of a larger proportion of the amount appropriated for highway work on sidewalks. Last year we recommended that at least \$1,000 be set aside for sidewalk repairs, and this year we have increased the amount to a sum of not less than \$2,000 to be used for this purpose. We also recommend that \$1,200 be set aside for concrete sidewalks and edgestones. This is to continue the policy of placing in good repair all of our defective concrete and gravel walks, thereby reducing the possibility of accidents and consequent liability of the Town therefor.

SCHOOL DEPARTMENT

General, payrolls	\$49,727 80	
Fuel	4,800 00	
Books and supplies	3,000 00	
Contingent	4,800 00	
Evening School	800 00	
	<hr/>	\$63,127 80

\$2,000 of this amount to be taken
from estimated tuition receipts.

TOWN MEETING MARCH 14, 1910

Article 1. To choose a moderator, by ballot, to preside at said meeting.

Thomas G. O'Connell was elected moderator.

Art. 2. To act upon the reports of town officers as published.

Voted. That the reports of the town officers as printed be accepted and laid on the table.

Art. 3. To choose all town officers not required to be chosen by ballot.

Voted. That a committee of seven be appointed to bring in a list of town officers not chosen by ballot. Chair appointed M. E. S. Clemons, Albert G. Goodwin, Thomas J. Lally, Wm. P. Shepard, James A. Maclosky, Elmer C. Richardson, John F. Mahoney.

Art. 4. To see if the town will authorize the treasurer with the approval of the selectmen, to borrow during the current year beginning March 7th, 1910, in anticipation of the taxes for said municipal year, such sums of money as may be necessary to meet the current expenses of the town, giving the note or notes of the town therefor.

Voted. That the Treasurer be and he hereby is authorized, with the approval of the selectmen, to borrow from time to time during the current municipal year, beginning March, 1910, in anticipation of the taxes of said municipal year, a sum or sums not exceeding \$250,000, for the purpose of meeting the current expenses of the town, and to give the note or notes of the town therefor. Every such note to be payable within one year from the date of the loan for which it is issued is incurred. All such notes to be authenticated by the certificate of the Liberty Trust Company of Boston, Mass., subscribed thereon. All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year.

Art. 5: To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.

Voted. To raise and appropriate as follows :

Schools :

Payrolls	\$49,727 80

Voted to take up Article 33.

Art. 33. To see if the town will accept Chapter 106 of the Acts of 1910, entitled, "An act to consolidate the Sewer and Water Departments of the Town of Wakefield."

Voted. That the town accept Chapter 106 of the Acts of 1910.

Art. 6. To determine the compensation of enginemen for the year ensuing.

Voted. That the compensation of enginemen be the same as last year.

Art. 7. To see if the town will raise and appropriate \$300 for the purpose of Memorial Day. Chas. F. Hartshorne and others.

Voted. \$300.

Art. 8. To see if the town will raise and appropriate money to renew its insurance on the property of the town. Albert W. Flint and others.

Voted. \$2467.61, of this amount \$467.61 to enter this year's tax levy, remainder to be paid by issuing four notes of \$500 each payable annually in each of the years 1911 to 1914 inclusive And that the Selectmen be instructed to secure competitive bids.

Art. 9. To see if the town will raise and appropriate \$1,000 for the suppression or the brown Tail and Gypsy Moths. W. W. Whittredge and others.

Voted. \$1,000.

Art. 10. To see if the town will raise and appropriate a sufficient sum of money to repair the roadbed and sidewalks on Nahant street between Birch Hill avenue and Main street, or what they will do about it. William A. Thrush and others.

Finance Committee recommends reference to Selectmen.

Amended. To refer to Selectmen, they to report at an adjournment of this meeting.

Pending this motion it was voted to adjourn to Monday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 21, 1910

Meeting called to order by the Moderator.

Article 10 being in order.

Amendment offered at last meeting withdrawn.

Voted. That subject matter of article be referred to Selectmen.

Art. 11. To see if the town will raise and appropriate \$500 to build and repair sidewalks on Emerson street, from West Chestnut street to Elm street, and drain said part of Emerson street. William J. Dinan and others.

Voted. That Selectmen be instructed to repair sidewalk and provide suitable drainage.

Art. 12. To see if the town will raise and appropriate seven hundred dollars (\$700) to grade Foundry street from Maple to Broadway. John Toomey and others.

Voted. That Selectmen be directed to repair roadbed.

Art. 13. To see if the town will raise and appropriate a sufficient amount of money to grade Lowell street and sidewalk from the junction of Salem and Lowell streets to Keene's Lane. Edward F. Preston and others.

Voted. That Selectmen be directed to do work as called for in article.

Art. 14. To see if the town will raise and appropriate the sum of eight hundred dollars to establish a grade on Fairmount avenue, to grade street and build sidewalk on westerly side of said avenue, between Hillside avenue and Curve street, to build sidewalk on easterly side of avenue from Curve street to Prospect street; to build two or more sandcatchers between Curve street and Hillside avenue; to construct stone gutters on east and west side of said avenue, or what they will do about it. Fred A. Sweetser and others.

Voted. Subject matter referred to Selectmen without prejudice.

Art. 15. To see if the town will raise and appropriate the sum of \$1,200 to grade and drain Salem street from New Salem street to the town line, or what they will do about it. Charles E. Randall and others.

Voted. Referred to Selectmen.

Art. 16. To see if the town will raise and appropriate the sum of \$800 to grade and repair New Salem street, or what they will do about it. Charles E. Randall and others.

Voted. Referred to the Selectmen.

Art. 17. To see if the town will vote to build a sidewalk on the easterly side of Pleasant street from Wave avenue to Sweetser street, and raise and appropriate money for the same, or what they will do about it. Charles E. Montague and others

Voted. Referred to Selectmen.

Art. 18. To see if the town will accept, adopt and allow the laying out of Herbert street (between Richardson street and Bennett street) as a town way. By the Board of Selectmen.

Voted. Laid on table until an adjournment of this meeting.

Art. 5.

Voted. To take this article from the table.

Motion of Finance Committee relating to Highway Department being in order.

Motion, To increase the sum (\$7500) recommended by the Finance Committee, to \$13,500 and \$3000 to be expended on Main street.

Voted. That the whole matter be referred to the Selectmen and Finance Committee, and that the Selectmen be instructed to prepare and have a statement showing where they propose to expend \$20,000 if appropriated by the town, to report at an adjournment of this meeting.

Voted. To adjourn to next Thursday evening.

ADJOURNED TOWN MEETING, MARCH 24, 1910.

Meeting called to order by the Moderator.

Art. 19. To see if the town will raise and appropriate sufficient money to install two electric lights on Cordis street, between Pleasant street and Vernon street; one on the corner of Court and Cordis streets and one midway between Court and Vernon streets. Louis G. Hatch and others.

Voted. To instruct Commissioners to install lights.

Art. 20. To see if the town will authorize the Municipal Light Board to install a light on North avenue near the house owned by the Boston Ice Co. George W. Carey.

Voted. To instruct Commissioners to install light.

Art. 21. To see if the town will instruct the Municipal Light Commissioners to place two additional electric lights on Cedar street, between Chestnut and Prospect streets, and raise and appropriate money for the same, or what the town will do about it. James W. Burke and others.

Voted to instruct Commissioners to install light.

Art. 22. To see if the town will vote to locate and install a fire alarm box at the corner of Oak street and Greenwood avenue, and to raise and appropriate money therefor, or what they will do about it. Edward E. Lee and others.

Voted. \$65 to install box.

Art. 23. To see if the town will vote to purchase five hundred feet of hose, raise and appropriate money for the same, or what they will do about it. E. S. Jacob and others.

Voted. \$375 for purchase of hose.

Art. 18.

Voted. To take from table.

Selectmen presented their report on laying out Herbert street.

Report laid on table as provided in town By-Laws.

Art. 24. To see if the town will vote to purchase the fire apparatus and other property of the Greenwood Library Association, raise and appropriate money therefor, or what they will do about it. Harry P. Alden and others.

Voted. To indefinitely postpone.

Art. 25. So see if the town will vote to install a new heating and ventilating and plumbing system in the Hamilton school and raise and appropriate money therefor, or what they will do about it. Charles E. Montague and others.

Voted. That the town raise and appropriate \$3000 for the purposes of article and a Committee of Five be appointed.

Committee, Charles E. Montague, James H. Murphy, Frank J. Henkel, James F. Curley, James W. Burke.

Art. 26. To see if the town will raise and appropriate the sum of \$500 to clean the water course between Albion street and the Rattan Factory, or what they will do about it. John J. Butler and others.

Finance Committee reported as follows: Upon investigation they are unable to determine what the duties of the town are under this article and therefore recommend that the subject matter of the article be referred to the Selectmen and Town Counsel with instructions to make an investigation of the matter, and if it found that there is any duty upon the town to clean this water course or any part thereof, the Selectmen be instructed to do so.

Voted. That report be accepted and its recommendations adopted.

Art. 27. To see if the town will appropriate a sufficient sum of money, to be taken from the water surplus fund, for the purpose of replacing the 6-inch main on Main street between Railroad and Richardson streets, with a 16-inch main, or what it will do about it. Charles A. Dean, Chairman Board of Water Commissioners, and others.

Voted. \$2900, from surplus.

Art. 28. To see if the town will vote to instruct the Selectmen to have a new floor laid in the auditorium of the town hall, and raise and appropriate money therefor, or what they will do about it. John F. Mahoney and others.

Voted. \$500 and referred to a Committee of Three to draw specifications and secure bids.

Committee, F. J. Henkel, Fitz Hodgkins, W. G. Strong.

Art. 29. To see if the town will appropriate the sum of \$375, paid to the town on account of fire insurance in settlement of loss by fire at the Municipal Light Plant, to the use of the Municipal Light Department. Curtis L. Sopher and others.

Voted. \$375.

Art. 30. To see if the town will raise and appropriate the sum of one hundred dollars to take care of the Old Cemetery for the coming year, or what they will do about it. Oliver Walton and others.

Voted. To indefinitely postpone.

Art. 31. To see if the town will raise and appropriate the sum of one hundred fifty dollars for the purpose of laying out Section A, or a part thereof, in Forest Glade Cemetery, or what they will do about it. Oliver Walton and others.

Voted. To indefinitely postpone.

Art. 32. To see if the town will vote to pay the bill dated Feb. 17th, 1910, of Austin L. Mansfield for \$160.12, and raise and appropriate a sufficient sum of money therefor. Austin L. Mansfield and others.

Voted. \$160.12 and that amount be charged to cemetery account.

Art. 34. To see if the town will raise and appropriate money for the proper observance of the 134th anniversary of the Declaration of Independence. George W. Abbott and others.

Voted. \$500, to be expended under the direction of a Committee of Three.

Committee, Michael Low, George W. Abbott, Fred E. Bunker.

Voted. To adjourn until next Thursday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 31, 1910.

Meeting called to order by the Moderator.

Art. 35. To see if the town will vote to have meters installed on the water service pipes. M. E. S. Clemons.

Voted. To refer to the Board of Water Commissioners.

Art. 5.

Voted. To take up Article 5.

Committee, consisting of Selectmen and Finance Committee, reported the following recommendations :

That the town raise and appropriate \$11,000 and appropriate the Street Railway tax.

That the Town Treasurer, under the direction of the Selectmen, be authorized to borrow \$6,400, in anticipation of Street Railway tax.

That \$1,200 be set aside for concrete sidewalks and edge-stones.

That \$2000 be set aside for sidewalk repairs. These two items to be taken from general appropriation.

That preference be given to permanent men, horses and carts of the Fire Department.

That compensation for a pair of horses, cart and driver be no more than \$5.00 per day; for single horse, cart and driver be no more than \$3.50 per day.

Voted. That report be accepted.

Voted. That recommendations of Committee be adopted, and amount asked for be raised and appropriated; that 10% of amount be expended in outlying districts.

Voted. That in addition to salary of Board of Assessors \$150 be raised and appropriated for clerk hire.

Art. 3.

Voted. To take up Article 3.

Committee appointed to bring in a list of officers not chosen by ballot, submitted the following list:

Field Drivers — George K. Walton, Alexander Glass, Palmer Corbett, J. E. Hopkins, C. E. Classen, W. F. Shedd.

Measurers of Wood—G. W. Killorin, A. L. Mansfield, H. N. Oliver, E. S. Oliver, W. C. Crocker, T. E. Toomey, L. P. Curley, H. A. Feindel, Thomas Hickey, Dennis Greaney, P. Lannergan, A. A. Mansfield, W. T. Curley, Wm. Hickey, L. E. Bennett.

Measurers of Lumber—A. T. Locke, H. B. Parker, J. B. Foster, W. A. Prescott, H. A. Feindel, A. P. Webber, L. E. Bennett.

Weighers of Coal and Merchandise—P. McLaughlin, John Toomey, W. C. Crocker, Wm. Hickey, T. E. Toomey, A. A. Mansfield, N. E. Cutler, W. T. Curley, A. L. Mansfield, L. E. Bennett, Thomas Hickey, Willard Farwell, A. B. Morton, E. F. Cobb, J. H. McMahan.

Finance Committee, 3 years—E. F. Preston, G. H. Stowell, J. A. Meloney, J. H. Murphy, C. H. Stearns.

Finance Committee, 2 years—W. H. Tay.

Art. 36. To see if the town will permit the Lynn Hebrew Benevolent Society, also known as the Lynn Hebrew Benevolent Association, to continue to use for burial purposes the lot of land owned by said society, situated on Lakeside avenue in Wakefield, said lot containing about 4956 square feet, and being bounded southerly by Lakeside avenue, westerly by land formerly of John Goodwin, northerly by land of Temple Adath Israel, and easterly by land of Congregation Mishkan Israel. George M. Poland.

Voted. Use of land as asked for by article.

Art 37. To hear and act upon the report of the committee appointed under Article 3 of the warrant for the town meeting held Nov. 29, 1909, relating to the acquiring of land around Lake Quannapowitt for park purposes. M. E. S. Clemons.

Committee presented their report.

Voted. That report be accepted.

Art. 38. To see if the town will raise and appropriate a sufficient sum for the estimated expense of taking all or any of the land lying along the shores of Lake Quannapowitt which is not now owned by the town of Wakefield, and authorize the Board of Park Commissioners to take for Park purposes all or any part of said land. M. E. S. Clemons and others.

Voted. To take up this article in connection with Article 37.

Motion by Finance Committee to indefinitely postpone.

Pending this motion it was voted to adjourn to next Monday at 7.30 o'clock.

ADJOURNED TOWN MEETING, APRIL 4, 1910.

Meeting called to order by the Moderator.

Articles 37 and 38 being in order.

A small number of voters being present it was voted to lay these articles on the table.

Art. 39. To see if the town will vote to change the name of Railroad street (from Broadway to Albion street) to North avenue, or what they will do about it. J. Fred Parker.

Voted. To change the name of Railroad street (from Broadway to Albion street) to North avenue.

Art. 40. To appoint a committee for the purpose of securing greater benefits to the town from the Metropolitan Park system. Frank J. Henkel.

Voted. That a Committee of Nine be appointed to consider subject and report at a future town meeting.

Committee, F. J. Henkel, C. A. Dean, E. S. Hinckley, J. F. Parker, Cornelius Donovan, A. G. Anderson, A. G. Goodwin, Geo. E. Walker, M. E. S. Clemons.

Art. 41. To see what action the town will take upon the recommendation of the Board of Selectmen that the town sell the property known as the Flynn estate, on Albion street.

Voted. That Town Treasurer be authorized to sell at public auction to the highest bidder.

Art. 42. To hear and act upon the report of the Committee appointed under Article 7 of the warrant of Nov. 8th, 1909, to provide quarters in the town hall, or elsewhere, for the Municipal Light Board.

Committee reported that the old court room in town hall be divided between Assessors department and accounting department of the Light Board and that Tax Collector's office be removed to the Treasurer's room and that suitable partitions be installed in both rooms.

Voted. That report be accepted.

Art. 43. To hear the report of the committee appointed at the annual meeting in March, 1909, in relation to the moving and repairing of building intended for the storing of town utensils to town land on Broadway.

Committee appointed March 25, 1909, under Article 35, presented their report stating that the estimated cost of removing building was so much in excess of the amount appropriated that nothing further had been done, preferring to report back for further instructions. Amount appropriated, \$300 ; estimated cost, \$645.

Voted. To refer to Finance Committee to report at a future meeting.

Voted. To take Articles 37 and 38 from table.

Voted. That it is the sense of this meeting that the town take for park purposes the several parcels of land referred to in report of committee.

Voted. That the Chair appoint a committee of five to retire and report to this meeting the estimated cost of taking for park purposes the land of George G. Floyd, Junius Beebe, Susan M. Romney, Emma Rosson Heirs, Quannapowitt Agricultural Assn.

Committee, M. E. S. Clemons, J. Fred Parker, Cornelius Donovan, E. E. Lee, Geo E. Walker.

Committee reported estimates as follows : Geo. G. Floyd \$250, Junius Beebe \$100, Susan M. Romney \$100, Emma Rosson Heirs \$150, Quannapowitt Agricultural Assn. \$150.

Voted. That the following sums of money be raised and appropriated, being the estimated cost of taking for Park purposes the several described parcels of land. For George G. Floyd Heirs \$250, Junius Beebe \$1.00, Susan M. Romney \$100, Emma Rosson Heirs \$150, Quannapowitt Agricultural Assn. \$150, and authorize and empower the Park Commissioners to take said lands for Park purposes.

Motion. That it is the sense of this meeting that the Park Commissioners acquire the land of Morrill and Atwood for Park purposes.

Voted. To refer to the Selectmen and have an article inserted in the next warrant in reference to this matter.

Voted. To dissolve this meeting.

TOWN MEETING APRIL 25, 1910

Article 1. To choose a moderator by ballot to preside at said meeting.

Thomas G. O'Connell was elected moderator.

Art. 2. To see if the town will ratify the laying out of its system of sewers as made by its Board of Sewer Commissioners in A.D. 1900 as shown on Map of the Sewerage System proposed for Wakefield, Mass., dated Oct. 1900, and signed by William H. Lee, William B. Daniel and George M. Thompson, Wakefield Sewerage Commissioners, and by Orlando K. Morgan, Engineer, on file in the office of the Water and Sewer Commissioners, and authorize the construction of a sewer in and through Foundry street and Broadway to the outfall sewer near the junction of Main street and North avenue, and raise and appropriate a sufficient sum of money therefor, or what they will do about it.

Voted. To ratify laying out of sewer system. To authorize the Water and Sewerage Board to build sewer in Foundry street about 220 feet. Appropriate \$300 therefor, same to be taken from abutters assessments.

Art. 3. To see if the town will vote to extend the sewer system from the corner of Aborn avenue and Main street, about 250 feet northerly, opposite the estate of Albert J. Wright, and raise and appropriate a sufficient sum of money therefor, to be expended under the direction of the Board of Water and Sewer Commissioners, or what they will do about it. J. Warren Poland and others.

Voted. To indefinitely postpone.

Art. 4. To hear and act upon the report of the Finance Committee on Article 43, of the warrant of March 1910, in relation to the moving and repairing of building intended for the storing of town utensils on town land on Broadway.

Finance Committee presented report and recommended that building be moved to corner of Broadway and Foundry streets.

Voted. That report be accepted.

Art. 5. To see if the town will raise and appropriate a sufficient sum to remove, repair and place in proper condition, the building intended for storing town utensils and property, also to purchase a suitable lot of land to place the building upon.

Voted. To raise and appropriate \$300 in addition to the \$300 previously raised and that the Water and Sewerage Board be authorized to remove and repair building.

Art. 6. To see if the town will accept, adopt and allow the laying out by the Board of Selectmen, of Herbert street, (between Bennett and Richardson streets) as a town way, and raise and appropriate money for the construction therefor.

Voted. To indefinitely postpone.

Art 7. To see if the town will raise and appropriate a sufficient sum of money for the estimated expense of taking all of the land of the Morrill-Atwood Ice Co. lying easterly of a line drawn from Church street and at right angles thereto to Quannapowitt Lake and distant ten feet from the easterly side of the house known as the Hartshorne House, on land of Morrill-Atwood Ice Co. M. E. S. Clemons and others.

Voted. To indefinitely postpone.

Art. 8. To see if the town will vote to acquire by taking or otherwise the land of the Middlesex Traders Association bordering on Lake Quannapowitt, or any part thereof for park or other municipal purposes. A. A. Kingman and others.

Voted. To indefinitely postpone.

Art. 9. To see if the town will raise and appropriate a sufficient sum for the estimated expense of taking or acquiring the land described in the foregoing article. A. A. Kingman and others.

Voted. To indefinitely postpone.

Art. 10. To hear and act upon the report of the committee upon the question of installing a town scale.

Committee presented report.

Voted. To accept report.

Art. 11. To see if the town will vote to install a town scale and raise and appropriate money therefor, or what they will do about it. George L. Wakefield and others.

Voted. To indefinitely postpone.

Resolution. By consent of the meeting Charles A. Dean presented the following resolution:—"That it is the sentiment of the Town of Wakefield that the Boston and Northern Street Railway should complete Water street as laid out by the County Commissioners, and double track said street. The Selectmen are requested to take up this subject with the Boston and Northern Street Railway Company."

Voted. That the resolution be adopted.

Art. 12. To see if the town will reconsider the vote authorizing the sale of the Flynn property at public auction, or what they will do about it. George L. Wakefield.

Voted. To indefinitely postpone.

Art. 13. To see if the town will raise and appropriate the sum of six hundred dollars for the purchase of the fire apparatus and other property of the Greenwood Library Association, or what they will do about it. Herbert G. Leete and others.

Voted. That town purchase and raise and appropriate \$600 therefor, that Selectmen be a committee to carry vote into effect.

Art. 14. To see if the town will turn over to the Park Commissioners for their care, the several plots of improved land on intersecting streets of the highway that have been or may hereafter be located by the Board of Selectmen and set out with flowering shrubs and plants by interested residents in the localities where the plots are or may be located, or what they will do about it. N. E. Cutler.

Voted. To indefinitely postpone.

Art. 15. To see if the town will authorize the treasurer with the approval of the Selectmen, to borrow during the current year beginning March 7th, 1910, in anticipation of the taxes for said municipal year, such sums of money as may be necessary to meet the current expenses of the town, giving the note or notes of the town therefor.

Voted. To indefinitely postpone.

Voted. To dissolve this meeting.

TOWN MEETING JUNE 13, 1910

Article 1. To choose a moderator by ballot to preside at said meeting.

Thomas G. O'Connell elected moderator.

Art. 2. To see if the town will vote to authorize the extension of the sewer through Chestnut street and Parker road from Cedar street to Capt. George M. Tompson's, or any part thereof, and authorize the Board of Water and Sewer Commissioners to construct the same, and raise and appropriate a sufficient sum of money therefor. Elizabeth E. Boit and others.

Voted. To authorize the extension.

Voted. That work be done under the supervision of the Water and Sewerage Board.

Art. 3. To see if the town will vote to issue notes, scrip, or additional bonds for the purpose of paying for the extension of the sewer in Chestnut street and Parker road, as may be authorized under vote on next preceding article of this warrant and by Chapter 377 of the Acts of 1900; determine the time when such notes, scrip or bond shall be payable, the rate of interest thereon, the amount thereof and all other proper and necessary conditions thereof, and authorize the Treasurer to sign and the Selectmen to countersign the same.

Voted. For the purpose of providing funds for the building of the sewer authorized by vote under Article 2 of this warrant, and the incidental expenses thereof, that the town issue three notes in the sum of \$2,500 each, payable in one, two and three years respectively and dated not later than October 1, 1910, and that the Town Treasurer with the approval of a majority of the Selectmen be hereby authorized to execute and issue said notes.

Art. 4. To see if the town will vote to provide for the payment of such securities as may be issued by vote passed under the next preceding article of this warrant, in such annual payments as will extinguish the same within the time prescribed in said act.

Voted. To indefinitely postpone.

Art. 5. To see if the town will fix a minimum price below which the so-called Flynn estate on Albion street shall not be sold, or what they will do about it.

Voted. That \$400 be fixed as the minimum price, below which the Flynn estate on Albion street shall not be sold.

Art. 6. To see if the town will raise and appropriate the sum of one hundred and fifty dollars to take care of Forest Glade Cemetery and to lay out a part of section A, or what they will do about it. Hoyt B. Parker and others.

Voted. \$150 and amount to be charged to Cemetery account.

Art. 7. To see if the town will adopt a by-law directing its collector of taxes to exercise the power of taking to enforce the lien for taxes and the collection thereof, and not the power of sale.

Voted. To indefinitely postpone.

Art. 8. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow during the current year, beginning March 7th, 1910, in anticipation of the taxes for said municipal year, such sums of money as may be necessary to meet the current expenses of the town, giving the note or notes of the town therefor.

Voted. To indefinitely postpone.

Voted. To dissolve this meeting.

TOWN MEETING NOVEMBER 14, 1910

Article 1. To choose a moderator by ballot to preside at said meeting.

Thomas G. O'Connell elected moderator.

Art. 2. To see if the town will authorize the Selectmen to sell the junk in the basement of the Town Hall.

Voted. To authorize Selectmen to sell to highest bidder.

Art. 3. To see if the town will raise and appropriate an additional sum of money for Town Hall expenses.

Voted. \$500.

Art. 4. To see if the town will raise and appropriate an additional sum of money for the support of the Armory.

Voted. \$225.

Art. 5. To see if the town will vote to raise and appropriate money for the purchase of a lot of land for a library building, or what they will do about it. Richard Dutton and others.

Art. 6. To see if the town will vote to issue bonds, notes or scrip to pay for any land which the town may vote to buy under the preceding article. Richard Dutton and others.

Art. 7. To see what action the town will take in regard to erecting a building for a public library, and raise and appropriate money therefor. Richard Dutton and others.

Voted. To lay on table until 8.15 this evening.

Art. 8. To see if the town will raise and appropriate \$850 to reimburse the miscellaneous fund for money transferred by the Board of Selectmen to the Municipal Light Board. Wakefield Municipal Light Board by E. C. Miller, Sec'y.

Voted. That the Town Treasurer be authorized to borrow or advance \$850 for the Miscellaneous fund, the same to be reimbursed from Municipal Light Plant depreciation fund to be appropriated at next annual town meeting.

Art. 9. To see if the town will raise and appropriate one thousand dollars to be added to the depreciation fund of the Municipal Light Board for their use. Wakefield Municipal Light Board by E. C. Miller, Sec'y.

Voted. That the Town Treasurer be authorized to borrow or advance \$1000 to be added to the depreciation fund of the Municipal Light Plant, the same to be reimbursed from Municipal Light Plant depreciation fund to be appropriated at next annual town meeting.

Art. 10. To see if the town will raise and appropriate a sufficient sum of money to install necessary electric lights on or near Vine street, Greenwood, and to instruct the Municipal Light Board to install the same. Wakefield Municipal Light Board by E. C. Miller, Sec'y.

Voted. To instruct Board to install lights.

Art. 11. To see if the town will raise and appropriate a sufficient sum of money to install necessary electric lights on or near Aborn avenue, and to instruct the Municipal Light Board to install the same. Wakefield Municipal Light Board by E. C. Miller, Sec'y.

Voted. To install lights.

Art. 12. To see if the town will instruct the Light Commissioners to install an electric light at the corner of Pittman and Harrison avenues, and raise and appropriate money for the same, or what they will do about it. William Blanchard and others.

Voted. To install light.

Art. 13. To see if the town will instruct the Light Commissioners to install an electric light on Greenwood avenue, between Pittman and Warren avenues near the residence of John D. MacKay, and raise and appropriate money for the same, or what they will do about it. John D. MacKay and others.

Voted. To indefinitely postpone.

Art. 14. To see if the town will vote to install a fire alarm box at or near the corner of West Chestnut and Prospect streets and raise and appropriate money for the same. Clinton H. Stearns and others.

Voted. \$90 to install box.

Art. 15. To see if the town will instruct the Light Board to place a light on Orchard avenue corner of Hillis avenue, and raise and appropriate \$35 to install the same, or what they will do about it. Harvey S. Parker and others.

Voted. To install light.

Art. 16. To see if the town will authorize and instruct the Board of Light Commissioners to install an incandescent electric street light, on Court street between Sweetser and Cordis streets, and appropriate money for the same, or what it will do about it. David H. Nichols and others.

Voted. To install light.

Art. 17. To see if the town will ratify the action of the Water and Sewer Board, in purchasing the land with water rights on Salem street near the boundry line of Lynnfield and Wakefield comprising about one and one-half acres and described in deed of Ringer to the Town of Wakefield dated July 20th, 1910, and raise and appropriate money therefor. M. E. S. Clemons.

Voted. To ratify action and appropriate \$400, same to be taken from Water Plant surplus.

Articles 5, 6 and 7 were taken from the table but no action taken.

Voted to adjourn to next Monday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, NOVEMBER 21, 1910

Meeting called to order by the moderator.

Articles 5, 6 and 7 being in order.

Voted. That the town purchase the property of C. H. Hickok comprising about 4458 square feet and the property of the Edward Mansfield Heirs comprising about 14,895 square feet, to pay not exceeding \$7,000 for the first lot and not exceeding \$6,000 for the second lot, that an option be obtained on the Mrs. C. H. Hickok property at No. 3 Avon street.

Voted. To take up Article 26.

Art. 26. To raise and appropriate a sufficient sum to pay the judgment in the case of Emma F. Doyle vs. the town. M. E. S. Clemons.

Voted. \$4337.

Voted. To adjourn to next Monday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING NOVEMBER 28, 1910.

Voted. To take up Article 9.

Voted. To reconsider action taken under Article 9 at meeting of November 14.

Voted. That Town Treasurer be authorized to borrow or advance \$1000 for any overdraft in the depreciation fund of the Municipal Light Department.

Voted. To take up Article 25.

Art. 25. To see if the town will raise and appropriate \$3752.22 for the suppression of the Gypsy and Brown Tail Moths the liability of the town for 1911. W. W. Whittredge and others.

Voted. \$3752.22.

Voted. To take up Articles 5, 6 and 7.

Voted. To reconsider all action under these articles taken at the previous meetings.

Voted. That a committee of nine be appointed to consider the subject matter of articles 5, 6 and 7; also to investigate the cost of necessary alterations to the Wakefield house to make same suitable for a library, the committee to report three weeks from tonight.

Committee, Chas. N. Winship, Richard Dutton, Chas. A. Dean, Edson W. White, John A. Meloney, N. E. Cutler, Forrest A. Seavey, Wm. J. Curley, R. S. Stout.

Art. 18. To see if the town will vote to purchase the whole or a part of a certain parcel of land, situated on the westerly shore of Crystal Lake, and bounded northerly by land of M. Annie Warren, easterly by Crystal Lake, southerly by land

now or formerly of one Brooks, westerly by land of said Brooks, and containing about 13 acres, be it more or less, being the land formerly owned by Samuel K. Hamilton, and raise and appropriate a sufficient sum of money therefor. James H. Kimball and others.

Voted. That a committee of seven be appointed to consider the matter of the purchase of land as described in article and report at the next annual town meeting.

Committee. Thomas Hickey, James H. Kimball, George W. Killorin, John J. Round, Thomas E. Dwyer, Robert C. Atkinson, J. Fred Parker.

Voted. To adjourn to Monday evening Dec. 19th at 7.30 o'clock.

ADJOURNED TOWN MEETING DEC. 19, 1910.

Art. 19. To see if the town will rescind all action taken under articles 4 and 5 of the town warrant of April 25, 1910, whereby it was voted to raise and appropriate money for the removal of the sewer shed, from its present location to town land on Broadway, and for putting the same in condition for the storage of town utensils and property. Water and Sewerage Board.

Voted. To lay on table.

Art. 22. To see if the town will raise and appropriate an additional sum of money for repairs upon school houses and for the support of schools. Charles E. Montague and others.

Voted. \$722.

Art. 23. To see if the town will raise and appropriate a sufficient sum of money to pay sundry persons for services in fighting forest fires for the year 1910 and also \$127 for miscellaneous fund to reimburse for money transrerred to Forest Fireward. Samuel T. Parker and others.

Voted. \$350.

Art. 24. To see if the town will instruct the Board of Fire Engineers to install a hydrant on Pittman avenue, near Harrison avenue, Greenwood, and raise and appropriate money for the same. Roy Griffith and others.

Voted. Water Board instructed to install hydrant.

Art. 35. To see if the town will authorize its Treasurer, with the approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a term not exceeding one year and to issue the notes of the town therefor.

Voted. That the Town Treasurer, with the approval of a majority of the Selectmen be authorized to hire the sum of \$9976.22 for a term not exceeding one year, to meet the appropriations made at this meeting and to issue a note or notes of the town therefor. Any note or notes issued under this vote shall be payable from the taxes of 1911.

Voted. To take up Articles 5, 6 and 7.

Mr. Charles N. Winship read report of committee which recommended indefinite postponement.

Voted. That report be accepted and adopted.

Vote of thanks extended to committee.

Communication addressed to town from the Securities Co-operative Assn., Charles H. Woodman, Trustee, concerning the land bordering on Crystal Lake read by Moderator.

Voted. To refer communication to Committee having the matter in charge.

Art. 21. To hear and act upon the report of Committee appointed to repair the Hamilton school.

Report read by Dr. Montague.

Report accepted.

Voted. To take Article 19 from the table.

Voted. To rescind action.

Art. 20. To see if the town will vote to sell the sewer shed, now standing on land of the Boston and Maine Railroad, near the Junction Station or what they will do about it. Water and Sewerage Board.

Voted. That building be sold to highest bidder, that sale be advertised and bids secured.

Art. 27. To hear and act upon the report of the Selectmen laying out a town way from the Melrose City line, northerly to a private way known as Pearl street in that part of the town known as Greenwood and being what is now known as Renwick road and see if the town will accept and allow the same.

Voted. To dispense with reading report, that report be laid on table, that Selectmen be directed to have similar article in next warrant.

Art. 28. To hear and act upon the report of the Selectmen laying out a new town way from the westerly terminus of Hanson street in Greenwood to the easterly line of the location of the Boston and Maine Railroad, being the private way now known as Pearl street, and see if the town will accept and allow the same.

Voted. To dispense with reading of report, that report be laid on table, that Selectmen be directed to have similar article in next warrant.

Art. 29. To see if the town will vote to change the name of the of the way in Greenwood now known as Hanson street to Pearl street. Lee S. Bartlett.

Referred to Selectmen, they to report in connection with Articles 27 and 28.

Art. 30. To hear and act upon the report of the committee appointed under Article No. 28 of the annual warrant of March 14th, 1910, relative to laying a new floor in the auditorium of the Town Hall. Frank J. Henkel.

Mr. Henkel made verbal report for committee, report accepted, vote of thanks extended.

Art. 31. To see if the town will appoint a committee to consider the question of railroad facilities for the town of Wakefield, and authorize them to appear in behalf of the town at any hearings held on such matters. Edwin C. Miller.

Voted. That the town of Wakefield hereby create a Committee of Seven, the Moderator to be one and six others to be appointed by him, to be called the Committee on Railroad Transportation and Facilities, said committee being authorized to appear in behalf of the town at any hearing or conference held on matters pertaining to the subjects, to confer with any parties where it will appear that the town's welfare in these matters could be advanced, and to report to the town with suggestions from time to time; that the committee be authorized to fill vacancies as may occur from time to time.

Committee. E. C. Miller, Arthur L. Evans, C. N. Winship, C. L. Sopher, Frank A. Long, J. Fred Parker, Thomas G. O'Connell.

Art. 32. To see what rules and regulations, if any, the town will adopt for the custody, management and sale of real estate acquired by the town by virtue of deeds from the Collector of Taxes, and for the assignment of tax titles; and for the custody and disposal of lands taken by the town under the statutes, for non-payment of taxes.

Voted. That the subject matter of this article be referred to a Committee of Three, to be appointed by the Chair, who shall prepare regulations for the custody, management and sale of the land that has been acquired by the town of Wakefield at sales by the Collector under the provisions of the Acts and Resolves of Massachusetts for 1909, Chapter 490, Part II, Sections 68, 69 and 70, and that this committee report the proposed regulations at the annual town meeting in 1911.

Committee, Theodore Eaton, John J. Butler, M. E. S. Clemons.

Art. 33. To hear and act upon a report of progress of the committee appointed under Article 37 of the annual town warrant of March 14, 1910, relative to securing to the town of Wakefield greater benefits from the Metropolitan Park system. F. J. Henkel, for the Committee.

Mr. Henkel reported for the committee. Report accepted as report of progress.

Art. 34. To hear and act upon a report of the Selectmen acting under a resolution passed at the town meeting held April 25 1910, relating to the completion of Water street by the Boston & Northern Street Railway Co.

Mr. Clemons reported for the Selectmen. Report accepted as report of progress.

Vote of thanks extended to the Moderator.

Voted. To dissolve this meeting.

TOWN MEETING DECEMBER 19, 1910

Article 1. To choose a Moderator, by ballot, to preside at said meeting.

Thomas G. O'Connell elected Moderator.

Art. 2. To see if the town will vote to allow the Overseers of the Poor to use \$600 from the receipts of the Poor Dept. or what they will do about it. Hugh Connell.

Voted. To appropriate \$600, to be taken from the receipts.

Art. 3. To see if the town will raise and appropriate an additional sum of money for Park purposes. Eugene S. Hinckley and others.

Voted. To lay article on table.

Art. 4. To see if the town will accept a gift of \$500 from Clarissa E. Swain, to be held in trust and the income to be expended for care and adornment of the Swain and Moses burial lots in the Old Cemetery and the surroundings thereof.

Voted. That the town of Wakefield does hereby accept the gift of \$500 from Clarissa E. Swain, and that the Town Treasurer is hereby authorized to receive and receipt for the same. Said gift to be held in trust by the town and invested by its Treasurer, with the approval of a majority of the Board of Selectmen, and the income from said trust to be expended in the care and adornment of the Samuel Otis Swain and Nathaniel Moses burial lots and surroundings thereof, located in the Old Cemetery.

Art. 5. To see if the town will authorize its Treasurer, with the approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a term not exceeding one year, and to issue the notes of the town therefor.

Voted. To lay on table.

Voted. That this meeting be dissolved.

SELECTMEN'S REPORT

TO THE CITIZENS OF THE TOWN OF WAKEFIELD :

The Board of Selectmen respectfully submit their annual report for the fiscal year ending Dec. 31st, 1910, together with the reports of the several departments and committees under their control and supervision.

The Board organized March 10, with the election of J. Fred Parker, chairman, George E. Walker, secretary and the appointment of H. A. Simonds, clerk.

JUNK LICENSES—M. Arenstein & Co., John Taylor, M. Levine, I. Horovitz & Co., Hyman Barron.

AUCTIONEERS—Chas. F. Hartshorne, George H. S. Driver, Edw. B. Kelley, Fred'k S. Hartshorne.

VICTUALLERS—Mrs. L. A. Morin, H. T. Mitchell, Robert C. Arnold, Arthur L. Whitten, Geo. W. Bassett, Emma A. Rosson Est., Ernest Mortimer, Chas. H. Cheever, George L. Teague, Ralph DeCecca, Will H. Wiley, Frank D. Whitney, John H. Campbell & Sons.

GASOLINE—Ernest G. Willard, Joseph J. Hughes.

Rufus F. Draper, Janitor of the Town Hall, died Aug. 15th.

By his death the town sustained the loss of a painstaking, efficient and courteous official, one whose death we deeply deplore. The vacancy was filled by the appointment of Fred J. Black.

Report of Town Counsel

TO THE HONORABLE THE BOARD OF SELECTMEN.

GENTLEMEN—My report as to legal matters in litigation affecting the town is as follows :

Actions of tort against the town now pending—Thomas L. Harris, Mary A. Doucett, Hannah S. Wait and Richard Mirabito.

Actions of contract—Conway Contracting Co., Emily J. Morgan and actions by the town against the American Surety Co. and two tax collection cases against Eustace and Frank Fitz, last two defaulted.

MATTERS DISPOSED OF

Second trial of Doyle case, verdict of \$4000.00, settled.

Tax collection by suit without entry.

Action of Baragnawath settled for \$325.00.

In the Emily J. Morgan case there was a finding for the plaintiff and exceptions have been filed.

Tax cases of Willard Welsh and Susan Romney have been finally settled the town collecting costs.

Six cases brought in 1904 to revise sewer assessments are still undisposed of.

I have attended the hearings on the apportionment of the Metropolitan and Charles River Dam cost and maintenance.

The exceptions of the Defendant in the suit against the American Surety Co. were argued before the Supreme Court, Nov. 8, 1910, and are still undecided.

Respectfully submitted,

M. E. S. CLEMONS,

Dec. 31, 1910.

Town Counsel.

Engineers' Report.

TO THE HONORABLE BOARD OF SELECTMEN :

GENTLEMEN—The Board of Fire Engineers herewith present their annual report, containing the record of the fires attended by

the department, for the year ending December 31, 1910, and such other matter as they consider may be of interest to the town.

It will be seen that the number of alarms have greatly exceeded those of any previous year, especially in the number of still alarms. This shows that our citizens are becoming educated to the fact that a telephone call or sending word to the fire station for chimney or other small fires, instead of sending in a bell alarm, will accomplish the same result.

APPARATUS AND HORSES

The number of pieces of apparatus and horses are the same as last year, the only change being that at the annual town meeting the town voted to purchase the property owned by the Greenwood Library Association.

All the apparatus and horses are in good condition.

HOSE

There is in the department 5,700 feet of hose in good condition and 1,200 feet that must be re-lined this year.

During the year we have purchased 1000 feet of hose from the Boston Belting Co. at 65 cents per foot, using \$375 appropriated for that purpose at the spring meeting, and taking the balance from our regular appropriation, the firm allowing a 2 per cent. discount. The total cost was \$637. All the hose has been tested.

RECORD OF FIRES

The following are the alarms responded to during the year, the total being the largest in the history of the town. There were 35 box alarms and 65 still alarms, making a total of 100, as follows:

Monday, Jan. 3. Box 35, 10.32 a. m. Small fire in house rear of 11 Center street, owned by John Flanley heirs. Loss small. Caused by children.

Wednesday, Jan. 5. Box 35, 10.25 a. m. Cobbler shop, 383 Main street. Caused by kerosene stove. Loss small.

Thursday, Jan. 6. Box 29, 12.15 a. m. Boiler room at Municipal Light Plant, North avenue. Loss \$265. Caused by hot coal coming in contact with wooden partition.

Thursday, Jan. 6, Box 9, 10.25 a. m. Chimney fire in house No. 7 Wiley Place.

Sunday, Jan. 16. Still alarm, 12.17 p. m. House No. 10 Traverse street. Cause, smoking stove. No loss.

Tuesday, Jan. 18. Box 32, 10.28 p. m. False alarm.

Saturday, Jan. 22. Box 35, 2.55 p. m. Building corner Main and Mechanic streets, owned by Curley heirs and occupied by Social Club. Loss \$20. Caused probably by cigarette smoking.

Saturday, January 22. Still alarm, 11 p. m. Central fire station. Loss small. Caused by electric light wires.

Monday, February 7. Still alarm, 8.57 a. m. House No. 21 Nahant street, owned by Wm. G. Strong, occupied by Geo. W. Smith. Loss \$10. Caused by chimney.

Tuesday, February 25. Still alarm, 9.20 a. m. Chimney fire in house No. 40 Emerson street.

Friday, March 12. Box 24, 12.51 p. m. Grass fire off Broadway.

Wednesday, March 16. Still alarm, 1.55 p. m. Grass fire off Pleasant street.

Wednesday, March 16. Still alarm, 8.55 p. m. Grass fire off Albion street.

Friday, March 18. Still alarm, 1.55 p. m. Grass fire off Nahant street.

Saturday, March 19. Box 17, 5.25 p. m. Dwelling No. 44 Lake street, owned by D. Greany, occupied by David Wood. Loss \$65. Caused by children.

Monday, March 21. Box 7, 6.21 p. m. Grass fire off Nahant street.

Monday, March 21. Still alarm, 9.01 p. m. Grass fire off Pleasant street.

Wednesday, March 23. Still alarm, 1.23 p. m. Grass fire off Gould street.

Wednesday, March 23. Box 24, 1.48 p. m. Grass fire off Byron street.

Thursday, March 24. Still alarm, 11.25 a. m. Grass fire off Otis street.

Thursday, March 24. Box 29, 5.35 p. m. Dump on fire off North avenue.

Friday, March 25. Still alarm, 6.13 p. m. Grass fire off Nahant street.

Friday March 25. Box 7, 6.15 p. m. Grass fire off Birch Hill avenue.

Saturday, March 26. Still alarm, 2.35 p. m. Grass fire off Lake street.

Sunday, March 27. Still alarm, 11.38 a. m. Grass fire off Morrison Road.

Sunday, March 27. Box 6, 12.34 p. m. Forest fire at Castle Hill.

Sunday, March 27. Still alarm, 1.40 p. m. Brush fire off Broadway.

Sunday, March 27. Box 17, 1.59 p. m. Brush fire off Broadway.

Sunday, March 27. Still alarm 2 p. m. Brush fire off Nahant street.

Monday, March 28. Box 9, 7.10 p. m. Chimney fire in house No. 110 Water street.

Tuesday, March 29. Still alarm, 10.30 a. m. Supposed fire on Franklin street.

Tuesday, March 29. Still alarm 12.40 p. m. Brush fire off Forest street.

Tuesday, March 29. Box 6, 1 p. m. Brush and cord wood fire off Montrose avenue.

Tuesday, March 29. Box 58, 1.05 p. m. Same fire as above.

Tuesday, March 29. Still alarm, 2.58 p. m. Brush fire off Montrose avenue.

Wednesday, March 30 Box 37, 2.43 p. m. Dwelling No. 6 Spaulding street, owned by Waldo Cowdrey, occupied by Leslie Hall. Loss \$50. Cause, from chimney.

Friday, April 1. Box 23, 10.38 a. m. Fire in rubbish in cellar of Hamilton school.

Friday, April 1. Still alarm, electric car afire on Albion street.

Sunday, April 3. Box 17, 3.20 p. m. Brush fire off Broadway.

Friday, April 8. Still alarm, 2.25 p. m. Dwelling No. 7 Crescent court, owned by Mrs. Emma Glynn, occupied by Wm. Barrett. Loss about \$50. Caused by oily rags.

Monday, April 11. Still alarm, 4.40 p. m. Brush fire off Main street, Greenwood.

Tuesday, April 15. Box 26, 3.33 p. m. Grass fire off Park avenue.

Saturday, April 16. 12 m. still alarm. Brush fire off Spring street.

Saturday, April 16. Box 12, 1.13 p. m. Brush fire off Forest street.

Saturday, April 16. Still alarm, 4.15 p. m. Brush fire off Spring street.

Sunday, May 8. Still alarm, 1.25 p. m. Grass fire off Shumway Circle.

Thursday, May 12. Box 38, 12.13 p. m. Stable owned by C. Latimer, Lincoln street. Loss about \$57. Caused by children.

Monday, May 16. Still alarm, 1 p. m. Brush fire off Grafton street.

Monday, May 16. Still alarm, 2.30 p. m. Brush fire off Grafton street.

Thursday, May 19. Still alarm, 4.40 p. m. Chimney fire in house No. 65 Melvin street.

Friday, May 20. Still alarm, 6.43 a. m. Chimney fire in house No. 45 Valley street.

Friday, May 20. Box 6, 3.50 p. m. Fire at Poor Farm, Nahant street, in house for tools. Loss about \$250. Caused by careless smoking.

Wednesday, June 8. Still alarm, 6.05 p. m. Chimney fire in house No. 21 Crescent street

Saturday, June 18. Still alarm, chimney fire in house No. 268 Salem street.

Monday, July 4. Still alarm, 2.40 a. m. Rubbish fire off Main street, Greenwood.

Monday, July 4. Box 61, 12.10 p. m. Slight fire on roof of small shed off North avenue; loss, small. Caused by spark from locomotive.

Monday, July 4. Still alarm, 3 p. m. Brush fire off Forest street.

Friday, July 15. Still alarm, 11.55 a. m. Brush fire off Oak street.

Monday, July 25. Still alarm, 11.25 a. m. Dump afire off North avenue.

Monday, July 25. Still alarm, 3.05 p. m. Brush fire off Kendrick Road.

Tuesday, July 26. Still alarm, 4.20 p. m. Chimney fire, house corner Main and Salem streets.

Sunday, August 14. Still alarm, 2.55 p. m. Small fire on roof of grocery store owned by W. S. Atherton, Albion street. Loss small. Caused probably by cigar.

Saturday, August 20. Still alarm, 9.10 a. m. Chimney fire house No. 117 Albion street.

Saturday, August 27. Still alarm, 11.30 a. m. Brush fire off Lee street, Greenwood.

Saturday, August 27. Still alarm, 1.15 p. m. Brush fire off Lee street.

Sunday, August 28. Still alarm, 1.30 p. m. Brush fire off Lee street.

Sunday, August 28. Still alarm 3 p. m. Brush fire off Oak street.

Tuesday, August 30. Still alarm, 6.30 a. m. Brush fire off Kendrick Road, Greenwood.

Tuesday, August 30. Still alarm, 11.45 a. m. Brush fire off Pittman avenue, Greenwood.

Wednesday, August 31. Still alarm, 12.50 p. m. Brush fire off Harrison avenue.

Friday, September 2. Still alarm. Dump fire off North avenue.

Thursday, September 8. Box 13, 7.45 p. m. Dwelling not occupied, off Spring street. Owned by Albert W. Morton. Loss \$1300. Cause, unknown.

Thursday, September 15. Box 7, 1.13 p. m. Chimney fire in house No. 8 Traverse street.

Saturday, October 1. Still alarm, 12.45 p. m. Brush fire off Oak street.

Wednesday, October 5. Still alarm, 1.30 p. m. Forest fire off Water street.

Wednesday, October 5. Box 6, 2.55 p. m. Woods off Water street.

Wednesday, October 5. Still alarm, 6.20 p. m. Old rubbish rear of Taylor Buidling.

Thursday, October 6. Box 10, 10.17 a. m. Woods fire off Water street

Wednesday, October 12. Box 9, 9.59 a. m. Chimney in house on Wiley Place.

Friday, October 14. Still alarm, 12.45 p. m. Brush fire off Forest street.

Monday, October 17. Still alarm, 1.30 p. m. Brush fire off Forest street.

Tuesday, October, 18. Still alarm, 4.15 p. m. Brush fire off Spring street.

Wednesday, October 19. Still alarm, 1 p. m. Brush fire off Forest street.

Wednesday, October 19. Box 7, 1.15 p. m. Brush fire off Nahant street.

Wednesday, Oct. 19. Box 7, 2.23 p. m. Brush fire off Nahant street.

Wednesday, October 19. Still alarm, 5 p. m. Brush fire off Spring street.

Friday, October 21. Still alarm, 11.15 a. m. Brush fire off Spring street.

Monday, October 24. Still alarm, 10.12 p. m. Fire in tree off Richardson street.

Tuesday, October 25. Still alarm, 5.20 a. m. Supposed fire in small building on Centre street.

Sunday, October 30. Still alarm, 4.30 p. m. Fence at base-ball ground, West Water street. ¶

Monday, October 31. Box 114, 9.06 p. m. False alarm.

Tuesday, November 1. Still alarm, 1.45 p. m. Brush fire off Nahant street.

Saturday, November 19. Still alarm, 12.03 p. m. Brush fire off Broadway.

Saturday, November 19. Still alarm, 1.05 p. m. Brush fire off Oak street.

Sunday, November 27. Box 9, 1.37 p. m. Woods off Water street.

Tuesday, December 6. Still alarm 9.39 a. m. Dwelling No. 23 Lafayette street, owned by Ida Skinner. Loss \$30. Cause, spark from chimney.

Monday, December 12. Still alarm, 3.30 p. m. Automatic alarm, false, in L. B. Evans Son Co. shoe factory.

Monday, December 12. Still alarm 5.55 p. m. Kerosene lamp in house No. 32 Crescent street. No loss.

Friday, December 16. Box 17, 1.49 p. m. Slight fire in dwelling No. 59 Broadway, owned by James O'Connor. Loss small. Cause, oily rags.

Tuesday, December 27. Still alarm, 3.20 p. m. Chimney fire, house 243 Vernon street.

Value of property endangered, \$792,000 ; losses on same, \$1,922 ; insurance, \$69,100.

ACCIDENTS

During the year we have had but one serious accident. Driver W. C. Atherton fell through the pole hole at the Central Fire Station and broke his hip. He had been awakened during the night by the stamping of the horses and, arising hastily in the dark, turned the wrong way, going through the door leading to the pole instead of the one to the stairs. He was taken to the Mass. General Hospital where he was confined for about 5 months. He has since returned to duty, although he has not wholly recovered.

SPRINKLING SYSTEM

During the year the Taylor Building and the Miller Piano Factory have been equipped with complete sprinkling systems. The other large factories in town had been previously equipped with similar fire protection. These up to date precautions minimize the chances for big fires in these buildings and also are of inestimable benefit to other buildings in the immediate vicinity.

FINANCIAL

Our financial report will be found in the Auditors' Report and will show an expenditure of \$10,538.34. Of this amount \$8585 was voted at the spring town meeting and entered into the tax levy. The balance came from the receipts of the department.

The earnings from street watering during the past year were \$2054.37, and, for lack of appropriation, we received \$1780.62, leaving a balance of \$273.75 due the department. This, added to the receipts, make the earnings \$2231.84. If the same had been received there would be an unexpended balance of \$278.40 to be returned to the town.

CONCLUSION

We desire to express to your board our thanks for its assistance, to the members of the department for duties so cheerfully and willingly performed, and to the Finance Committee for their co-operation in bringing this department up to a standard which we believe to be second to none of its size in the state.

Respectfully submitted,

WM. E. CADE,
GEO. E. ZWICKER,
EDW. S. JACOB,
Board of Fire Engineers.

January 5, 1911.

Highway Department

TO THE HONORABLE BOARD OF SELECTMEN :

I have the pleasure to submit my report for the fiscal year ending Dec. 31, 1910.

I would recommend the following amounts to cover the expenses and needs for the following year.

Fences	\$200 00
Drains	200 00
Cleaning catch basins	300 00
Spring cleaning	2,000 00
Tools and supplies	200 00
Miscellaneous bills	300 00
Washouts	300 00
Patrol	650 00

Concreting	2,000 00
Edgestones	500 00
Cross walks	350 00
Gravel sidewalks	1,500 00
now	1,800 00
	<hr/>
	\$10,300 00

These are fixed charges based upon the year just ending.

NEW CONSTRUCTION

North avenue, Albion to Broadway	\$3,200 00
Avon street resurfacing	1,000 00

Evading railroad fare	1
Fornication	2
Gaming on the Lord's day	31
Gaming on week days	35
Insane	1
Illegal transportation	2
Larceny	9
Mutual assault	4
Malicious mischief	7
Non-support of wife	12
Profanity	1
Rude and disorderly	4
Short weight	1
Stubborn child	2
Truancy	5
Vagrancy	1
Violation of liquor law	12
Violation of Lord's day	2
Violation of town by-laws	11
Total	310

HOW DISPOSED OF

Appealed	12
Bound over to the Grand Jury	1
Continued	5
Defaulted	3
Discharged	7
Delivered to other officers	12
Fines paid	104
House of correction	4
Insane hospital	1
Committed for non-payment of fines	2
Lyman school	1
Placed on file	70
Released	82
State farm	6
<hr/>	
Total	310

Amount of fines imposed by the Court	\$1,754
Amount of imprisonment imposed	6 1/2 month, 10 days
Accidents reported	26
Broken wires reported	18

Fires extinguished without alarm	9
Horses shot	4
Lanterns in dangerous places	72
Lost children cared for	12
Search warrants served	12

LIQUOR LAW ENFORCEMENTS

There have been 16 successful raids.

While the number of arrests have increased during the year the number of arrests for drunkenness have decreased to a large extent.

RECOMMENDATIONS

A police department is one of the most essential things in any community; to it is intrusted the care and moral welfare of the community, and by it the moral condition of the community is represented.

The primary duty of a police officer is to prevent crime, and failing this, is to procure its punishment.

For this purpose he is invested with broad powers and may perform any act consistent with the rights of others and with the exercise of a sound discretion on his part.

But it should be understood that neither the state nor the municipality whose officer he is, assumes any responsibility for his wrongful action.

Physical and mental ability and moral character should be considered and politics eliminated.

I would recommend that you have a Police Department to consist of five patrolmen and a chief; and that for the maintaining of such a department the sum of \$5,500, together with the Court fines, be appropriated.

In conclusion I wish to thank your honorable board for the kindly assistance and advice given me.

To his Honor, Judge Bruce, and his assistants, Judges Fernald and Sweetser, and also the Clerk of the District Court, Wilfred B. Tyler, and his able assistant, Henry C. Bacon, I wish to extend my sincere thanks for the kind and courteous treatment accorded me throughout the year.

To all those who have in any way assisted this Department, you have my thanks.

Respectfully submitted,

JAMES J. POLLARD,
Chief-of-Police.

Report of Forest Ward

HONORABLE BOARD OF SELECTMEN :

GENTLEMEN :—I herein make my third report as Forest Ward.

Number of fires in 1910	71
Increase over 1909 of	34
Average cost per fire, including loads of water delivered at a fire by one or more teams	\$8 45
Average cost per fire in 1909	5 27

Appropriation Spring meeting	\$250 00
Appropriation Fall meeting	350 00
	<hr style="width: 10%; margin: 0 auto;"/> \$600 00
Spring payroll No. 10	\$347 50
Fall payroll No. 11	249 00
Unexpended balance	3 50
	<hr style="width: 10%; margin: 0 auto;"/> \$600 00

This is the first time for about ten years that this department has called for an additional appropriation, but owing to the very dry season and conditions it took ten to fifteen men to put out a fire when under ordinary headway which generally could be extinguished by four.

The returns from all over the State tell the same story.

During the year we have received from our engineers and fire department valuable assistance, rendering their services cheerfully when called upon to do so.

Respectfully submitted,

SAMUEL T. PARKER,

Forest Ward, No. 208.

Sealer of Weights and Measures

TO THE HONORABLE BOARD OF SELECTMEN :

DEAR SIRS :—I herewith submit to you a report of my work done in 1910.

	Adj.	Sealed	Con.
Platform scales capacity over 5000 pounds .		13

SARAH A. CUTLER,

Treasurer.

December 31, 1910.

CONCLUSION

The Board of Selectmen have held this year fifty-two meetings and three specials.

There have been 3323 orders drawn on the Town Treasurer aggregating \$256,324.56.

Eighty-seven building permits have been granted representing an estimated value of \$186,003.

Careful attention and consideration have been given to all matters pertaining to the town's welfare.

Our thanks are extended to the several Boards of the town for courtesies received and to the citizens for their co-operation and support.

J. FRED PARKER, Chairman,
GEO. E. WALKER, Secretary,
CORNELIUS DONOVAN,
A. G. ANDERSON,
ALBERT G. GOODWIN.

Treasurer's Report

TO THE CITIZENS OF WAKEFIELD :

I herewith present my report for the fiscal year ending January 1, 1911.

TRUST FUNDS.

The trust funds now in my hands are as follows :

The Flint Memorial Fund (Library)	\$1,000 00

FLOATING DEBT

Notes outstanding in anticipation taxes and receipts	\$150,500 00
Outstanding town orders	1,725 23
Outstanding treasurer's checks	47 65
Notes outstanding fall appropriations	9,976 22
Accrued interest to Jan. 1, 1911	5,564 44
Water department surplus	4,189 26
Sewer department betterments	559 65

Balances of appropriations carried over as per auditors :

Fire alarm	\$40 79
Foundry street sewer	177 05
Sewer maintenance	79 63
Schools general	94 56
Evening school	593 10
Salaries	50 00
Common and park	88 89
Moth department	4,251 93

Cemetery	98 70	
Railroad street land damage	165 00	
Water street land damage	325 00	
Markers, Revolutionary graves	42 25	
Library	48	
Lists of polls and estates	440 66	
Land for park	401 00	
	<hr/>	6,849 04.
		<hr/>
		\$179,411 49

CREDIT

Cash in treasury	\$46,615 32
Uncollected taxes, 1909	31,430 93
Uncollected taxes, 1910	73,510 62
Due from State, state aid one year to Jan. 1, 1911	3,837 00
Due from State, military aid one year to Jan. 1, 1911	192 00
Appropriations since tax levy to enter next levy .	9,976 22
Due from accrued interest to be appropriated .	5,564 44
Due from State, account moth department . .	1,180 78
Due from County dog tax, 1910	868 22
Due from light plant cash advanced from treasury as per vote of town	1,843 76

Overdraft as per Board of Auditors :

Poor department to be taken from re- ceipts of 1910 as voted but not received	\$318 02	
Hamilton school	1 05	
Interest	1,786 39	
	<hr/>	2,105 46
		<hr/>
		\$177,124 75
Excess of debits		2,286 74

The above shortage I believe to be accounted for by deductions made from tax levy by Assessors of anticipated receipts based on receipts of 1909. The loss to the town on the corporation tax would alone make a much larger shortage than amount shown above. See "final report."

Since last report Nos. 268, 341, 342 and 374 have been redeemed.

FINAL STATEMENT

During the year 1911 the following payments will come due, which are to be included in the tax levy for that year by votes which the town has already passed, except water and light plant which are paid from income of plant.

Municipal light plant	\$6,000 00
Warren school house	2,000 00
Water	4,000 00
Greenwood school house	2,000 00
Junction school house	2,000 00
Sewerage	6,000 00
North school house	1,000 00
Fire station	1,000 00
High school repairs	1,000 00
Greenwood gas extension	1,000 00
Insurance	500 00
Street light plant extension	1,000 00
Municipal light plant, 2d	2,500 00
West Chestnut street sewer	2,500 00
Appropriations since tax levy	9,976 22
<hr/>	
Total	\$42,476 22

There will also be required about \$32,643.75 to meet interest charges for ensuing year.

I should not consider my report complete without bringing to the attention of the town at this time the apparent deficit amounting to \$2286.74 as shown under the heading "Floating Debt" and the causes thereof. This deficit or shortage has not been brought about by any error or carelessness on the part of anyone, but is the result of circumstances which could not be foreseen and is liable to occur in any year. When the Assessors make up the levy of taxes, they are allowed by law to deduct anticipated receipts in an amount equal to but not exceeding the receipts of the previous year. These anticipated receipts do not always

materialize and the result is a deficit. There is also another cause for shortage in our business capital, and that is an ever increasing number of tax titles accruing to the Town at each of the annual tax sales.

This year the Assessors acting under the law and basing their action on the amount of Corporation tax received last year deducted from the tax levy the amount of \$9164.39 and much to the surprise of everyone the amount received from the state was \$5798.49, a loss in this instance alone of \$3365.90 in our working cash. Again this year the tax sales amounted to \$1901.60 which also lessens our cash resources, for both the \$3365.90 and \$1901.60 represent cash appropriated and expended by the Town and which should be received in cash through taxes to meet the expense of carrying on the business of the Town. It is true that there have been shortages from various sources every year, but there have also been certain unexpected receipts each year that have balanced or offset such shortages.

This year the amount of deficit shows that the losses are much greater than the gains. It must be apparent to anyone that no gains of the coming year can wipe out both this deficit and also any that may develop in the new year's business and should a continued shortage be accumulated year after year the Town of Wakefield will eventually be placed in the position in which some other towns have been placed and like them will at some future time be obliged to make an appropriation to meet any deficit which may have been piling up.

Having, I hope, explained to the Town, so that it may be understood, some of the causes by which a deficit may be brought about, I will now endeavor to suggest a remedy.

Every business man knows that in conducting the affairs of any firm or corporation and the Town of Wakefield is nothing more or less than a corporation doing business, that it is highly important to have as good a system of accounting as it is possible to obtain. Under our present system, we seem to be groping somewhat in the dark trusting that at the end of our business year one hand shall have washed the other, and that things will somehow

balance up. This, I do not believe, is good business on the part of the town.

The Legislature of Massachusetts has recently passed an act, Chap. 624, Acts of 1910, providing for a uniform system of City and Town accounting, which has already been adopted by some towns, while others have arranged their system to conform with some of the important details thereof. The Town of Reading has rearranged its system of accounting along the lines laid down by this Act, and I learn from the officials of that Town that it has proven highly satisfactory. Our present system of accounting as kept by our Board of Auditors, is and has been for many years very superior to that used by most of the towns of the State and does not materially differ from the methods laid down by the Bureau of Statistics under the Act referred to. While I do not recommend the adoption of the Act as a whole, there are, however, some essential features connected with the State method which I believe would prove a benefit to the Town if adopted.

I refer in particular to the Profit and Loss Account, which they have provided for and which every citizen knows is a very important account in any system of business accounting. With this Profit and Loss Account in operation, the Auditors would during the business year credit same with all unexpected gains and debit all unexpected losses and the net gain or loss would at the end of the year be provided for in the next year's tax levy by the Assessors deducting any net gain or assessing any net loss. This would wipe out any deficit such as has occurred this year and might occur in future years.

Another strong argument in favor of some system of this kind is the monthly trial balance covering every part of the Town's financial business; this balance sheet could be published at a small expense in our local newspapers so that every citizen could observe and study the Town's financial condition from month to month, instead of being obliged, as at present, to go through a whole year's work in the short time which intervenes between the publishing of the Annual Town Report and the Annual Spring Meeting.

I realize that I have made the longest reading report ever made by a Treasurer in the Town Report, but as it has always been my

desire to give any information that I could concerning any department with] which I have been connected, and to answer any inquiry to the best of my ability, whether it be from the Town, from a committee or from any individual citizen, I deem it my duty to call the attention of the Town to the above important matters and in closing would recommend that the Town either by a special committee or through its Finance Committee, take up the consideration of some system as above outlined for the keeping of our Town accounts, and make some provision for the future benefit of the Town.

Respectfully submitted,

ALBERT W. FLINT,

Treasurer.

Wakefield, January 9, 1911.

Auditors' Report

APPROPRIATIONS 1910

Highway and bridges	\$17,400 00
Street sprinkling	1,800 00
Municipal light, general	68,035 07

[CHAP. 412.]

AN ACT RELATIVE TO ANNUAL AND OTHER REPORTS OF CITY AND
TOWN OFFICIALS

Be it enacted, etc., as follows:

SECTION 1. No city or town, and no department or official of any city or town in this commonwealth, shall publish in any annual or other report for general distribution to the public, or to the citizens of any city or town, the names of persons assisted in any way by the poor department of any city or town, or the names of any persons receiving aid under the provisions of chapter seventy-nine of the Revised Laws and acts in amendment thereof and in addition thereto, residing in such city or town.

SECTION 2 This act shall take effect upon its passage. [*Approved April 16, 1910.*]

WILLIAM O. ABBOTT,

Secretary Board of Auditors.

Jan. 1, 1911.

* Overdrawn.

Auditors' Final Statement

The Board of Auditors herewith present to the town their report for the fiscal year ending January 1, 1911.

From February 1, 1910 to January 1, 1911, the Selectmen have drawn 3323 orders on the town treasury amounting to \$256,324.56.

We have examined the vouchers for these payments and have also verified the arithmetic of all bills coming before the Board of Selectmen for payment during the year.

We have verified the accounts of such departments as pay money into the treasury, and have examined the books of the collector of taxes, and of Albert W. Flint, treasurer of the library and reading room, and find them correct.

We have also examined the accounts of Mr. Flint as town treasurer, and find them correct, with the proper vouchers for all payments made by him, and that he has a cash balance of \$46,615.32 in the Wakefield National Bank.

We also certify that he has securities and deposits representing the various trust funds now in his charge.

A list of balances available for next year, either on account of unpaid bills or by past votes of the town, appears in the treasurer's report.

We have also examined the accounts of all departments and find them correct.

All payments made by this department are paid by orders drawn by the Selectmen, and vouchers for the same are on file at the Town Hall where they can be seen at any time.

In compliance with the vote of the town we have compiled the annual town report and submit the same.

Respectfully submitted,

WILLIAM O. ABBOTT,

WILLIAM J. STOUT,

WILLIAM M. KELSO,

Auditors.

C. E. WALTON, Collector.

WAKEFIELD, Jan. 1, 1911.

Report of Overseers of the Poor

In presenting our report for the year just closed we are pleased to state that all matters of the poor department have been attended to promptly and with the best of our ability.

Through the efficient management of the present superintendent, Mr. C. E. Gault, the farm is being improved substantially.

We recommend that more of the old pasture on Nahant street be plowed.

The home is in good repair, we having recently installed a new Gurney heater and the home life of the inmates is made as comfortable as possible through the care and kindness of the matron, Mrs. Gault.

Many of the aged inmates who are in a feeble condition have necessitated extra care and nursing.

For a detailed statement of the earnings and also our financial statement see Auditors' report.

Respectfully submitted,

HUGH CONNELL, Chairman

WILLIAM C. STRONG, Sec'y

EDWARD H. WALTON.

Thirty-Sixth Annual Report of the Fish Committee

THE CATCH

The fishing in Lake Quannapowitt for the past season, especially the first of the season, was up to the average catch. The latter part of the season being very dry the fish did not bite quite so well although some very fine strings of pickerel and perch were caught. The state commissioners have previously stocked the lake twice recently which is all they can do until the law is amended, which amendment your committee with the aid of the selectmen and our veteran representative they will move to secure.

TRANSFER OF FISH

It has been proposed to net as many as possible of the fish in "Crystal" lake and plant them in "Quannapowitt". This work (if done at all) will be done by expert seiners, without detriment to the water. All expenses will be borne by residents of Wakefield. Our two lakes we class among the most valuable assets of the town, especially "Quannapowitt" which is one of the best fish-breeding ponds in the state, and is frequented by multitudes of people in the course of the years, for healthful recreation or for a valuable food supply.

"WHAT LUCK?"

Poor luck seems to have stimulated greater effort; and enjoyment of the freedom of "the open" has been one good result, tho the strings of fish (in most cases) have been small. We report, however, a 4 lb. pickerel and one of 4 1-2 lbs. to the credit of Mr John Ardell; Mr. and Mrs. Wm. A. Gardner, 20 fish of all kinds; Chairman Samuel Parker, 20 pickerel and 1 black bass (Lost!) his poorest luck in many years; Mr. J. C. Hartshorne reports a catch after repeated and persistent effort during September and October, 1 bass, 52 pickerel, 24 perch and sundry eels. Twelve years ago he captured a 6 1-2 lb. pickerel, the largest ever.

BOAT HOUSE REPORTS

At Rosson's boat house, nothing of special interest was noticed except that the general record of fish caught and landed there, was one of the poorest ever known. At Wiley's boat livery, just

the other way. The catch was thot to be well up to the average, except for black bass. This fish was planted many years ago, and thru the years since have afforded much pleasure and good food to scores of fishermen. All persons concerned would doubtless like to see another batch put into the lake, with suitable restrictions until they have spawned once or twice.

EXPIRATION OF CLOSURE

All restrictions on the fisheries of lake "Quannapowitt" expired on December 1st, '10, and will not be reimposed until the change in the law regarding re-stocking is amended, as we have before stated. At Crystal lake, fishing may be enjoyed from the shores, but, yielding to public sentiment, the water commissioners have prohibited boat-fishing; notwithstanding, boats have been used there occasionally, and very excellent strings of bass and pickerel have been caught; and once, very early in the morning, the Water Co.'s boat was used, on the sly.

PREVIOUS PLANTINGS

Since the year 1885 there have been five plantings of food fish in lake Quannapowitt, including a large lot of German carp (by the town) salmon fry, rainbow trout, adult white perch and pike-perch fry, a very large number, all by the state fish commission. Not to our knowledge have any of these plantings added anything to the food supply of the lake, except, perhaps, in the case of the German carp. The pike-perch much resembles the common yellow perch, and it is possible that some have been caught but not recognized.

OUR GAME PRESERVED

Duck shooting on the lake is nearly at an end, as to results. Partridges, gray squirrels, pheasants and deer, from all reports, are more plentiful, especially deer. Wm. Harrington saw a herd of seven in the Lynnfield woods, and eight or nine others at various times. Six were seen at Rosson's grove at the head of the lake, also others in different parts of the town.

Respectfully submitted,

SAMUEL PARKER, Chairman,
JOHN F. MURRAY,
WILL H. WILEY, Secretary.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF WAKEFIELD

FOR THE

YEAR ENDING DECEMBER 31, 1910

SCHOOL COMMITTEE FOR 1910-1911

SUPERINTENDENT OF SCHOOLS

J. H. Carfrey, 73 Pleasant St.

OFFICE HOURS

Mondays, 7 to 8 p. m. Tuesdays and Thursdays, 8 to 8.30 a. m. Wednesdays and Fridays, 4 to 5.30 p. m.

Office, Flanley Block.

Telephone, Office 225-3. Residence 293-2.

Miss Lucy A. Noyes, Clerk. Hours, 8 to 12 and 1.30 to 5 on School Days.

REGULAR MEETINGS OF SCHOOL COMMITTEE

Second and fourth Fridays of each month at 8 p. m. at Committee Rooms, Flanley Block.

Report of the School Committee

The greatest waste in a school system is in the retardation of pupils, or their failure to win promotion. Each child that is obliged to repeat the work of a school year is a source of disappointment and chagrin to his parents, often a trial to the teacher, and an added financial burden to the town. The annual cost per pupil in the grades is not far from twenty dollars. If one hundred and fifty children fail of promotion that means three thousand dollars that must be appropriated a second time and is to a large extent a loss. The causes for failure to win promotion are many of course. A few children are mentally inferior, some suffer from physical defects and many lose a part of the school year from illness. Not a few take slight interest in their work or are utterly indifferent, and worst of all in some instances the parents take no interest in keeping their children in school or even try all means of keeping them out of school. The superintendent has made a careful study in detail of all these cases in our schools and your attention is called to the consideration of this matter in his report. The raising the age of admission last fall will somewhat diminish the left overs in the first grade and a still further raising it to five and one-half years would diminish it even more. The entire problem of retardation is everywhere being studied more carefully than ever and we hope to accomplish something towards stopping this great waste.

SCHOOL BUILDINGS

The Hamilton School basement was remodelled last summer by a special Committee of the town and is now in excellent condition. All the school buildings of four rooms or more have modern systems of heating and ventilating and sanitary modern plumbing. The three two-room buildings still have outside privies and two of them are heated by stoves.

Bubbling drinking fountains have been installed in all buildings so that in the grades no child is obliged to go up or down stairs to drink. In the High School this provision was not feasible but there are a sufficient number of fountains.

The general maintenance and ordinary repairs of buildings and furnishings is demanding an increased expenditure. This is necessarily so as the newer buildings are now needing paint and kalso-mine and material repairs to the heating plants, while the older ones are perennial in their needs. We do not see how this increase can be avoided unless the school property is allowed to deteriorate which of course is the most foolish economy.

PENMANSHIP

It is too soon to determine the full results of the change in the system of writing commented upon last year, but the outlook is promising for a better grade of writing. Coincident with the change in the system, a Supervisor of writing was furnished by the publishers to instruct the teachers and supervise the writing lessons. This was apparently of great value and we have employed the same person one day a week this year to continue the instruction and supervision. It has not been decided whether or not this will be permanent, but on the whole those towns that have a Supervisor have also the best writing.

INDUSTRIAL EDUCATION

A sewing class has been established as a part of the Evening School. The attendance was limited to fifty-five and that number applied the first night. The girls who applied are nearly all working in the factories. They are much interested and learning rapidly. How far the town should go in furnishing free instruction to wage earners is an open question. It is safe to say that most of these would go without instruction unless the town furnishes it. On the general subject of Industrial Education, so called, we have no definite proposition to submit. Many experiments are being tried in this State and elsewhere, and it seems likely that a definite plan will be worked out before long.

We recommend appropriations as follows :

Salaries	\$51,109 00
Fuel	4,490 00
Contingent	3,300 00
Books and Supplies	3,200 00
Evening School	800 00

and that the tuition receipts estimated at \$2,000 be added to the appropriation.

The salary schedule follows the report of the Superintendent. The detailed statement of expenditure and the list of unpaid bills appear on pages 146 to 153 of the Auditors' report.

We commend to your careful consideration the report of the Principal of the High School and that of the Superintendent, and invite the co-operation of all citizens in making our schools of the greatest possible good.

Signed,

CHARLES E. MONTAGUE, Chairman,
 Mrs. IDA FARR MILLER, Secretary,
 ASHTON H. THAYER, Treasurer,
 ARTHUR H. BOARDMAN,
 Mrs. EVA GOWING RIPLEY.

Report of Superintendent of Schools, 1910

TO THE SCHOOL COMMITTEE :

I hereby submit my report for the year ending Dec. 31, 1910. These reports usually cover about the same items from year to year. At this time, however, the nature of the report will be somewhat different. Attention might be called, however, to the general conditions of accommodations. We are as heretofore crowded at the High School, but by shifting again we have been able to adjust things. However, this shifting and adjusting have

been carried to the limit. At Greenwood the registration for the present school year is larger than usual. The 8th and 9th grades have been confined to one room through necessity owing to the large registration in other grades. By doing this, however, we have been compelled to place 54 pupils in one room where there should be but 42. At the Lincoln, the crowded grades are the 1st, 2d, 5th, 6th and 8th. Other schools are about normal. At the Lincoln the Committee adopted the plan of employing a permanent teacher to help backward pupils. This teacher acts also as a substitute in other buildings as the necessity requires. This will no doubt be permanent unless we adopt the more rational plan of giving fewer pupils to a teacher. When this is done, then each teacher will have an opportunity to give individual attention to those who are falling behind.

The Committee has also deemed it wise to place an assistant to the Principal in the Franklin School, which makes it possible for the Principal to devote some of his time to the work of supervision. The Principals of these large grammar buildings now have the time to do the real work of a Principal. This has been a long-felt want, and the good results accruing therefrom will justify continuing the policy. Every Principal of a building of seven rooms and upward should have the opportunity of supervision. The cares of a Principal in such buildings are numerous and taxing, and to require one in that position to teach the whole time and also to be responsible for the building is not economy. The immediate service to be rendered to teachers and to pupils in a large building is of great value. The constant presence of the Principal among the teachers and pupils helps to make the teaching more effective, the discipline more wholesome, and the progress of pupils more uniform.

SCHOOL WORK

The work along certain lines in the elementary schools have been specifically strengthened during the last two years.

WRITING

One year ago a new system of writing was introduced. The vertical that had been used a number of years was changed to the Whitehouse slant. A supervisor was employed to assist in this

introduction, and to make the change wholly successful the Committee deemed it wise to continue this plan, therefore a supervisor has been employed who visits each grade once a month. Not only does this individual visit each grade, supervising and giving lessons, but regular instruction is given the teachers, that they too may know and understand the work and to be able to give proper instruction to pupils during the intervals between the visits of the Supervisor. Great improvement has been shown in the writing among the pupils during the present year. We are seeking for ease of movement, legibility and neatness, and we believe we are getting these. Changing from the vertical to the slant unless carefully supervised is likely to work disastrously, and a long time is necessary to show marked improvement; but we are glad to note that the transition has been made with good effects and almost without exception pupils are writing with fairly uniform slant.

READING

A year ago the Aldine method of teaching reading was adopted in the primary grades. This system while it does not necessarily produce better reading than the Rational method which it displaced, it does produce a healthier, more active, and a happier atmosphere for the child. A greater interest is manifest, more joy in accomplishing and the children are more eager to measure their strength in the work.

The greater the activity in the work of young children the greater the progress; they accomplish more under freedom from restraint, and any system which taxes the mind, and requires a constant exercise of the memory for dry facts of vowel sounds, phonograms and the like takes pleasure from the learning and the early years of the school room work are likely to become drudgery. Under the present system such restraint is removed. The greatest danger, however, is in the transition from the activity to the more prosaic reading in second and third years. More than the average skilled teacher is needed. Special attention is being given to reading in all grades. Greater effort to interest is insisted upon in the proper development of the reading lesson, that pupils may understand what they are reading, and be able to give proper pronunciation of words, and to read with expression.

ENGLISH

Special effort is made this year in the teaching of English. Much oral work is being required especially in the lower grades. The desire is to secure an easy use of the language, as well as to secure correct English. It is thought that the oral reproduction of stories read or told; description of games, toys and playthings at home, lessons in geography, history and other subjects; narration of events within the scope of the children will enable us to secure good written language. It is the use of English in its proper form that is desired. The technical side of the subject is left until the seventh and eighth years of school. In studying the technical side of the subject great care is to be observed that the practical is also developed. Grammar as grammar without the ability to use the same is a waste of time.

ARITHMETIC

The ability to determine what shall be done and how to do it is the basis of our work in Arithmetic. A thorough understanding and familiarity with fundamentals is the special work at hand. It has been revealed that pupils do not readily use the fundamentals; that they are not as familiar and as accurate as they should be with addition, subtraction, multiplication and division of whole numbers, and of fractions. The teachers are working with me to improve this part of our work. We are striving to simplify methods of teaching the subject; applying problems to local trades and business; in general making the work more practical.

GEOGRAPHY

The Geography of the past consisted chiefly of map drawing, map questions; names of continents, countries, states, capitals, cities, different forms of land and water. The pupil spent several years learning about the same things year after year and getting on the whole an unreal idea of Geography. It is true there were some things in this method which were good and beneficial—names and location of countries, states, places and bodies of land and water. It is necessary that pupils be taught countries, states, capitals, certain important places and their location, also the location of important bodies of water—including important rivers; but there are other things equally important.

Pupils should know how one country or section depends on another country or section; the means for transportation; the natural resources; the manufactures and products; the people; the physical features and their effect upon the people and their resources; government; education; climate and its effect upon the people and the productions; be able to locate the sections of the natural food products, the great industries—iron, steel, lumber, cotton, wool and the like. They should be familiar with the great centers of population throughout the world. The above are in general the things with which every pupil should be familiar and of which each pupil should have a fairly accurate knowledge, as well as an accurate knowledge of countries, states and places; otherwise Geography is just so much book knowledge. To do this needs a reorganization of the whole subject, and we are attempting to do it. This is not theoretical neither is it a fad; it is practical and real.

To accomplish what has been briefly outlined in the subjects mentioned seems a great deal to some people. This is because of the traditional method of teaching different subjects. It is difficult to break from tradition. It is believed that all of the old must be kept, whereas much of the old should be omitted. If everything of the past is to be kept and there is little of the present to be adopted, then we have made no progress. We simply retrograde. Concentration upon a few things in each subject is much more to the point, and produces a more accurate and all-round intelligent pupil.

ORGANIZATION

A school system is organized for the purpose of giving to every boy and girl in the community such an education as will best prepare the individual for "complete living and for the participation in life's worthy interests and ambitions." The question for each community to settle is—What is meant by complete living? How far is an individual prepared for complete living who has received the bulk of his instruction in the three R's alone? Are we to consider a pupil educated and has the community done all it should for him, if we find on examination that he can solve any problem in arithmetic which may be given him?

or if he is able to show that he is a good fair penman? Is the only test of efficiency of a school system the ability as a high school graduate to solve a problem in interest? Is there nothing more to be desired than the ability to locate some obscure place on the map, to analyze some complicated English sentence, or to solve some special problem in Arithmetic? To listen to some of the self-constituted critics, one would gather that the above is the highest efficiency of any system. We accept without question that pupils should be taught to read, write and cipher, because it is supposed that without these they are unequipped to enter almost any employment. With such an equipment alone, how many are able to earn even the lowest possible wage? If it seems right and proper for the state to equip a pupil for this supposed basis for earning a living, why is it not also right and proper to send the pupil forth from the schools fully equipped to earn a living wage in some particular line of work? Furthermore, if education is to be confined to books, how is each community to deal with the ever-increasing number of individuals who are unskilled workman? Suppose every boy and girl could be kept in school until a high school course were completed, and the same line of work were pursued for all, confined wholly to books; or if you please give opportunity for the usual commercial branches—what special advantage in general would be gained for earning a living? We can not lose sight of the very commonplace fact that all pupils have not the same capacity nor the same interests. We must ever keep in mind also that early in the school life these diversified interests and capacities should be diverted into channels which will render the individuals capable of using their natural talents in the most efficient manner. This is the right of every individual, and the community for self-protection and for material advancement is in duty bound to respect it. The community that recognizes these things does not judge the efficiency of a school system by the test of whether a high school graduate is able to solve a problem in simple interest. To do these things needs the combined efforts and support of all—community, school committee and teachers.

HIGH SCHOOL

This department of the system is of exceeding great importance. At the present time the high school measures its efficiency by the number of pupils who are able to meet the requirements for entrance to some higher institution of learning. These requirements are those agreed upon by the colleges themselves. Tradition is responsible for this state of things, and the community is unable to rise above it. There seems to be wide difference between fitting for college and fitting for life. Ex-President Eliot believes that fitting for college should fit for life, and fitting for life should fit for college. Our high school should place its greatest effort on fitting for life; we cannot afford much longer to put our greatest strength on fitting for college. So long as the colleges dominate as to requirements it will be necessary to meet these with the few, but the great majority of the pupils are pursuing a different line of work. These are the pupils for whom the school should shape its policy. Whether we want or not, this is the work to be done. I firmly believe that the work in any subject should be the same for all who take that subject. What is necessary for one class should be given to the other and both should be equally difficult. Furthermore, I believe in our own high school we should in the near future add domestic science and industrial work. Opportunity should also be given to boys and girls now at work in the factories and trades to pursue part time courses. This department is for the people and opportunity should be given to every one to get all the education possible. True it will require readjusting, but the efficiency of a school is judged by the adaptation to the needs of its pupils and not to the adaptation of the pupils to the school. I wish also to state here what I stated in a previous report, that opportunity should be given the 8th and 9th grades and in the high school to listen to individuals from the different professions, trades and business as to the requirements in these different lines of work, that pupils may have guidance in the choosing of vocations—vocational guidance.

REGISTRATION

The registration in this department on Oct. 1, 1910 by ye \pounds s was as follows: First year 63 boys; 59 girls; 2d year, 39 boys; 58 girls; 3rd year, 36 boys; 54 girls; 4th year, 29 boys; 27 girls; Post graduates, 2 boys. Total 169 boys, 198 girls or whole number 367. It will be noticed that in the first and fourth years the number of boys exceed that of the girls, while in the second and third years the girls outnumber the boys, and in the total enrollment the girls exceed the boys by 29. This may be accounted for in that the boys have dropped out and gone to work in greater numbers than the girls. Their leaving may be due to the fact that interest becomes lacking, low standing follows and discouragement results. Furthermore, it is true that we have nothing to offer boys outside of the regular course but Commercial work. Typewriting and Stenography do not appeal to boys so much as to girls, and fewer take it. The facts demonstrate that it may be wise for us to seriously consider the advisability of offering some other form of vocational work which will appeal to the boys.

Following is a table which shows the studies pursued by the pupils in the high school and the number of pupils (boys and girls separate) in each study. This table is for the present year 1910-11 and is marked table 1.

TABLE I

SUBJECTS	BOYS	GIRLS	TOTAL
Algebra	86	74	160
Arithmetic	13	32	45
Bookkeeping	27	42	69
Botany	28	22	50
Chemistry	6	8	14
Mech. Drawing	73	13	86
Free-hand Drawing	24	93	117
English	165	191	356
French	67	88	155
German	25	16	41
Com. Geography	6	3	9
Plane Geometry	38	55	93
Solid Geometry	8	1	9
Greek	9	12	21
History	120	132	252
Latin	54	71	125
Penmanship	28	44	72
Typewriting	26	44	70
Stenography	26	44	70
Com. Law	12	8	20
Physics	34	30	64
Phy. Geography	8	10	18
Rhet. Exercises	29	25	54
Military Drill	113		113

Examination of Table I will reveal the fact that more girls than boys are taking the Commercial branches. This is significant and bears out the statement made above that Commercial work appeals more to girls than to boys. However, the table also shows that the Commercial department is quite popular, and warrants its existence as a part of the high school work. The fact that in the total enrollment of the high school, the girls exceed the boys in number, it follows that almost all the classes have a larger number of girls than boys. This again is an argument for seriously considering the advisability of offering something in the way of hand work for boys, in order to hold them longer in school and to give them a better equipment for life work. In mechanical drawing and physics (elective subjects) in which hand work predominates, the boys outnumber the girls.

AVERAGE COST PER PUPIL

The average cost per pupil based upon total enrollment for 1909-10 2452 throughout the whole system was \$27.15.

The average cost based upon the average membership 2153.1 was \$29.06.

The average cost per pupil based upon total enrollment 2390 for 1905-6 was \$25.48.

The average cost per pupil based upon average membership 2067.6 for the same year was \$25.99.

The same for 1900-01 based upon total enrollment 2003 was \$22.06.

The same for 1900-01 based upon average membership 1794.7 was \$24.62.

The cost to maintain the high school is not far from \$13.819. The average cost per pupil based upon total enrollment 382 for the year 1909-10 was \$35.29.

The average cost per pupil based upon the average membership 346.8 was \$42.73.

From this it would appear that it is necessary to do all in our power to so arrange the work that all may receive the most for the amount of money expended. At this point I would respectfully call your attention to the report of the High School Principal, which contains facts and recommendations worthy of consideration.

RETARDATION

During the past two or three years every Superintendent has set to work to ascertain the facts and causes of slow progress in his own system of schools. Two years ago in my report certain facts were given showing the number of pupils in different grades and year and their ages. These findings were significant and showed many cases of retardation especially among the middle grades. In my present report will be found tables in greater detail. These tables should be read by everyone. They are especially significant. What shall be done to better the condition of things? Is it not manifest that a more careful examination of the physical defects is necessary? Does it not signify that greater flexibility should exist in the course of study, and that more careful study should be made as to the kind of instruction to be given in the upper grades and in the high school? Are we giving just what we should to the pupils in order that they may remain in school a longer time? Are we aware of the fact that for every pupil who repeats a year's work it costs the town double to educate that pupil? The following Table (Table 2) shows the number of pupils in each grade or year throughout the system (one Table for boys and one for the girls) giving the number who are of different ages in each grade or year. The facts were taken Oct. 1. Attention is called to the fact that pupils enter our first grade at five years of age; the normal age, therefore, for each grade should be: 6 yrs. for the 2d; 7 yrs. for the 3rd; 8 yrs. for the 4th; 9 yrs. for the 5th; 10 yrs. for the 6th; 11 yrs. for the 7th; and so on, completing the High school course of four years at the age of 17 years. Examination of the table will reveal the fact that the age of entrance is quite uniform; those over age being foreigners, or those entering late; over these conditions school authorities have little control. The repeaters in this grade are mostly those

who are immature. The heavy type shows the columns of normal age. The large number who are above the normal age is very significant and is a serious problem. Many reach the age of 14 years before they have finished even the seventh grade. Their education is therefore very incomplete. At the present time, according to the table, 98 pupils will have reached the age of 14 years when they enter the seventh grade. This means that many of them will leave school and enter upon their life work. The question is, Are they sufficiently equipped to leave? If not, what can we do for them to give them a better equipment?

To further illustrate in a more specific sense the retardation in each grade, the following Table (Table 3) is given which shows a comparison between the years 1905-6, and 1909-10 giving the number of pupils of each grade in the elementary schools who failed of promotion. The percent of failures of the total enrollment at the end of the years compared is about the same, showing that about the same number fail each year. In each case a large number failed of promotion the first and second years. This is largely due to immaturity. Grades five and six show an increased number of failures. Investigation shows that the reasons for failure are—immaturity, irregularity of attendance for one cause or another, changing from one school system to another, dull and sub-normal.

TABLE III

Grades	Number promoted		Number failed		Total membership		Percent of failure	
	1905-6	1909-10	1905-6	1909-10	1905-6	1909-10	1905-6	1909-10
First	195	214	52	52	247	266	23+	19+
Second	212	219	14	30	226	249	6+	12+

Fourth	253	200	6	16	259	216	2+	7+
Fifth	192	222	14	17	206	239	6+	6+
Sixth	170	211	7	13	177	224	3+	5+
Seventh	174	158	4	10	178	168	2+	5+
Eighth	146	175	3	7	149	182	2+	3+
Ninth	115	129	4	1	119	130	3+	5+
Total	1,682	1,709	113	164	1,795	1,873	6+	8+

Upon further investigation, the result of which is somewhat startling, another table is given which shows the number of pupils in each grade or year throughout the school system who are now repeating or who have repeated a year at some time during their school course. The cases are numerous and will bear investigation. A closer examination as to physical defects is worth while. A pupil who repeats is a double cost to the community, and this alone is worth considering. If a physical defect can be removed, is this not an economical measure for the town to adopt? A different line of work might be introduced for those who because of dulness are retarded.

TABLE IV

Grade	Number
1st	71
2d	71
3d	85
4th	90
5th	62
6th	76
7th	64
8th	51
9th	36
High First	32
Second	21
Third	14
Fourth	10
Total	683

The preceding tables with reference to retardation have a peculiar significance.

1. Retardation would be lessened in the first and second grades by raising the age of entrance to five and one-half or six years. Many pupils are too immature at the age of five to do the work of the first year of school.

2. A different kind of work is necessary for certain classes of children—work in which the use of the hands predominate.

3. A more specific medical examination of children to discover physical defects, which taken in time may be remedied and the pupils rendered capable of doing regular school work. (Removal of adenoids and enlarged tonsils would possibly help a number of pupils).

4. Greater care on the part of parents to see to it that their children are more regular in attendance; that more attention be given to the health of the children in the home.

5. Dental inspection would no doubt reveal many cases where the condition of the teeth is a hindrance to the progress of the pupils—producing poor health.

The expense necessary to discover physical and mental defects and then put into operation such plans as will alleviate and make it possible for a greater development of the pupil would be much less than it costs now to educate the many pupils who because of some mental defect must repeat the work of each year. As before stated, it costs twice as much to educate the child who repeats a year as it does the one who is promoted regularly.

From the truant officer's report the following facts are gleaned :

Whole number of absent cases investigated	143
---	-----

Causes :

Truancy	51
Negligence of parents	46
Sickness	19
Miscellaneous	27

Five cases were taken into court.

EVENING SCHOOL

The Evening School owing to the change in the interpretation of law by the legislature with reference to the term "Minor" from age of 18 to 21, has caused a falling off in the registration of illiterate minors or those who are required to attend.

The registration is as follows :

Whole number of illiterates between 16 and 18, 34.

“ “ “ “ over 18, 29.

Whole number attending who desire to take advantage of the evening school to extend their education, 15.

The first class are obliged to attend regularly according to the law. The second and third classes deposit a certain amount which is returnable and insures regular attendance.

SEWING CLASS

An evening sewing class has been maintained since Nov. 1st. The number is limited to 55. Entrance is restricted to young women who are not members of the public schools. Much interest is manifested, and the attendance has remained normal. The course is intended to give instruction in plain sewing, cutting and fitting and the use of the sewing machine. To this will be added incidental instruction in Arithmetic and English ; talks on hygiene and home making are also planned for the season.

DRAWING

With the opening of the present school year, our new Supervisor, Miss Amy L. Butterfield, took charge of the work. She comes to us well recommended and her grasp of the various problems presented, proves that she is a capable and efficient supervisor. It is the aim of this department to make the work of the drawing practical in such a way as to justify its existence as a subject to be taught in the schools. The mere teaching of drawing—color, design, construction work, free-hand and mechanical as such with no apparent idea of its usefulness—is only little more than a pa

time. Unless there is a development of the esthetic in such a way that pupils will become keen observers of the beautiful and practical in the home and elsewhere; unless they are led to see the use that can be made of the subjects in the home, in business, in the trades and elsewhere, it does not justify the time and money expended.

MUSIC

It is little appreciated, I fear, how much is done for the community in the study of music in the public schools. If music is made a business as other subjects there is as much real education in the subject as any other in the curriculum. We are doing this, and instead of the former chorus singing we are endeavoring to teach music as music. Pupils should master the notation of music which will enable them to sing with ease any music set before them. The quality of tone receives its due share, so that music is enjoyable. Pupils should be able to sing without the aid of the piano, and the efficiency of the work is measured by what can be done in the upper grades. If 90 per cent of the pupils cannot and do not sing in the upper grades then we are not accomplishing what we should. The chorus singing in the high school and at the graduation is the admiration of all, and speaks well for the efforts made.

MANUAL TRAINING

Sewing and Sloyd work are making the usual progress. The sloyd work has been enlarged somewhat in that the pupils are given opportunity to make practical what they have learned in the use of tools. A certain amount of work by the pupils in repairing desks and chairs, making shelves and the like is done. It is the intention to increase this as fast as possible, that pupils may repair doors and windows, paint interior woodwork where needed and various other ways put into practical use the knowledge gained in the Manual Training Room. Under the direction of Mr. Peabody, the teacher, a steady improvement is rapidly going on in the department.

The sewing for the girls is eminently practical in every way. Much interest is manifested, and the articles of usefulness seen in

the every day work, certainly indicates that in after life the work done in the schools will be of great benefit to all. It is hoped that in the near future the course in the subject may be extended to the high school. It is also desirable that sewing machines be added to the present equipment that girls in the 9th grades may be taught how to use them. Hand sewing, cutting and fitting are useful, but the sewing machine is almost an indispensable article in every household, and is quite necessary that the girls should be taught to use them under a competent instructor. The sewing teacher has asked for these for several years and it should meet with approval.

Our next step for the girls is cooking, and I trust that the town may see fit at no distant day to furnish the equipment for the 9th grade and the first year of the high school, that this may be carried forth.

PARENTS' ASSOCIATION

During the last school year there was organized in the Greenwood district a Parents' Association. This we hope is only the beginning of such organizations to be formed throughout the town. The above organization has been very active since its inception and has done a great deal to bring the parents and the public in general in close touch with the school and its needs. Through its efforts a very successful experiment in school gardening among the pupils was carried forth. During the Fall term of the present school year an exhibition of the products of the gardens was held, and much interest was manifested by pupils and parents. Under the auspices of the same organization a stereopticon lecture was given by Supt. O. A. Norton of Marlboro, Mass., showing views of various forms of industrial school work in different parts of the country. Many questions of vital importance to the schools are planned to be discussed by this Association during the school year. It is hoped that some of these may take shape and be made effective in the schools.

The outgoing class of the 9th grade at Greenwood last year presented the school with a stereopticon lantern which has been a decided addition to the equipment of the school. It is proposed and plans have been made to procure slides on the subjects of

Geography, Science and History and give talks to the different classes. It seems to me that it would be well for the school department to own such a lantern to be used in any of the schools for this purpose. Slides may be procured as a loan without cost on any of the above subjects, the use of which would create a decided interest on the part of the pupils in their studies. Face to face with views as above mentioned with explanation would clear up many obscure things in the minds of pupils and make the subjects more real.

DRINKING FOUNTAINS

The law prohibiting drinking cups in public places and in school buildings went into effect Oct. 1 last. The School Authorities have just completed the equipment of all schools with drinking fountains to conform to the law. These fountains are simple and inexpensive, and admirably serve the purpose. There is no extra and expensive work upon these, and we believe we have solved the problem of a wholesome and sanitary fountain.

GIFTS

We beg leave to acknowledge at this time all gifts made to the schools during the past year, and trust the donors will accept this as voicing our full appreciation of their generosity.

In conclusion, I wish to say that I deem it an honor to be connected with the schools of Wakefield as Superintendent and I desire to thank publicly all who have been and are my co-laborers.

Respectfully,

J. H. CARFREY.

Dec. 31, 1910.

High School Principal's Report

MR. J. H. CARFREY,

Superintendent of Schools.

DEAR SIR:—Herewith is presented my sixteenth annual report and the eighteenth in the series of the High School Principal's reports.

ATTENDANCE. PUNCTUALITY.

The year ending June, 1910, saw the largest enrollment ever recorded in the history of the school, viz., three hundred and eighty-two. Of this number, twenty were Lynnfield pupils, distributed about equally among the four classes. The present year of 1910-1911 has shown, thus far, an enrolment of three hundred and sixty-seven, the falling off from the record of last year being due almost entirely to the unusually large number leaving by graduation last spring. The percentage of attendance for the year, 96.4, does not differ greatly from that of years past and is about as high as, in reason, could be expected.

The record for tardiness for the last five years is as follows; 1905-6, 1.46 cases of tardiness per pupil; 1906-7, 1.77 cases; 1907-8, 1.59 cases; 1908-9, 1.12 cases; 1909-10, 1.23 cases. I cannot help thinking that this record is needlessly high. Neither do I feel that an apology is called for when I urge that greater attention be given this homely virtue of punctuality by High School pupils. There are, of course, occasions when tardiness is unavoidable and in every way excusable. Concerning these I have nothing to say; but it is the needless cases about which I am concerned. Most of these can be traced to the tendency, too widely prevailing, to leave little or no margin for accidents, variations in clocks, etc. Snowy or icy sidewalks, or a heavy rain storm almost inevitably bring their crop of tardy marks. Forethought seems hardly to have a place among the possessions of the youth of today. I ask for the cooperation of parents in our efforts to correct this failing.

WORK OF THE SCHOOL

Although the school year was somewhat broken by the enforced vacation due to the epidemic of small pox, on the whole the year's work was satisfactory. An unusual number of pupils tried examinations for entrance to college, the results of which indicated successful work on the part of the various departments. Something over ninety percent of the examinations taken in June were successfully passed and those failed at that time were finally passed this fall.

DRAWING

I desire to renew my recommendation of the last two or three years that more time be allotted to the subject of drawing. Pupils from this school entering technical schools find themselves in competition with those who have studied drawing four times weekly, with periods fifty-five minutes in length.

Our pupils study the subject once a week for forty-three minutes. Drawing instruction is much sought here and as a consequence the entire time allotted to the teacher is given up to teaching, one class following close upon another. All preparation and distribution of drawing materials and boards must, therefore, be taken out of the single period assigned each class. When the time occupied in reaching the room from the last recitation and in putting out drawing material at the beginning of the period and in collecting it again at the end has been deducted, not more than thirty minutes of the period is left for actual drawing. If it is not feasible to increase the time allotment to four periods weekly in the form of two double periods, the efficiency of the work could be more than doubled if each period as now offered could be made of double length. This would require the services of the drawing teacher four days in the week.

GERMAN

Since the introduction of German into the course, several years ago, it has been confined to the last two years of the course. French, meanwhile has been offered three years, being a compulsory subject except for pupils beginning Greek. As a subject for

entrance to college, German stands on a par with French and there is no reason why pupils who desire to enter college on maximum German should not be allowed to do so. It seems to me, therefore, that German should be a three year subject as well as French

MUSIC

The conditions under which the subject of Music is carried on are far from satisfactory. In the first place the building has no room large enough to accommodate the larger of the two choruses into which the school has been divided. It has been found necessary to divide the second year class, allowing each half to sing each alternate week with the senior and junior classes. Further, the larger chorus crowds uncomfortably the room assigned to its use. Considering the adverse conditions under which the work is done it is, and has been for a long time, a source of wonder to me that Mr. Wilson has been able to achieve such success with the chorus. However, whenever suggestions for enlarging still further and strengthening the music work, have been made, the conditions forbid any consideration of the subject.

PHYSICS AND CHEMISTRY

A very commendable interest has been shown in these subjects by those electing them. This interest has been fostered by the attempt to connect the class room work with the living interests of the pupils.

ENGLISH

In this subject a serious effort has been made to co-ordinate the work with the work of other departments. Much attention has been given to English grammar and also to spelling. It is a question whether it is not best to refuse credit for written work in which is any considerable number of misspelled words. Oral English is also receiving attention.

THRIFT

By a law passed last year, the teaching of thrift in school is now required. In the early fall, a representative of the Savings Bank Life Insurance League addressed a meeting of the senior and junior classes upon Savings Bank Life Insurance. It has occurred to me that it would be a wise move to secure the services of a representative of the Cooperative Bank to describe the modus operandi of these institutions. I can think of no better way to encourage thrift than allowing an accredited agent of the local Cooperative Bank to receive at the school building the monthly dues of those pupils holding shares.

BOTANY

An attempt has been made in a small way to correlate this subject with home life. If the time now given to this subject as taught from the text book could be given to elementary work in agriculture or market gardening, it would be to the advantage of the children.

A few weeks ago forty-eight pupils were asked if their parents had fruit or vegetable gardens. Of the forty-eight, twenty-eight answered "Yes" and twenty "No." An estimate was made of the value of the fruit and produce raised in these gardens and it was found that it amounted to almost exactly a thousand dollars. For the entire town at the same ratio between thirty and forty thousand dollars would be the value of the fruit and produce raised in the numerous home gardens of the town. In view of these efforts to add to the family income it would seem worth while to make these gardens more profitable still, by means of a study of soils, of the kinds of produce best suited to each, and of the proper methods of raising and caring for the various products.

I believe that some modification of the course in botany is called for, looking toward the introduction of something more practical and everyday. When this is done, the boys, who now are far from interested will become, I venture to say, enthusiastic over the subject.

RESORT TO HIGH SCHOOL

Below is a table which will be of interest to the people of Wakefield. The table includes the enrolment in June, 1910, of practically all the High Schools in Massachusetts in towns between 8,000 and 16,000 of population, together with that of a few cities, nearest to Wakefield, like Everett and Malden, and four or five in other portions of the country. It also includes the population of the same places according to the census of 1910 and the number of pupils for each thousand of population, in High School. It will be noted that Wakefield is second in the list with 31.6 pupils in the High School out of every thousand of its population, being surpassed by Melrose only, with the phenomenal number of thirty-seven.

Town	Enrolment	Population	Pupils per thousand of population
Adams	209	13,026	16

Chicago	17,772	1,470	8

PERCENTAGE OF GRADUATES

Another interesting table is found on page 209, showing the percentage of the entire enrolment that graduated. If all the four classes in school were of equal size and graduated the full number with which they entered, the percentage graduating would be 25% of the entire number — a perfect record. From the table it will be seen that five cities named in the table surpass Wakefield, viz., Chelsea, Brockton, Haverhill, Taunton and Manchester, N.H. For the data, other than the percentages in the table, which are my own, I am indebted to the Journal of Education.

The dark faced figures of the table indicate the membership of the present Senior class throughout the course.

MISCELLANEOUS

During the year, the school's certificate right has been renewed for three years by the new England College Certificate Board, whereby approved graduates are admitted without examination to the colleges composing the Board.

CLASS OF 1910

The following entered colleges and higher institutions of learning during the year.

Marjorie T. Bunker, Boston University.
 Marjorie G. Smith, Simmons College.
 Ruth E. Hickey, Salem Normal School.
 Walter C. Hickey, Boston College.
 Frances L. Holmes, Radcliffe College.
 Lillian M. Lawrence, Simmons College.
 Winifred B. Watkins, Salem Normal School.
 Donald White, Harvard College.
 Benjamin B. Anthony, University of Maine.
 Paul H. Taylor, Massachusetts Institute of Technology.
 Alice Lee Morrill, Bradford Academy.
 Elden I. Staples, Massachusetts Institute of Technology.
 Gertrude Tingley, Lassell Seminary.
 Roland A. Payne, Massachusetts Agricultural College.
 Hugh M. Kelso, Massachusetts Institute of Technology.
 William W. Grace, University of Maine.

In conclusion I wish to express my appreciation of the loyalty of the teachers of the school.

Respectfully submitted,
 C. H. HOWE.

GRADUATION EXERCISES, WAKEFIELD HIGH SCHOOL,
CLASS OF 1910

Town Hall, Thursday, June 23d, 8 o'clock

PROGRAMME

Overture

Chorus—Larghetto Beethoven's 2d Symphony

Oration—(Salutatory)—America, the Land of Resources

ELDEN IVAN STAPLES

Declamation—The Duty of Criticism in a Democracy Godkin

THOMAS BROWN STEWART

Chorus—The Glad Festal Day From "Carmen"

Recitation—(Honor Part)—Rena, a Legend of Brussels

Julia C. R. Dorr

JANETTE PAULINE MAYENT

Semi-Chorus—Life of Youth Geibe

The Nightingale Gaul

Recitation—The Bishop's Candlesticks Hugo

GERTRUDE TINGLEY

Essay—The Finding of One's Self

WINIFRED BELLE WATKINS

Chorus—The Storm Fiend Roeckel

Recitation—The New Era in Higher Education President Angell

WALTER CEYLON HICKEY

Essay—(Valedictory Rank)

FRANCES LEVERTON HOLMES

Presentation of Diplomas—Dr. Charles E. Montague

Chairman School Committee

Class Song

Thuringian Folk Song

Benediction—Rev. C. L. Petersen

Note—Leo Edward Bourdon held second rank in the class but was excused at his request.

Motto :—Aut Reperiam, Aut Faciam

CLASS SONG

FRANCES LEVERTON HOLMES

As slowly sinks the sun
 In the far, golden west
 Our high school days are done,
 Partings draw nigh
 Tho' oft' there clouds have been
 We oft' the blue have seen,
 Now only fair hopes gleam
 In the clear sky.

When the bright morn appears
 We a new life begin,
 Amid our hopes and fears
 To stand or fall.
 Then we must take our way
 Out o'er the world to stray,
 All willing to obey
 Duty's stern call.

Tho' there may troubles be,
 Tho' some dark day may fall,
 Which we cannot foresee,
 Our faith to prove,
 We surely shall succeed
 Trusting in time of need,
 In Him, our strength indeed,
 Who dwells above.

Report of the Board of Health

The Board of Health herewith submits its annual report. The number of contagious diseases reported to the Board are as follows :

Scarlet fever	36
Measles	20
Diphtheria	10
Typhoid Fever	3
Whooping Cough	1
Tuberculosis	5
Infantile paralysis	1
Small Pox	37
Persons dumping offensive offal, warned	9
Hog pens ordered cleaned	8
Leaking pipes and traps corrected	22
Overflowing vaults ordered cleaned	18
Vaults removed and buildings connected with sewer	6
Defective water closets ordered repaired	10
Overflowing cesspools ordered to be emptied	14
Dogs buried	2

The board considers that the health of the Town is generally good.

The small pox epidemic early in the year was very largely responsible for our unusual expenses, but we think the Town will believe that it emerged from the difficulty very satisfactorily.

The Board are still of the opinion that the Town should provide means for the collection and disposal of swill, and would recommend that an appropriation be made for the purpose at the next annual town meeting.

Respectfully submitted,

JOSEPH W. HEATH, M. D., Chairman,

DAVID TAGGART, Health Officer,

AUGUSTUS D. JENKINS, Secretary.

Report of the Inspector of Plumbing

TO THE HONORABLE THE BOARD OF HEALTH :

Gentlemen :—The work in the Plumbing Department for the year ending December 31st, 1910, was as follows :

Applications filed	101
Applications left over from 1909	4
Applications left over from 1910	2
Inspections and calls made	338
Number of fixtures set	485
Water Closets	131
Bath-tubs	73
Bowls	81
Sinks	103
Wash-trays	89
Butler-sinks	2
Grease-trap	1
Urinals	1
Slop-hoppers	1
Drinking founts	3
Alterations	7
Sewer Connections	31
Cesspools	32
Surface drains	7

Thanking the Secretary, the Board, my craft and the citizens at large for their kind co-operation, I am,

Yours truly,

GREENLEAF S. TUKEY, Plumbing Inspector.

Respectfully submitted, Jan. 1st, 1911.

Report of the Inspector of Milk

TO THE BOARD OF HEALTH :

Gentlemen :—I herewith present my annual report as Inspector of Milk for the year ending Dec. 31st, 1910.

The number of samples collected and analyzed during the year have been one hundred and forty-eight.

The average of milk solids, less fat was	9.16
Of butter fat	3.86
	<hr/>
Total solids	13.02

With the standard at 12.15 I think the above average shows milk of a very satisfactory quality.

I have also visited several of the larger dairies and found the barns clean and well ventilated, and the milk produced under conditions that will admit of a very close inspection.

Twenty-five licenses have been issued during the year, also ten registrations.

Respectfully submitted,

H. A. SIMONDS, Inspector of Milk.

Wakefield, Dec. 31st, 1910.

Report of Library Trustees

The Library Trustees respectfully present their report of the Library, the Reading Room and the Greenwood Branch for the year ending December 31, 1910.

Early last January all departments were closed for three weeks by order of the Board of Health on account of the epidemic of Small Pox and normal patronage was not regained until well into the Spring. Since June, however, the circulation has been larger each month than for the corresponding month in any previous year. There has been steady increase in the use of the non-fiction cards which were introduced early in the year. There have been over five hundred new applications to use the Library, which is over a hundred more than for any previous year. In fact the Library is each year serving more and more of the people and serving them not only with light literature but with books of reference and serious study. Hampered as the Library is for room, this development along serious lines is especially gratifying.

In the purchase of new books each Trustee has been made responsible for some department of literature and by so doing it is hoped to develop the Library more systematically and evenly than has been possible in the past. Every patron is urged to assist the Trustees in this effort by kindly suggestion and criticism.

During the coming year it will be necessary to add another card catalogue cabinet and this will demand more or less rearrangement of the present waiting room. The Greenwood Branch and the Public Reading Room have both been well patronized and are in good condition.

The Board has with regret received and voted to accept the resignation as Trustee of Mr. H. Lee M. Pike on account of his

removal from town. Mr. Pike has been a member of the Board for four years and has given generously of his time and thought to the development of the Library. It will be necessary for the town to elect a Trustee to serve out his term at the Spring election.

The Library has received various gifts of books and magazines during the year which have been gratefully accepted. A list of the same and statistics regarding the Library will be found in the Librarian's report following this report.

During the past twenty-five years nearly every Board of Trustees has emphasized the entire inadequacy of the Library accommodations. This fall the present Board recommended definite action to the town which would have made the erection of a Library building in the more or less near future a certainty. With the approval of some of our most influential citizens the Trustees secured the option on the Mansfield and Hickok properties on the northerly corner of Main and Avon streets with future option on the Hickok property at 3 Avon street. These properties were both in the market and the Trustees believe they were fortunate in obtaining reasonable figures thereon. From assurances they had received and from the universal interest in the project, the Trustees believe it would have been possible to raise a building fund by popular subscription provided the town bought the lot.

This proposition met with general favor at first and at the second session of the Fall Town Meeting, the town even voted to purchase the lot, which vote was reconsidered at the next session and the whole subject was finally indefinitely postponed.

The need of reasonable quarters is, however, better known and better realized than ever before and we believe the citizens will face and solve in the near future the problem of erecting a Library building worthy of the Town of Wakefield. Until such time, however, it is the duty of every citizen to co-operate with the Trustees in making the present cramped rooms attractive and useful to the greatest number of people.

A summary of the receipts and expenditures for the past year follows :

LIBRARY

Appropriation	\$1,000 00
Income from dog tax	895 87
Income from trust funds	280 20
Income from fines, etc.	118 47
Balance unexpended, 1909	12 42
	<hr/>
	\$2,306 96

SALARIES

Librarian	\$600 00
Assistants	285 55
	<hr/>
	\$885 55

BOOKS

New	\$322 11
Replaced	127 29
Duplicate	25 95
Binding	45 13
Rebinding	133 67
Miscellaneous	29 45
	<hr/>
	683 60
Printing	104 10
Express	8 25
Incidentals	81 88
Lighting	275 15

GREENWOOD BRANCH

Librarian	135 50
Assistant librarian	38 77
Janitor	26 00
Express	25 00
Miscellaneous	9 85
	<hr/>
	235 12
Librarian, sundries	32 83
	<hr/>
	2,306 48
	<hr/>
Balance unexpended	\$ 48

READING ROOM

Appropriation	\$275 00
---------------	---	---	---	---	---	---	---	----------

SALARIES

Daily attendant	\$40 00	
Sunday attendant	38 75	
Magazines and newspapers	151 86	
Magazine covers	17 94	
Incidentals	8 45	
							<hr/> \$275 00

Based upon these expenditures the Trustees recommend for the Library the appropriation of a sum which, with the Dog Tax will amount to \$1,950, a sum \$50 in excess of last year due to the need of a card catalogue cabinet.

For the Reading Room the Trustees recommend the appropriation of \$275.

Respectfully submitted,

RICHARD DUTTON, Chairman.

\$4,857 52

Less re-assessed	297 45
--------------------------	--------

Total exemption and abatements .	\$4,560 07
----------------------------------	------------

A few facts in regard to the general condition of this department would perhaps be of interest to the tax payers.

Increase of personal property	\$2,777 00
Increase of building assessments	254,075 00
Increase of land assessments	34,875 00

Increase in net levy	13,016 74
Increase in soldiers' exemptions . .	2,677 79
Increase in widows' exemptions . .	32 90

The comparative table although showing a large increase in real estate values and a good increase in new buildings, is entirely offset by increased appropriations.

As it requires between eight and nine thousand dollars to make a difference of one dollar on the rate, the \$13,016.75 to be raised over that of last year caused a \$20.50 levy as against \$19.00 in 1909. We are carrying on the recommendations as fast as possible of the committee of 31, and adopted by the town and shall continue to do so until values are adjusted as equitably and just as can be done.

We recommend a permanent clerk for this department outside of the board to keep up the ever-increasing demands of the State and general public as regards to cards, books and records.

Our maps have never been sub-divided in any form since they were made, and we recommend \$500 be appropriated to begin the work by an engineer, that sum to go as far as possible, and more next year if necessary. This work should commence at once.

FREDERIC S. HARTSHORNE, Chm.,
CHARLES A. CHENEY,
SAMUEL T. PARKER, Sec'y.

EIGHTH ANNUAL REPORT

OF THE

Water and Sewerage Board

OF THE

TOWN OF WAKEFIELD

FOR THE

YEAR ENDING DECEMBER 31, 1910

Annual Report of the Water and Sewerage Board

The eighth annual report of the Wakefield Water and Sewerage Board is herewith presented, with the usual statistics of the water department, to which, this year are added those of the sewer department.

WATER DEPARTMENT

We are able to report this year as having been one of the most financially successful, since the ownership of the plant by the town,

the total receipts being	.	.	\$38,853 38
total expenditures	.	.	34,664 12
			<hr/>
leaving a surplus of	.	.	\$4,189 26

These figures illustrate what a splendid asset the town has in its water plant. Every dollar of the cost, including maintenance, operation, construction, interest and the payments of the bonds have been taken care of, annually, by the income, and although there has been a liberal reduction, each year, in the water rates, there has still been an annual surplus to the credit of the plant.

The present value of the plant is \$290,000 00

The bonded debt 207,000 00

Increased value 83,000 00

The water rate reductions total 69,000 00

Net gain \$152,000 00

all, the result of seven years of town ownership.

We especially emphasize this, at the present time, because of the note of pessimism so often rung in town affairs and departments; and we believe that this report will help to inspire hopefulness and optimism in the financial future of our beautiful town.

The board is confident that notwithstanding the reasonably necessary acquirements of property, and needed improvements to the system, the plant will continue to earn revenue to pay for it all; and with conservative management, not a dollar need ever be raised for it in the tax levy.

We have, this year, reduced the rates on bath tubs to two dollars per year and the rates on hydrants for the coming year, to fifteen dollars per year; the original rates were five dollars for bath tubs and thirty-five dollars for hydrants, making in each case a reduction of about sixty per cent.

The construction work has been continued as in the past. The Bellevue Park extension, which required the laying of 3000 feet of pipe, has been completed and gives to that section the much-needed water supply. It was necessary, in this case, to make a formal taking of land in order to go under the track of the Boston & Maine Railroad.

The six inch main on Main street, above Nahant street, has been replaced by a sixteen inch main, thus increasing the Main street supply and strengthening the weakest part of the system.

Altogether, there has been laid 8,500 feet of main pipe and 8,560 feet of service pipe. The cost of the main extensions have been brought to the low average of eighty cents per foot.

Upon the request of this board, the officials of the Boston & Maine Railroad have ordered that the toilet closets be locked on all trains passing by the lakes, thus giving protection to our water supply against pollution from this source. We have extended to the officials of the railroad, our appreciation of the promptness and courtesy which they have shown in remedying the dangerous conditions.

As an indication of the growth of the town and extension of the plant, it is interesting to note, that the water takers have increased from 1,632 in 1903 to 2,155 in 1910. The per capita of water pumped during the year is 62 gallons, quite a low average, and is sixty per cent less than the Boston average, and fifty per cent below the average of the Metropolitan District.

The question of filtration is receiving considerable attention from the board, and we shall, in a short time, bring the subject

before the town. It will resolve itself into perhaps three well recognized methods :

1. By a well supply, which is a modified filtration,
2. By mechanical filtration,
3. By slow sand filtration.

We have asked and received advice from the engineer of the State Board of Health, on this important subject, which we believe will be of interest and value to the town. We are pleased that we are able to say, as the result of the regular examinations which have been made, that our water supply is considered good, and is much better than many supplies now freely used. The principal cause of complaint is of a vegetable growth, during certain periods, which is common to all lakes and is not necessarily unhealthy.

In fact, we are reliably advised that most waters chemically filtered, or treated, are more liable to be injurious to health than is a natural lake water.

SEWER DEPARTMENT

This board took the management of the sewer department by the authority of the Act of the Legislature of 1910, and upon the acceptance of the act by vote of the town. The work was necessarily new and gave much additional work to the department.

Not being equipped for the work of the Chestnut Street sewer, it was let out by general contract. The work was well and promptly done and within the amount of the appropriation. On account of there being unknown quantities of rock, estimates varied materially as to the cost, but the estimates made by Captain George M. Thompson were found to be reliable, and the board is under obligations to him for his able assistance in making that work successful.

The town made an appropriation of \$350.00 for the construction of the sewer on Foundry street, from which there is an unexpended balance of \$177.00.

From the maintenance appropriation there is a balance of \$79.53. We have received from sewer betterments \$559 00 which has been paid over to the town treasurer.

The consolidation of the departments seems to have worked well.

FINANCIAL STATISTICS OF WATER PLANT

THOMAS G. O'CONNELL.

Wakefield Water and Sewerage Board.

Report of Finance Committee

The recommendations of the Committee for the year ending December 31, 1911, are herewith respectfully submitted.

There is very little which we can add to the preface of our last year's report, the conditions therein noted remaining practically the same. We do wish, however, to draw the attention of the voters to the material increase in the total amount over that shown in our report of last year, which will require added valuation of approximately \$600,000 providing no increase is made in the rate of taxation, viz., \$20.50 per \$1,000, the fourth largest in the State. The Committee realizes that there are numerous calls made during the year upon the various Departments for, in many cases, much needed improvements and hesitates upon recommending any material reductions in the amounts called for by the Town Boards, who we believe are striving to render faithful and efficient service. Were such reductions made, the Committee feels that the successful management of the Departments might be impaired. It is, however, the unanimous opinion of the Committee that it would be unwise and imprudent to increase the bonded indebtedness of the Town in any way whatsoever when it can possibly be avoided.

In conclusion, we wish to mention a fact for consideration by the voters when acting upon any special articles which may appear in the Annual Town Warrant that our recommendations hereinafter given are largely in the nature of fixed charges and do not include any special appropriations.

SCHOOL DEPARTMENT

General, payrolls	\$51,109 00	
Fuel	4,690 00	
Contingent	5,500 00	
Books and supplies	3,200 00	
Evening School	800 00

The following vacancies occur on the committee, due to expira-
tions of the terms of W. G. Strong, Nathaniel Hines, Thomas
Hickey, George L. Wakefield and F. A. Seavey; also, for two
years on account of removal from town of J. H. Murphy.

Respectfully submitted,

FRANK J. HENKEL, Chairman,

ARTHUR S. HILL, Secretary.

ANNUAL REPORT

OF THE

Municipal Light Board

AND MANAGER

OF THE

TOWN OF WAKEFIELD

Report of the Municipal Light Board

The year just passed has been, at the Light Plant, one of completing the reconstruction and reorganization begun in the year 1909, and of repairs.

The Water Gas set was completed and put into operation during the week ending March 26, 1910, and has been operated at such time as has been necessary and economical so to do. The capacity of the combined Water Gas and Coal Gas Plant is 350,000 cu. ft. in twenty-four hours. In this case six shifts of men would be necessary,—three for the Coal Gas and three for the Water Gas Plant. The Water Gas Plant has been operated only one shift in the twenty-four hours, and no extra help has been hired for this purpose. The fuel used has been coke from the Coal Gas benches. Coke has also been used under the steam boilers whenever it seemed advantageous, and we feel well satisfied with the results. The largest output of gas in any one day was 161,200 on Dec. 30, 1910.

STONEHAM AND READING

The control of the Peoples' Gas & Electric Co. of Stoneham and Reading has been acquired by the parties who also control the Malden & Melrose Gas & Electric Co. The Town of Stoneham has confirmed the franchise of this company in Stoneham, and the Malden & Melrose Co. will doubtless be supplying this town with gas not later than July 1st next. The situation in Reading is dependent on the action of that town in connection with the report of their committee now having the lighting question for that town under consideration.

ELECTRICAL DEPARTMENT

During the year it became necessary to erect a new smoke stack of iron at a cost of \$280.00. An iron roof was put on the boiler house to replace the wooden roof burned by fire, at a cost of \$367.64, and minor repairs have been made to the engines, dynamos, exciters, etc.

The town suffered a loss when Mr. J. A. Sederquest, the engineer, and Mr. William E. Weare, the electrician, left its employ. Mr. Sederquest had been employed for seven years, and as his work was night work we can appreciate his desire for a change. Mr. Weare, who had been employed at the Plant for eleven years, was also offered a much more lucrative position, and the town could not expect him to decline it. Both of these men were very efficient in their work and let nothing stand in the way of giving to the town the best there was in them. The Commissioners appreciate the difficulty in finding at once men who have the experience and interest in our Plant, and who can fill their places. Doubtless the men who are now doing this work will in time become experienced and efficient, and the policy of the Board of creating good men by promotion and trial, is worthy of consideration.

STREET LIGHTING AND RATES

The law does not allow a municipality operating its Gas or Electric Light Plant to make a direct appropriation for street lighting.

In the manager's report is found the statement of the assets and liabilities of the plant. The liabilities exceed the assets by \$69,737.63. Included in the liabilities is every dollar that has been appropriated by the town for the payment of bonds and notes, maintenance, operating expenses, extensions, and improvements, not only on the gas and electrical department, but for the fire alarm system, since the latter has been under the control of the Municipal Light Board. If, during the past 16 years an appropriation had been made for street lighting the same as has been made for the rental of fire hydrants, this amount would not have been included in the liabilities, and the balance which is now on the loss side would be changed to the profit side, and be a very handsome amount. In other words the plant has received no

credit for lighting the streets during the past sixteen years. Dividing this loss of \$69,737.63 by sixteen years it would give the costs of street lighting \$4,378.00. The going rate by a private company would, doubtless, have averaged at least \$8,500.00 per annum. Notwithstanding the original high cost of acquiring the franchise and the plant, undoubtedly, it is now a good investment for the town.

The town appropriated from the tax levy last March \$10,300 (\$300.00 of which was for the salaries of the Commissioners), for operating the Electric Light and Gas Plant. The bonds and notes paid exceeded \$10,000 by \$1,105. The interest, \$5,908.35, and all of the money for maintaining, operating, improvements, extensions and repairs came from the receipts from the consumers, except depreciation balance carried over from the previous year. We believe the cost of gas to the consumer is as low, if not lower, than any other place in the state, considering the distance from the seacoast, and the amount of gas consumed per annum. The cost of electricity is as low, if not lower, except for the most favored communities, and it is a question whether the town as a whole would not suffer by a rate which private concerns are ready to make to those consumers who use electricity, when you consider the increase in our tax rate due to the increased cost for street lighting in our town.

GAS DEPARTMENT

The installation of the Water Gas set necessitated the use of a second station meter. The old station meter which was replaced by the new one last year was remade at a cost of \$400 and is now as good as a new one for the purpose. Two gas benches were renewed in 1909, and it will be necessary to renew the third one this year. The percentage of loss of gas is large, and the Board is of the opinion that there are many gas meters in the houses which are running slow. A room has been fitted up in the place of the old office where these meters can be overhauled, repaired and tested, and a gas meter prover has been purchased and installed at a cost of \$132.30. The state gas tests which are made at various times in the year, and made without warning, have shown that the town is manufacturing a gas well above the

candlepower required, and of good quality. The tar which is a product from the Water Gas plant has very little commercial value. The experiment of using it on the streets as tried by the Selectmen in the Street Dept and which is in line with the latest method of street building seemed to be a success, but was not carried far enough to give an opportunity of arriving at a definite conclusion.

FIRE ALARM

Your Board realizes the importance of keeping the fire alarm system as efficient as possible. All ordinary repairs have been made as promptly as possible. A motor generator set has been installed for the purpose of charging the batteries. The batteries have been placed on glass strips and renewed when necessary. The following old boxes have been replaced with new ones: Nos. 12, 15, 26, 36, 41. Also a non-interfering box has been put in the place of old No. 35, and two new boxes established, No. 5 and No. 38. A private box No. 223 has been installed in the Harvard Knitting Mill at no cost to the town except for cost for outside work. Indicators have been installed in the Greenwood Hose house and the Volunteer Hose house.

REAL ESTATE

Necessary repairs been made to the real estate. An iron covering has been put on the coal shed on the side toward the railroad and the north end. The slate has been repaired, and the interior of the shed has been planked in such a way as to prevent the weight of the coal from forcing out the sides of the building.

OFFICE

The repairs necessary to put the old court room in the town hall in condition for use for an office have been made and such necessary furniture purchased. The system of book-keeping recommended by Mr. Masury, the expert accountant, employed by the Board has been put into operation, and a stock room and a system of stock-keeping has been installed. The Bookkeeping Dept. under the efficient care of Miss Maud V. Howard, assisted by Mrs. Margaret Nutt and Miss Mary Smith, was able to get out the State

Report required in September and the Town's report required early in January, 1911, without any extra assistance in the office, notwithstanding the increase in the regular work due to the increase of consumers in both departments. The increase in the gas receipts has been 4.59 per cent. and the increase in the receipts from electrical consumers has been 22.9 per cent.

Your Board have willingly devoted much time to the management of the Plant and to the perplexities which must constantly arise in the manufacture and distribution of gas and electricity. In the electrical department the amount of electricity required at the time of the annual peak load is about all that our present equipment can supply. Your Board is in hopes to make such minor changes which will carry us over this time for 1911 (which comes at the last part of the year) but realize that the town at an early date must face the problem of the future of the electrical department. The Board feels that the longer this can be deferred the longer can the financial burden incident to this be deferred and made lighter. We wish to acknowledge the faithfulness and care which Mr. A. B. Morton, manager of the Plant has given to the town as well as that of Mr. McLaughlin, foreman of the Gas Dept., and all others who have been employed during the past year. The town is very fortunate in having a body of employees who feel a true interest in the successful operation of our Gas and Electric Light Plant.

L. WALLACE SWEETSER, Chairman,

CURTIS L. SOPHER, M. D.

EDWIN C. MILLER, Secretary,

Wakefield Municipal Light Board.

Report of Manager

MESSRS. L. WALLACE SWEETSER,

E. C. MILLER AND DR CURTIS L. SOPHER

Municipal Light Board of Wakefield.

GENTLEMEN,—The seventeenth annual report of the Manager, showing the operation of the plant for the year ending December 31, 1910, is respectfully submitted.

COMPARATIVE REPORT OF FISCAL YEAR ENDING DECEMBER 31, 1910

	Ending Dec.31,1910.	Ending Dec.31,1909.*
Hours street lights were operated	1812	1516
Hours commercial and house incandescent lights were operated (24 hrs. service) . . .	8660	8016
Total number of gas consumers	1392	1262
Showing gain on previous year	130	101
Total number electric consumers	355	304

sidewalk on the east side of Fairmount avenue from West
Chestnut street to Hillside avenue, build a bank wall with

iron pipe railing about 100 feet on said sidewalk, beginning at its junction with West Chestnut street and raise and appropriate \$250 or what they will do about it. Albert E. Lord and others.

Voted. To refer to Selectmen.

ADJOURNED TOWN MEETING, MARCH 20, 1911

Article 11. To see if the town will raise and appropriate the sum of seven hundred dollars (\$700) to repair Foundry street from Maple to Broadway. John Toomey and others.

Voted. To refer to Selectmen with instructions to have street repaired.

Art. 12. To see if the town will vote to raise and appropriate the sum of \$1,500 to repair drains and grade Vernon street from Wave avenue to Cordis street. William J. Taggart and others.

Voted. To refer to Selectmen.

Art. 13. To see if the town will vote to raise and appropriate a sufficient sum of money to repair the sidewalks on Nahant street between Main street and Franklin street, or what they will do about it. William A. Thrush and others.

Voted. To refer to Selectmen.

Art. 14. To see if the town will vote to build and extend the sewer from the corner of Cedar and Albion streets, thence in Albion street to Gould street, thence in Gould street to Byron street, thence in Byron street to Albion street, and raise and appropriate a sufficient sum of money therefor. Willis A. Cloudman and others.

Voted. To authorize extension, payment to be in five notes or bonds payable \$1500, in 1912, \$1000, each in 1913, 1914, 1915, 1916.

Art. 15. To see if the town will vote to furnish and install at the Armory of Co. A additional uniform lockers and apparatus for heating the rifle range, also to make necessary

repairs to the roof and sills of the building, brace up under the assembly room and make needed repairs to the boiler, piping and valves of the main heating plant, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. George E. Walker and others.

Voted. \$700 Committee of three to carry out vote. George E. Walker, John H. McMahan, William H. Tay:

Voted. That a committee of five be appointed to confer with the State authorities to try and procure a State Armory in connection with the Town of Stoneham.

Committee: E. J. Gihon, C. A. Dean, G. A. Goodale, Geo. E. Walker, E. C. Miller.

Art. 16. To see if the town will instruct the Municipal Light Plant to install one incandescent light on Nichols street corner Eustis avenue, or what they will do about it. George A. Burgess.

Voted. To instruct Commissioners to install light.

Art. 17. To see if the town will authorize and instruct the Municipal Light Board to illuminate by electric lights the clock dial on the Universalist Church on Main street, or some other clock dial, and raise and appropriate the necessary funds for this purpose. Edwin C. Miller and others.

Voted. To indefinitely postpone.

Art. 18. To see if the town will authorize and instruct the Municipal Light Board to install an arc light on the corner of Main and Center and to rearrange the lighting of Main street between Water and Lafayette street, installing such additional arc and incandescent lights as may seem desirable. Edwin C. Miller, Secretary.

Voted. To authorize Commissioners to make such changes as they may deem desirable.

Art. 19. To see if the town will vote to install a fire alarm box on Renwick Road at such place as the Chief of the Fire Department may designate, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. George E. Walker and others.

Voted. \$84 to install box.

Art. 20. To see if the town will instruct the school committee to grant the free use of the hall in the H. M. Warren school-house to the West Side Improvement Association and to have installed at once gas or electric lights in said hall. William E. Eaton.

Voted. That use of hall be granted.

Art. 21. To see if the town will provide for the removal of ashes, garbage and other refuse and to raise and appropriate money therefor, or what they will do about it. John J. Butler and others.

Art. 22. To see if the town will vote to appropriate a sufficient sum of money to maintain a garbage wagon, for the collection of offal, or what they will do about it. Joseph W. Heath and others.

Voted. To take up Article 22 in connection with Article 21.

Voted. That committee of five be appointed to investigate subject. Committee: L. Withington, J. W. Heath, G. A. Cowdrey, Wm. J. Murphy, Thomas Hickey.

Art. 5. Voted to take up Article 5.

Voted to reconsider appropriation for Police Department.

Voted to add to appropriation \$108.80 to be divided equally among the four regular officers.

Art. 23. To see if the town will raise and appropriate money for the proper observance of the 135th anniversary of the Declaration of Independence. George W. Abbott and others.

Voted. \$450 and balance of \$42 from last year.

Committee: George W. Abbott, E. F. Preston, F. E. Bunker, Wm. H. Sullivan, C. H. Stearns.

Art. 24. To see if the town will pay to James Scales, Alice E. Hodgman, Cora Heatherstone and Lottie S. Cox the sum of \$50 awarded to the town of Wakefield by the County Commissioners of Middlesex County in May, 1904, for land damages in the taking of certain land situated on Water street near Oliver street, so called, for the widening of said

Water street or what they will do about it. John J. Butler and others.

Voted. To refer to Town Counsel to report at Fall meeting.

Art. 25. To see if the town will accept and adopt the report of the committee appointed under Article 32 of the Town Warrant of November 1910, or what they will do about it. John J. Butler.

Voted. To lay on table.

Art. 26. To see if the town will raise and appropriate the sum of one hundred dollars for a new floor on the stage of the town hall and the building of a small dressing room at the north of the stage, or what they will do about it. Fred C. Scott and others.

Voted. To instruct Selectmen to have work done, cost to be taken from Town Hall Appropriation.

Art. 27. To see what action the town will take relating to the bath house and raise and appropriate a sufficient sum of money therefor. M. E. S. Clemons and others.

Voted. To authorize the Selectmen to grant the Y. M. C. A. or any other person or organization the use of the Bath House for public instruction in swimming and to raise and appropriate \$50 for repairs and cleaning up beach.

Art. 28. To see if the town will raise and appropriate the sum of forty-four (44) dollars to pay John Minniken for services rendered at Forest Glade Cemetery, or what they will do about it. John Minniken and others.

Voted. \$44.

Art. 29. To see if the town will vote to authorize the assessors to number the houses on the streets in Precinct 2 and appropriate a sufficient sum of money therefor, or what they will do about it. J. I. Stewart and others.

Voted. To refer to Selectmen with power to act.

Art. 30. To see if the town will repay to Dennis Greany the amount of taxes illegally assessed upon and collected from said Greany in the town of Wakefield in the years 1901 to

1908, inclusive, and interest thereon, and to raise and appropriate money therefor. George M. Poland and others.

Voted. \$261.92.

Art. 31. To hear and act upon the report of the committee appointed under Article 18 of the warrant of November 14th, 1910, relative to the purchase of a certain parcel of land situated on the westerly shore of Crystal Lake.

Committee reported that the town indefinitely postpone further action. Report accepted and adopted.

Art. 32. To see if the town will accept the provisions of Chapter 476, Section 1, 2 and 3, entitled an Act relative to vacations for members of police departments, except in the City of Boston, or what they will do about it. George W. Abbott.

Voted. To indefinitely postpone.

Art. 33. To see if the town will vote to pay the regular police officers at the rate of \$2.75 per day, or what they will do about it. Louis P. Gowing and others.

Voted. To indefinitely postpone.

Art. 34. To hear and act upon the report of the Selectmen laying out a town way from the Melrose City line, northerly to a private way known as Pearl street in that part of the town known as Greenwood and being what is now known as Renwick Road and see if the town will accept and allow the same.

Voted. That report as submitted by the Selectmen be accepted and adopted and that Street be accepted and allowed.

Art. 35. To hear and act upon the report of the Selectmen laying out a new town way from the westerly terminus of Hanson street in Greenwood to the easterly line of the location of the Boston & Maine Railroad, being the private way now known as Pearl street, and see if the town will accept and allow the same.

Voted. That report as submitted by the Selectmen be accepted and adopted and that Street be accepted and allowed.

Art. 36. To hear and act upon the report of the Selectmen in reference to changing the name of Hanson street to Pearl street as called under Article 29 of the November warrant.

Voted. To indefinitely postpone.

Art. 37. To see if the town will accept the devices and bequests contained in the will of the late John G. Aborn, or what they will do about it.

Voted. To refer to Town Counsel.

Voted. That the meeting be dissolved.

TOWN MEETING JUNE 19, 1911

Article 1. To choose a Moderator, by ballot, to preside at said meeting.

Thomas G. O'Connell was elected Moderator.

Art. 2. To see what disposition the town will make of the sum of \$45,221.63 collected by suit from the American Surety Co. and now in the town treasury, including an appropriation therefrom for services of M. E. S. Clemons in prosecuting said suit or what it will do about it. Charles A. Dean and others.

Voted. That Article 2 be divided, the first division to consider what appropriation shall be made for services of M. E. S. Clemons; the second division to consider what disposition should be made of the remaining sum.

Voted. To take up first division.

Voted. To pay M. E. S. Clemons \$5,000 as a special and total compensation for all services rendered in connection with the suit of the town vs. the American Surety Company.

Voted. That all further action under division 2 be postponed and Article laid upon the table until the Town Treasurer may ascertain and report to the town whether the town can purchase and retire certain of the outstanding Sewer Bonds for each of the years in which the whole issue is still to be paid and to make report also on any other method he may deem

advisable with respect to using the money mentioned in Article 2 for the payment in part of the Sewer debt.

Resolution. Charles A. Dean introduced the following resolution :
That the town of Wakefield expresses its appreciation of the services of the Sewer Commissioners in building the Wakefield Sewerage system and giving years of time to this work. And the contract by which the town's rights were protected is in addition a monument to the faithful and efficient service of George M. Tompson, William H. Lee and William B. Daniel. That this resolve be printed in the town report.

Resolution amended by adding names of O. K. Morgan and John A. Meloney.

Art. 3. To see if the town will vote to purchase land bordering on Crystal lake, and raise and appropriate sums of money therefor, or what they will do about it. Charles A. Dean and others.

Art. 4. To see if the town will vote to issue bonds, notes or scrip, and determine the amount thereof, the proceeds to be used in payment of any land which the town may under the preceding article vote to buy, or what they will do about it. Charles A. Dean and others.

Voted. That Articles 3 and 4 be taken up jointly.

Voted. That a committee of nine be appointed, of which three members shall be the Water Board, to consider subject matter of Articles and report at a future meeting. Committee : H. M. Dolbeare, T. E. Dwyer, F. T. Woodbury, C. N. Winship, Richard Dutton, M. E. S. Clemons and the Water and Sewer Board.

Voted. To adjourn for one week.

ADJOURNED TOWN MEETING, JUNE 26, 1911

C. H. Stearns introduced the following resolution : That a committee consisting of the Electric Light Board, the manager of the plant and the Town Counsel be requested to attend a town meeting to be held in the town of Reading Monday

evening, June 26, in relation to the supplying of gas to the town of Reading. Amended by Dr. Coles that the committee consider the whole subject of the Electric Light and Gas question

Resolution as amended was voted.

Art. 5. To see if the town will vote to authorize the Wakefield Water and Sewerage Board to employ an engineer to draw plans and lay out as a part of the sewer district of said town the whole or any part of the portion of the town lying south of Broadway and make report thereof at the next town meeting and raise and appropriate a sum of money therefor. M. E. S. Clemons and others.

Voted. That the Wakefield Water and Sewerage Board be authorized to employ an engineer and to report at the next town meeting. \$500 raised and appropriated therefor.

Art. 6. To see if the town will vote an additional appropriation for the general maintenance of the Municipal Light Plant and raise and appropriate a sufficient sum of money therefor, or what they will do about it. L. W. Sweetser and others.

Voted. \$2500.

Art. 7. To see if the town will authorize and instruct the Municipal Light Board to supply gas to the Town of Reading and the inhabitants thereof, and to lay new gas mains, install gas meters and all other necessary pipes and appliances therefor in said Reading and to repair certain gas mains and gas meters in said town of Reading and raise and appropriate the sum of \$25,000 therefor. L. W. Sweetser and others.

Art. 8. To see if the town will authorize an issue of bonds to an amount not exceeding \$25,000 for a term not exceeding ten years; make provisions for the payment of said bonds and interest thereon, and appropriate the proceeds of said bonds to the payment of additions, constructions, repairs and renewals authorized under the preceding article. L. W. Sweetser and others.

Voted. That Article 7 and 8 be acted upon jointly.

Voted. To lay on table pending advice as to action taken by the

town of Reading.

Art. 2.

Voted. To take up Article 2.

Voted. That the Selectmen and Town Treasurer be and hereby are authorized to use so much of the balance remaining recovered from the American Surety Company to it \$40,221.63 as they can advantageously in purchasing outstanding Sewer Bonds of the town, and in such manner as will so far as possible distribute such purchase over the years in which the Sewer Bonds still run, in a proportion which will relieve equally the tax levy for such years.

Art. 9. To see if the town will authorize the Town Treasurer to pay bills of the Municipal Light Dept. in anticipation of receipts of the department. Edwin C. Miller.

Voted. To indefinitely postpone.

Art. 10. To see if the town will appropriate the sum of \$2240 paid to the town on account of fire insurance in settlement of loss by fire at the Municipal Light Plant to the use of the Municipal Light Department. Edwin C. Miller and others.

Voted. To appropriate \$2240.

Art. 11. To see if the town will install a fire alarm box at the corner of Water street and Montrose avenue, raise and appropriate money therefor, or what they will do about it. Hale L. Cummings and others.

Voted. \$115. Location of the box to be determined by the Fire Engineers.

Art. 12. To see if the town will raise and appropriate \$271.50 for Clerical help, and examining and transcribing transfers for 1911, for the Board of Assessors. Samuel T. Parker and others.

Voted. \$271.50.

Art. 13. To see if the town will vote to accept as a gift the real estate situated at Wakefield Junction, and bounded easterly by Main street (89 ft.) southerly by land of Norcross (154½ ft.) westerly by land of Boston & Maine R. R. (107 ft.) and northerly by the court leading to the depot from Main

street (126½ ft.) containing 13,169 square feet, together with the sum of \$400, the said sum and the interest thereof to be used under the direction of the Park Commissioners in the care, perpetuation and adornment of said land, or any land exchanged for any part thereof. Eugene S. Hinckley.

Voted. That the town accept the gift of real estate situated at Wakefield Junction as described in the Article together with the sum of \$400, to be used as the Article directs.

Voted. That the Park Commissioners be instructed to extend to the donor of the land and money the thanks of the town for his generosity.

Art. 14. To see if the town will raise and appropriate the sum of \$200 for clerical hire in compiling returns of the financial transactions for the years 1909 and 1910 as requested by the State Bureau of Statistics in accordance with Section 6 Chapter 371 of the Acts of 1909 or what they will do about it. Board of Selectmen.

Voted. To refer to the Board of Selectmen with authority to have the work performed at an expense not exceeding \$200, to be taken from Miscellaneous Fund.

Art. 15. To see if the town will vote to amend or rescind that part of section seven of the Cemetery Commissioners' Rules and Regulations for Forest Glade Cemetery, which was adopted at the annual town meeting in 1908, to wit: (and no work shall be performed by any of the Commissioners where remuneration is to be paid) or what they will do about it. Hoyt B. Parker.

Voted. To indefinitely postpone.

Voted. To adjourn.

ADJOURNED TOWN MEETING, JULY 10, 1911

Art. 16. To see if the town will authorize its Treasurer, with the approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a

term not exceeding one year, and to issue the notes of the town therefor.

Voted. To authorize the Treasurer to hire \$3386.50.

Voted. That a committee of five be appointed to ascertain what the Cutler land at the corner of Water and Main streets and the Wakefield land, from the Armory lot south to Richardson street can be purchased for and report at a future meeting.

Committee: George E. Walker, Frank J. Henkel, William G. Strong, Clinton H. Stearns, Michael Low.

Voted. That this meeting be dissolved.

TOWN MEETING SEPT. 5, 1911

Article 1. To choose a moderator by ballot to preside at said meeting.

Thomas G. O'Connell was elected Moderator.

Art. 2. To hear and act on a report of the Committee on Armory Repairs appointed at the Spring Town Meeting.

Voted. To lay upon the table.

Art. 3. To hear and act on a report of the Committee appointed at the last Town Meeting to ascertain prices of the Cutler lot and of land south of the Armory lot for purposes of a High School.

F. J. Henkel reported for the committee. Report accepted and a vote of thanks given the committee.

Art. 4. To see if the Town will vote to authorize and instruct the Board of Selectmen to sell either the old Armory Building or both the building and the land on which it stands and pass title to the same, or what they will do about it. Board of Selectmen.

Voted. That the Board of Selectmen be authorized and instructed to sell either the old Armory Building or both the building and the land on which it stands and pass title to the same.

Art. 2. Voted that Article two be taken from the table.

Mr. Tay made verbal report for the committee and presented a financial statement showing a balance of \$487.83.

Voted. That report be accepted.

Voted. That balance of appropriation be turned into the miscellaneous fund to be used by the Selectmen for any repairs needed to Armory.

Art. 5. To hear and act on a report of the Special Committee on New Armory appointed at the Spring Town Meeting.

Col. E. J. Gihon reported for the committee.

Voted. That report be accepted.

Art. 6. To see if the town will appropriate from the money now in the hands of the town treasurer received from insurance on the Armory, the sum of \$1,000, to assist the State in the purchase of a certain lot of land on which to build a new State Armory, and authorize the Town Treasurer to pay same over to the Commonwealth of Massachusetts, or what they will do about it. John H. McMahon and others.

Voted. To appropriate from sum received from insurance on Armory the sum of \$1,000 to assist the State in purchase of land for new Armory; provided that State decides to buy property known as the Wakefield lot.

Art. 7. To see if the town will appropriate from the money now in the hands of the Town Treasurer received from insurance on the Town Hall, the sum of \$100, as extra compensation for the Wakefield Fire Department, and authorize the Town Treasurer to pay same over to the Wakefield Fire Department as a mark of appreciation of the services rendered by the Department in saving the Town Hall from destruction by fire on the evening of July 6th, 1911, or what they will do about it. George E. Walker and others.

Voted. To appropriate from money received from insurance on Town Hall the sum of \$100 as extra compensation for the Fire Dept. as a mark of appreciation of the services rendered at fire of July 6, 1911.

Art.. 8 To see if the town will raise and appropriate the sum of

eighteen hundred dollars for the Poor Department, or what they will do about it. Hugh Connell and others.

Voted. \$1800.

Art. 9. To see if the town will appoint a Committee to consider the question of better fire protection, and to authorize them to investigate the advisability of the Town purchasing a piece of automobile apparatus for the use of the Fire Department. Said Committee to report at fall town meeting. Edward S. Jacob.

Voted. To appoint a committee of seven to consider subject matter of article and also investigate and outline a plan for placing fire alarm wires in centre of town under ground, to report at Fall Meeting. Committee: W. E. Cade, C. E. Learned, C. L. Sopher, A. S. Hill, E. S. Jacob, F. A. Long, F. S. Hartshorne.

Art. 10. To see if the town will instruct the Sewer Commissioners to construct a sewer from Converse Street, in and through Dell Avenue, Park Ave. and Stedman Street and raise and appropriate a sufficient sum of money therefor or what they will do about it. M. E. S. Clemons and others.

Voted. To lay upon the table.

Art. 11. To see if the town will authorize the Selectmen to sell the worn out discarded parts of the old stone crusher, or what they will do about it. Board of Selectmen.

Voted. To instruct Selectmen to sell.

Art. 12. To see if the town will authorize its Treasurer, with the approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a term not exceeding one year, and to issue the notes of the town therefor.

Voted. To lay on the table.

Voted. To adjourn to Monday evening Sept. 25th at 7.30 o'clock.

ADJOURNED TOWN MEETING SEPT. 25, 1911

Article 10. Voted. To take from table.

Voted. To indefinitely postpone.

Art. 12. Voted. To take from table.

Voted. That Town Treasurer be authorized to hire \$1800.

Voted. That this meeting be dissolved.

STATE ELECTION, NOVEMBER 7, 1911

PRECINCT ONE

TOWN MEETING NOV. 13, 1911

Article 1. To choose a moderator, by ballot to preside at said meeting.

Thomas G. O'Connell was elected moderator.

Art. 2. To see if the town will appropriate from the income and surplus of the Water Department, a sufficient sum of money to pay for water obtained for the use of the town from the

Metropolitan Water System; and for the extension and repairs of the intake pipes, and borings for test wells, and engineer work connected therewith. Charles A. Dean and others.

Voted. To appropriate from income and surplus of department \$1200 for extension and repairs to intake pipe and boring for test wells; also \$4519.33 for payment of Metropolitan Water.

Art. 3. To see if the town will accept and adopt as a part of the Sewer System of the Town of Wakefield, the section shown by plan dated October, 1911, drawn by H. H. Hawkesworth, Engineer, and now on file in the office of the Town Clerk, whereon the sewers are shown by red lines. Charles A. Dean.

Voted. To accept and adopt.

Art. 4. To see what action the town will take under a petition of 52 citizens asking that the service of street lighting be extended to cover all-night service each night in the week, and to authorize the Light Commissioners to furnish such service; and the town to raise and appropriate a sufficient sum of money to carry out whatever action is taken under this article. Board of Selectmen.

Voted. To indefinitely postpone.

Art. 5. To see if the town will vote to authorize the Water and Sewerage Board to construct a sewer in Renwick Road and Ashland street and raise and appropriate a sufficient sum of money therefor. Samuel H. Hellen and others.

Voted. To construct sewers and raise and appropriate \$1865.

Art. 6. To see if the town will authorize the Board of Municipal Light Commissioners to petition the Town of Reading in the name of the Town of Wakefield for authority for said Wakefield to construct and maintain in said Reading pipes and apparatus for the distribution and sale of gas therein. Edwin C. Miller.

Voted. To lay upon the table.

Art. 7. To see if the town will authorize the Board of Municipi-

pal Light Commissioners to purchase or acquire from the People's Gas and Electric Co. all the pipes and apparatus owned by it and now used in the distribution of gas in the town of Reading, provided the said town of Reading shall have first authorized the town of Wakefield to construct and maintain pipes and apparatus in said Reading for the sale and distribution of gas therein, and raise and appropriate a sufficient sum of money therefor. Edwin C. Miller and others.

Voted. To lay upon the table.

Art. 8. To see if the town will instruct the Light Commissioners to install an electric light on Greenwood avenue, between Pitman and Warren avenues, near residence of John D. MacKay, and raise and appropriate money for the same, or what they will do about it. John D. MacKay and others.

Voted. To appropriate \$35, to be taken from depreciation fund.

Art. 9. To see if the town will raise and appropriate \$7.32 to pay the balance due for purchasing and installing box No. 59 of the fire alarm system. Edwin C. Miller and others.

Voted. \$7.32.

Art. 10. To see if the town will raise and appropriate \$1200 to be added to the depreciation fund of the Municipal Light Board for their use. Edwin C. Miller and others.

Voted. To authorize Treasurer to borrow or advance \$1200.

Art. 11. To see if the town will raise and appropriate \$200 for use of the Municipal Light Board in maintaining the fire alarm system. Edwin C. Miller and others.

Voted. \$200.

Art. 12. To see if the town will authorize and instruct the Municipal Light Board to install and maintain a street incandescent lamp on Stark avenue. Edwin C. Miller.

Voted. To appropriate \$17, to be taken from depreciation fund.

Art. 13. To see if the town will raise and appropriate a sufficient sum of money to light Vernon street from Lowell street to the Lynnfield Centre line. Thomas I. Paon and others.

Voted. To refer to Light Board with instructions to light street if possible; if not, to make such recommendations to town as they may deem necessary.

Art. 14. To see if the town will instruct the Municipal Light Plant to install one incandescent light on Kendrick Road, corner Harrison avenue. William A. Krupp.

Voted. To appropriate \$29, to be taken from depreciation fund.

Art. 15. To see if the town will vote to instruct the Board of Selectmen to increase the police force by one man, to allow of the placing of a man in charge of the station all night, and raise and appropriate a sufficient sum of money to pay said officer, or what they will do about it. Edwin C. Miller and others.

Voted. To increase police force by one man and raise and appropriate therefor \$122.

Art. 16. To see if the town will raise and appropriate the sum of four hundred dollars for the Police Department, or what they will do about it. Board of Selectmen.

Voted. \$400.

Art. 17. To see if the town will make an additional appropriation for the Fire Department. Wm. E. Cade and others.

Voted. \$2062.86.

Art. 18. To hear and act on a report of the committee appointed under Article 9 of the warrant for the town meeting of September 5, 1911, relating to better fire protection and the purchase of a piece of motor driven fire apparatus. Wm. E. Cade.

Art. 19. To see if the town will raise and appropriate a sufficient sum of money to purchase a piece of motor driven fire apparatus, or what they will do about it. Wm. E. Cade and others.

Art. 20. To see if the town will raise and appropriate such sums of money as may be necessary to carry out such of the recommendations of the committee under Article 9 of the warrant for September 5, 1911, relating to better fire protection, as

the town may adopt, or what they will do about it. Wm. E. Cade and others.

Voted. To lay upon the table.

Art. 21. To see if the town will appoint a committee of 9 to consider the feasibility of celebrating the 100th anniversary of the incorporation of the town as South Reading, said anniversary celebration to be consolidated with the celebration of Independence Day, July 4, 1912; this committee to outline a program and submit same, together with an estimate of the cost, at the spring town meeting for action by the town under a proper article in the warrant. Board of Selectmen.

Voted. To appoint a committee of nine as called for in article.
Committee: G. W. Abbott, C. H. Stearns, Wm. H. Sullivan, F. E. Bunker, E. F. Preston, G. E. Walker, J. L. McMahon, E. J. Connelly, H. A. Simonds.

Art. 22. To see if the town will raise and appropriate an additional sum of money for town hall expenses and repairs. Board of Selectmen.

Voted. \$600.

Art. 23. To see if the town will raise and appropriate \$500 additional appropriation for the School Department, or what they will do about it. Arthur H. Boardman and others.

Voted. \$500.

Art. 24. To see if the town will vote to dispose or, by sale or otherwise, the property on Franklin street known as the old Franklin school property, or what they will do about it. Lewis G. Hatch.

Voted. To indefinitely postpone.

Art. 25. To see if the town will vote to give the society of the Wakefield Home for Aged Women a lot in Forest Glade cemetery, or what they will do about it. James R. Reid.

Voted. To sell three additional lots for one dollar per lot.

Art. 26. To see if the town will vote to establish a price for cleaning snow from the sidewalks and opening gutters throughout the town, or what they will do about it. James R. Reid.

Voted. To refer to Finance Committee to report at an adjournment of this meeting.

Art. 27. To see if the town will raise and appropriate the sum of \$597 for the Forest Fire Warden Department, or what they will do about it. Samuel T. Parker and others.

Voted. \$597.

Art. 28. To see if the town will raise and appropriate \$78.40 for clerical work for the Board of Assessors. Samuel T. Parker and others.

Voted. \$78.40.

Art. 29. To see what action the town will take relative to the devise to the Town of Wakefield, by the will of the late John G. Aborn. M. F. S. Clemons.

Voted. That a committee of five be appointed to consider subject matter of article.

Committee: M. E. S. Clemons, George E. Walker, C. H. Stearns, J. A. Meloney, Thomas Hickey.

Art. 30. To hear and act on the report of the Selectmen laying out a town way from the Melrose city line northerly and westerly to Renwick Road in that part of the town known as Greenwood, being the private way now known as Ashland street, and to see if the town will accept and allow the same.

Voted. That report be laid upon the table.

Art. 31. To see if the town will raise and appropriate a sum of money for Forest Glade Cemetery, or what they will do about it. Hoyt B. Parker and others.

Voted. \$50. Cemetery Commissioners instructed to have tool house painted.

Art. 32. To see if the town will take some action to improve on the present condition of our town government, or what they will do about it. Michael Low.

Voted. That a committee of fifteen be appointed to consider subject and report at March meeting.

Committee: Michael Low, J. T. Cooper, R. B. Griffiths, E. A. Rich, F. J. Henkel, W. T. Curley, W. P. Shepard,

T. R. Ferrall, Cornelius Donovan, A. G. Goodwin, E. J. Gihon, A. L. Evans, J. C. Kelso, Dennis Lyons, R. C. Atkinson.

Voted to adjourn to next Monday evening at 7.30.

ADJOURNED TOWN MEETING, NOVEMBER 20, 1911

Article 33. To see if the town will raise and appropriate \$4010.72 the amount of the liability for the year 1912 of the Town of Wakefield for the suppression of Brown Tail and Gypsy Moths. W. W. Whittredge and others.

Voted. \$4010.72.

Art. 4. Voted. That Article 4 be taken up.

Motion to reconsider was lost.

Art. 18. Voted. To take up Article 18.

Mr. A. S. Hill read report of the committee.

Voted. That report of the committee be accepted.

Voted. That recommendations of the committee be taken up in their order and acted on separately.

Voted. That Article 19 be taken up in connection with Article 18.

Voted. That town purchase a motor propelled combination wagon and raise and appropriate \$5800 therefor, same committee that reported under Article 18 be constituted a purchasing committee.

Following recommendations were referred to the Selectmen with instructions to have articles in the spring meeting calling for action thereon.

That Chief of Fire Department be required to give all of his time to the department and a suitable increase of salary be provided.

That Chief be appointed Fire Inspector.

That Chief be appointed Forest Warden.

That Chief be appointed Building Inspector.

Following recommendation referred to Selectmen with

instructions to report at Spring Meeting as to the advisability of transfer.

That combination wagon now in Central Engine House be transferred to Greenwood and that a pair of horses be sold.

Following recommendation referred to Selectmen and Fire Engineers.

That the matter of a fire zone be referred to a committee of three to report in full at a future date.

Following recommendations be adopted.

That the question of a public alley back of the business blocks on easterly side of Main Street be referred to the Selectmen to report at their earliest convenience.

That One Fire alarm circuit connecting with the Central Engine House be placed under ground and Light Board instructed to have article in Spring Warrant.

That the Town encourage by all reasonable means the installation and maintenance of automatic sprinklers in such buildings as the Chief of the Fire Department may designate.

Art. 29. Voted. That Article 29 be taken up.

Voted. That it is now inexpedient for the town to contribute toward either a home for aged men or a hospital, and as the executors have insufficient funds for establishing either, the town recommends that the executors of the will of the late John G. Aborn carry out the provisions of the said will directing the property named to be used for "charitable purposes for the people of Wakefield," and it is further voted, that the town does hereby express great appreciation of the generosity of Mr. Aborn in making the gift of which Wakefield will receive the benefit.

Art. 6. Voted that Article six be taken from the table.

During discussion of this article it was voted to adjourn to next Monday evening at eight o'clock.

ADJOURNED TOWN MEETING NOVEMBER 27, 1911

Article 6 in order.

Voted. That the town authorize the Board of Municipal Light

Commissioners to petition the town of Reading, as per article.

Art. 7. Voted. To take Article seven from the table.

Voted. To lay upon the table pending action by the town of Reading.

Resolution. Mr. Cartwright offered the following resolution which was admitted and passed by an unanimous vote.

That it is the sentiment of the town that the Trustees of the Beebe Town Library, if no legal obstacle prevents, extend the privileges of our library to the citizens of Reading, for a reasonable time until Reading can furnish its own citizens with public library facilities and that the Trustees of our library also extend to the Reading school system such special privileges as are offered to our own school system.

Art. 26. Voted. That Article 26 be taken from the table.

Voted. That the subject matter of the article be referred to Selectmen.

Art. 34. To see if the town will authorize its treasurer, with the approval of its Selectmen, to hire a sum of money sufficient to meet the appropriations made at this meeting, on a term not exceeding one year and to issue the notes of the town therefor.

Voted. To authorize Treasurer to hire \$16,293.30 as per article.

Art. 32. Voted. To take up Article 32.

Voted. That the committee appointed under this article have the power to fill vacancies.

Voted. That this meeting be dissolved.

SELECTMEN'S REPORT

TO THE CITIZENS OF THE TOWN OF WAKEFIELD :

REPORT OF THE ENGINEERS OF THE WAKEFIELD FIRE DEPARTMENT

TO THE HONORABLE BOARD OF SELECTMEN:

The annual report of the Board of Fire Engineers is herewith presented, giving the records of fires that have occurred during the year ending Dec. 31, 1911. The financial report, showing receipts and expenditures, will be found in the auditors' report.

THE DEPARTMENT

The department consists of a chief engineer, two assistant engineers, five permanent men and forty-seven call men. The apparatus remains the same as last year, and consists of one Amoskeag engine, one Silsby Engine (relief), a combination hose and chemical wagon, a hook and ladder truck, a supply wagon, an auto hose wagon (owned by the Volunteer Library Association), and two hose wagons. There is also a hose reel at the town farm. There are eight horses in service, six of which are in good condition; the other two in fair condition. All the hose has been tested. 2000 feet of hose has been added during the year, this amount being necessary owing to the loss incurred at the Cutler fire, and to re-place worn-out hose.

FINANCES

As shown in the auditors' report, there is a decrease in the earnings of the department, owing to the fact that the streets have been oiled instead of watered. The increase in expenditures is due to the purchase of 2000 feet of hose at a cost of \$1274, as noted above. All bills have been paid and there is an unexpended balance of \$133.23.

FIRES

During the year the department has responded to 129 alarms of fire, the largest number in the history of the town. The number of still alarms shows that the residents of the town are becoming educated to the fact that instead of ringing in box alarms for small fires, a telephone call or message will bring the necessary assistance.

The most disastrous fire of the year occurred July 6, when the Cutler block was totally destroyed and the Armory, Miller Piano Factory, Town Hall and other adjacent buildings considerably damaged. Valuable assistance at this fire was rendered by the fire departments of Melrose, Stoneham, Reading and Woburn.

RECORD OF FIRES

The following are the alarms responded to during the year. There were 39 box alarms and 90 still alarms, making a total of 129, as follows :

Sunday, Jan. 1. Box 39, 12.50 p. m. Dwelling 130 Salem street, occupied by John Jeffries, owned by heirs of Mrs. Mary Cavaglio. Cause, Christmas tree catching fire. Loss \$490.

Tuesday, Jan. 17. Still alarm, 10.30 a. m., followed by box 15. Small fire in tenement, 593 Main street. Loss small.

Tuesday, Jan. 17. Still alarm, 2.15 p. m. Lace curtains burned in house, 44 Crescent street, occupied by Wm. Hanley. Loss \$120.

Wednesday, Jan. 18. Box 29, 9.20 a. m. House 18 Elm street, owned by F. W. Magdeburg, occupied by John Burbine. Cause, thawing water pipes. Loss \$1900.

Wednesday, Feb. 1. Still alarm, 4.40 p. m. Fire on roof of ice house, Spaulding street. Owned by Morrill & Atwood.

Tuesday, Feb. 7. Still alarm, 8.57 a. m. Fire in chimney of house, 79 Greenwood street, occupied by E. R. Sargent.

Wednesday, March 1. Box 23, 5.04 p. m. Contents of trunk owned by M. Keady burned in house, 127 Albion street. House owned by Chas. F. Woodward. Cause, careless smoking. Loss small.

Thursday, March 2. Still alarm, 11.30 a. m. Brush fire, Main street, Greenwood.

Saturday, March 18. Box 29. Coal sheds at Municipal Light Plant. Caused by sparks from locomotive. Loss \$2240.

Sunday, March 19. Still alarm, 10.54 a. m., followed by box 35 at 10.59 a. m. Fire in tenement, 45 Avon street, owned by Bartlett Walton. Cause, overheated furnace. Loss \$1199.

Monday, March 20. Still alarm, 6.45 a. m. Lounge burned in house corner Pleasant and Otis streets. Cause, hot ashes.

Saturday, March 25. Still alarm, 2.15 p. m. Brush fire, Greenwood avenue.

Sunday, March 26. Still alarm, 2.40 p. m. Grass and fence at Old Cemetery.

Monday, March 27. Box 15, 6.04 p. m. Supposed fire in house, 18 Franklin street.

Wednesday, March 29. Still alarm, 2.10 p. m. Grass fire off Salem street.

Sunday, April 2. Still alarm, 10.30 a. m. Brush fire, Greenwood avenue.

Sunday, April 2. Still alarm, 5.35 p. m. Grass fire, rear of Evans shoe factory.

Monday, April 3. Still alarm, 1.20 p. m. Grass fire, Montrose avenue.

Monday, April 3. Box 6, 1.35 p. m. Grass fire, Montrose avenue.

Thursday, April 6. Still alarm, 7.10 p. m. Mattress and clothing afire in house, 4 Avon street, owned by Flanley heirs. Cause, overturned lamp. Loss small.

Friday, April 7. Box 23, 10.37 a. m. Burning tar on Walnut street.

Saturday, April 8. Still alarm, 4.40 p. m. Grass fire, Elm street.

Friday, April 14. Box 16, 9.55 a. m. Brush fire, Oak street.

Monday, April 17. Still alarm, 1.35 p. m. Grass fire Nahant street. Box 7, 1.45 p. m. and box 15, 1.55 p. m., same fire.

Wednesday, April 17. Still alarm, 3.35 p. m. Brush fire, Pitman avenue.

Tuesday, April 18. Still alarm followed by box 43, 8.35 a.m. Grass fire, Wave avenue.

Wednesday, April 19. Still alarm, 12.05 p. m. Grass fire, Nahant street.

Wednesday, April 19. Still alarm, 2.50 p. m. Grass fire, Oak street.

Saturday, April 22. Still alarm, 5.50 p. m. Chimney fire in house, 4 Emerald street.

Sunday, April 23. Still alarm 3.30 p. m. Grass fire, Nahant street.

Monday, April 24. Still alarm, 11 a. m. Brush fire, Parker road. Box 28, 11.15 a. m. same fire.

Monday, April 24. Still alarm, 11.20 a. m. Brush fire, Main street.

Tuesday, April 25. Still alarm, 8.30 a. m. Grass fire Eaton street.

Tuesday, April 25. Box 24, 11 a. m. Grass fire off Broadway.

Wednesday, April 26. Box 17, 11.02 a. m. Grass fire in Kimball's woods, Broadway.

Thursday, April 27. Still alarm, 11.58 a. m. Brush and grass fire off Bartley street.

Thursday, April 27. Still alarm, 2.48 p. m. Brush and grass fire off Bartley street.

Friday, April 28. Still alarm, 12.05 p. m. Brush fire off Spring street; 4 15 p. m. Brush fire off Greenwood street; 8.45 p. m. Brush fire off Greenwood street

Saturday, April 29. Still alarm, 9.52 a. m. Brush fire, Albion street, near Jordan avenue; still alarm, 7.40 p. m. Brush fire off Oak street.

Sunday, April 30. Still alarm, 3.30 p. m. Brush fire off Nahant street; still alarm, 5.10 p. m. Brush fire, Pitman avenue.

Wednesday, May 3. Box 113, 4.45 p. m. Fire in house, 53 Renwick Road, owned and occupied by M. A. Sederquest. Cause, probably sparks from locomotive. Loss \$825.

Wednesday, May 3. Still alarm, 5.45 p. m. Brush fire, Oak street; ditto at 6.20 p. m. and 9.10 p. m.

Thursday, May 4. Box 32, 5.43 p. m. Fire in house on Melvin street, occupied by Mr. Coffey.

Friday, May 5. Still alarm, 11.10 a. m. Brush fire, Salem street; still alarm, 12.42 p. m. Brush fire, Fairmount avenue; still alarm, 2.38 p. m. Brush fire, Pitman avenue; still alarm, 7.15 p. m. Brush fire, Main street; still alarm 8.40 p. m. Brush fire off Nahant street.

Saturday, May 6. Still alarm, 11.10 a. m. Brush fire, Oak street; still alarm, 11.15 a. m. Brush fire, Oak street; box 6, 11.52 a. m. Brush fire, Oak street; box 10, 12.30 p. m. Brush fire, Oak street; still alarm, 4.18 p. m. Grass fire near Greenwood bridge.

Sunday, May 7. Still alarm, 10.30 a. m. Fence fire, ball grounds, West Water street.

Sunday, May 7. Still alarm, 10.55 a. m. Brush fire, Park avenue.

Sunday, May 7. Box 13, 12.30 p. m. Brush fire, Spring street.

Sunday, May 7. Still alarm, 12.50 p. m. Brush fire back of Crystal lake.

Sunday, May 7. Box 48, 5.30 p. m. Nichols' ice house at head of lake. Cause, probably careless smoking. Loss \$3500.

Monday, May 8. Still alarm, 6.40 a. m. Breaking out of ice house fire.

Monday, May 8. Still alarm, 11.35 a. m. Brush fire back of Crystal lake.

Thursday, May 11. Box 65, 11.40 a. m. Grass fire off Prospect street.

Saturday, May 13. Still alarm, 5.05 p. m. Brush fire Montrose avenue.

Saturday, May 13. Box 6, 5.24 p. m. Same fire.

Monday, May 15. Still alarm, 1.15 p. m. Brush fire, Oak street.

Tuesday, May 16. Box 54, 1.50 p. m. Brush fire, Montrose avenue.

Wednesday, May 17. Box 223, 9.20 a. m. Fire in dust bin at Harvard Knitting Mill. Cause, spontaneous combustion. Loss \$100.

Wednesday, May 17. Still alarm, 11.30 a. m. Brush fire, Green street.

Wednesday, May 17. Still alarm, 2.35 p. m. Brush fire, Main street.

Wednesday, May 17. Still alarm, 3.15 p. m. Brush fire, Butler's woods.

Wednesday, May 17. Box 9, 3.30 p. m. Brush fire, Butler's woods.

Monday, May 29. Box 58, 10.30 a. m. Fire in pile of lumber on place formerly occupied by George Blanchard.

Thursday, June 1. Still alarm, 12.20 p. m. Fire in rubbish heap rear of Walton's block.

Friday, June 2. Still alarm, 3.50 p. m. Fire on roof of North's blacksmith shop, Main street.

Monday, June 19. Box 32, 4.36 a. m. Fire in stable owned by B. & N. St. Ry. Co., Water street. Caused probably by electric wires. Loss \$500.

Wednesday, June 21. Still alarm, 7.50 a. m. Chimney fire in house on Spaulding street, occupied by Leslie Hall.

Monday, July 3. Box 19, 7.36 p. m. Ice house at south end of Crystal lake, owned by H. R. Philpot, together with small house occupied by Hugh Cummings. Probable cause, careless smoking. Loss, \$19,000.

Tuesday, July 4. Still alarm, 3.50 a. m. Bill board, Main street; still alarm, 5.30 a. m. Bill board, Main street; still alarm, 9.40 a. m. Rubbish fire, Mechanic street; still alarm, 10.30 a. m. Ice house, Linden avenue; still alarm, 1.18 p. m. Grass fire near ice house, Linden avenue.

Saturday, December 9. Out of town call, 3.58 a. m. Old South church, Reading.

Estimated value of property endangered, \$147,500. Losses on same, \$93,997. Insurance on same, \$259,900.

CONCLUSION

In conclusion, we wish to extend to your Honorable Board and to the Finance Committee our thanks for the courtesies and co-operation which we have received during the year. We wish to compliment the officers and members of the department on the prompt and efficient manner in which they have performed their duties. We also wish to express our appreciation to the Municipal Light Board for relighting the streets late at night, and to the Chief of Police for services rendered by his department at fires.

Respectfully submitted,

WM. E. CADE, Chief,
EDWARD S. JACOB, Sec.,
ALBERT S. KENT,

Board of Engineers.

Wakefield, Mass., January 4, 1912.

REPORT OF SUPERINTENDENT OF STREETS

TO THE HONORABLE BOARD OF SELECTMEN :

I have the pleasure to submit my report for the year ending Dec. 31, 1911.

I would recommend the amounts to cover expenses and needs for the following year.

Fences	\$300 00
Drains	200 00
Cleaning basins	300 00
Spring cleaning	2,000 00
Tools and supplies	200 00
Miscellaneous bills	300 00
Patrol	650 00
Concreting	2,000 00
Edgestones	500 00
Cross-walks	350 00
Gravel walks	1,500 00
Washouts	300 00
Fall cleaning	400 00
Snow	1,000 00
	<hr/>
	\$10,000 00

The following streets are in need of repair.

Water street from B. & M. R. R. to Melvin street.

North avenue from Albion street to Main street.

Albion street from Broadway to Stoneham line.

Forest street.

Main street from Water street to B. & M. R. R.

Main street from bridge to Greenwood Depot.

Fairmount avenue.

Vernon street from Cordis street to Wave avenue.

We have used the past year three carloads of oil and one of chloride which proved very satisfactory when applied. The chloride covered 25,400 sq. yards at a cost .012 sq. yd.

The light oil covered 40,800 sq. yds. at a cost of .01 sq. yard.

The heavy oil covered 47,000 sq. yds. at a cost of .031 sq. yard which was covered with sand.

We need at least three cars of heavy oil, two cars of light oil and two cars of chloride to cover the amount of surface recommended for treatment in 1912.

APPROPRIATIONS RECOMMENDED FOR 1912

Macadam Main street from Bridge to Greenwood Depot	\$2,500 00
Estimated cost	\$5,000 00
State to pay one-half.	
Main street, from Water street to B. & M. R. R.	1,000 00
North avenue from Main street to Albion street .	3,500 00
Albion street, Broadway to Stoneham line . .	2,300 00
Water street from B. & M. R. R. to Melvin . .	2,000 00
Vernon street from Wave avenue to Cordis . .	1,000 00
Fairmount avenue	350 00
Forest street, Main street to Stoneham line . .	750 00
General repairs, fences, drains, culverts, edgestones, snow	10,000 00
Dust layers and coatings	3,858 00
Total	\$27,258 00

Respectfully submitted,

D. C. GREANY,

Supt. of Streets.

REPORT OF THE TOWN COUNSEL

TO THE HONORABLE BOARD OF SELECTMEN :

GENTLEMEN :—I hereby submit my report for the past year.

There are now pending in court five actions in tort against the town and one action of contract, there are also six old petitions for abatement of sewer taxes undisposed of.

CASES DISPOSED OF

Morgan suit, finding for plaintiff and execution for \$166.76 paid by town.

Two Fitz cases, findings for town and \$156.72 collected on executions.

The town's case against the American Surety Company, after eight years' litigation was ended June 8, 1911, by the town collecting on execution \$45,221.63, and, that it may be of record, I here state that I greatly appreciate the fairness of the town in voting me extra compensation for the work involved in this case.

Respectfully submitted,

M. E. S. CLEMONS,

Dec. 31, 1911.

Town Counsel.

REPORT OF THE CHIEF OF POLICE

WAKEFIELD, MASS., January 1, 1912.

Delivered to other officers	8
Fines paid	93
House of Correction	2
Insane hospital	4
Committed for non-payment of fines	5
Committed State Board of Charity	2
Lyman School	1
Placed on file	47

Released	98
State Farm	8
<hr/>	
Total	318
Amount of fines imposed by the Court	\$1080.50
Amount of imprisonment imposed	84 months
Accidents reported	19
Broken wires reported	24
Buildings found open	209
Complaints received and investigated	611
Defective sidewalks and streets	63
Defects in water pipes	8
Defects in gas pipes	4
Details for public assemblages	210
Dogs shot	28
Disturbances suppressed	14
Fires extinguished without alarm	8
Horses shot	7
Lanterns in dangerous places	112
Lost children cared for	32
On duty telephone calls since November 17	968

There has been one addition to the permanent force, Officer Frank H. Robinson having been promoted.

Officer Edwin F. Poland has been assigned to night duty in the Town Hall, commencing November 17th, thereby making it possible for any person desiring to transact business with the police, to reach them by telephone or otherwise at all hours of the day and night.

The officers are now required to call up the station from their boxes on the streets within certain times, thereby keeping within constant touch with the police office, a record of each call and the time being made. This, you will have to agree with me, is a protection to the town as well as to the officer.

RECOMMENDATIONS

A police department is one of the most essential things in any community; to it is intrusted the care and moral welfare of the community, and by it the moral condition of the community is represented.

The primary duty of a police officer is to prevent crime, and failing this, is to procure its punishment.

For this purpose he is invested with broad powers and may perform any act consistent with the rights of others and with the exercise of a sound discretion on his part.

But it should be understood that neither the state nor the municipality whose officer he is, assumes any responsibility for his wrongful action.

Physical and mental ability and moral character should be considered and politics eliminated.

I would recommend that you have a Police Department to consist of five patrolmen and a chief; and that for the maintaining of such a department, a sufficient sum together with the Court fines, be appropriated.

In conclusion I wish to thank your honorable board for the kindly assistance and advice given me.

To his Honor, Judge Bruce, and his assistants, Judges Sweetser and Riley, and also to the Clerk of the District Court, Wilfred B. Tyler and his able assistant, Henry C. Bacon, I wish to extend my sincere thanks for the kind and courteous treatment accorded me throughout the year.

To all those who have in any way assisted this department, you have my thanks.

Respectfully submitted,

JAMES J. POLLARD,

Chief of Police.

REPORT OF THE FOREST WARD

TO THE HONORABLE BOARD OF SELECTMEN:

GENTLEMEN:

Number of fires 1911	88
Increase over 1910	17
Average cost of each fire including loads of water and teams	\$9 12
Average cost in 1910	8 45

APPROPRIATIONS

Spring meeting	\$250 00
Fall meeting	597 00
Borrowed from Misc. fund	557 36
	<hr style="width: 10%; margin: 0 auto;"/> \$1,404 36

EXPENDED

Payroll No. 12, Spring	\$807 61
Payroll No. 13, Fall	39 30
Reimbursed Misc. fund	557 36
Balance	09
	<hr style="width: 10%; margin: 0 auto;"/> \$1,404 36

Several fires came in from the adjoining towns for which bills have been sent.

Saugus	\$119 50
Stoneham	59 25
B. & M. R. R.	7 00
	<hr style="width: 10%; margin: 0 auto;"/> \$185 75

Wakefield fire cost in 1911 \$661 16

Wakefield fire cost in 1910 \$596 50

The continued drouth during the spring and summer, when in ordinary seasons fires would have been small, added greatly to the expense of putting them out.

This department is under great obligations to the Fire Department and their officers who responded promptly to our call for assistance.

Respectfully,

SAMUEL T. PARKER,

Forest Ward, State No. 208.

SEALER OF WEIGHTS AND MEASURES

TO THE HONORABLE BOARD OF SELECTMEN:

DEAR SIRs: —I herewith submit to you a report of my work done in 1911.

Balance on hand	\$ 9 23

SARAH A. CUTLER,

Treasurer.

REPORT OF INSPECTOR OF ANIMALS

TO THE HONORABLE BOARD OF SELECTMEN :

DEAR SIRs :—I herewith submit my annual report as Inspector of Animals. During the year 1911, on Inspection of Animals have made one hundred and eighty (180) calls. There were ten (10) horses killed for glanders. Three (3) tuberculosis cows.

Respectfully submitted,

DR. PALMER CORBETT.

REPORT OF INSPECTOR OF WIRES

TO THE HONORABLE BOARD OF SELECTMEN :

GENTLEMEN :—The tenth annual report of the Inspector of wires is herein submitted.

One hundred and thirty four (134) reports having been filed, and inspections made during the year 1911—as required.

Respectfully submitted,

ALBERT B. MORTON,

Wire Inspector.

There have been 3172 orders drawn on the Town Treasurer, aggregating \$260,472.04.

Changes have been made in the manner of paying off the employees of various departments and all Boards have been held strictly to specific appropriations in their expenditures.

One hundred eighteen building permits have been granted with a total estimated value of \$252,172.00 marking a record year in building and indicating a healthy growth of the Town.

The Board has been able to secure the construction of Water street from Melvin street to the Saugus line by the B. & N. St. Ry. Co., without cost to the Town, under a franchise granted in 1901, and the rails on this street and on Albion street have been relocated, improving the service and the appearance of the streets.

The Telephone Co. has been given permission to lay conduit in Main, Albion and some other streets in order to put their wires underground and one duct in these conduits has been reserved for use by the Town without any expense to the Town.

A step forward has been taken, we believe, in the using of oils and other preparations on the highways for dust laying, in place of water.

The stone-crusher plant has been improved and our own citizens, employed there, furnished all the stone needed for highway

work and at a price appreciably lower than that for which it could be bought in the open market.

A working agreement has been made with [the Municipal Light Commissioners whereby all opening of the streets for their pipes, etc., shall be done by the Highway department and be paid for by the Light Board. If this arrangement proves successful, and we believe it will, a similar agreement with the Water and Sewer Board would solve one of the vexing questions of the day—the co-operation of departments.

Immediate attention and careful consideration have been given to all matters pertaining to the Town's welfare, and complaints from individuals have been investigated promptly.

Our thanks are hereby tendered to the several Boards and Officials of the Town and State for courtesies received and to our fellow citizens for their co-operation and support.

If our efforts, to serve the town acceptably, have met with some degree of approval among our citizenship, we shall feel a justifiable pride in the year's work.

Respectfully submitted,

Board of Selectmen

GEO. E. WALKER, Chairman,

CHAS. S. YOUNG, Secretary,

ANDREW G. ANDERSON,

FRANK A. LONG,

NATH. E. CUTLER.

Treasurer's Report

TO THE CITIZENS OF WAKEFIELD :

I herewith present my report for the fiscal year ending December 31, 1911.

TRUST FUNDS

The trust funds now in my hands are as follows :

Interest from Wakefield Savings Bank Aug. 1, 1911		1 89
		<hr/>
		2 15
Paid Labor roll care of lot		1 50
		<hr/>
Balance available		65

C. SWEETSER LECTURE GUARANTEE FUND, \$894.22

In addition to the lecture fund of \$10,000, there was received from the trustees of the late Cornelius Sweetser the sum of \$552, which by vote of the town, is held in reserve to pay any deficiencies arising from the lecture courses of the future. Its present condition is as follows :

STATEMENT

Balance on hand Jan. 1, 1911	\$924 60
Interest added to Aug. 1, 1911	34 97
	<hr/>
	959 57
Paid Lecture Committee deficit	65 35
Balance available	\$894 22

This balance is on deposit with the Wakefield Savings Bank.

C. SWEETSER LECTURE FUND, \$10,000

The fund is now invested in a one year note of the town of Wakefield (temporary loan) maturing Jan. 1, 1913.

The sum of \$400, as income from the fund for one year, to Jan. 1, 1912, has been paid to the Sweetser Lecture Committee.

NANCY WHITE PARK FUND, \$1,000

The principal has been invested in a certificate of deposit bearing interest at the rate of four per centum per annum; \$44.89 has been placed at the credit of Park Department, as interest on fund.

NANCY WHITE HURD SCHOOL FUND, \$500

STATEMENT OF INCOME AND PAYMENTS

Balance income available as per last report	\$ 15 47
Interest from Wakefield Savings Bank	19 49
	<hr/>
	\$ 34 96
Expended :	00 00
	<hr/>
Balance available	\$ 34 96

MERRILL W. GOVE LIBRARY FUND, \$500

This fund is on deposit with the Blackstone Savings Bank of Boston. Interest received, \$20.20, has been credited to Library account.

CLARISSA E. SWAIN BURIAL LOT FUND, \$500

This fund was established for the care of the Swain and Moses Lots, and surroundings thereof in the Old Cemetery, and is deposited in the Wakefield Savings Bank.

STATEMENT OF INCOME AND PAYMENTS

Interest from Wakefield Savings Bank to Aug. 1, 1911	\$ 10 00
Paid labor roll, care of lots	10 00

Some slight variation in amounts received as income on above funds will be noticed from last year, some more and others less due to rearrangement of dates of investment, so that all funds will eventually receive income for town year.

In former years the funds were credited with one year's income when investments came due. This year the income is credited to January 1, 1912 on most of its funds.

Since last report Nos. 524 and 561 and part of 389 have been redeemed.

FINAL STATEMENT

During the year 1912 the following payments will come due, which are to be included in the tax levy for that year by votes which the town has already passed, except water and light plant which are paid from income of plant.

Municipal light plant	\$ 6,000 00
Warren school house	2,000 00
Water	4,000 00
Greenwood school house	2,000 00
Junction school house	2,000 00
Sewerage	5,000 00
North school house	1,000 00
Fire station	1,000 00
High school repairs	1,000 00
Greenwood gas extension	1,000 00
Municipal light plant, 2d	2,500 00
West Chestnut street sewer	2,500 00
Insurance Premium notes	1,000 00
Byron street sewer	1,500 00
Appropriations since tax levy [.	18,093 30
	<hr/>
	\$50,593 30

There will also be required about \$28,406.25 to meet interest charges for the ensuing year.

The attention of the citizens is called to an error which appeared in the last annual report under my report as Treasurer, and to which my attention was called by Dr. D. S. Coles soon after the issuance of the report.

I explained the error in the public press at that time but as a matter of record will again try and make the matter clear.

On page 74 Annual Report of 1910 after Recapitulation of Town Debt, \$670,500.—insert viz.

Town Debt Jan 1, 1910	\$689,050 00
Retired as follows	28,050 00
						<hr/>
						\$661,000 00
West Chestnut sewer new issue 1910	7,500 00
Insurance Premium, new issue 1910	2,000 00
						<hr/>
						\$670,500 00

Town Debt has decreased \$18,550.00 for year ending Jan. 1, 1911. I trust that I have made this clear.

Respectfully submitted,

ALBERT W. FLINT, Treasurer.

Wakefield, January 9, 1912.

A few facts in regard to the general condition of this department would perhaps be of interest to the tax payers.

Increase of personal property	271,023 00
Increase of building assessments	259,620 00
Increase of land assessments	115,625 00
Increase in gross levy	6,667 01
Decrease in net levy	8,027 74
Decrease in soldiers' exemptions	2,586 61
Decrease in widows' exemptions	97 75

We still continue the work recommended by the committee of 31 and voted by the Town and are adjusting values outside of our regular work. A careful comparison with last years figures will show results.

We have asked the Finance Committee to recommend a permanent clerk for the department as the growing needs of the Town require some person at hand at all times to give general information and to take charge of our valuable files, that are now at the mercy of everybody. As a consequence we find our cards sadly disarranged, and a source of inconvenience to this department.

We see from year to year the importance of the Finance Committee as the tax rate is made up largely by the appropriations.

Our maps still remain in their original condition despite the fact that hundreds of sub-divisions of property have been recorded the past few years.

We are pleased to note the healthy growth of the Town, with a high class of houses being erected for permanent homes. Permits have been taken out for buildings for 1911 far in excess of 1910.

This year the department had a separate appropriation which was formerly taken from the misc. fund.

SAMUEL T. PARKER, Chm.,

CHARLES A. CHENEY,

GEORGE H. STOWELL, Sec'y.

Report of the Board of Health

The Board of Health respectfully submits its annual report. The number of contagious cases reported to the Board during the year were as follows :

Measles	227
Scarlet Fever	10
Diphtheria	18
Typhoid Fever	6
Whooping Cough	8
Small Pox	1
Tuberculosis	2

The following nuisances were ordered abated.

Hog pens to be cleaned out	7
Hog pens ordered to be discontinued	6
Overflowing cesspools cleaned out	12
Overflowing vaults cleaned out	9

The dump on Pleasant street cleaned up.

No dumping or rubbish signs set up	8
Cow barns ordered cleaned up	1
Horse barn connected to sewer to abate nuisance	1
Manufacturing plant ordered connected with sewer	1

The Board has received many complaints during the year regarding the matter of the collection and disposal of offal, and would strongly recommend that the Town take some action at the annual meeting by making an appropriation for the establishment of a service for the collection of offal.

Respectfully submitted,

JOSEPH W. HEATH, Chairman,

AUGUSTUS D. JENKINS, Secretary,

DAVID TAGGART, Health Officer.

Report of the Inspector of Plumbing

TO THE HONORABLE BOARD OF HEALTH:

Gentlemen:—The work in the Plumbing Department for the year ending December 31, 1911 was as follows:

Applications filed	142
Applications left over	7
Inspections and calls made	423
Fixture sets	735
Water closets	179
Bathtubs	117
Bowls	124
Sinks	148
Wash trays	162
Slop-hoppers	1
Sitz baths	1
Shower baths	1
Urinals	1
Butler's-sinks	1
Alterations	7
Additions	7
Ventilations	17
Surface drains	5
Sewer connections	31
Cesspools	68

Thanks to your Board, the citizens and my craft for kind co-operation, I am,

Yours truly,

GREENLEAF S. TUKEY, Plumbing Inspector.

Report of the Inspector of Milk

TO THE BOARD OF HEALTH:

Gentlemen :—I herewith submit my annual report as Inspector of Milk, for the year ending December 31st, 1911.

The number of samples collected analyzed during the year have been one hundred and thirty two.

The average of milk solids, less fat was	9.02
Butter fat	3.89
<hr/>	
Total solids	12.91

Twenty six licenses have been issued during the year, also eighteen registrations.

Respectfully submitted,

H. A. SIMONDS, Inspector of Milk.

SECOND ANNUAL REPORT

OF THE

Water and Sewerage Board

OF THE

TOWN OF WAKEFIELD

FOR THE

YEAR ENDING DECEMBER 31, 1911

Second Annual Report of the Water and Sewerage Board

The annual report of the Wakefield Water and Sewerage Board is herewith presented, including the ninth annual report of the Water Department and the twelfth annual report of the Sewer Department.

The water plant has again proved itself a splendid asset by demonstrating its special financial value to the town.

The increasing receipts have shown a balance, or surplus, over all regular expenses of \$5,509.50, although there has been a further reduction of rates during the year.

The extraordinary expenses, for extension of the intake and for Metropolitan water to the amount of \$4,948.79, have been met from the surplus income of this year.

The board believes that the time has come for the installation of meters, which ought to lower the consumption of water twenty per cent or more. The members of the special water committee, in discussing the subject at a recent meeting, expressed the same views.

Whatever course the town may decide to take in regard to its water supply, meters will be necessary.

By vote of the town, some years ago, it was decided to set aside the surplus from the water plant for an emergency fund, it being expected that enough money would be accumulated to provide for meters, or other extraordinary expenditures, such as replacing the main on Main street with a larger size, thus obtaining ample fire protection by a larger supply of water in the business centre.

This surplus fund has been used by the town to reduce the tax rate; it will therefore be necessary to issue bonds, with added interest charges, for the purchase and installation of meters.

There has been added to the pipe system, 3,730 feet of street mains, to meet the requirements of the new building boom in town, and 5,600 feet of service pipe have been laid and connected.

The duties in the Sewer Department have also increased. From an appropriation of \$650.00, for maintenance, there is a balance of \$378.06 which will be needed for work in cleaning and flushing the sewers during the winter, as our regular men were employed in the new construction of sewers during the summer. This will provide a more permanent employment throughout the year.

The town appropriated \$5,500.00 for sewer construction on Albion, Gould and Byron streets. This work has been done by department employees, and there is an unexpended balance of \$411.18.

The southern part of the town, including the Junction and Greenwood districts, has been planned and laid out for sewer construction, and the plans have been approved by the State Board of Health. This will enable the board, as soon as the weather will permit, to commence the construction of the sewers in Renwick Road and Ashland street, for which an appropriation has been made.

FINANCIAL STATISTICS OF THE WATER PLANT

FROM DECEMBER 1903 TO DECEMBER 31, 1911

Report of Overseers of the Poor

The Overseers in presenting their annual report for the year just closed are pleased to state that they have carefully attended to their duties to the best of their ability.

A valued member of the board Mr. Edward Hazen Walton passed away July 19, 1911, necessitating the appointment of a member in his stead. This vacancy was filled by the appointment of Albert D. Cate.

At the present time there are at the Almshouse 7 male and 3 female inmates, most of whom are advanced in years and in feeble condition, requiring a great deal of care. For a detailed statement of our financial condition we refer you to the Auditors' report.

Respectfully submitted,

HUGH CONNELL, Chairman,

WM. F. BOWMAN,

ALBERT D. CATE, Sec'y.

REGULAR MEETINGS OF SCHOOL COMMITTEE

Second and fourth Fridays of each month at 8 p. m. at Committee Rooms, Flanley Block.

Report of the School Committee

After six years of faithful service, on July first Mr. Jacob H. Carfrey resigned as superintendent of our schools and now holds a like position in the towns of Franklin and Wrentham. The Committee after weeks of careful investigation chose as his successor Mr. Willard B. Atwell, who for five years had successfully supervised the school district of Stratford, Columbia and Northumberland, N. H.

In April Mrs. M. E. Wentworth tendered her resignation as principal of the Lincoln school to take effect at the close of the school year, thus completing forty years of singularly faithful and efficient service as a teacher in our schools.

Mr T. Frank Shea who had been principal of the Franklin School since the opening of the new building in 1902 was promoted to the principalship of the Lincoln School

The Committee, believing that the average child at five years of age is not sufficiently developed to satisfactorily accomplish the work in the first grade, voted to raise the age of admission to five years before July first, and it is the intention of the Committee to make the age of admission five years before April first of this year. We believe this will result in fewer failures of promotion and be for the best interests of the children.

This year an assistant to the Principal at the Warren School has been employed so that now all buildings of eight rooms or over have an assistant to the principal, thus giving the principal more time to supervise the work of the school.

SCHOOL BUILDINGS

The expenditures for repairs of school buildings have been large, but more ought to have been done. The largest single expenditure was in replacing crematory closets at the Warren school with ordinary wash down closets. The entire heating plant at the Warren school was overhauled, several broken castings replaced, and all the furnaces reset. This also was an expensive job.

At the Hamilton school the chimneys were taken down to the roof and rebuilt, and the school rooms and corridors kalsomined. This completes the renovating of the Hamilton school begun by a special committee last year.

The outside of the Hurd school and of the Montrose school have been painted and a part of the cellar at the Woodville school cemented. In the basement of the Lincoln school most of the cement has been relaid.

At the Warren school the hall in the third story and the corridors have been wired for electric lights, and at the Franklin school service pipe has been put in for gas and plans made to light the hall and corridors.

Another section of the concrete in the yard of the Lincoln school has been resurfaced, and the concrete about the High school and at the Franklin school also. This was done by the Highway Department, but at the expense of the School Department. Early in the year the Greenwood Improvement Association expressed a desire to co-operate with us in regrading the yard in the rear of the Greenwood school, and one hundred dollars was appropriated for that purpose, the work being done under the supervision of the association. The usual careful attention has been given to the minor repairs of all sorts, small individually, but large in the aggregate. It seems each year as if there would be less to do the next year, but somehow there proves to be more and more every year that simply must be done.

We recommend appropriations as follows :

Salaries	\$52,841 00
Fuel	4,690 00
Contingent	4,000 00
Books and Supplies	3,200 00
Evening School	1,000 00

\$65,731 00

and that the tuition receipts estimated at \$2,000.00 be added to the appropriation.

The salary schedule follows the report of the superintendent. The detailed statement of expenditures and the list of unpaid bills appear in the last of the book. We invite careful reading of the reports of the Superintendent and of the Principal of the High school, particularly in regard to the conditions at the High school.

CHARLES N. WINSHIP

Report of the Superintendent of Schools

TO THE MEMBERS OF THE SCHOOL COMMITTEE:

I hereby submit my first annual report which of necessity must be short as I can give an account of only sixteen weeks of school work.

In the first place I wish to express my appreciation for the cordial reception to the Town of Wakefield by the School Committee, teachers and citizens. I also wish to thank the different departments of the town for hearty co-operation.

It is proper at this time to give a word or two concerning the conditions which I found upon assuming my office. I found that the administration was very good. The schools were in a flourishing condition and everything had been so planned that we were able to begin our school year in September without any undue confusion. The conditions spoke well for the ability of my predecessor.

In this report I shall merely mention some of the special work that we have been doing, call attention to some weaknesses and try to suggest some possible remedies.

ADMINISTRATION

Principals of large building containing over three hundred pupils, should be principal in fact as well as in name. This of necessity means that the principal should not devote the whole of his time to teaching, nor even the greater part of it. There are many demands made during the day upon his time. For one thing, a parent wishes to consult him about the work or conduct of his child. This should certainly be encouraged, and if it is to be encouraged the principal must have some time to give the visitor. We want the parents to visit the schools often, that they may have first hand knowledge of affairs. We need co-operation between the parents and teachers, and the better each knows the other, the more healthy and efficient will our system become. I therefore suggest that the amount of time that the principal spends in active teaching shall be reduced.

I have held a meeting for principals once each month. We have made this practically a round table meeting where all can discuss freely the problems of administering the work of the schools. These meetings have brought the heads of the schools together in a professional way, and have given them a chance not only to exchange ideas, but perhaps see some problems in a new light. A uniform scheme for running the schools has been made possible by these meetings.

General directions to teachers are given through the principals. After each visit to the schools a short conference is held with the principal and the suggestions that have been made are reported to him for his knowledge, that he may see that results are obtained from them.

SPECIAL WORK

Many of our rooms are overcrowded. I shall speak of this later on in this report, but at this point I wish to call your attention to some special work which is being tried out in the Lincoln school.

The classes are so large that it is practically impossible for a teacher to give anything like individual instruction. Mrs. Knight, who has been serving as a permanent substitute, is now acting as a special teacher, doing individual work or with small

groups. I quote the following from Principal Shea's report: "In many instances, Mrs. Knight is supplementing and reinforcing what the teachers are doing. She is also assisting in the eighth grade by doing individual work and hearing recitations. This special work with the pupils, needing more attention than the regular teacher can give, is showing progress by such pupils, who will doubtless keep on with their grades instead of falling by the wayside. This work is done largely in the small room where pupils and teacher are brought into close contact. This fact enhances the value of the work both to the individual and to the group so instructed. By personal observation I have seen these pupils receive intellectual sensations which they should have received from one to three years before. How their faces have brightened up with the satisfaction of having successfully surmounted a difficulty.

"Four children entering this country within a short time were started in the first grade; the regular teacher had too little time to devote to them and they doubtless would go there today. They had the special work with Mrs. Knight and two of them are in the second grade; the other two are in the room occupied by the third and fourth grades with the prospect of soon working into the fourth. They will probably enter the fifth before the end of the year." Every retarded pupil is an added expense to the town, therefore, every retardation that we prevent is a saving. We see by the above quotation that two pupils are saved practically four years' work in our schools, while two are saved at least one year. These are only a sample of what is being done along this line. Many other pupils who might, and probably would, fall by the wayside are reclaimed and saved. It appeals to me that Mrs. Knight's services are costing the town practically nothing because of the time saved for pupils who without individual help would not be able to keep up with their grade. Mrs. Knight also serves as regular substitute in the Lincoln School. The expense of the salary of another substitute is thereby saved. I would recommend that a similar teacher be employed in the eight room buildings or at least two more be employed who might divide their time among these schools.

READING

We have started a campaign on reading. This subject is the basis of all the work in the upper grades and high school. Some seem to think that because they can pronounce the several words correctly they are reading. Not so: reading is the getting of the thought from the printed or written page. We see aliens learning the English language. Many times they pronounce the words nearly correctly, but they have absolutely no idea of what the paragraph is about; so it is with the children in the schools. They give more attention to pronunciation than to thought getting. This inability to grasp the thought from the printed or written page is a direct cause of poor work in other subjects in the higher grades. Often a pupil cannot work out a problem in arithmetic, merely because he cannot read it understandingly. He goes to the teacher, perhaps, and says he cannot "do the example." Many times if the teacher merely carefully reads the problem to him he nods his head and says "Oh yes! I see now." The work in reading is divided into three parts; the mechanics of reading, that is learning to read, to pronounce the words; an introduction to good literature: and the inculcation of a desire to read good literature. To assist in the last two parts the sub-committee on Text-books recommended the adoption of a list of new reading books, with this idea singly in mind, that we might give the pupils a taste and a desire for standard works. It is not the intention to replace old books immediately by books from this list, which would be a needless expense to the town, but to gradually replace old and worn out books.

SPECIAL FEATURES AT GREENWOOD

Principal Vardon of the Greenwood school is doing much extra work along special lines. There are two to which I wish to call your attention: namely, the use of the lantern in teaching geography, and the work of the home garden movement. The Greenwood School by means of entertainments secured enough money to buy a lantern. Slides may be borrowed, some merely for the payment of expressage, others at a nominal fee. The children can understand and appreciate things which they see. I was present at an illustrated lesson on Europe. The pictures were thrown

upon the screen and remained there while the instructor gave comments upon them and called attention to special features. Mr. Vardon also uses the lantern at some of the meeting of the Parents' Association. In March the government loaned the school two hundred fifty slides showing the work upon the Panama Canal. These were used for the entertainment at the March meeting.

The following is an excerpt from Principal Vardon's report: "The home garden movement here is grandly supported by the Association. In May, Mrs. J. C. Woodman, of Melrose, gave a talk for the benefit of the young gardeners on 'the Planting and Care of the Gardens.' The improvement in the gardens this year was very noticeable. About thirty-four per cent of the pupils entered the work, having expended more than twenty-one dollars for seeds as against twelve dollars last year, thus showing a decided increase in interest, which continued throughout the year.

"Because of the early frost, the exhibition was held one week earlier than was intended, but certainly was a success. The exhibits were arranged by the association. Sixty awards were given for vegetables, flowers, sewing, sloyd, drawing, and other manual work. About twenty-five photos of the gardens were shown by means of the lantern, while many could only be shown by photographs owing to lack of time to make slides." Mr. Vardon neglected to say that he spent a large amount of his own time in taking these photographs of the gardens, and in transferring these photographs to lantern slides.

Educators have a great deal to say about the use of lanterns and moving pictures for school use. Mr. Vardon is making good use of his lantern to the benefit of the pupils. It would be well if the other large schools had an assembly hall and a lantern.

MANUAL TRAINING

Mr. Peabody in his report says, "The primary aims of the work in manual training are not, as many people think, to produce models or to prepare boys for any special vocation, but they are to produce intelligent workers. That implies a develop-

ment of the boy mentally, morally and physically, that he may be better able to enter industrial activities.

“At present there are 281 boys from the seventh, eighth and ninth grades receiving instruction in this important subject. Each boy has a period of one and one-half hours each week.

* * * * *

“During my teaching in Wakefield the equipment of the manual training department has been much improved and enlarged, and each year the boys make more models of higher quality and show deeper interest in the work. This interest is shown by high school scholars who seek opportunities to work afternoons and grammar school boys who wish to remain after hours, but who are refused these privileges on account of the crowded schedule.”

The manual training department is also doing work of a practical nature which gives the boys excellent practice and incidentally saves money for the town. Some of the boys are now building a filing cabinet which will be used at the high school. Several desks and chairs that have needed some slight repairs have been handled by the boys in this department. They seem to enjoy the work and it seems to me they must receive some practical benefit from this outside work. While there is no desire that the manual training room be turned into a general repair shop it does seem advisable to have the boys attend to odd jobs when they have time. It gives them a chance to put into practice the theory and training which they receive. As soon as a boy feels that he can use what he receives in school then he is happy, and his school work means more to him than before. One of the first questions a boy asks is this: “What is the use of studying this?” If the manual training teaches him to think and to use his hands, a happy combination, then the study justifies itself. The ability to use simple tools is a necessity for most boys, and in helping him attain this ability we make him a better citizen.

CROWDED CONDITIONS

The section of the town which feeds the Franklin school seems to be growing very rapidly, and of course the increase in population means an increase in the enrollment of the school. The first two grades seem to be most affected. The total membership for the first grade for the month of December 1911, was 51, while the average membership was 50.41. The second grade had a total membership of 42, while for the month of November the enrollment was 45. To furnish seating room for these extra ones, portable desks and chairs were added to the equipment of the room.

There are so many in the first grade that one teacher cannot do justice to all, consequently an assistant has been provided who shall give all her time to assisting in this grade.

The Greenwood school, in the room for grades eight and nine, will be more overcrowded next fall than ever. At present there are 54 in a room designed for about 40. The ventilation is entirely inadequate to take care of the foul air. Not only the poor ventilation but the adding of the extra fourteen thus crowding the room, interferes with the work which both teachers and pupils do. There are 36 in the eighth grade and 40 in the seventh grade; consequently, there will be about 76 for this room next year, which will be an impossibility. Some means of relieving this situation must be devised before the school opens for the next fall term.

AGE LIMIT FOR BEGINNERS

Section 6 of Chapter 1, of the rules and regulations reads as follows: "Any child five years old before April 1 may be admitted to school during the first two weeks of the following school year, and any child seven years of age or older or one who has previously attended school shall be admitted at any time upon application to the Superintendent, provided he has complied with the regulations of the Board of Health and the public statutes."

This vote raises the age at which a child may enter school from five years to about five and one-half years. This is a step in the right direction. I believe that it would be better to change the

wording and make it read January 1 instead of April 1. The age of entrance should be practically six, and then the system changed from nine grades to eight grades, and I so recommend. If a child enters at six instead of at five he is older mentally and can take up his school work more easily and with less chance of repeating his work in the lower grades. Statistics show that the retardation of pupils is the largest in the first grade. Many children at five years of age are entirely unfitted to begin school work while they would be able to begin their work with a fair chance of succeeding if they waited a year longer. By beginning at six and working through an eight grade system they would be no older at the end of the grammar school course than they are at present by entering at five and remaining in the grades for nine years.

HIGH SCHOOL

It is proper at this time to call your attention to the high school. I call your special attention to the principal's report which follows, which is interesting and instructive. I call your attention to that part of the report which gives in outline the housing of the students, and the crowded condition of the building.

It looks now as though it will be necessary to engage another teacher next year. If that does come to pass, this extra teacher will have no room which she can call her own, but will be compelled to pass from room to room wherever there happens to be a vacant period. When still another teacher has to be secured, it is a problem as to where she may work. It seems almost an impossibility to make a place for her.

There is no question but what the efficiency of the school is diminished by the poor accommodations. Some of the rooms should not be used at all for class rooms, unless for very small classes. The ventilation and light are very poor.

From the December report of the attendance in the high school we get the following :

	1910	1911
Registration less transfers	367	397
Average membership	351.9	381.2

There are 139 in the present ninth grade and 189 in the present eighth grade. The senior class in the high school has an enrollment of 72. If the same proportion of the ninth grades enters high school as entered last year there will be an enrollment of about 425.

It therefore seems that the high school will be still more handicapped next year by numbers and poor facilities for handling them.

In spite of the handicaps, I believe that the school is doing good work. Our certificates are received without any question by all colleges which accept a certificate as a means of entrance, and I have heard of none being dropped because of poor scholarship.

From a report which came to the office during the fall term, I give you the following information in regard to the graduates of the commercial department:

Number of graduates in June	26
Number at home	4
Number visiting	2
Post graduates	2
Number waiting for a vacancy	1
Number attending higher institutions	1
Number holding commercial positions	16

It is worthy of notice that all who have positions, and even those who have not, have not taken any work in any commercial school, but have taken up work directly from our high school.

ABSENCES

Attending school is the business of the child, it is his duty to be at his post every day unless prevented by illness. The number of absences increased during the last school year by about 8000 over the number for the school year ending June, 1910. Parents should feel the necessity of sending the child every day when possible, and the child should feel the responsibility of being in his seat at the proper time. I sincerely hope that all parents will aid us in keeping down the number of absent marks and therefore increasing the efficiency of our schools.

TRUANT OFFICER'S REPORT

"I have investigated 134 cases, of which 26 were cases of truancy, the balance were for sickness, negligence of parents, etc. Two prosecutions were made in court for truancy during the year."

EVENING SCHOOL

The evening school began on October 30, 1911. The law has been changed regarding the interpretation of the term "minor", and raises the age from 18 to 21. Last year it was 18. This of course has increased the registration in the evening school.

SEWING CLASS

There seemed to be a demand for a class in sewing. The class in sewing was limited to 50. There are about 32 at present enrolled. Entrance to this evening sewing class is restricted to those young women who are not members of the public schools. The students show considerable interest, and the attendance is good. The course is intended to give instruction in plain sewing, cutting and fitting and the use of the sewing machine. To this is added talks on physiology and hygiene.

MILLINERY CLASS

There has been a decided request for a class in millinery. A class will be formed for the remainder of the season. Admission to this class will be limited to those who are enrolled as members of the evening class.

MECHANICAL DRAWING CLASS

There are fourteen enrolled in this class. We secured the services of Mr. Mitchell, who has taught this subject in southern colleges, and at present is a student at Technology. The work is individual work, each going as fast as he chooses and is able.

In these three classes a deposit of one dollar is required as a guarantee of good faith and regular attendance. The deposit is returned at the end of the course if the conduct is satisfactory and the attendance regular.

The following is a table giving in condensed form the data for the Evening school :

Illiterate men enrolled	49
Illiterate women enrolled	21
	—
Total	70
Average membership, illiterates	62.70
Average attendance, illiterates	56.52
Per cent of attendance, illiterates	90.14
Literate men enrolled	50
Literate women enrolled	40
Total membership, evening school	120
Average membership, evening school	102.7
Average attendance, evening school	90.35
Per cent of attendance, evening school	87.97
Total membership, sewing class	32
Total membership, drawing class	14
Total membership of all classes	166

In conclusion I wish to thank all who have worked with me for their hearty support and earnest co-operation.

Respectfully submitted,

WILLARD B. ATWELL,

High School Principal's Report

MR. W. B. ATWELL,

Superintendent of Schools,

DEAR SIR:—Herewith I submit my seventeenth annual report and the nineteenth in the series of High School Principals' reports.

TEACHERS

During the past year the school has lost the valued services of Mr. R. C. Bean, teacher of Science for the past five years, who left the school to take a position as Junior-Master in the Girls' High School of Boston, of Mr. Lucien H. Thayer, teacher of French and German, who has taken a position on the staff of the Boston Globe and of Miss Florence W. Lowell, teacher of English. The places thus made vacant have been filled by the appointment of Mr. L. N. Brooks, a graduate of the Haverhill High School and Dartmouth College and teacher of Chemistry in the Hanover, N. H. High School, as successor to Mr. Bean, of Mr. Albert W. Hopson, a graduate of the Everett High School and Harvard College and a teacher of experience in Cushing Academy, as teacher of French and History, and of Miss Ethel G. Reed, a graduate of Tufts College and a teacher of successful experience in the Orange (Mass.) High School as successor to Miss Lowell. Miss Florence O. Robinson of Braintree has been appointed assistant in drawing.

THE SCHOOL, SIZE, ETC.

As I have done many times before, I have to report again that the school, at the opening of the present school year was the largest in its history, numbering three hundred and ninety-seven pupils. These pupils are distributed among the different classes as follows:

	Boys	Girls	Total
First Year class	80	66	146
Second Year “	51	47	98
Third Year “	27	53	80
Fourth Year “	28	44	72
Graduate Student†		1	1
	—	—	—
Total	186	211	397

The unusually large proportion of boys is noticeable. Just the reason for this, I am unable to state.

Assuming that the town has the same population as last year and not including the twenty one Lynnfield pupils, each thousand of Wakefield's population sends thirty three pupils to the High School, a number somewhat larger than last year.

Thirteen teachers are employed in the school, not including the teachers of Music, Drawing, and Military Drill, an average of one teacher for 30.5 pupils. Some few years ago the number of pupils per teacher was twenty seven. These figures indicate that the size of the teaching corps has failed to keep pace with that of the number of pupils. With the opening of the present school year, in order to avoid the employment of an additional teacher, it became necessary for the principal to do more active teaching than is for the good of the school at large, and to assign the clerk in the office to a number of recitations in the Commercial department, an arrangement that ought not to be continued another year.

ACCOMMODATIONS

It had not been my intention to call the attention of the School authorities again to the question of High School accommodations, and I shrink from doing so lest I be thought unduly insistent and disposed to magnify unreasonably the importance of this department. However, it seems to be a part of my duty to point out conditions as I meet them every day.

Below is a list of the rooms in the building, with their approximate size or capacity, their uses and my comment thereon, as far as comment seems needed.

ROOM 1. This room is 50 ft. by 50, containing one hundred and twenty-eight desks, all occupied, with the exception of three. It is a combined study and recitation room and owing to its size and the presence of many pupils is a rather difficult room to hear recitations in. Although so large and seating so many pupils, from the standpoint of the number of recitations that can be held in it in a day, it is no more valuable than a much smaller room.

ROOM 10. This room is also a large one, being approximately 50 ft. by 35 and containing eighty-five desks, of which sixty-three are occupied. This room is used constantly for recitations, as well as for seating and study purposes but as was said concerning the large room above, although so large it is really no better for recitation purposes than the smallest room in the building.

ROOM 3. A small room, on the second floor, fitted with thirty desks. This room is used for recitations only. To accommodate some classes, owing to their size, it has been necessary to bring in chairs.

ROOM 4. A small room, second floor, with nineteen desks and two settees. Used for recitations only. The room has only one window and even on pleasant days is unduly dark. Furthermore, proper ventilation is difficult to maintain. From the hygienic standpoint the room ought to be condemned and not used.

ROOM 5. A small room, second floor, with forty small sized desks arranged [uncomfortably close together, in order to secure as large a seating capacity as possible. Used for recitations only. Well ventilated.

ROOM 7. The typewriting room, third floor, fifty feet by fifteen, a part of what was originally the "hall", heated at one end by steam pipes passing through the room and at the other by a stove. The room is of ample size, but poorly lighted and very poorly ventilated.

ROOM 9. The commercial department room, third floor, a large room fitted with forty commercial desks, thirty-four of which are occupied. This room also contains the banking outfit. It is not well lighted, the windows being rather small. Well ventilated. Used for recitation and study purposes, both.

CHEMICAL LABORATORY. Fitted with tables, sinks, water and gas. Used for laboratory work only. No recitations.

PHYSICAL LABORATORY. A large room, fitted with apparatus cases, Harvard Physics tables and large sink. Intended to be used for Laboratory purposes only, but necessity has compelled its use as a recitation room for a part of each day.

ROOM 16. A good sized room, third floor, in the addition made a few years ago. Fitted with thirty desks of which twenty-two are occupied. Used for recitations in the commercial department, and in science, as conditions allow. Well lighted and ventilated.

ROOM 17. A good sized room, in the addition. Used as a drawing room. Fitted and filled with thirty drawing tables and cases. Altogether inadequate for the use to which it is put. Splendidly lighted and well ventilated.

ROOM 14. A good sized room, second floor, in addition, fitted with thirty-five desks, all occupied. Used for recitations and for study. Well lighted and ventilated.

ROOM 12. A good sized room, first floor, in addition, with forty desks of which twenty-nine are occupied. Used for recitations and for study. Fairly well lighted and well ventilated.

ROOM 15. A good sized room, second floor, in addition, fitted with thirty-five desks, all occupied. Used for recitations and for study. Well ventilated and lighted.

ROOM 13. A good sized room, first floor, in addition, fitted with thirty-five desks of which twenty-eight are occupied. Used for recitations and for study. Well lighted and ventilated.

ROOM 11. A large room, first floor in old building, fitted with forty-three desks of which twenty-six are occupied. Used for recitations and for study. Fairly well lighted and ventilated.

CORRIDORS. I should say that one-half the corridors are six feet wide and the remainder five or seven.

The above, together with two small closets, the book room and dressing rooms, constitute every inch of floor space in the building.

With the above facts in mind may I quote from my report of 1908.

“The school building contains twelve rooms, that readily, with one exception, namely, the large hall (Room 1), lend themselves to the purposes of recitation rooms, the two laboratories for chemistry and physics and the typewriting room. Of these fifteen rooms, the typewriting room manifestly cannot be utilized for recitation purposes, neither can the chemical laboratory, leaving thirteen rooms available for recitations and of these, two at least, more or less unfitted for work under the best conditions, namely, the large room seating one hundred and twenty-eight pupils and the physical laboratory with its tables, cases and sink. To provide recitation rooms for the thirteen teachers now employed in the school, has been somewhat of a problem, it can easily be seen, especially for the two days in the week when the teacher of drawing is added to the number. It would not have been possible to provide for fourteen teachers with thirteen rooms but for the fact that each teacher is allowed a free period or two per week. When another teacher becomes necessary, and no one can tell how soon that will be, I do not see how we can avoid conducting two recitations simultaneously in the same room or else utilize the corridors as recitation rooms which, to one acquainted with the corridors, with their drafts of air and inadequate heating, is unthinkable.

“As the school has become crowded, or perhaps better, has approached its limit of capacity, the work of the school has begun to suffer and will continue to do so in increasing measure as long as its accommodations continue to grow more and more cramped.”

This was the way the situation appealed to me three years ago when three hundred and fifty-nine pupils were enrolled, the largest number up to that time in the history of the school. Since then the number of pupils has increased by thirty-eight, who have been cared for with no addition to the teaching force. The demand for an additional teacher for at least a portion of the time, is well nigh imperative and cannot long be denied.

Further, experience has taught us that one of the rooms, viz. Room 4, that was deemed available, ought not to be counted on for use with large classes, owing to poor light and ventilation. Still I do not see how its use can be avoided. The Physical laboratory has been impressed as a recitation room and the large room, Room 1, which ought never to be used as a recitation room, has been put to increased use as such. In some of the drawing classes at the beginning of the year there were more pupils than there were desks and it was not an uncommon experience for me to find four or five pupils with drawing boards on their knees or resting against the wall, because of lack of room for more drawing tables.

It is a matter of remark among the teachers that the work is materially harder than ever before, owing to the bigger classes that come to them and the larger number each is required to supervise while conducting their recitations.

These facts and the condition of the corridors and stairways when classes are passing from room to room and when the school is passing out at fire drill, will warrant me, I believe, in saying that the school is crowded and is suffering as any organization, whether factory, mill, church or lodge is bound to, when attempting to do its work in cramped, inadequate quarters.

But what of the future? Are conditions likely to mend? I cannot think so. It seems to me that the situation is becoming acute. At the present time the fourth year class numbers seventy-two members. On the supposition that these are all graduated (which is not probable), that the losses the other classes will suffer by pupils dropping out are no larger than the average for the past four years and that the entering class of next year is as large as that of this year, next September will find a High School

of four hundred and twenty-eight pupils, i. e. thirty larger than this year. If this condition comes about, one or two additional teachers will be needed, which will necessitate providing an equal number of rooms in addition to our present number.

In these days when the public is straining every nerve to reduce as much as possible, in the interest of the pupil, the number of pupils that a single teacher shall meet, it would seem that Wakefield was turning back the hands of the clock in letting its pupils outrun in increasing ratio, the number of its teachers.

To me the immediate outlook is none too favorable. Before a permanent remedy can be provided, present conditions will have grown less favorable than they now are and to relieve the situation it will be necessary to resort to temporary expedients, which, I fear will be far from satisfactory.

WORK OF THE SCHOOL

The work of the school continues on much the same lines as heretofore and calls for little by way of comment.

BOTANY. The work in Botany is going forward with enthusiasm. It appears that for the best results, the course in Botany should be preceded by a course in the elements of Physics and Chemistry. I am discussing the advisability of recommending the addition of such a course to the work of the first year.

SCIENCE. In the science department the work is being continued on the lines hitherto followed. There is such diversity of opinion to be found among teachers of science as to what is the best course to pursue, that it seems wise for us to continue as at present, waiting patiently until the atmosphere clears before attempting any radical change.

ENGLISH. In the department of English, the feature of the year has been the emphasis placed upon oral composition. More is being made of this feature of the work and less of written work, though the latter is by no means neglected or overlooked. Much interest has been exhibited among the boys of the Senior class in the subject of English Grammar. Some dozen or fifteen who do not take military drill petitioned

for the privilege of joining the Grammar class. There is much enthusiasm in the class. What a difference it makes whether one is obliged to do a piece of work or merely allowed to do it.

FRENCH. The second year class (beginners) in the spring of the year gave two short French plays upon the lawn of one of the members of the class. The plays were very creditably done, I am told. The object of giving the plays was to provide the class with an opportunity for the practise of the spoken word. The preparation was entirely voluntary but confined to those who had done creditable class work. The department is in receipt of a French newspaper daily. We find some who would neglect their other work, if allowed, in order to read this paper.

GERMAN. The action of the school board, adding German to the course of the second year came too late to be put into effect this year, but arrangements will be made to introduce it the coming year.

COMMERCIAL The success of the commercial class graduating last June has been quite unusual.
SUBJECTS. Practically every pupil who desired work had a position by the opening of school last Fall. Several succeeded in finishing their school work before the close of the year and took positions early, returning in June to receive their diplomas.

MATHEMATICS, ETC. The work in Mathematics, History and Ancient Languages has been going forward with the usual success. No changes have been made that call for comment.

DRAWING. The course in drawing has been extended to cover double periods, necessitating the employment of an assistant to the regular drawing teacher for one day in the week.

MUSIC. For several years past a fund has been gathering with which to provide this department with either a mechanical piano player or a Victrola. The fund now amounts to nearly two hundred dollars. To provide either the player or the Victrola, with a reasonable supply of records will require

some further addition to the fund, which it is my hope, may be forth coming, either from the school appropriation, or from gifts of citizens.

MILITARY DRILL. The work in this department has shown no falling off under the present efficient instructor. The last Prize Drill was most favorably commented upon, on all sides.

PHYSICAL TRAINING

More space ought to be given to the consideration of this important subject than is possible. However, I desire to call your attention to a few considerations which may not be out of place. In the absence of a gymnasium or a teacher of gymnastics the pupils of the Wakefield High School have little or no incentive to take proper and systematic care of their bodies. To be sure, the boys have their base ball, both fall and spring, their hockey and a bit of tennis. At the outside, the number who engage in these sports is not more than forty. For the remaining three hundred and fifty, the school is providing little or nothing in the way of physical education. That a well ordered school has not only the right but also the duty of providing for the physical welfare of its pupils is generally accepted. Prof. Horne in his "Philosophy of Education" says, "Because of the influence of the body on the mind, because of the consequent attention the body and brain should receive and indeed are actually receiving from certain school agencies today, it is evident that we are justified in including physical development as a necessary element in our conception of education."

Statistics, so far as they have been gathered, indicate that a large percentage of the school population is defective physically. Although we readily assent to the doctrine of a sound mind in a sound body, our practice falls short of our theory. To be sure, we provide fresh air in sufficient quantity in our school rooms, the common drinking cup has been abolished, the school room floors and wood work are washed twice a year, perhaps, some attention is paid to the lighting, and the teachers examine the

eyes and ears of all children. This is but a beginning. Compulsory gymnasium exercises for both girls and boys, organized and directed play for all, instruction in hygiene and sanitation and more extended medical inspection, either by physician or nurse or both, are topics worthy of more extended consideration than is now possible.

The readiness and enthusiasm with which the six hour school day has been received by the pupils of the commercial department, have led me to wonder whether the idea could not well be extended to the rest of the school, the extra hour being utilized for courses in physical training.

HIGH SCHOOL STATISTICS

*Estimated.

The dark faced figures of the table indicate the membership of the present Senior class throughout the course.

MISCELLANEOUS

I have the pleasure of acknowledging the receipt by the school of a beautiful carbon, "Concord Bridge", from the Rebecca Haven Chapter of the Daughters of the Revolution, Miss Isabelle G. Flint, regent.

Below is a list of pupils who entered higher institutions of learning at the beginning of this year.

Ralph W. Christie, U. S. Naval Academy.

Ethel G. Crandall, Smith College

Mildred Hutchinson, Smith College.

Daniel O. Ferris, Wesleyan University.

Frances E. Jackson, Mt. Holyoke College.

Helen A. Johnson, Boston University.

Olive D. Waterhouse, Salem Normal School.

Arthur R. Cade, Worcester Polytechnic Institute.

Paul B. Eaton, Mass. Agricultural College.

Alfred E. Wilkins, Mass. Agricultural College.

Allen R. Greenleaf, Mass. Institute of Technology.

In view of the publicity given last spring to the failure in examination of many of the candidates in this Congressional district for West Point and Annapolis it is of interest to note that Wakefield's candidate was successful.

In the list of scholars of the second group at Harvard College, occurs the name of George T. Spencer, a student accredited to the Wakefield High School.

The Kosmos Club membership ticket held by that member of the senior class whose work in English has shown the greatest excellence has been awarded this year to Miss Marjorie Cartwright.

Fire drill has been held at frequent intervals during the fall. The regulations require a drill once a month, at least. It has seemed to me very desirable to have it as often as two or three times a week, at least during the warmer weather, in order to make leaving the building as nearly automatic as possible.

Respectfully submitted,

CHARLES H. HOWE.

GRADUATION EXERCISES, WAKEFIELD HIGH SCHOOL
CLASS OF 1911

Town Hall, Thursday, June 22nd, 8 o'clock

PROGRAMME

Overture

Chorus—On to the Battle, On! Gaul

Declamation—From President McKinley's Last Speech
THOMAS MICHAEL COLLINS

Recitation—Helene Thamre Phelps
ESTHER JEAN STUART

Chorus—Forget-me-not Giess

Declamation—The Conquerors McLaughlin
ARTHUR MICHAEL DIGNAN

Semi-Chorus—Cradle Song Frank

Recitation—From "Tom Sawyer" Twain
EDITH THERESA NORTH

Semi-Chorus—Come Where the Fields are Beaming Kinkel

Monologue (Salutatory rank)—The Preparation of an
English Lesson
ETHEL GENEVA CRANDALL]

Chorus—Sextet from Lucia Donizett

Oration (Honor rank)—The Satisfaction of Science
ALLEN RAYMOND GREENLEAF

Essay and Valedictory—The American Girl's Inheritance
MILDRED HUTCHINSON

Presentation of Diplomas—Mr. Arthur H. Boardman
Chairman School Committee

Class Song Mendelssohn

Benediction—Rev. Rufus S. Chase

Motto :—Labor Conquers Everything

CLASS SONG

EFFIE SOPHIE CARLSON

The years have passed, the day is here
When we must say to classmates dear
Our loving words of parting.
Since we may part to meet no more
As in the happy days of yore,
With saddened hearts o'erflowing
We say—Farewell.

The future, with its larger life,
With sorrows and temptations rife,
Before us lies to conquer,
But fame, and joy, and gladness lie
In store for us, if we but try
With never-ending zeal to strive
Against the wrong.

Then let us as the years roll by
Remember, not with tear or sigh,
But with delight, these happy days.
Then may we ever onward go
On life's great journey here below,
With faith and hope and trust in Him
Who dwells above.

Report of Library Trustees

TO THE CITIZENS OF WAKEFIELD :

The Trustees of the Beebe Town Library are pleased to report that the year 1911 has been unusually active and successful, the circulation having for the first time exceeded the 50,000 mark, a patronage of which the town may well be proud.

There have been no changes in the Library force and no radical changes in any department. The meagreness of the waiting room, which also serves as the catalogue, children's and delivery room, is making more and more imperative economy of space and time in meeting the constantly increasing demands of the public and the energies of the Trustees and Librarian have been devoted to this end.

Among the improvements of the past year have been the following :

The addition of a few new books each week rather than bi-monthly as formerly.

The classification of the bi-monthly bulletin.

The separation of the fiction and non-fiction catalogues.

The building of the delivery desk into the waiting room.

The storing of the older books over the shelves or in the attic.

The re-arrangement of the children's corner and the building of other shelves in the waiting room.

At the request of the Trustees, the Librarian, who is in direct touch with the wants of the readers has been for the first time, visiting the book stores and taking an active part in the selection of books.

The attention of the citizens is called to the Librarian's report for the detailed statistics of the Library and also for the list of gifts which the trustees have gratefully accepted and acknowledged.

With the growth of the town and with the increasing use of the Library, the demands of the public are becoming more and more varied. This is especially noticeable among those who have formerly lived in cities or towns having modern methods and buildings. The following needs seem the most urgent at the present time.

The morning opening of the Library.

A morning attendant in the Reading Room.

A desk attendant during rush hours, leaving the Librarian free to assist patrons.

Placing of more duplicates at Greenwood.

Training of assistants, and possibly requiring their attendance at Library summer schools.

Closer co-operation with the schools.

Development of a department for very young children.

Adequate Library rooms.

Until these and many other problems are solved the citizens, and especially fathers and mothers, have no right to be satisfied with the Library facilities offered their children. In ten years the children of today will have passed the most impressionable age.

The receipts and expenditures of the past year are as follows :

LIBRARY

Appropriation	\$1,050 00
Income from dog tax	868 22
Income from trust funds	286 94
Income from fines, etc., including Branch	163 17
Balance unexpended, 1910	48

							<hr/>
							275 00

For the ensuing year the Trustees recommend for the Library the appropriation of \$1,950, including the dog tax, and for the Reading Room \$275.

On account of the burden of outside affairs Mr. Charles F. Mansfield has tendered his resignation. It will therefore be necessary for the town to elect a Trustee to serve out his unexpired term. The remaining members of the Board regret that he has found such a course necessary, believing as they do that the library is losing one of its most faithful friends and one who has given untiringly of his thought and time to a cause he has loved. He was a member of the Board thirteen years and was always present at its meetings.

Respectfully submitted,

RICHARD DUTTON, Chairman.

EDSON W. WHITE, Secretary.

H. GERTRUDE LEE,

Librarian.

Wakefield, Mass., Jan. 1, 1912.

Park Commissioners Report

Through the generosity of one of our public spirited citizens, Mr. John J. Round, a substantial addition to our park areas has been made in the gift of lot of land on Main Street east of the Wakefield Junction Depot, and adjoining lands of the Boston & Maine Railroad Co. This lot containing 15,000 square feet was given free of all incumbrances, and also \$400.00 to be used for its improvement and adornment. It was the wish of Mr. Round that the town would be able to arrange with the Railroad Company for an exchange of a part of this land, either for a path through it from the Depot to Main Street or a portion of said land south of the company's land for a portion of the Railroad Company's land east of the Depot. The object being to afford a better outlook of Crystal Lake. In accepting this gift the town empowered this Board to negotiate with the Boston & Maine Railroad Company. With the recent change in management of the B. & M. Railroad has come a change of officials, some of whom are comparative strangers, and apparently not quite as much interested in adornments near the stations as those whom they have succeeded and with whom our townspeople were better acquainted. Interviews have been held with the Engineer of Real Estate by a Committee of this Board and a promise received to have an examination made and a report given of what they (the R. R. Co.) were willing to do. Nothing definite thus far has been accomplished. This lot will be hardly large enough for a recreation or Playground and would not be if the proposed addition could be effected. But with its nearness to the lake, its even surface containing several fine elm trees it could be made with the addition of a few more trees and constructing paths through it, providing it with settees, etc. a splendid resting place and cool retreat during the summer months. The \$400.00 donated by Mr. Round will be sufficient to make the needed improvements.

COMMON AND PARK

The liberal appropriation made by the Town at the annual meeting in March enabled the Commissioners to effect many needed improvements on the Common and Park, especially the trimming of the shade trees and the renovation of the Pagoda.

SHADE TREES

The contract for tree trimming was given to Messrs. Hubbard & Davis of Reading a competent firm of experienced foresters. This work was well done and the elms and maples are now in better condition than for several years. The Gypsy and Brown Tail Moths have been kept well under control by the efficient Superintendent of the Moth Department, Mr. W. W. Whittredge. The Elm Leaf Beetle so destructive to the Elm Trees in many neighboring Cities and Towns has thus far not increased to any appreciable extent and did but little damage to the trees on the Common or Park. But with the increase in other localities we cannot hope to escape from facing the serious problem of waging warfare against them. This board is not prepared to make any recommendation for an appropriation for that purpose, preferring to await developments of another season.

THE PAGODA

Early in the season a new copper roof was put on the Pagoda. The wood work painted and decorated, also the stone foundation repaired. With these improvements it is now in better condition than when first built and the outlay for maintainance for several years will probably be small. With the splendid Park and Band Stand it seems that some effort should be made to have more concerts and a more frequent use of the Pagoda.

HARTS HILL RESERVATION

The Commissioners have during the season set out a double row of Maples extending nearly the entire frontage on Main Street and continuing around the former Flint estate to the north and east. The expense of purchasing these trees was borne by Mr. John J. Round. In a few years these trees will add greatly to the

appearance of the Main Street frontage. The ball ground was used a large part of the time and apparently is appreciated by the young men of the Junction District.

The ravages of the Gypsy and Brown Tail Moths, so serious for several years has not been so marked during the past year. Some effort should be made for reforesting this reservation, and it is hoped some advance may be made during the coming year. Sometimes doubts have arisen in the minds of members of this Board whether the citizens of Wakefield realize what a valuable asset this Reservation is to the Town. There are few localities in this vicinity comprising so many of the essentials of a Park as does Harts Hill Reservation. But for the fact that we have so many interesting tracts of wooded lands, Harts Hill would be visited by more of our citizens. As the population increases and the wild lands taken up the wisdom of setting aside this splendid tract of 23 acres for the use of the people for a public park forever will be better appreciated. For a Statement of Expenditures we refer to the Auditors' report. We recommend that the Town appropriate for the Park Department for the ensuing year the sum of \$1050.00.

Respectfully submitted,
 EUGENE S. HINCKLEY, Chairman,
 ARTHUR P. KNIGHT,
 GEO. W. ABBOTT, Secretary.

Park Commissioners.

Wakefield, January 1, 1912.

Auditors' Report

The Board of Auditors herewith presents to the Town of Wakefield, their report for the fiscal year ending Dec. 31, 1911.

From Jan. 1, 1911 to Jan. 1, 1912, 3172 orders amounting to \$260,472.04 have been drawn by the Board of Selectmen on the Town Treasury. We have examined the vouchers for these payments and have verified the arithmetic of all bills coming before the Board of Selectmen for payment during the year.

We have verified the accounts of such departments as pay money into the treasury, and have examined the books of the collector of taxes, and of Albert W. Flint, treasurer of the library and reading room, and find them correct.

We have also examined the accounts of Mr. Flint as town treasurer, and find them correct, with the proper vouchers for all payments made by him, and that he has a cash balance of \$23,188.33 in the Wakefield National Bank, with outstanding checks amounting to \$19.45, making a net cash balance of \$23,168.88.

We also certify that he has securities and deposits representing the various trust funds now in his charge.

A list of balances available for next year, either on account of outstanding contracts or by past votes of the town, appears in connection with the Auditors' Balance sheet.

We have also examined the accounts of all departments and find them correct.

All payments approved by this department are paid by orders drawn by the Selectmen, and vouchers for the same are on file at the Town Hall where they may be seen at any time.

In presenting the Auditors' Statement to the citizens of Wakefield, there are some points to which we believe it would be well to give consideration.

The present method of placing the appropriations against the salaries of the various town boards, in an account called the "Salary account", we believe to be not the best method. The salaries paid under each town department should be charged directly to that department. Take for instance the salary of the Highway Commissioner. His salary is charged against the "Salary Account" whilst all other expenditures against the Highway Department are charged directly to the "Highway Account." The salary of the Commissioner is a legitimate highway expense, therefore it should show in the "Highway Account". We mention the Highway Department merely to illustrate. These conditions are equally true regarding other Town Departments.

Another point to which we wish to call attention is the "Miscellaneous Account". This account in its present form, is in our judgment not the best that can be obtained. Some of the accounts now included in the "Miscellaneous Account", we believe should receive their own separate and distinct appropriations and not be classed as sub-divisions of the Miscellaneous Account. We realize that to a certain extent a Miscellaneous Account is necessary, but we also believe the term "Miscellaneous Account" should not include accounts which easily can and properly should be separate and distinct accounts. Under the methods suggested by the Board of Auditors, each account would stand entirely upon its own base.

These are matters to be considered at the time the appropriations are being made. Other changes already instituted by the present board have we believe greatly increased its efficiency and resulted in improved methods being adopted.

In compliance with the vote of the town we have compiled the one-hundredth annual town report and submit the same.

Respectfully submitted,

WILLIAM M. KELSO,

WILLIAM J. STOUT,

WILLIAM O. ABBOTT,

Board of Auditors.

Report of Finance Committee

The recommendations of the Committee for the year ending December 31, 1912 are herewith respectfully submitted.

The following vacancies occur on the committee, due to expirations of the terms of W. E. Cowdrey, C. F. Winship, W. H. Tay, J. W. Murphy and Arthur S. Hill; also, for two years, on account of resignation of George L. Wakefield, the vacancy having been filled temporarily by E. C. Richardson.

Respectfully submitted,

CLINTON H. STEARNS, Chairman,

ARTHUR S. HILL, Secretary.

ANNUAL REPORT

OF THE

WAKEFIELD

Municipal Light Board

AND MANAGER

OF THE MUNICIPAL LIGHT PLANT

TOWN OF WAKEFIELD

Report of the Municipal Light Board

The Municipal Light Commission presents herewith its 18th Annual Report for the year ending December 31, 1911.

The work of the Board during the past year has been routine and giving such attention as was necessary to special matters which have come before them from time to time. We also have given attention to the upkeep of the plant, especial attention being given to the question of the pole lines and an attempt as far as possible to reduce the number of poles in the streets.

In the Spring of 1911, a delegation from a committee appointed by the Town of Reading to consider the question of extending the pipes and enlarging the use of gas in that Town waited on the Board asking them to submit a proposition from the Town of Wakefield for extending the gas pipes in Reading and selling gas to the inhabitants of the Town of Reading. Your Board in answer to this request sent the following letter to the Reading Committee:

WAKEFIELD, MASS., May 11, 1911

MR. GEORGE L. FLINT,
Chairman Gas Committee,
Town of Reading.

DEAR SIR:

At a meeting of the Wakefield Municipal Light Commission held on Tuesday evening May 9, I was instructed to send you the following communication.

The Wakefield Municipal Light Commissioners agree to use their influence and do everything in their power to induce the Town of Wakefield to appropriate \$25,000.00 for extending the gas pipes to and in Reading and such further appropriations as may be necessary from time to time, and to supply the inhabitants of Reading with gas, at the same price and under the same terms and regulations as the inhabitants of the Town of Wakefield are now supplied, and to give the inhabitants of the Town of Reading the same reduction and advantages as are granted to the inhabitants of Wakefield in the future, provided authority is granted by the Legislature, and the Town of Reading will vote also an exclusive franchise to the Town of Wakefield for supplying the inhabitants of Reading with gas: or in case the Town of Reading should desire to install the gas pipes in Reading at their own expense, then the town of Wakefield will deliver gas to a meter at the Reading line on a sliding scale of prices appropriate to the amount of gas used, which price will not exceed \$1.00 for the amount now used for the Town of Reading, and without a doubt the price will rapidly descend to 85c on account of the increased consumption of gas in Reading.

A new sliding scale to accomplish this purpose would, however have to be approved by the Massachusetts State Board of Gas Commissioners, which approval the Wakefield Municipal Light Commission will endeavor to obtain at as early a date as possible.

Very truly yours,

EDWIN C. MILLER, Chairman.

A bill was introduced in the Legislature to allow the Town of Wakefield to carry out the intent of this offer and a bill was signed by the Governor for this purpose. Although the bill was not entirely a satisfactory one it was one that was drafted by the State Gas Commission and was the best that could be obtained under the circumstances.

The Reading Town Committee having voted favorably to recommend in their report to the Town of Reading their acceptance of the offer made by your Board of Commissioners, articles

were inserted in the Wakefield Town Warrant dated June 19, 1911. Before these articles came up for action the Town of Reading had voted to postpone any action in regard to the gas situation in Reading and immediately the articles in the Wakefield Town Warrant were indefinitely postponed.

Later the following letter was received by the Board.

September twenty-fifth, 1911

MR. E. C. MILLER,
Care of Municipal Light Plant,
Wakefield, Mass.

MY DEAR SIR:—

I find that we have 2-93 100ths miles of gas main in Reading, most of which is of 3 inch diameter. We also have 136 service connections and 64 meters. The Town values this property at \$5,000, and, subject to the approval of our Board of Directors, I think we would be willing to sell this property to the Town of Wakefield at the price which the assessed value bears to the total value.

Very truly yours,

W. B. TENNY

Vice President,

Peoples' Gas & Electric Co.

In accordance with the same, articles were inserted in the Wakefield Town Warrant dated Oct. 13, 1911 and the following vote was passed by the Town.

Voted: That the town authorize and instruct the Board of Municipal Light Commissioners to petition the Town of Reading in the name of the Town of Wakefield for authority to construct and maintain in said Reading pipes and apparatus for the distribution and sale of gas therein.

Application was made immediately to the Town of Reading and that Town called a Town Meeting for action, at which Town Meeting the sentiment expressed was entirely in favor of accepting Wakefield's offer and a committee was appointed to arrange the details and report to the Town of Reading at a later meeting. The matter is under consideration at the present time between that committee and the Commissioners of the Town of Wakefield.

In the discussion relating to this matter there has been more or less said in regard to the question of Municipal Ownership as applied to our Light Plant, and your Board feel as if it would be of value to the Town to present certain information bearing on the ownership of the Plant during the past 17 years.

The Town took possession of the Gas and Electric Light Plant situated in Wakefield under order of the Court on August 1, 1894. The award was \$75,030.00 in cash and the Town assumed the payment of \$70,000.00 worth of bonds which were on the Plant at the time, making a total award of \$145,030.00. The Town at this time voted to issue \$180,000.00 worth of bonds. In getting possession of the \$70,000.00 worth of bonds, the Town was obliged to pay a premium of \$3,500.00. They also paid legal expenses of \$5,000.00 and voted \$20,000.00 for repairs, extensions, alterations, etc., and they also voted \$256.85 for the expense of advertising and printing the bonds. Interest, etc., was paid to Jan. 31, 1895, to the amount of \$1,026.51. On \$98,000.00 worth of bonds which were issued first of the \$180,000.00 the Town received a premium of \$4,418.33. So, the total amount received was \$184,418.33 and the total amount expended was \$174,813.36, leaving a balance of \$9,604.97, which was in later years appropriated and spent by the town for further additions, extensions, repairs, etc

This is indicated in Table No. 1, the amount in column 4 being the only amount raised from the tax levy.

TABLE No. 1

	Bonds	Premium	Appropriation for Operating and Maintaining	Receipts
1894	\$180,000 00	\$4,418 33	\$4,000 00	\$8,398 15

	Expenditure operating and Maintaining	Extension, Re- pairs and New Construction	Interest	Premium paid and Legal Expenses	Printing Bonds
1894	\$11,872 17	\$29,604 97	\$1,026 51	\$8,500 00	\$256 85

From an inspection of Table No. 2, it will be seen that nothing has been appropriated from the tax levy since 1898 for operating and maintaining the plant. That the receipts in addition to the appropriation from the tax levy practically equalled the expenditure.

TABLE No. 2

1	2	3	4	5
	Appropriation for Operating and Maintenance	Receipts	Expenditure for Operating and Maintaining	Gas Exten- sion, etc.
1895	\$3,500 00	\$17,622 46	\$21,401 62	\$2,000 00

1902	1,400 00	3,000 00	6,360 00	250 00
1903		3,000 00	6,240 00	250 00
	\$5,025 00	\$27,000 00	\$56,624 25	\$2,550 00

By adding columns 2, 5, 6, 7, 8, 9, the sum will show the amount appropriated from the tax levy during this period. This averages \$13,074.00 per annum.

Nothing during this period was appropriated for lighting the streets. If \$8,500.00 per year had been appropriated for the nine years it would have amounted to \$76,500.00. This would have paid the interest and about \$20,000.00 toward the bond payment. During this period the taxpayer carried the burden and not the consumer.

TABLE No. 3

	Bonds and Notes	Appropriation and Misc. Credits	Expenditure for Operating and Maintenance	Gas Extension, etc.
1904	\$10,000 00 3,300 00	\$36,100 88	\$37,441 58	\$1,698 21
1905	5,000 00	42,552 54	42,465 33	6,500 00*
1906		45,959 55	47,523 79	6,838 00*
		\$124,612 97	\$127,500 70	\$15,036 21

TABLE No. 3—Continued

	Electric Extension, etc.	Bonds and Notes Paid	Interest Paid	Commission's Salary	Receipts
1904	\$801 79	\$3,000 00	\$6,295 00	\$250 00	\$35,818 39
1905		7,550 00	6,464 50	250 00	39,522 68
1906		8,550 00	6,167 50	300 00	49,176 97
		\$19,100 00	\$18,927 00	\$800 00	124,518 04

* Both gas and electric extension.

During the years 1904, 1905, 1906, the town changed this method of making appropriations. An amount was appropriated for maintaining and operating the plant, irrespective of the receipts, and by reference to Table No. 3, it will be seen that the sum was not enough, into \$2,887.73, to equal the expenditures. By reference to the last column it will be seen that (deducting the merchandise credits from the total of column No. 3) the receipts exceeded the appropriations by \$658.49. The net average amount that went into the tax levy was \$17,730.00 per annum. In 1905 there were extraordinary expenditures of \$3,700.00 for a new boiler and \$1,000.00 appropriated in addition to the \$5,000.00 raised from bonds for altering over the street lighting system. Also \$3,396.67 was set aside for the depreciation fund, which fund was created by act of the legislature in 1905, chapter 410, section 4.

It will be noticed that the bond payment increased from \$3,000.00 in 1904 to \$8,550.00 in 1906.

By reducing these three years to the same basis as shown in Table 2, the amount from the tax levy would have averaged \$11,968.00 per annum.

TABLE NO. 4

1	2	3	4	5
	Bonds	Appropriation	Receipts	Expenditures for Operating and Maintenance
1907		\$21,897 00	\$50,484 30	\$52,083 69
1908		19,000 00	55,450 57	49,421 57
1909*	\$25,000 00	14,000 00	54,588 86	48,250 50
1910		10,565 00	63,944 47	51,310 29
1911		12,240 00	69,858 91	59,328 55
		\$77,702 00	\$294,307 71	\$260,394 60

	6	7	8	9
	Bonds and Notes	Interest	Commissioners' Salary	Depreciation Fund
1907	\$8,550 00	\$6,210 50	\$300 00	\$7,410 00
1908	8,550 00	5,733 50	300 00	7,136 53
1909*	8,550 00	5,746 50	300 00	5,405 35
1910	11,050 00	5,908 25	300 00	6,294 33
1911	10,500 00	5,466 25	3 0 00	6,780 61
	\$47,200 00	\$29,065 00	\$1,500 00	\$33,087 42

* Eleven months in year.

Table 4 shows how the appropriations have been made in accordance with the state law of 1905. This law compels all of the receipts to be used for operating and maintaining, construction and extensions, bonds and interest, in connection with the plant before any money can be appropriated from the tax levy.

It will be noticed from an inspection of columns 4 and 5 that the receipts are increasing faster than the expenses of maintaining and operating the plant, and in the past five years have furnished \$33,913.11 toward the payment of other charges.

The average amount taken from the tax levy has been \$15,-540.00 per annum during the past five years.

The depreciation account takes the place, from the year 1907 down, of the money appropriated for gas and electric extensions in former years. This amount averaged annually, to the year 1907, \$5,303.00. For the past five years it has averaged \$6,617.00 per annum. The total amount paid out for all charges, excepting operating and maintaining, during the past five years was \$110,852.42. Of this amount \$77,702.00 was raised from the tax levy and \$33,913.11 from the consumers. Had the town paid \$8,500.00 per annum from the tax levy for street lighting during the past five years, or \$42,500.00, the difference between this sum, \$42,500.00 and \$77,702.00, or \$35,202.00, could be assumed as the amount paid from the tax levy toward the payment of the bonds.

Should the town issue no more bonds or notes the following table shows the payment on this account for the following years.

1912—	\$ 9,500
1913—	9,500
1914—	9,500
1915—	11,500
1916—	11,500
1917—	11,500
1918—	11,500
1919—	11,500
1920—	9,000
1921—	9,000
1922—	9,000
1923—	9,000
1924—	9,000

RATES

A study of the above information is necessary in giving consideration to the question of rates. Your Board feel that the policy laid down by the Town is to not appropriate from the Tax Levy very much more money than would represent the sum necessary to be appropriated should the Town buy their street lighting from a private corporation. The State Law compels the Town

to appropriate a certain amount every year for a Depreciation Fund, so called, whether the money is needed or not, and the fact that the Bond and Note Payments have increased from \$3,000.00 which they were up and including the year 1904 to \$11,500.00 in 1910 which was the maximum, and \$10,500.00 in 1911 and \$9,500.00 this year, it does not seem practical yet to reduce the rates to any great extent, unless the town is ready to appropriate from the Tax Rate the payment of the Bonds and the cost of street lighting. If the Town should decide on this policy, there could be without doubt a radical reduction in the rates both for gas and electricity, should this policy meet with the approval of the Mass. Board of Gas and Electric Light Commission. It is not for your Municipal Light Board to decide this question of Town Policy but for the voters of the Town.

STONEHAM

The People's Gas and Electric Co. of Stoneham, which is controlled by the Malden & Melrose Gas & Electric Co., ceased to purchase gas of Wakefield about Oct. 10, 1911. The gas in Stoneham is being furnished from the plant located at Malden at the present time.

ELECTRICAL DEPARTMENT

In order to carry out the plan for unifying the Station and Plant, a second hand alternating current Generator was purchased to replace the two machines attached to Engine No. 1. This Generator was similar to the one purchased in 1909 and equips the plant in such a way as to make it elastic so that the load can be divided to the best possible advantage in regard to the two engines. The Exciters were unified so that they are now in keeping with the rest of the Electrical equipment. By reference to the figures of the Manager the increase in the output of electricity can be ascertained.

STREET LIGHTING

At the request of citizens in Greenwood a number of Arc Lamps were removed along the main street between Wakefield and Greenwood for the reason that the lights did not seem to penetrate under the trees in the summer time, making the sidewalk dark. In place of these, Incandescent Lights were substituted, and placed on the opposite side of the street so that the light would be thrown under the trees as far as possible. This change has proved very satisfactory to the parties interested. A few Arc Lamps were also taken out at the other end of Main street, near Lowell street for the same reason, as the Incandescent Lights seem to be much more satisfactory for street lighting in these locations.

Eight new Incandescent Lights were installed at the following places for street lighting: two on Aborn avenue between Pleasant and Main streets, one on corner of Eustis avenue and Nichols street, one on Nahant street, one on Greenwood avenue, one on Stark avenue, one on Kendrick Road and one on North avenue opposite the station.

GAS DEPARTMENT

One bench of Retorts was renewed this year at a cost of \$1,374.90. There was installed an outside producer furnace in connection with these retorts and it would seem as if there was an economy of nearly 25% in the consumption of coke and, also, there was a still further slight economy in the yield of gas per pound of coke. Doubtless these Furnaces will save in the length of life over the ordinary Furnaces enough to make the change profitable to the Town. The State Gas Tests which are made at various times in the year have shown that the town is manufacturing gas well above the candle power required and of good quality.

The Water Gas Set has been operated at times during the year and the amount of water gas made is shown in the Manager's Report. It was understood when the commissioners

recommended the purchase of a Water Gas Set that it was not for the purpose of decreasing the cost of making gas but for the reason that the coal gas set could not produce gas enough when the maximum demand for gas was on or if a break should happen making it necessary to shut down one set of benches. The Town would be in a serious condition without the Water Gas Set. In order to get the most economical results from a Water Gas set it would be necessary to run it continuously and, of course, this cannot be done in Wakefield until the demand for gas is much larger than at the present time. On account of the 8 Hour law, so called, which was signed by Gov. Foss in the Spring of 1911, the labor cost during the year 1912 will increase. The Municipal Light Plant must necessarily be run 7 days in the week or continuously; until the passage of this law the men worked 56 Hours, eight hours per day for 7 days. Now they cannot be permitted to work but 48 Hours, that is not more than eight hours in any one day and only for six days in the week.

FIRE ALARM

The Fire Alarm System has been carefully watched and everything done that was considered necessary to keep it as efficient as possible. On account of the Cutler fire in July the Town was put to some expense on account of transformers, fire alarm boxes, and other apparatus being injured through the lightning. The Town Committee appointed to consider the subject of fire protection recommended to the Town in November that one fire alarm circuit in the center of the Town be put underground in conduits. The law gives a Town where the Telephone Company puts in conduits, one conduit for use of the Fire Alarm System which reduces the cost of installing fire alarm wires underground, considerably. The following old box has been replaced with a new one: Box 8. And the following new boxes have been installed by vote of the Town: 59-65-113.

POLE LINES

In connection with the work done by the Bay State Railway Co. on Water Street in widening and improving that street, many poles were removed and the Town wires were transferred to the Railroad poles giving a first-class line along this street at the present time. Under an arrangement with the Railroad Co., we are, also, removing poles and transferring the wires on to the railroad poles on Albion Street from Lake Street to the Stoneham line. During the next year there will be considerable work to be done on the pole lines, for reason that a great many telephone poles in the Town which have been up a long while will have to be replaced and the Town, under its contract with the Telephone Co., is obliged to pay its share of the cost of the replacing of these poles.

REAL ESTATE

Necessary repairs have been made to the Real Estate. During the year the coal sheds caught fire and were seriously damaged. The Town received \$2,240.00 as settlement for the loss and the coal sheds have been replaced, corrugated iron being used for the roof and in other places, instead of the slate that was formerly on the sheds. The large Gasometer has been painted and other repairs have been done to keep the Real Estate in proper condition. Increase in the Gas Receipts has been 10 38-100 per cent and the increase in Electric Receipts 22 38-100 per cent.

The commissioners wish to thank the citizens for the patience and consideration they have always shown the Board when unavoidable troubles and perplexities have arisen. The Manager and all employees of the Plant have worked together harmoniously and faithfully to make the operation of the Plant successful. There can be no doubt that the time is approaching when the

citizens will all realize what a valuable property they have in their Municipal Light Plant and in the value of the franchise of furnishing the Town with gas and electricity.

EDWIN C. MILLER, Chairman,

TOWN MEETING MARCH 11, 1912

Article 1. To choose a moderator, by ballot, to preside at said meeting.

Thomas G. O'Connell elected moderator.

Art. 2. To act upon the reports of town officers as published.

Motion to accept reports and lay on table.

Voted to divide question 1st, to accept reports; 2nd, to lay reports on table.

Voted. To accept reports.

Voted. That all reports of town officers as published be laid on table except that of School Committee.

Voted. That a committee of seven be appointed to investigate accommodations at the High School and report at the next town meeting what may be needed to remedy existing conditions; and that said committee be instructed to insert such article or articles in the warrant for the town meeting at which they render their report as in their judgment may be needed to carry out the recommendations embodied therein.

Committee: Walter O. Cartwright, William C. Skulley, Edwin C. Miller, Joseph A. O'Leary, Arthur H. Boardman, J. William O'Connell, Charles S. Young.

Art. 3. To choose all town officers not required to be chosen by ballot.

Voted. That a committee of five be appointed to choose officers and report at an adjournment of this meeting.

Committee: Samuel T. Parker, David T. Dinan, T. W. H. Fell, Daniel H. Regan, Joseph H. Maxwell.

Art. 4. To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow during the current year beginning March 4, 1912, in anticipation of the taxes for said municipal year, such sums of money as may be necessary to meet the current expenses of the town, giving the notes or note of the town therefor.

Voted. That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the taxes of the municipal year beginning March 4, 1912, to an amount not exceeding in the aggregate \$285,000, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the taxes of said municipal year. That all unexpended and unappropriated balances now in the Treasury be and hereby are appropriated to and for the payment to the amount of said balances of the bonded indebtedness of the town and interest thereon.

Art. 5. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.

Voted. To raise and appropriate for Schools :

Raise and appropriate \$65,731 and appropriate \$2000 from receipts.

General payrolls	\$52,841 00
Fuel	4,690 00
Contingent	6,000 00
Books and supplies }	3,200 00
Evening school	1,000 00
	<hr/>
	\$67,731 00

Treasurer's Department :

For maturities in 1912 and appropriations in 1911 after tax levy had been made, the sum of \$37,093.30 and in addition that \$4,000 be appropriated from Water Dept. receipts and \$9,500 from Light Plant receipts; making total available \$50,593.30.

For interest payments \$15,222.50 and in addition that \$8,120 be appropriated from Water Dept. receipts; and \$5,063.75 from Light Plant receipts, making the total available \$28,406.25.

Poor department, \$12,000.

Police department, \$7,000.

Town hall \$2,625, \$150 of which to provide for increase in salary of janitor, and in addition that the janitor be permitted to do such police duty as the Chief of Police may call upon him for, providing it does not interfere with his duties as janitor of the town hall.

Miscellaneous, \$5,000.

Forest warden work, \$300.00.

Tree warden's department, \$500.

Moth department, \$5,500.

Fire department, \$10,500.

Park department, \$1,050 together with receipts from trust funds.

Richardson Light Guard armory, \$725.

State aid, \$4,000.

Soldier's relief, \$4,000.

Military aid, \$450.

Town library, \$1,028.70 and appropriate dog tax amounting to \$921.30 together with all receipts.

Reading room, \$275.

Fish committee, \$25.

Cemetery department, \$330.

Salaries. Selectmen, \$500. Assessors, \$1200. Overseers, \$300. Board of Health, \$100. Board of health (services) \$400. Cemetery Coms., \$70. Auditors, \$400 (providing they fill out the Gettamy Schedule). Registrars, \$215. Treasurer, \$600. Town clerk, \$200. Tax collector, \$650. Tree warden, \$25. Fire engineers, \$450. Inspector of milk, \$150. Collector of milk samples, \$50. Supt. of streets, \$900. Town counsel, \$500. Inspector of animals, \$125. Inspector of plumbing, \$480. Forest warden and five deputies, \$75. Clerk to selectmen, \$400. Clerk to finance committee, \$50. Sealer of weights and measures, \$100. Moderator, \$25.

Highway Department. Laid on table until Art. 14 is taken up.

Municipal Light Plant. Motion that the town raise and appropriate the sum of \$15,000 including commissioners, salaries \$300, together with the receipts. Amended.

(1st) That \$6000 be appropriated on account of depreciation fund, that the question of appropriating the balance that may be required, be laid upon the table until every available means shall have been exhausted to have the amount fixed on an equitable basis.

(2nd) That the unpaid bills \$3,078.44 to Jan. 1st, 1912, be paid from the December, 1911, earnings of the plant.

(3rd) That the Municipal Light Commissioners be instructed to discontinue the manufacture of electricity, and purchase the same where it can be obtained to the best advantage for the town, and when this be accomplished, that a reduction of 20 per cent be made in the rates to electric light consumers

Voted. That question be divided.

Division 1.

Voted. That matter be laid upon table and committee of three consisting of Messrs. Henkel, Poland and Dean take up matter with State Gas Commission and report at an adjournment of this meeting.

Voted. That name of E. C. Miller be added to the committee.

Voted. That meeting adjourn to Monday evening, March 18th, at 7.30 o'clock.

ADJOURNED TOWN MEETING MARCH 18, 1912

Meeting called to order by the Moderator at 7.45 o'clock.

Article 5 being in order.

Mr. Poland reported for committee under Division 1.

Voted. That report be accepted.

Voted. That Division 1 and 2 be recommitted to Finance Committee to report at an adjournment of this meeting.

Division 3.

During discussion of this division a point of order was raised by Mr. Lowe that there was no article in Warrant calling for action in this matter. Point of order was sustained by the moderator.

Voted. To raise and appropriate \$10,000 for the purpose of the Municipal Light Plant.

Water Department.

Voted. To appropriate \$31,420 together with receipts from services.

Hydrant service.

Voted. To raise and appropriate for hydrant service the sum of \$3,915.

216 hydrants at \$15	\$3,240 00
3 standpipes, 3 fountains and 3 horse troughs at \$75	675 00
	<hr/>
	\$3,915 00

Sewer Department.

Voted. To raise and appropriate for Sewer Department maintenance, including engineering, clerical services and superintendence the sum of \$650 together with income from connections.

Fire Alarm.

Voted. To raise and appropriated for fire alarm maintenance \$350, and for construction \$1,100, a total of \$1,450.

Fire Department.

Voted. That vote whereby town voted \$10,500 for Fire Department be reconsidered. It was then moved that \$150 be added to Fire Department appropriation for repairs on Volunteer Hose Companies apparatus.

Voted. That matter be referred to the town Counsel as to legality, he to report at an adjournment of this meeting.

Art. 6. To determine the compensation of enginemen for the year ensuing.

Motion, That compensation for enginemen for the ensuing year be as follows :

Central Fire Station, including Hook and Ladder Co. and Combination Hose Co., \$100 per man.

Volunteer Hose Co., No. 2, \$75 per man.

Greenwood Hose Co., No. 3, \$50 per man.

Montrose Hose Co., No. 4, \$50 per man.

Amended, that pay of Volunteer Hose Company be increased from \$75 to \$100.

Amended, that pay of Greenwood and Montrose Hose Companies be increased to \$75.

Amendments carried.

Motion as amended then voted.

Art. 7. To see if the town will raise and appropriate a sufficient sum of money to make a card index of the births, marriages and deaths, or what they will do about it.

Voted. To raise and appropriate \$300.

Art. 8. To see if the town will raise and appropriate the sum of three hundred dollars (\$300.00) for the purpose of Memorial Day.

Voted. To raise and appropriate \$350. \$300 to be devoted to use of the Grand Army and \$50 for use of Spanish War Veterans.

Art. 9. To see if the town will raise and appropriate the sum of seventy-five dollars (\$75.00) for clerk hire for the Board of Overseers of the Poor, or what they will do about it.

Voted. To raise and appropriate \$75.

Art. 10. To see if the town will authorize the Board of Assessors to employ a permanent clerk, and raise and appropriate a sufficient sum therefor, or what they will do about it.

Voted. To raise and appropriate \$300.

Art. 11. To see if the town will raise and appropriate \$250.00 for transfers, probate records, writing the tax collector's book, and printing the street list, or what they will do about it.

Voted. To raise and appropriate \$250, not including any expense that may be incurred by the Tax Collector in examination of tax titles or by Board of Assessors in writing Tax Collector's book.

Art. 12. To see if the town will vote to install meters on the water service pipes.

Voted. That the Water and Sewerage Boards be instructed to install meters.

Art. 13. To see if the town will vote to issue notes, scrip or bonds, for the purpose of paying for the purchase or installation of water meters, as may be authorized under vote of next preceding article of this warrant

Voted That for purpose of providing for the payment of the installation of Water Meters, as authorized by vote of the town under Article 12 of this warrant, the Treasurer is hereby authorized and directed to issue notes or bonds of the Town of Wakefield, in accordance with the Statutes, to the amount of \$15,000, said notes or bonds to be dated April 1st, 1912, payable Fifteen Hundred Dollars annually in each of the years 1913 to 1922, both inclusive, with interest not exceeding four (4) per centum per annum, payable semi-annually, said notes or bonds may be authenticated by the State of Massachusetts or some bank or trust company of the City of Boston. "Yes" 210. "No" 8.

Art. 41. To see if the town will raise and appropriate a sum of money to purchase a parcel of land of sufficient size from the former Wakefield Estate, known as the Factory field, to be used for the purpose of a Play Ground, under the direction of the Park Commissioners.

Motion to take up Article was lost. "Yes" 79. "No" 129.

Voted. That vote whereby the Town voted not to take up Article 41 be reconsidered. "Yes" 132. "No" 94.

Motion was then made to take up Article 41, but during discussion it was

Voted. That this meeting be adjourned to next Monday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 25, 1912

Meeting called to order at 7.40 o'clock, Article 41 being in order.

Voted. To take up Article 41. "Yes" 126. "No" 3.

On motion of Finance Committee,

Voted. To raise and appropriate the sum of \$5000 for purpose outlined by this article, the parcel of land to consist of four acres and the location to be determined by a committee of five. "Yes" 212. "No" 147.

Article 5.

Voted. That Article 5 be taken up.

Voted. That vote for appropriation for Schools be reconsidered.

Voted. That the salaries of the grade teachers in our public schools be increased at the rate of \$50 per year, effective April 1, 1912, and that a further increase of \$50 per year be granted them, effective January 1, 1913, the maximum salaries of said teachers to be \$650 per year, and that the town raise and appropriate the sum of \$1635 to provide for above increase to January 1, 1913.

Voted. That vote whereby \$10,000 voted for Municipal Light Plant be reconsidered.

On motion of Finance Committee.

Voted. To amend appropriation for Municipal Light Plant to read as follows: — To raise and appropriate for Municipal Light Plant the sum of \$15,000, including Commissioners' salaries, \$300, together with the receipts.

The following Resolves were then offered by M. E. S. Clemons, and no objections being offered, resolves were introduced and unanimously adopted.

Resolve, Whereas, Mary E. Aborn, long a resident of Wakefield, did by her last will give to the town of Wakefield \$2,000 for "Park purposes". Be it resolved, that the Town accepts with due appreciation said gift and hereby authorizes the Treasurer to execute under the seal of the town, upon payment to him of the said \$2,000, by the executor of said will, full acquittance and receipt to said executors and an agreement that said sum will be used for Park purposes.

Resolve, That the Committee appointed June 19, 1911, under Articles 3 and 4 of the Warrant for that meeting, relating to the purchase of land bordering on Crystal Lake, be and hereby are authorized to report to the town in print and the expense thereof to be paid from the miscellaneous fund.

Motion to adjourn was lost.

Art. 14. To see if the town will vote to instruct the Selectmen to employ a competent engineer, who shall be a practical road builder, as Superintendent of Streets. Charles N. Winship.

Voted. That the Board of Selectmen be instructed to employ a competent engineer, who shall be a practical road builder, as Superintendent of Streets.

Art. 35. To see if the town will vote to increase the pay of laborers in the Highway Department, from \$2.00 per day to \$2.25 per day, or what they will do about it. Daniel J. O'Donovan.

Voted. That Article 35 be now taken up. "Yes" 267. "No" 0.

Voted. That the pay of laborers in the Highway Department be increased from \$2.00 per day to \$2.25 per day.

Art. 5.

Voted. That Article 5 be now taken up.

Voted. To take the matter of Highway appropriation from the table.

Finance Committee offered the following motion :

That the town raise and appropriate for the Highway Department the sum of \$14,000, and in addition the Street Railway Tax, \$3,000 of which to be expended on Main street, and the balance of said tax to be expended in streets upon which cars run.

That the Town Treasurer be authorized under the direction of the Selectmen to borrow \$6,000 in anticipation of Street Railway Tax.

That preference be given at all times to the permanent men, horses and carts of the Fire Department.

That compensation for a pair of horses, cart and driver be no more than \$5.00 per day; to single horse, cart and driver no more than \$3.50 per day.

Amended, to increase appropriation from \$14,000 to \$19,000.

Amended that amount be increased from \$19,000 to \$20,000.

Motion to increase compensation for horses, carts and driver was lost.

Amendment carried was then voted.

Voted. That appropriation for Salary Account be reconsidered.

Voted. To raise and appropriate \$1100 additional for salary of Superintendent of Streets, and that salary of Superintendent of Streets shall not exceed \$2000 per annum.

Voted. That this meeting be adjourned to next Monday evening at 7.30 o'clock.

ADJOURNED TOWN MEETING, APRIL 1, 1912

Voted. That Article 3 be taken up.

Mr. Parker reported for the Committee.

Mr. A. S. Hill declined to serve on Finance Committee, and Mr. E. H. Morton offered as an amendment that the name of Lewis J. Gordon be substituted for that of A. S. Hill. The report as amended was then accepted and adopted.

Finance Committee for Three Years —W. E. Cowdrey, C. F. Winship, J. W. Murphy, Lewis J. Gordon, E. C. Richardson.

Finance Committee for Two Years—Winfield L. Marshall.

Article 5.

Voted. To take up Article 5.

Voted. To raise and appropriate \$10,650 for use of Fire Department, \$150 to be used for repairs on Volunteer Motor Truck.

Highway Department.

Voted. That the Selectmen be instructed to expend 10% of the appropriation for Highways on the section known as Mont-

rose, bounded as follows : — Lowell street from Lowell St. Depot to Reid's Corner ; Salem street from Newburyport Branch R. R. to junction of Old and New Salem streets, taking in Bellevue Park, and that portion of Montrose Ave. included in the Montrose School District. An equal amount (10%) on the other three outlying sections, and balance (60%) on Main street and centre of town.

Art. 15. To see if the town will vote to have Gould and Converse streets, from Emerson to Jordan avenue, macadamized, and the whole of Dell avenue, and raise and appropriate a sufficient sum of money therefor. Charles N. Winship and others.

On motion of Finance Committee,

Voted. That the subject matter of this article be referred to Board of Selectmen.

Art. 16. To see if the town will vote to macadamize Byron street from Albion street to Jordan avenue, and to put in two sand catchers at the junction of Byron and Gould streets, and to raise and appropriate money therefor, or what they will do about it. Harry F. Peck and others.

Voted. That the town appropriate an amount not exceeding \$250, same to be taken from Highway Appropriation for purpose outlined by this article.

Art. 17. To see if the town will raise and appropriate \$300, the said sum to be expended on Emerald street, and to be used in putting the sidewalks, gutters and street in good condition. Daniel H. Regan and others.

Voted. That the town raise and appropriate a sum not exceeding \$300 for purpose outlined by this article.

Art. 18. To see if the town will raise and appropriate a sufficient sum of money to light Vernon street, from Lowell street to the Lynnfield Centre line. Thomas Paon and others.

Voted. That the town instruct the Municipal Light Board to install lights as called for by this article.

Art. 19. To see if the town will raise and appropriate a sufficient sum of money to install electric lights upon the public highway called Curve street between Fairmount avenue and Hillside avenue, or what they will do about it. John J. Butler and others.

Voted. That the town instruct the Municipal Light Board to install lights as called for by this article.

Art. 20. To see if the town will instruct the Municipal Light Commissioners, to install an incandescent light at the corner of North avenue and West Water street. Edward Barker, Jr.

Voted. That the town instruct the Municipal Light Board to install lights as called for by this article.

Art. 21. To see if the town will instruct the Municipal Light Commissioners to install an incandescent light on Cedar street, midway between Gould street and Albion street. Charles E. Burke.

Voted. That the town instruct the Municipal Light Board to install lights as called for by this article.

Art. 22. To see if the town will raise and appropriate a sufficient sum of money to carry out such of the recommendations as they may adopt, of the Committee appointed under Article 21 of the warrant of Nov. 13, 1911, relating to the celebrating of the 100th anniversary of the incorporation of the town of South Reading, together with the celebration of Independence Day, July 4, 1912, or what they will do about it.

Voted. Raise and appropriate \$500 for celebrating Independence Day. Same committee to serve as that reporting under article.

Art. 41.

Voted. That Article 41 be taken up.

Voted. That vote whereby town voted to purchase land for play ground be reconsidered.

Motion. That a committee of five be appointed to consider the entire subject of Article 41 and report its full findings at an adjournment of this meeting.

Motion to lay on table was lost.

Motion to adjourn was lost.

Amendment that committee report at the adjourned session of this meeting at which Article 41 would come up in its regular order.

Voted. That this meeting stand adjourned to Wednesday evening, April 10th, at 7.30 o'clock.

ADJOURNED TOWN MEETING, APRIL 10, 1912

Meeting called to order at 7.40 o'clock, Article 23 being in order.

Art. 23. To hear and act upon the report of the Selectmen, (as laid on the table at the November town meeting) laying out a town way from the Melrose city line northerly and westerly to Renwick Road in that part of the town known as Greenwood, being the private way now known as Ashland street, and to see if the town will accept and allow the same.

Selectmen reported under this article and it was

Voted. That the report be accepted and adopted and that the town accept and allow the town way as called for.

Art. 24. To see if the town will vote to accept the provisions of Chap. 367 of the Acts of 1911, of the General Court, being an act entitled "An act relative to the use of school halls for other than school purposes." M. E. S. Clemons.

Voted. That article be laid on the table until explained to the town.

Art. 25. To hear and act upon the report of the "Committee of Fifteen" appointed under Article 32 of the last town warrant, to improve on the present condition of our town government

Voted. That the committee be granted further time in which to report.

Art. 26. To hear and act upon the report of the Selectmen laying out a town way from Main street westerly to North avenue, being the private way now known as Berkshire street.

Voted. That report be laid on the table.

Art. 31. To see if the town will vote to accept the provisions of Chapter 468 passed by the General Court in the year 1911 entitled "An act to extend the provisions of the civil service act to chiefs of police of certain cities and towns." Board of Selectmen.

Voted. That the town accept the provisions of Chapter 468 passed by the General Court in 1911.

Art. 27. To hear and act on a report of the Board of Selectmen relative to recommendations of the committee relating to better fire protection, as referred to the Selectmen by vote of the town under Article 18 of the November town meeting. Board of Selectmen.

Voted. To take up Article 27.

Voted. That report of Chairman Walker for Selectmen be accepted.

Voted. That Articles 28, 29 and 30 be taken from the table.

Voted. That Articles 28, 29 and 30 be acted on jointly.

Art. 28. To see if the town will vote to accept the provisions of Chapter 104, sections 4 to 13 inclusive, of the Revised Laws, as amended by Chapter 221 of the Acts of 1908, relative to the appointment of a Fire Inspector and a Building Inspector, and authorize the appointment of said Inspectors by the Board of Selectmen, or what they will do about it. Board of Selectmen.

Voted. To accept provisions of above Chapter.

Art. 29. To see if the town will accept the provisions of Chapter 104, Section 1 of the Revised Laws, relative to the establishment of a Fire Limit Zone, and authorize the Moderator to appoint a committee of three to report in full at a future town meeting regarding the establishment of a Specific Fire Limit Zone in the business section of the town, or what they will do about it. Board of Selectmen.

Voted. To accept provisions of above Chapter.

Art. 30. To see if the town will instruct the Selectmen to appoint as Wire Inspector the Chief of the Fire Department instead of the Manager of the Municipal Light Plant as now required, said appointment of Wire Inspector to be in accordance with Chapter 122, Section 18 of the Revised Laws, or what they will do about it. Board of Selectmen.

Voted. To accept the provisions of above Chapter.

Art. 5.

Voted. That the item of salaries under Article 5 be taken up.

Voted. That vote whereby town voted \$75.00 for Forest Warden be reconsidered.

Voted. That matter of salary for Forest Warden be indefinitely postponed.

Voted. That vote for salary of Fire Engineers be reconsidered.

Amendment offered that salary of Fire Engineers be increased by the sum of \$675.00. Amendment carried and original motion as amended was then voted.

Art. 32. To see if the town will vote to amend Section 6 of Article 3 of the town By-Laws, by striking out the words sixth day of February and inserting in place thereof the words twentieth day of January. This relates to the time when reports of town officers shall be in the hands of the auditors. M. E. S. Clemons.

Voted. To amend Section 6 of Article 3 of the town By-Laws, as called for in article.

Voted. That Article 33 be taken up jointly with Article 32.

Art. 33. To see if the town will vote to amend its by-laws by striking out the word March wherever it appears in Article 1 Section 1, thereof, and inserting in place thereof the word February. This would change the annual meeting from March to February. M. E. S. Clemons.

Voted. To amend By-Laws as called for in article.

Art. 34. To see if the town will amend its By-Laws by adding thereto at the end of Section 9 of Article 3 in substance the following: "The Selectmen and other officials authorized to expend money of the town are hereby authorized to expend during the period between December thirty-first and the next annual town meeting on account of the various departments an amount not in excess of one-sixth of the appropriations for the same department during the preceeding year and the same to be charged to their next annual appropriations and the Treasurer is authorized to pay orders therefor from any money in the treasury." M. E. S. Clemons.

Voted. To amend By-Laws as called for in article.

Art. 36. To see if the town will amend its By-Laws by adding thereto after Sec. 4 of Article 9 in substance the following: Section 5. No building of three or more stories in height above the ground, intended to be used as a dwelling for three or more families, shall hereafter be erected in Wakefield unless the exterior thereof including all exterior walls and the roof, shall be made of fire proof material. H. B. Mansfield, Sec'y, Wakefield Improvement Assn. and Advisory Betterment Committee.

Voted. To amend By-Laws.

Art. 37. To see if the town will vote to appoint a committee to revise the By-Laws of the town. Board of Selectmen.

Voted. That the Moderator be authorized to appoint a committee of five to revise the By-Laws.

Art. 38. To see if the town will authorize and direct the Municipal Light Board to extend the gas mains in and through Forest street, from Main street to the Stoneham line; also in and through Forest Road, and raise and appropriate a sufficient sum of money therefor. Joseph W. Fuller and others.

Voted. That the town authorize and instruct the Municipal Light Board to extend the gas mains as called for by this article.

Art. 39. To see if the town will authorize the Board of Forest Glade Cemetery Commissioners to fix the price of lots sold to non-residents, or what they will do about it. James R. Reid.

Voted- That subject matter of this article be indefinitely postponed.

Art. 41.

Committee under Article 41 as follows: C. E. Learned, Earl H. Morton, Patrick J. Kelly, John S. Griffiths, Thomas E. Dwyer.

Art. 40. To see if the town will sell to Austin L. Mansfield, a certain parcel of land on the westerly side of Forest Glade Cemetery, comprising about 2900 sq. ft., being a piece of land left outside of fence in straightening the line between said Mansfield and the town. James R. Reid.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 41.

Committee as appointed April 1st, reported.

Voted. That report of committee be accepted.

Voted. That the subject matter of this article be indefinitely postponed.

Voted. That this meeting adjourn to Monday evening, April 15th, at 7.30 o'clock.

ADJOURNED TOWN MEETING, APRIL 15, 1912

Meeting called to order at 7.45 o'clock, Article 42 being in order.

Art. 42. To see if the town will vote to accept Sections 1, 2, 3, 4, 5, 6, 7, 8 and 9 of Chapter 50 of the Revised Laws, which chapter relates to Betterments and other Assessments on account of the cost of Public Improvements. Frank J. Henkel.

Voted That the subject matter of this article be referred to the Town Counsel.

Art. 33.

Voted. To take up Article 33.

Voted. That the vote whereby the town voted to amend its By-Laws by striking out the word March, wherever it appears in Art. 1, Sec. 1, thereof, and inserting in place thereof the word February, be reconsidered.

Voted. That the subject matter of Article 33 be indefinitely postponed.

Art. 43. To see if the town will vote to instruct the Town Treasurer or the Collector of Taxes, to sell at public auction three parcels of land in Wakefield, being lots 61, 69 and 70 as shown on plan of Ludlow Park, recorded in Middlesex South District Registry of Deeds, Book of Plans No. 90, Plan No. 44. Said lot No. 61 being on the westerly side of Holland Road, and containing 3,682 sq. feet, said lots 69, 70 being on the northeasterly side of Cumberland Road, and each containing 5,888 sq. feet. The town's title come through tax sales. M. E. S. Clemons.

Voted. That the Town Treasurer be instructed to sell at public auction, land as called for in this article.

Art. 44. To see if the town will vote to allow the hanging in the town hall of portraits or pictures of such citizens of Wakefield as have been prominent in the past history of the town and its affairs, and who are not now living, and that a committee of five be appointed of the following heads of departments or their successors in office, to have charge of the same. Chairman Board of Selectmen, Chairman Board of Trustees of the Beebe Town Library, Chairman Board of School Committee, President of the Wakefield Historical Society, Executive Officer of the Wakefield Improvement Asso. That said pictures or such as may be approved by the committee be hung on the walls of the auditorium beneath the galleries, and under such restrictions as to size, quality

and settings as the committee may determine, it being understood that there shall be no expense to the town for the pictures or the placing of them upon the wall. Hubbard B. Mansfield, Sec'y.

Voted. That the town allow the hanging in the town hall of portraits and pictures as called for in this article.

Art. 5.

Voted. To take up Article 5.

Voted. That the town raise and appropriate \$2500 and the amount of the balances of the Water Dept. surplus for the year 1911, to pay for the water used from the Metropolitan supply, the same to be reimbursed from the Water Department receipts.

Moderator appointed the following committees.

Art. 22.

Fred E. Bunker, E. F. Preston, C. H. Stearns. Edward J. Connolly, H. A. Simonds, William H. Sullivan, George E. Walker, G. E. Campbell, J. Lowe McMahon.

Art. 29.

Curtis L. Sopher, Frank A. Long, W. E. Cade.

Art. 37.

George E. Walker, John J. Round, M. E. S. Clemons, John A. Meloney, Ernest Heywood.

Voted that this meeting be now dissolved.

TOWN MEETING, JULY 15, 1912

Article 1. To choose a moderator, by ballot, to preside at said meeting.

Voted. That meeting proceed to ballot for moderator and that check list be used.

Clerk appointed E. J. Gihon, G. W. Abbott, H. A. Simonds and S. T. Parker to sort and count ballots.

Result of vote :

Ballots cast	479
Thomas G. O'Connell received	340
George M. Poland received	139

Thomas G. O'Connell was then declared elected Moderator.

On request of George M. Poland the election of Mr. O'Connell was made unanimous.

Art. 2. To see if the town will vote to accept Sections 1-2-3-4-5-6-7-8 and 9 of Chapter 50 of the Revised Laws, which chapter relates to betterments and other assessments on account of public improvements. Frank J. Henkel.

Voted. That the town accept Sections as called for by this article.

Art. 3. To see if the town will raise and appropriate a sum of money to purchase sufficient amount of land of the former Wakefield estate known as the "Factory Field" for the purpose of a play ground, to be under the Park Commissioners, or what they will do about it. John W. Murphy and others.

Motion that subject matter of this article be indefinitely postponed, was lost.

Motion that a committee of five be appointed to select and purchase land in the Factory Field and raise and appropriate \$3,750, therefor, was lost.

During discussion of above motion, report of the committee reporting under Article 41, was read.

Motion as offered was lost. "Yes" 103. "No" 182.

Voted. That meeting be adjourned to Monday evening, July 22nd, at 7.30 o'clock.

ADJOURNED TOWN MEETING, JULY 22, 1912.

Meeting called to order at 7.40 o'clock by Moderator O'Connell.

The first business in order being Article 4.

Article 4. To see if the town will vote to change the method of electing the moderator, by electing a moderator at every annual election of town officers to serve for one year, in accordance with the provision of Section 359 of Chapter 560 of the Acts of 1907. George M. Poland.

Voted. That a Moderator be elected at every annual election of Town Officers to serve for one year, in accordance with the provisions of Sec. 359 of Chap. 560 of the Acts of 1907.

Art. 5. To see if the town will vote to authorize the Municipal Light Board to construct and maintain in the town of Reading pipes for the distribution of gas therein, and to acquire by purchase if they deem advisable any such pipes now existing and to enter into a contract with said town of Reading for the furnishing of gas to it and its inhabitants and raise and appropriate a sufficient sum of money therefor. Curtis L. Sopher and others.

Voted. That motion to enter into contract with town of Reading for the furnishing of gas to it be laid upon the table.

Art. 6. To see if the town will vote to issue notes, scrip or bonds for the purpose of paying for the construction of pipes in the town of Reading which may be authorized under the preceding article of this warrant and to carry out the terms of any contract entered into under the authority which may be granted under the preceding article of this warrant. Curtis L. Sopher and others.

Voted. That subject matter of this article be laid upon the table.

Art. 7. To see if the town will vote to accept the provisions of Chapter 367 of the Acts of 1911, of the General Court, being an act entitled "An act relative to the use of school halls for other than school purposes." M. E. S. Clemons.

Voted That the town accept the provisions as called for in this article.

Art. 8. To hear and act upon the report of the committee appointed at the annual meeting held in March, 1912, to investigate the accommodations at the high school.

Voted. That report of committee be accepted.

Art. 9. To see if the town will vote to appoint a committee of seven to select a suitable lot or lots of land as a site for the erection of a new high school building, said committee to report at the regular fall town meeting.

Motion made that committee reporting under Article 8 of this warrant be appointed a committee to select a suitable lot or lots of land as called for by this article, and also to report on the probable cost of building.

Amendment to strike out that part of motion referring to cost of building, was lost.

Motion as offered was then voted.

Voted. That committee be empowered to fill vacancies caused by death or resignation.

Art. 5.

Voted. That motion under Article 5 be taken from table.

Amendment offered, that the town authorize the Municipal Light Board to furnish gas to the town of Reading at the town line.

Motion to adjourn was lost.

Voted. That this matter be laid on table until an adjournment of this meeting when it shall be the first business in order.

Voted. That this meeting stand adjourned to Monday evening next, at 7.30 o'clock.

ADJOURNED TOWN MEETING JULY 29, 1912

Meeting called to order at 7.45 o'clock, Article 5 being in order.

Amendment as offered was voted. "Yes" 151. "No" 80.

Motion as amended was then carried.

Art. 10. To see if the town will raise and appropriate sufficient sum of money to give three or more band concerts on the Park during the summer of 1912: George W. Abbott and others.

Voted. That the town raise and appropriate \$150 for three band concerts.

Art. 11. To see if the town will vote to accept the provisions of Chapter 244 of the Acts of 1911, which relates to "fires in the open air." Board of Selectmen.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 12. To see if the town will raise and appropriate money to pay J. R. Reid & Son for dressing sold to the town of Wakefield, and used in Forest Glade Cemetery, also for use of horse belonging to J. R. Reid & Son or what they will do about it. J. R. Reid and others.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 13. To see if the town will raise and appropriate fifty dollars for repairing the foundation of the tool house of Forest Glade Cemetery, or what they will do about it. J. R. Reid and others.

Voted. That the town raise and appropriate the sum of \$35 for the purpose outlined in this article.

Art. 14. To see if the town will raise and appropriate a sufficient sum of money to install a fire alarm box at the corner of Grand Passway and Salem street, also relocate box 52 under the direction of the Board of Fire Engineers, or what they will do about it. Robert J. Schefisch and others.

TOWN MEETING, NOVEMBER 11, 1912

Meeting called to order by Town Clerk Frederic S. Hartshorne at 7.30 o'clock p. m. Call for meeting was read and it was

Voted. That further reading of the Warrant, with the exception of the Constables Return, be dispensed with. Constables Return then read.

Article 1. To choose a moderator, by ballot, to preside at said meeting.

Voted. That the meeting proceed to the election of a Moderator and that check list be used.

Voted. That name of Thomas G. O'Connell be placed in nomination for Moderator and if no other name be presented that the Chairman of the Finance Committee cast one ballot bearing his name. Name of Thomas G. O'Connell placed in nomination and one ballot cast as per vote. No other person desiring to vote polls were closed and Thomas G. O'Connell elected Moderator.

Art. 2. To hear and act upon the report of the committee to investigate suitable sites for a new high school building.

Art. 3. To see if the town will vote to take in fee or purchase a tract of land for the purpose of erecting a building thereon, to be used for a high school, and for any other purpose. W. O. Cartwright and others.

Art. 4. To raise and appropriate a sufficient sum of money to acquire the land selected as a site for the high school. W. O. Cartwright and others.

Art. 5. To see if the town will appoint a committee of seven to carry out the vote of the town under Article Number 3. W. O. Cartwright and others.

Voted. That Articles 2, 3, 4 and 5 be taken up together and that they be laid upon the table.

Art. 6. To hear and act upon a report of the committee appointed under vote of the town June 14th, 1911, relating to the purchase of land on the shores of Crystal Lake.

Art. 7. To see if the town will vote to purchase any land upon the shores of Crystal Lake and raise and appropriate money therefor Thomas G. O'Connell and others.

Art. 8. To see if the town will vote to establish a filtration system for the water supply. Thomas G. O'Connell and others.

Art. 9. To see if the town will vote to make application to the Metropolitan Water and Sewerage Board, to be admitted to and as a part of the Metropolitan Water District, under the authority of Chapter 488 of the Acts of 1902. Thomas G. O'Connell and others.

Art. 10. To see if the town will vote to issue notes, bonds or scrip for the purpose of providing funds for carrying out such vote as may be passed under either or all of the three last preceding articles, fix the amount thereof and the conditions under which they shall be issued. Thomas G. O'Connell and others.

Voted. That Articles 6, 7, 8, 9 and 10, having reference to the Water Question, be laid upon the table until two weeks from tonight at eight o'clock.

Art. 11. To see if the town will vote to raise and appropriate the necessary amount of money to install and relocate the fire alarm boxes which the Board of Municipal Light Commissioners were instructed to do by the vote of the town under Articles 14, 15, 16 of the town warrant, dated July 5th, 1912, said amount to be added to the appropriation for fire alarm maintenance. Edwin C. Miller and others.

Voted. That the town raise and appropriate \$50 to relocate fire alarm box 52 as called for in Article 14 of Town Warrant of July 5, 1912. That \$75 be raised and appropriated for the fire alarm box as called for in Article 15 of the Warrant

of July 5, 1912, this money to be expended under the direction of the Municipal Light Commissioners.

Art. 12. To see if the town will authorize the Municipal Light Commissioners to transfer a sum not exceeding \$250.00 from the money appropriated by the town under Article 5 of the town warrant dated March 11th, 1912. to be used for fire alarm construction, to the amount appropriated by the town for maintenance of fire alarm. Edwin C. Miller and others.

Voted. That the town authorize the Municipal Light Commissioners to transfer a sum of money as called for by Article.

Art. 13. To see if the town will vote to raise and appropriate \$1200.00 to be added to the depreciation fund of the Municipal Light Board, for their use. Edwin C. Miller and others.

Voted. That the town raise and appropriate \$1200 for the depreciation fund of the Municipal Light Board.

Art. 14. To see if the town will vote to raise and appropriate the sum of \$300.00 for the use of the Police Department, or what they will do about it. Board of Selectmen.

Voted. That the town raise and appropriate \$300 for use of the Police Department.

Art. 15. To see if the town will raise and appropriate an additional sum of money for the care of the town hall. Board of Selectmen.

Voted. That the subject matter of this article be laid upon the table.

Art. 16. To see if the town will make an additional appropriation for the Fire Department, raise and appropriate money for the same. William E. Cade and others.

Voted. To raise and appropriate \$1075, as an additional appropriation for use of the Fire Department.

Art. 17. To see if the town will vote to accept the provisions of Section 85 of Chapter 48 of the Revised Laws relating to reserved spaces in public ways. Board of Selectmen.

Voted. That the town accept the provisions as called for by article.

Art. 18. To see if the town will vote to amend the By-Laws by repealing and striking out the whole of Section 2 of Art. 6 of said By-laws, relating to action at town meetings on the reports of Selectmen laying out town ways. M. E. S. Clemons.

Voted. That the town amend its By-Laws as called for by Article.

Art. 19. To see if the town will vote to raise and appropriate a sufficient sum of money to work and grade Armory street, and to light the same, or what it will do about it. Dennis Greany and others.

Voted. That the town raise and appropriate \$167 for lighting Armory street, the same to be expended under the direction of the Municipal Light Board.

Art. 20. To see if the town will raise and appropriate the sum of thirty-five dollars for the use of the Forest Glade Cemetery Commissioners, or what they will do about it. Willie R. Blake and others.

Voted. That the town raise and appropriate \$35 for the use of the Forest Glade Cemetery Commissioners.

Art. 21. To see if the town will vote to increase the salary of the Plumbing Inspector, and raise and appropriate money therefor, or what they will do in relation thereto. Charles C. Ball and others.

Voted. That the salary of the Inspector of Plumbing be \$600 per annum, to take effect January 1, 1913.

Art. 22. To see if the town will vote to authorize its Selectmen to increase the salary of its Chief of Police from \$2.75 per day to \$1200 per year, to take effect Jan. 1st, 1913, or what they will do about it. Eden K. Bowser and others.

Voted. That the salary of the Chief of Police be increased to \$1200 a year to take effect January 1, 1913.

Art. 23. To see if the town will vote to instruct the Municipal Light Commissioners to install an electric light on Madison Avenue, near the residence of John Hartley, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. John Hartley and others.

Voted. That the town raise and appropriate \$12 for the installation of light as called for by article.

Art. 24. To see if the town will vote to instruct the Municipal Light Commissioners to install an electric light on Madison Avenue, near the residence of Charles Simonds, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. Harry E. True and others.

Voted. To raise and appropriate the sum of \$48 for the installation of one light as called for by article, and that the light be installed under the Municipal Light Commissioners.

Art. 25. To see if the town will vote to instruct the Municipal Light Commissioners to install an electric light at the junction of Renwick Road and Ashland Street—one on Ashland Street at Melrose City line,—one near the residence of Frank A. Connor on Overlook Road—one at the junction of Overlook Road and Nowell Road, and one on Nowell Road at the Melrose City line, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. Samuel H. Hellen and others.

Voted. That the town raise and appropriate \$66 for the installation of four lights, work to be done under the direction of the Municipal Light Commissioners.

Art. 26. To see if the town will vote to raise and appropriate money for the suppression of the gypsy and brown tail moths. M. E. S. Clemons and others.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 27. To see what action the town will take in regard to the purchase of land for a play ground. Dana Dudley and others.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 28. To hear and act upon the report of the Selectmen laying out a town way from Water street to Richardson street, being the private way now known as Wakefield avenue.

Voted. That the subject matter of this article be laid on the table until two weeks from tonight.

Art. 29. To hear and act upon the report of the Selectmen laying out a town way from Otis street northerly, being the private way now known as Rockland street.

Voted. That subject matter of this article be laid on table until two weeks from tonight.

Art. 30. To see if the town will vote to authorize the Water and Sewerage Board to construct a sewer in Elm street between Prospect and Winn street, and raise and appropriate a sufficient sum of money therefor. Sidney G. Watkins and others.

Art. 31. To see if the town will vote to issue notes, bonds or scrip for the purpose of providing funds to pay for the extension of the sewer in Elm street, if the same be authorized under vote of the town on the preceding article, and fix and determine the amounts of such bonds, notes and scrip and the conditions under which they may be issued. Sidney G. Watkins and others.

Voted. That subject matter of these articles be laid on table until one week from tonight.

Art. 32. To see if the town will vote to appoint a committee to examine as to the advisability of purchasing the lot of land adjoining east, the West Ward School lot, and report at the next annual town meeting in March, 1913. Lewis E. Carter.

Voted. That a committee of five be appointed to consider the advisability of purchasing the lot of land adjoining the West Ward school lot. Committee to report at the March town meeting.

Committee appointed: Lewis E. Carter, C. E. Montague, Edward B. Kelley, L. P. Gowing, George A. Cowdrey.

Art. 33. To see if the town will vote to appoint a committee to investigate the condition of the old Franklin school house, on Franklin street, and report to the town at the spring town meeting the advisability as to its use, or what they will do about it. William A. Thursh.

Voted. That a committee of five be appointed to investigate the condition of the old Franklin school and to report at the spring town meeting the advisability as to its use.

Committee appointed: William A. Thrush, A. H. Boardman, J. J. Round, J. J. Foley, N. E. Cutler.

Art. 34. To hear and act upon the report of the Committee of Fifteen appointed to consider an improvement on the present form of town government, and to take such action as the town deems advisable, or what they will do about it.

Art. 35. To see if the town will have the report of the committee printed in pamphlets for distribution. R. C. Atkinson, Sec'y.

Voted. That the subject matter of these articles be laid upon the table.

Art. 36. To see if the town will authorize the Board of Selectmen to move the bath house building to a new location on the west shore of the lake, and raise and appropriate a sufficient sum of money therefor, or what they will do about it. John J. Round and others.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 37. To see if the town will vote to accept the provisions of Chapter 635 of the acts of the Legislature of 1912, the same being entitled "An Act Relative to Tenement Houses in Towns." Wakefield Improvement Association and Advisory Betterment Committee.

Voted. That the subject matter of this article be laid upon the table for one week,

Art. 38. To see if the town of Wakefield will vote to pay J. R. Reid & Son for dressing delivered to Forest Glade Cemetery, and for the use of team in Forest Glade Cemetery, or what they will do about it. N. E. Cutler and others.

Voted. That the subject matter of this article be indefinitely postponed.

Art. 39. To hear and act upon the report of the committee appointed under Article 19 at meeting held Nov. 20, 1911, to purchase a piece of motor driven fire apparatus.

Voted. That the subject matter of this article be laid upon the table for two weeks.

Art. 40. To see if the town will vote to purchase the track of land on Water street, bounded on the south by Water street, on the west by Melvin street, on the north by B. & M. R. R. and on the east by the Bay State R. R. to be used for dumping purposes, or what they will do about it. Joseph W. Heath and others.

Voted. That the subject matter of this article be indefinitely postponed.

Voted. That this meeting be adjourned to next Monday evening at 7.30 o'clock.

There have been 3397 orders drawn on the Town Treasurer, amounting to \$285,907.14, for all of which proper vouchers are on file.

The Board has granted 103 building permits at a total estimated value of \$210,925.00, which probably will be largely increased when this new property is assessed, so that there has been a substantial increase in our total valuation.

In accordance with the authority voted by the town we selected as Superintendent of Streets a highway engineer of experience, and, although somewhat handicapped by starting in late in the season, we feel that he has handled the department well. Now that the town has an engineer, steps, we believe, ought to be taken to appropriate sufficient money to permit of his doing considerable permanent work. With this in view we shall submit a comprehensive plan in connection with the appropriation to be made at the spring meeting, and we ask its careful consideration.

We have continued our policy of getting all our crushed stone out at the crusher plant and have not purchased any this year, thus giving our citizens employment and securing stone of known quality.

The Board wishes to take this opportunity of expressing their sincere thanks for the loyal and generous support they have received from our citizens as a whole. There have been criticisms on the part of a few and possibly they may have sometimes been well founded; no board is infallible, nor can it ever hope to be, but your Board of Selectmen have been conscientious in their duties and unanimous in their decisions during the year. It should be borne in mind, also, that there frequently are excellent reasons for doing certain things or adopting certain policies, which to those who are not acquainted with all the facts may seem unwise or unbusinesslike. Well-founded criticism is appreciated, but unintelligent fault-finding accomplishes nothing. Any board will improve by benefitting from just criticism, and your Board of Selectmen welcomes this source of improvement.

We are glad to report a steady growth in the matter of co-operation among our citizens, departments, and organizations in the town. Success for any town can only be accomplished by the heartiest co-operation between all these parts of the body politic. Just as the various members of the human physical system, the liver, stomach, heart, etc., must work in harmonious co-operation to produce a physically well human being, so must the various departments and organizations of a town work together to make a successful and prosperous town.

We desire in closing to offer a few suggestions, not all of them requiring immediate action but about which we hope all of us will do some thinking. One thing that needs immediate attention is the establishment of another precinct west of the railroad track and north of Broadway, to be known as Precinct 3. Voting booths could probably be installed in the basement of the Hamilton School, or some other equally convenient location. Precinct 1, with its 2200 voters, is too large to handle. A precinct on the west side will relieve this situation somewhat by taking out approximately 600 voters, to whom the change will also be a convenience.

At some time in the future the town should increase the salary of the Tax Collector, appoint him Town Collector, and make all bills receivable payable at his office instead of to the different departments as at present. It will readily be seen that this is the business way to collect our moneys, and it is also more convenient for those having bills to pay to pay them all at one place

While it would be inadvisable at present to appoint a purchasing agent, we do believe that some steps should be taken by the various departments who purchase like supplies to combine in buying these articles, as usually some saving can be made by purchasing in quantities. The departments should also make a special effort to secure lowest prices and take advantage of all cash discounts. This Board has during the year deducted cash discounts on several bills after they had had department approval for payment in full. This is mentioned to impress on all departments the necessity of careful buying and to suggest to the the town that at some future date a move should be made to concentrate this part of the town business.

“Rome was not built in a day,” but if as a town we take one step forward from time to time, we shall arrive at that goal which

will indeed make us what we sometimes like to call ourselves :
The Best Town.

If the efforts of this Board, to serve each citizen and the town acceptably, have met with some degree of approval, we shall feel amply repaid for the time and energy expended in your service.

Respectfully submitted,

Board of Selectmen

GEO. E. WALKER, Chairman,

CHAS. S. YOUNG, Secretary,

NATH. E. CUTLER,

FRANK A. LONG,

ANDREW G. ANDERSON.

REPORT OF TOWN COUNSEL

TO THE THE HONORABLE BOARD OF SELECTMEN :

Town of Wakefield.

GENTLEMEN :—The following is my report as town counsel for the past year.

CASES DISPOSED OF

Richard Mirabito, suit in tort for \$4000.00, settled for \$75.00.

Elizabeth Sullivan, suit in tort for \$4,000.00, settled for \$50.00.

James A. Simone, suit in tort for \$4,000.00, settled for \$75 00.

Hannah S. Wait, suit in tort for \$4,000.00, settled for \$500.00.

Thomas Leon Harris, this suit was determined by the action for the same injury, against the B. & M. R. R., in which the court found there was no liability as the plaintiff was not entitled to recover, and it being the duty of the Railroad to take care of the place where the accident occurred, (a railroad crossing) an

agreement for judgment in favor of the town has been filed.

The above were cases against the town.

In a suit in equity by the town against Alvah A. Junkins of Stoneham to restrain the defendant from polluting the water supply, the Superior Court ordered a permanent and perpetual injunction against the defendant to issue.

CASES NOW PENDING AGAINST THE TOWN

Two actions of tort for \$20,000.00 each; one action for \$4,000.00 and one for \$5,000.00. One action in contract for \$100.00.

Respectfully Submitted,

M. E. S. CLEMONS,

REPORT OF THE ENGINEERS OF THE WAKEFIELD FIRE DEPARTMENT

TO THE HONORABLE BOARD OF SELECTMEN:

The annual report of the Board of Fire Engineers is herewith presented, giving the records of fires that have occurred during the year ending December 31, 1912, together with such information as we think may be of interest to the town.

THE DEPARTMENT AND APPARATUS

The force of the Department remains the same as in last year's report. All the apparatus is in first class condition. It has been necessary this year to have the large ladders on the Hook and Ladder Truck overhauled.

RECORD OF FIRES

During the year the Department has responded to ninety-two (92) alarms, including fifty-nine (59) still alarms. As will be seen by the records, a number of these alarms have been false. As there is always an element of danger responding to an alarm of fire, it is to be deplored that any individual should find pleasure in adding needless risk from a misplaced sense of fun.

The following were the alarms responded to during the year, with the loses as near as can be obtained.

Saturday, January 6, 1.15 p. m. Still alarm. Small house in Saugus off Kendrick Road.

Friday, January 12, 10.56 a. m. Still alarm. Mattress fire, house 27 Byron street. Cause from chimney.

Saturday, January 20, 12.40 p. m. Automatic, Miller Piano Company, no fire.

Thursday, January 25, 10.20 p. m. Box 12, house No. 7 High street, owned and occupied by Edgar B. Allen. Cause. sparks from chimney. Loss about \$75.00.

Thursday, February 22, 2.51 p. m. Box 5, house corner Oak and Orchard avenue, occupied by Isaac Hellzer. Cause, oil stove. Loss small.

Wednesday, February 23, 9.50 p. m. Still. Small house on Linden avenue, used for scale house. Loss about \$100.00, owned by R Philpot.

Wednesday, February 28, 9.58 p. m. Box 15, same fire.

Saturday, March 2, 6.03 a. m. Box 34, soot in the chimney of house 22 Yale avenue, owned by H. L. Gilson.

Saturday, April 6, 10.40 a. m. Still, brush fire off Salem street.

Sunday. April 21, 1.24 p. m. Box 15, brush fire Hart's Hill.

Wednesday, May 1, 12.50 p. m. Still, brush fire off Broadway.

Wednesday, May 1, 2.35 p. m. Still, brush fire off Perham street.

Sunday, May 5, 10.45 a. m. Still, brush fire off Salem street.

Saturday, May 11, 6.22 p. m. Box 52, dwelling on Hillside avenue, owned by Jesse Dow, occupied by Edward Harnden, cause careless smoking. Loss, \$180.00.

Monday, June 3, 1.38 p. m. Still, followed by Box 15, house No. 627 Main street, owned and occupied by Mrs. Jennie Rounds. Cause, spontaneous combustion. Loss, \$50.00.

Sunday, June 23, 2 57 p. m. Still, pile of saw dust off Albion street.

Monday, June 24, 5.10 p. m. Still, brush fire off Parker Road.

Tuesday, June 25, 1.40 p. m. Still, pile of sawdust off Albion street.

Tuesday, June 25, 3.05 p. m. Still, brush fire off Parker road.

Tuesday, June 25, 9.10 p. m. Still, brush fire off Parker road.

Wednesday, June 26, 1.25 p. m. Still, brush fire off Parker road.

Wednesday, June 26, 2.58 p. m. Box 44, brush fire off Parker road.

Wednesday, June 26, 8.40 p. m. Still, brush fire off Parker road.

Thursday, June 27, 3 p. m. Still, brush fire off Parker road.

Thursday, June 27, 3.40 p. m. Box 44, brush fire off Parker road.

Friday, June 28, 12.52 p. m. Box 44, brush fire Perley Meadows, off Lowell street.

Saturday, June 29, 2.48 a. m. Box 35, followed by second alarm. Odd Fellows' hall building, owned by D. G. Walton, estate, occupied by Odd Fellows, Knights of Malta, Knights of Pythias, Order of Eastern Star, Rebecca Lodge, Masons, People's Clothing Store and Bowser & Co. Loss about \$7,911.00. Probably caused by careless smoker.

Saturday, June 29, 2.52 p. m. Box 44, brush fire off Parker road.

Sunday, June 30, 10.15 a. m. Still, brush fire off Parker road.

Sunday, June 30, 2.28 p. m. Box 44, brush fire off Parker road.

Monday, July 1, 8.30 p. m. Still alarm, bonfire back of Taylor building.

Tuesday, July 2, 2.15 p. m. Still, woods Parker road.

Wednesday, July 3, 10 a. m. Still, woods Parker road.

Wednesday, July 3, 1.47 p. m. Box 36, fire in house No. 13 Turnbull avenue, cause, smoking pipe. Loss small.

Wednesday, July 3, 3 p. m. Box 23, small fire in house No. 5 Lake street, owned and occupied by Angelo DeCecca. Cause, fire cracker. Loss small.

Thursday, July 4, 1.13 a. m. Box 19, false alarm.

Thursday, July 4, 1.41 a. m. Box 28, false alarm.

Thursday, July 4, 11.47 p. m. Box 8, house No. 7 Bateman court, owned and occupied by Thomas Morris, cause probably smoking. Loss, \$100.00.

Sunday, July 7, 11 a. m. Still, woods off Newhall court.

Sunday, July 7, 1.40 p. m. Still, grass fire off Nahant street.

Sunday, July 7, 9 p. m. Still, woods off Newhall court.

Monday, July 8, 12 a. m. Box 44, woods off Newhall court.

Tuesday, July 9, 9.01 p. m. Still, woods off Newhall court.

Wednesday, July 31, 3.20 p. m. Still, small fire on roof of Thomas Hickey's, Foundry street. Loss small. Cause, sparks from bonfire.

Friday, August 2, p. m. Still, grass fire, Greenwood Grove.

Friday, August 2, 3 p. m. Dwelling off Spring street, owned and occupied by Tony Messinise. Cause, unknown. No alarm in Wakefield, alarm in Stoneham. Loss, about \$4,000.00.

Monday, August 5, 3 p. m. Still, rubbish heap, rear of the Walton building, Main street.

Thursday, August 15, 1.45 a. m. Automatic, followed by Box 38. L. B. Evans Shoe Co., Water street. Cause, defection in system. No fire.

Friday, August 16, 12.50 a. m. Still followed by Box 35, 12.55 a. m. Building on Main street, owned by W. C. Jordan, occupied by E. S. Russell, provision store. Loss about \$600.00. Miss Nellie Gaffy, dressmaker, Spanish War Veterans. Alarm failed to work.

Sunday, August 18, 3.05 p. m. Box 9, false alarm.

Sunday, August 25, 11.05 a. m. Still, rubbish back of Hathaway's stable. Cause, careless smoking.

Monday, August 26, 4.30 p. m. Box 27, kettle of fat boiled over in house No. 21 Emerson street, occupied by Mrs. H. F. Ingalls. No loss.

Friday, August 30, 1.30 p. m. Still, brush fire off Forest street.

Monday, September 9, 7.20 p. m. Box 32, false alarm.

Saturday, September 21, 10.20 a. m. Still, house No. 5 Common street, owned and occupied by John H. Beebe, caused by putting hot ashes in wooden barrels. No loss.

Saturday, September 28, 7 p. m. Still, dump fire, North avenue.

Friday, October 4, 9.20 a. m. Still, rubbish fire, rear of old Armory building.

Sunday, October 6, 7 p. m. Still, bog fire off Lowell street.

Monday, October 7, 12.10 p. m. Still, grass fire Butler's woods.

Tuesday, October 15, 1.32 p. m. Still, house owned by Mrs. Florence Townley, No. 7 Yale avenue, occupied by Geo. Harmond. Loss, about \$185.00.

Wednesday, October 16, 1.35 p. m. Still, grass fire White avenue.

Friday, October 18, 1.32 p. m. Still, small shed rear of 160 Vernon street, owned by Simon Dulong, occupied by Arthur York. Loss small, caused by children.

Saturday, October 19, 2.35 p. m. Still, burning of lot of old rubbish off Richmond street.

Monday, October 21, 10.15 a. m. Still, brush fire off Forest street.

Wednesday, October 23, 4.07 p. m. Box 32, false alarm.

Wednesday, October 30, 9.22 p. m. Box 46 false alarm.

Thursday, October 31, 8.01 p. m. Box 59, house off Wiley Place, owned by Mrs, Edna E. Edmands. Cause, probably by children. Loss, \$1,500.00.

Wednesday, November 6, 1.32 p. m. Still, grass off Morrison Road.

Wednesday, November 6, 1.40 p. m. Still, grass off Eaton street.

Saturday, November 9, 11.38 a. m. Box 22, false alarm.

Wednesday, November 13, 12.49 p. m. Box 43, false alarm.

Saturday, November 16, 5.30 p. m. Still, burning of Green Street Tannery, Stoneham. Greenwood Hose and Auto responded. Worked 3 hours.

Tuesday, November 19, 1.20 p. m. Still, slight fire on roof of house No. 44 Church street. Cause, careless smoking. Loss small.

Tuesday, November 19, 2.10 p. m. Still, grass off Bennett street.

Wednesday, November 20, 5 p. m. Still brush fire off Montrose avenue.

Thursday, November 21, 7 25 p. m. Still, grass off Jordan avenue.

Wednesday, November 27, 2.31 p. m. Still, small shed rear of 507 Main street, owned by N E. Cutler. Caused by small children. Loss small.

Thursday, November 28, 8.40 p. m. Box 8, false alarm.

Friday, December 6, 9.25 p. m. Box 39, false alarm.

Sunday, December, 8, 5.05 p. m. Still, grass off Greenwood street.

Monday, December 9, 3.35 p. m. Still, woods fire off Charles street.

Tuesday, December 10, 1.30 p. m. Still, grass fire North avenue.

Thursday, December 12, 4.45 p. m. Still, chimney on house No. 15 Summitt avenue, owned and occupied by W. E. Eaton.

Saturday, December 14, 5.25 p. m. Box 26, false alarm.

Monday, December 16, 5.23 p. m. Still, grass fire off Broadway.

Thursday, December 19, 7.45 a. m. Still, supposed fire in house corner Oak and Greenwood avenue. Cause, stacking of lime

Thursday, December 19, 4.30 p. m. Still, show window in Wright's Variety store, Main street. Cause, gas jet setting fire to decorations. Loss \$100.00.

Sunday, December 22, 4.38 p. m. Still, dump fire off North avenue.

Monday, December 23, 8.05 p. m. Still, electric light pole, Albion street.

Estimated value of property endangered \$101,600.00. Losses on same \$12,007.00. Insurance on same \$90,625.00.

FINANCES

The financial report shows an increase in expenditures of previous years, due to the increase of pay of the call members of the Department, twenty-five dollars (\$25) per year.

All bills have been paid for the year; the only outstanding ones being those not rendered until after the year ends. We estimate the amount at fifty dollars (\$50); being for light, telephone and shoeing.

AUTO COMBINATION

The new, and first piece of auto fire apparatus purchased by the Town, has been in commission about two months, although not having been accepted by the Committee on purchase yet, owing to a few minor details not yet completed. While we have had only a limited experience with it, we feel that it will be a valuable addition to the Department.

REPAIRS ON BUILDINGS

Necessary repairs have been made on buildings. At Greenwood Hose House, stall, floors and sinks have been installed for proper drainage, and accommodations made for the Combination Wagon, now at the Central Fire Station, which will be placed there after the new auto is formally put in commission. The Central Fire Station has been painted and necessary repairs made.

REPAIRS ON VOLUNTEER MOTOR CAR

One hundred and fifty dollars (\$150.00) was appropriated for this purpose. After an examination of the car, together with Mr. Ripley, the delivery-man for our new auto-car, we decided to have the work done by the men at the Central Fire Station, as the amount appropriated would not be sufficient to cover the labor and extensive repairs necessary.

The car has been thoroughly overhauled, old parts replaced by new ones; new rear axle and rear wheels and tires; and, in our opinion, it will not be necessary to make any further outlay for this car for a considerable time.

We are greatly indebted to Mr. Ripley for the supervision and labor performed by him. The total cost is about three hundred and fifty dollars (\$350.00) outside of labor; one hundred and fifty dollars (\$150.00) being appropriated, the balance being paid by the Volunteer Library Association, which they will ask the Town to reimburse, by an article in the Town Warrant, which has our approval.

CONCLUSION

In conclusion, we wish to extend to your Honorable Board and to the Finance Committee our thanks for the courtesies and co-operation which we have received during the year. We wish to compliment the officers and members of the department on the prompt and efficient manner in which they have performed their duties. We also wish to express our appreciation to the Municipal Light Board for relighting the streets late at night, and to the

Chief of Police for services rendered by his department at fires. Also, to Doctor Curtis L. Sopher for the many favors and the co-operative spirit shown during the year.

Respectfully submitted,

WM. E. CADE, Chief,
EDWARD S. JACOB, Sec.,
FRED D. GRAHAM,

Board of Engineers.

Wakefield, Mass., January 9, 1913.

REPORT OF THE FOREST WARDEN

WAKEFIELD, MASS., December 31, 1912.

TO THE HONORABLE BOARD OF SELECTMEN:

GENTLEMEN:—The following is the report of the Forest Warden for the year ending December 31.

Number of fires 1912	31
Average cost of each fire about	\$6 09

APPROPRIATION

Spring town meeting	\$900 00
-------------------------------	----------

EXPENDITURES

Repairs and supplies:

C. Callahan Co., 1 doz. wire brooms	\$ 10 00
National Mfg. Co., fittings on Johnson pumps.	24 00
.. .. 12 pieces of hose	6 00
Hathaway, use of team	2 00
J. W. Grace, repairs and supplies	3 62
American Express Co., expressing	70
Daily Item, advertising	1 95
	<hr/>
	\$ 48 27
Pay rolls	251 00

\$299 27

Wakefield fire cost in 1910 \$396.30.

Wakefield fire cost in 1911 \$661.16.

Wakefield fire cost in 1912 \$251.00.

The following is taken from the report of Mr. F. W. Rane, State Forester.

Please consider that forest fires under control mean not only the saving of thousands of dollars each year, which is represented

in lumber, cord wood, etc., but contribute more to the State future from the broad standpoint of conservation.

Besides destroying present known commercial values, fires burn up the leaf mold or humus, that vegetable sponge that makes profitable forests possible.

Young seedlings, in themselves very valuable for future forests, would appear of their own accord were fires kept out. In other words, we have a natural forest country, and let us assist nature instead of hindering her.

Self preservation is the first law of nature, and, similarly the protection of our forests from fire and other enemies, is the first rule of forestry. The most destructive agent of the forest is fire, and it is one against which we must be guarded at all times. The very use of the woods increases the danger from this source, and, therefore, it is necessary that every one who travels or who lives in the forest be extremely careful about the use of fire.

Every one who travels in the forest must use extreme caution in regard to fire. Smokers must not drop lighted matches, cigarette butts or cigar stubs. Campers and hunters must be careful about the use of fire. It is only fair to private land-owners that people who use their land for pleasure should be careful and do nothing to endanger their property. In many cases land-owners have forbidden trespass by hunters, fishermen, and campers, simply on account of the fire danger.

Respectfully submitted,

WM. E. CADE,

Forest Warden.

REPORT OF THE CHIEF OF POLICE

WAKEFIELD, MASS., January 1, 1913.

TO THE HONORABLE BOARD OF SELECTMEN :

GENTLEMEN :—I have the honor to submit to your honorable board the report of the doings of the Police Department for the year ending December 31, 1912.

Number of arrests	215
Number of summonses served	49
Number arrested on warrants	63
Number brought before the court	327

Patrolman Edwin F. Poland died October 1, 1912.

Patrolman Fred J. Black was promoted to the permanent force on November 29th, 1912.

Patrolman McFadden is now detailed at the Town Hall] nights, coming on duty at half past nine and remaining on duty until half past seven in the morning. By this arrangement the town is provided with police the entire night.

The members of the force, as a rule, have shown a disposition to conform to all requests made of them and have displayed promptness and energy in the discharge of their duties, and I am thankful to them for the work they have done.

PATROLMAN EDWIN F. POLAND

Died October 1, 1912; born in Essex, Mass., November 29, 1860; became a patrolman January 1, 1892.

MRS. EDWIN F. POLAND,
 30 Summer Street,
 Wakefield, Mass. :

The Board of Selectmen, representing the whole citizen body of Wakefield, by formal vote tenders you herewith their heartfelt sympathy and that of all the people of Wakefield in your sad bereavement by the death of your beloved husband, Edwin F. Poland.

We feel that the town, its officials, and all our citizens share in this loss of the services of one, who, by his faithfulness, efficiency, kindly disposition, and sympathy with the unfortunate, has exemplified the life of an ideal guardian of the peace.

As a police officer, he had the respect of us all; as a man, we were glad to have counted him our friend; and as a citizen, his life has redounded to the credit of Wakefield.

May the Father of us all, who has seen fit to call him from your home to the Home above, raise up for us men of his character, filled with the love of family and consecration to the welfare of our town, that has marked his life among us.

May God strengthen you and yours and give you the comfort of his blessing.

Sincerely,
 Wakefield Board of Selectmen,
 by GEO. E. WALKER, Chairman

RECOMMENDATIONS

The people of the town well know the need of more police and I shall leave the matter entirely in their hands, but most earnestly request that the matter be carefully considered.

A police department is one of the most essential things in any community; to it is intrusted the care and moral welfare of the community, and by it the moral condition of the community is represented.

The primary duty of a police officer is to prevent crime, and failing this, is to procure its punishment.

For this purpose he is invested with broad powers and may perform any act consistent with the rights of others and with the exercise of a sound discretion on his part.

But it should be understood that neither the state nor the municipality whose officer he is, assumes any responsibility for his wrongful action.

Physical and mental ability and moral character should be considered and politics eliminated.

In conclusion I wish to thank your honorable board for the kindly assistance and advice given me.

To his Honor, Judge Bruce, and his assistants, Judges Sweetser and Riley, and also to the Clerk of the District Court, Wilfred B. Tyler and his able assistant, Henry C. Bacon, I wish to extend my sincere thanks for the kind and courteous treatment accorded me throughout the year.

To all those who have in any way assisted this department, you have my thanks.

Respectfully submitted,

JAMES J. POLLARD,

Chief of Police.

REPORT OF HIGHWAY ENGINEER

TO THE HONORABLE BOARD OF SELECTMEN :

I herewith submit my report of the work done by the highway Department from June 1st to Dec. 31, 1912, appended to which is Mr. Dennis Greany's report from January 1st to May 31st, inclusive.

SANITATION

Many of the old drains were wholly or partially clogged with roots and other obstructions. These have been dug up, cleaned and put in working order.

New drains have been constructed on Bartley, Byron and Albion streets.

In order to keep the gutters and drains clear of obstructions, a small gang of men and a single horse dump cart has been kept working from street to street. In this way we have been able to keep the streets in a better condition, and the same time keep the gutters and drains in such a condition that the damage done by heavy rains has been greatly reduced.

On rainy days this gang has driven about town draining as many puddles in the sidewalks and streets as possible and keeping the catch basins open.

OIL PATCHING

Considerable oil patching has been done on the macadam streets with good results, using Headley's No. 1 patching oil, mixing about twenty-five gallons to a cubic yard of clean pea stone. A pile of this material is kept on hand ready to use as holes develop in the macadam streets. This material is too expensive to use on badly worn gravel streets.

GRAVEL PATCHING

A number of streets have been resurfaced and patched with gravel as shown in the financial report. Many of these streets should have more permanent work done because this gravel will not hold where there is a large amount of wash.

OIL SPRINKLING

Three car loads of Alden Speare's Tasscoil No. 2 and two car loads of Headley's No. 22 road oil, and one of the Solway Process Company's Calcium Chloride were used as dust layers.

The labor cost of applying these materials, includes in each case the cleaning of the streets in advance, which ordinarily would be done in the spring cleaning.

The actual applying and cost of the Tasscoil was \$.013 per square yard, while that of the Headley oil was \$.0163, and that of the Calcium Chloride \$.0107.

The Tasscoil gave the best results on the hard macadam streets and on paving, while the Headley oil proved most satisfactory on the softer and more dusty streets. The Calcium Chloride proved very satisfactory for a short time on the shady streets.

Tarvia "B" was applied on Albion street from Harvard square to Byron street and on Birch Hill avenue.

Next year more Tarvia "B" should be used and those streets that are in the best condition given a surface treatment to reduce the wear and to lay the dust.

The great value of the Tarvia is that the surface of the street does not become muddy in wet weather, nor dusty in dry, and forms a wearing surface to preserve the street.

Main street from the Rockery to Pratt street was given a coat of Indian 65 per cent asphalt oil, using about 1-3 of a gallon to a square yard, previous to which all of the holes were filled with Headley's patching material.

CONSTRUCTION

Water street—This street was rebuilt with a seven inch Tarvia filled macadam, using two gallons of Tarvia "X" per square yard, penetrating two inches; labor and materials (including crusher work, hauling, spreading, rolling, etc.) costing \$2.155 51.

Albion street—This street was paid for in part by the Mass. Highway Commission, who allotted \$1150 from the Motor Vehicle Fund, to pay one half of the estimated cost of building nine hundred (900) feet from the Stoneham line to Jordan avenue. 1150 feet were actually built for the \$2300. It was thought best

to continue the work to beyond the ledge at Bartley street (2165 feet in all), thus making a good road from Wakefield to Stoneham.

This road was constructed with a four-inch water bound base, on which was a 2-inch wearing surface of No. 1 stone, coated with 2 gallons of Tarvia "X" per square yard, using the penetration method. Next year this surface should receive a coat of Tarvia "B". Suitable drainage was provided and 5 catch-basins built. The sidewalks were very low and had to be raised in a number of places, although no attempt was made to construct permanent walks.

The total cost of labor and materials was \$4,266.04

Main street, Greenwood—One half of this street was constructed for 1000 feet in the same manner as Albion street. The other side was spiked up with a steam roller and harrowed and shaped with a road scraper, and the material from the other side spread on top and rolled to a hard surface, making a good gravel roadway that will stand for a few seasons, until such a time as the town can make permanent improvements. The total cost of labor and material for both sides was \$1810.37.

TAR SIDEWALKS AND CURBING

This work has been limited to building walks for which applications have been received, and resurfacing old walks and laying curbing.

Owing to the lateness of the season and confusion due to changes made in the department, sufficient curbing could not be obtained from Lynnfield to supply all of the demands made this year.

I would suggest that those desiring curbing or tar sidewalk work done should file applications early, thus enabling the department to order material ahead and plan the work before the season begins.

GRAVEL WALKS

As many gravel walks were patched and resurfaced as possible, but more should be done next year.

RECOMMENDATIONS

I wish to make the following recommendations :

General administration	\$400 00
----------------------------------	----------

To include paymaster's salary, medical service,
office supplies, a new engineer's level, etc.

Sanitation : drainage maintenance	1,000 00
Street cleaning and spring cleaning	2,500 00
Patrol	1,000 00
Repairs and general maintenance	1,000 00
General tools and supplies	500 00
Oil spray wagon	1,000 00
New street signs and posts	500 00
Gravel Work	2,000 00
Oil sprinkling	5,000 00
Tar sidewalks and curbs.	2,000 00
Gravel walks	1,000 00
Snow	1,400 00

Total	\$19,300 00
-------	-------------

I would also recommend an appropriation of \$2,600.00 for a drain to take the street drainage from Crystal lake and drain Main street from Green to Greenwood street.

Also \$12,000.00 to construct one side of Main street from Greenwood to the Junction. This street is at present in a disgraceful condition and a special endeavor should be made to put it in a passable condition.

I should also advise making application to the Mass. Highway Commission for an appropriation to construct Lowell street, from Pratt street to the Reading line, thus completing the highway from Reading to Wakefield square. Also for an appropriation to construct a part of Salem street, near the Lynnfield line.

In conclusion, I wish to express my appreciation of the assistance and co-operation of the Board of Selectmen during the past seven months.

Respectfully submitted,

O. H. STARKWEATHER,

Highway Engineer.

FINAL STATEMENT

During the year 1913 the following payments will come due, which are to be included in the tax levy for that year by votes which the town has already passed.

Municipal light plant	\$6,000 00
Warren school house	2,000 00
Water	4,000 00
Greenwood school house	1,000 00
Junction school house	1,500 00
Sewerage	5,000 00
North school house	1,000 00
Fire station	1,000 00
High school repairs	1,000 00
Greenwood gas extension	1,000 00
Municipal light plant, 2nd	2,500 00
West Chestnut street sewer	2,500 00
Insurance premium notes	1,000 00
Byron street sewer	1,000 00
Water meters	1,500 00
Appropriations since tax levy	6,278 00
	<hr/>
	\$38,278 00

There will also be required \$28,225.38 to meet interest payments for 1913.

In my final statement I would call attention to the floating debt account which shows an excess of debits amounting to \$22,735.84. I would refer to the extended report contained in my final statement for the year 1910.

As stated in that report, this seems to be a need of a change in our method of town accounting and does not result from any dishonest handling of funds.

The floating debt statement has always been more of an estimated account than an exact one, for up to the present time the Treasurers of the town have had to form more or less of an estimate as to what is due the treasury at the end of each year. I have no doubt but that there is considerable money due the diff-

erent departments at the close of each year, which would extinguish or modify the excess of debits which about so often occur and which do not show until final balances are made

Again, the Town votes to raise and appropriate a certain sum of money to carry on the business of its different departments. These expenditures must be met by income from taxes assessed by the Board of Assessors and receipts from various sources. The Treasurer issues temporary loan notes against these anticipated incomes, and if these incomes from taxes and receipts do not materialize, it can be readily seen that a debit is sure to result. There seems to be somewhat of a shortage some years in this direction, as shown by the amount of outstanding temporary notes at the ending of each year.

Matters may so adjust themselves that during the year 1913 the Treasurer will be obliged to borrow less and receipts may come in, so that, as in the past, when the debits have been in excess, that the account may balance or that there may be an excess of credits.

The State of Massachusetts, through its Bureau of Statistics, have found that many cities and towns were unconsciously drifting behind financially and a joint committee of the House and Senate have been holding hearings during the summer at which the officers of cities and towns have appeared. This has resulted in a report from this committee to the present Legislature of a bill which, if it becomes a law, will have a far-reaching effect on municipal accounting and indebtedness, and will result in a State supervision of all city and town finances.

At the hearing set for the Town of Wakefield, the Town was highly complimented on its financial condition, and, I am informed, was the only town whose officers summoned were present and ready at the hour set by the Legislative Committee.

As I have stated above, the Town should have some system of accounting whereby losses, incurred by abatement of taxes, sales made under non-payment of taxes, and misunderstandings as to the difference between receipts and reimbursements, will be shown. I have taken this matter up with the Board of Auditors

the Town Counsel and am informed by the former that they have already arranged their books so that all items of outgo and income will come under their supervision, and that they have certain recommendations on these reports along the lines which I have mentioned.

I would recommend that every department render to the Board of Auditors the amount due them and uncollected at the end of each year.

I believe it to be the duty of every town official, and my desire has always been, to give the Town all the information in each annual report pertaining to any office held, and I therefore bring the above matters to the Town's attention.

There should be a closer understanding between Town Departments, so that the Town will not be obliged at sometime in the future to make a special appropriation, as many cities and towns have had to do to make up deficiencies. I again refer to my report for 1910, as well as the report of the former Treasurer, the late Thomas J. Skinner, in the 90th annual report for year ending, January 31, 1902, page 197, in which he refers to this very subject and shows a deficiency for that year of \$9,759.30. This excess of debits for the year 1902 apparently righted itself, as no doubt, that of 1912 will do the same, but we are not sure that such will be the case, and I believe it will be well for the town either to have some accountant, or give the Board of Auditors authority to make decisions as to what constitutes receipts and reimbursements and to determine as to what Department, if any, they shall be credited. Also that all Town Departments, including the Treasurer, shall render to the Board of Auditors any payments made, outside of warrants issued by the Board of Selectmen, as a check in part on all warrants by the Auditors as at the present time.

The town of Reading has such an accountant, who has charge of all these matters.

I wish to announce at this time, that it will be impossible for me to serve as Treasurer after the March election, even if I am elected. As is generally known, I have lately become associated

directly with the business with which I have been connected for a number of years, and as is common among many business concerns, it is agreed that each member shall devote his entire time and energy to the business.

I regret very much, particularly at this time, that circumstances are such that I shall be unable to longer serve as Treasurer, but I shall be only too glad to give my successor in office all the aid and assistance which he may ask for.

In closing, I would state that I have endeavored to make this report a plain, straight statement of facts, as I want the Town to maintain the high financial standing it has always enjoyed.

Respectfully submitted,

ALBERT W. FLINT, Treasurer.

January 1, 1913.

REGULAR MEETINGS OF THE SCHOOL COMMITTEE

Second and fourth Fridays of each month at 8 p. m. at
 Committee Rooms, Flanley Block.

Report of the School Committee

The most perplexing problem that the committee is called upon to face at the present time is the providing of proper school accommodations.

At Greenwood there are nine grades to be provided for in an eight room building, and, owing to the increase in the number of pupils at the opening of the school in September, the first and second grades were given half time, the first grade having the morning session and the second grade the afternoon. The teachers of these grades have assisted each other in the work of their respective classes, and in this way have maintained an efficiency that each working alone could not have secured. These conditions are unsatisfactory, and the committee will be gratified when arrangements can be made to provide for the regular sessions.

Owing to the overcrowding of the two ninth grades at the Lincoln School fifteen pupils were transferred to the Franklin School, where it was possible to provide for them owing to the small eighth grade there.

As stated in the Superintendent's report the lower grades at the Franklin School are overcrowded, and the overflow is being provided for by the use of a small room on the third floor that was not intended to be used as a class room. The crowded conditions at this building are bound to become more pronounced as the school population is steadily increasing in that district.

We thoroughly agree with the report of the special committee appointed by the town at the March meeting which states that the High School building is inadequate to meet the needs of the school, both as to size and equipment. We respectfully recommend to the town that as soon as possible a suitable site be secured and a building erected to care for the present needs of the school, and to make provisions for adding such departments as manual training and domestic science.

Commencing next September, French, German, and Chemistry will have five periods per week instead of four. This change in the number of recitations is made necessary by the requirements of the New England College Entrance Board.

The estimated growth of the High School, we feel sure, will make it imperative to hold two sessions next year. We doubt if this will prove entirely satisfactory to parents, pupils, or teachers, but we urge all to make the best of a trying situation.

By the early erection of a new High School and the use of the present building for grammar school purposes, the problem of housing the grades would probably be solved, with the possible exception of the Franklin School, for a considerable length of time; and the expense of making additions to the present buildings would thereby be avoided.

TEACHERS

An increase in the number of pupils at Greenwood made the employment of an additional teacher necessary, and another teacher was also required at the High School. The growth of the High School and added requirements may make necessary two additional teachers for the coming year.

EIGHT GRADES

For several years the Committee has had under consideration the question of changing from a nine to an eight grade system. During this time the entrance age limit has been raised three times, until now a child must be at least five years old on the first day of April next preceding the opening of the school year. The contemplated change, if commenced in September of next year, would not be in full operation until the opening of school in September, 1914.

SCHOOL SAVINGS

The Legislature of 1911 passed a law requiring the schools to teach thrift, and the Bank Commissioners recommended the establishment of school savings banks for that purpose. As our schools were already provided with the stamp saving system,

which had worked reasonably well, we have waited to see how the new system would compare with the old.

The school savings banks have now been in operation in the Boston schools and in schools of other cities and towns for more than a year, and apparently are a decided success. The schools have a bank day once each week, when for a specified time, usually of fifteen minutes duration, the pupils can deposit their money in amounts of one cent or over, for which they receive a bank book on which their deposits or withdrawals are entered as they would be in a regular bank. The manner of conducting the bank varies in different places. In some places the work is done in part by the pupils of the higher grades, and in others by the principal or the teachers. In one town the members of the Commercial department of the High School act as collectors from the Grammar Schools. The aggregate amount received is deposited weekly by the principal of the school in the local savings bank in his name as trustee for the school savings bank. Just before the savings bank's quarter day the principal transfers the money of the scholars, who have deposits at the school of one dollar or more, to the savings bank, by opening accounts in the name of such scholars, and like transfers are made previous to the bank's quarter days thereafter.

Beginning in January a bank will be started at Greenwood, and later banks will probably be started in other schools. The Committee feel that this is a matter of importance, and that the scholars should be encouraged to save their money. The success or failure of this project depends largely upon the attitude of teachers and parents, and we earnestly request the co-operation of all.

SALARIES

In accordance with the opinion of the citizens, as expressed by a vote in the annual town meeting, we raised the maximum salary of grade teachers from \$550 to \$650 per year.

Last May the janitors presented a request for an increase in their salaries. The Committee granted this, to take effect January 1, 1913. The increased cost of living, which was one of the

reasons for raising the salaries of grade teachers and janitors, applies also to the principals and High School teachers, and we feel that we should raise their salaries.

REPAIRS

The usual necessary repairs to the school buildings were attended to during the summer; and more extensive repairs were made upon the Prospect Street School, and the building painted.

The Committee wishes to express its appreciation to the Kosmos Club for their interest as shown in the beautifying of the grounds of the Prospect Street School.

We recommend appropriations as follows :

Salaries	\$61,866 00
Fuel	5,000 00
Contingent	4,000 00
Books and Supplies	3,700 00
Evening School	1,500 00

and that the tuitions and receipts estimated at \$2,000 be added to the appropriation.

We request your careful consideration of the report of the Superintendent and of the Principal of the High School.

ARTHUR H. BOARDMAN,

MRS. IDA FARR MILLER,

ASHTON H. THAYER,

MRS. EVA GOWING RIPLEY,

DR. CHARLES E. MONTAGUE,

EDWARD E. LEE.

Report of the Superintendent of Schools

TO THE MEMBERS OF THE SCHOOL COMMITTEE :

I hereby submit my second annual report as Superintendent of Schools of the town of Wakefield.

We have made no radical changes during the year, but have confined our efforts to bettering that which we have on hand. Below I have discussed some things which are important to all who are interested in the schools of Wakefield.

CROWDED CONDITIONS

The conditions in at least two schools have become acute, and some steps should be taken to relieve them by next fall, at least, but preferably by spring.

Last summer we found that the Greenwood School would not be able to accommodate the classes. The total number of pupils could have been seated in the building, but nearly all of the grades would thereby have been divided, causing two grades to be placed in each room. In some instances the division would have been very unfortunate, for one division would have been very large and unwieldy while the other would have been small. The School Committee did not think this scheme would be at all advisable. There were three other arrangements possible, namely : purchase a portable building to set in the yard east of the present building ; finish a room in the third story to use as a class room ; have the first and second grades go upon half time, one grade meeting in the morning and the other in the afternoon.

A meeting of parents was called during the summer and the situation explained to them. After giving the matter due consideration they expressed as their opinion that the most feasible plan at the time would be to have the first and second grades go upon half time. Of course, none were fully satisfied with the arrangements made. The first grade pupils were requested to meet in the morning, and the second grade pupils were asked to meet in the

afternoon. The teacher of the second grade gives about two hours assistance to the first grade during the morning session. In the afternoon the first grade teacher assists in the second grade for an equal amount of time. I believe all are agreed that the afternoon is not the best time for school work for young children, but the idea of a single session is nothing new, for some cities and towns have only one session as a regular part of their school system. With two teachers giving their attention to the pupils for the greater part of each session, the children are not losing as much as it might appear to a casual observer.

I feel that some steps should be taken to remedy this matter as soon as possible, in order that a single session in the afternoon for some children may be done away with. Dispensing with the single session plan will leave practically one of two things to do: either finish off a room in the third story, or purchase a portable building. There are objections to both of these ideas. One of the most serious objections to finishing a room in the third story is the question of sufficient and proper light. The heating and ventilating can probably be taken care of.

According to the reports from the Franklin School, which were sent to the office in December, there are actually more pupils than the normal number of seats. We have taken care of the surplus number by crowding in more seats in some cases and by utilizing a small room near the assembly hall on the third floor. The conditions in this school are aggravated by the fact that many children who enter the lower grades are from non-English speaking parents, and cannot use the English language themselves. Many of these non-English speaking children have been in school in their native lands, and need only the ability to understand and speak our language to place them in one of the higher grades. If we have a room where these pupils may receive more individual instruction, than is possible under present conditions, the rate of retardation would be lowered.

While the two highest grades in this school are comparatively small, the primary grades are all too large, and the rooms are overcrowded. One of the crying needs of this building is an un-

graded room. The first grade will also have to be divided. These two things call for the use of more rooms than we have at hand.

There are two things feasible to alleviate the condition here : one is to use a room on the third floor as at present, and then secure a room elsewhere by the use of a portable building for example, or refit the old building. There are some serious objections to the present site of the old building. In the first place the cellar is not very deep, and is inclined to be filled with water. No school building should be used with such a damp cellar as the old Franklin building has. The drains which were constructed to take care of the water apparently do not do so, and I doubt if any satisfactory arrangements can be made to take care of this condition because of the character of location.

If the School Committee should adopt an eight grade system, as is spoken of elsewhere in this report, the Greenwood School would be taken care of probably for some few years to come, but I cannot see that a change in system will help matters at the Franklin School for any length of time, for, as I have stated above, there are actually more pupils than the normal seating capacity will care for ; the section of the town which feeds the Franklin School is growing very rapidly, and lastly there are at present practically only eight grades in this building. Because of the crowded conditions at the Lincoln School a few ninth graders were transferred to the Franklin School, where we have a comparatively small eighth grade.

A change in the system would help the Greenwood School, for there we have nine grades and only eight rooms available. By dropping the ninth grade and having eight grades for the Grammar School course, we would have enough rooms to take care of the children by giving each grade a room.

EIGHT GRADES

The entrance age limit has been raised during the past two years. A child now must be five years old by the April first next preceding the opening of a school year. By the time school

opens, therefore, he will be about five and one-half years old, which is about six months older than was the case before the change was made. A child entering later than five is naturally more mature and better able to comprehend the work in hand in the school room, and, consequently, there should be fewer cases of retardation in the lower grades. I have found that many cases of non-promotion are due to the fact that children are immature and cannot thoroughly understand the work.

At present we have nine grades in our system. In the ninth grade latin is studied throughout the year, and algebra is taken for one-half of the year. Now, if the system should be changed, these two subjects would naturally fall upon the freshmen work in the High School. A part of the ninth grade is also spent in review. There are also some parts of the different subjects that might as well be omitted, for they are of little use, and are scarcely ever, if ever, called for. The pupil has enough other material to work with if the matter should ever be called up to study the matter out in a few minutes. There is no particular benefit gained by loading down a child with a lot of useless material. This matter of changing has been discussed at our principals' meetings, and the principals are practically unanimous in preferring the change. A child under the proposed scheme would finish his school course at about the same age as at present, but he would spend one year less in the school-room. He would not enter as early, but he would be better fitted physically and mentally when he did enter, and would make as good progress, if not better, through the grades. Again, a change would tend to lessen the congestion in some of our Grammar Schools. The Greenwood School would then have a room for each grade; there would be an available room in the Lincoln School, which we shall probably need very soon; but the Franklin School, as explained elsewhere in this report, would receive no relief. We would have an extra room at the Warren School also for use.

We would receive no relief at all during the coming school year, for it will take at least a year to work out the reconstruction, but we would have some relief for the school year of 1914-15. If the town should see fit to erect a new High School building, the

cess of growth, and the schooling is one, therefore, among other factors. Let the child escape from us teachers a reasonable amount of time during those years, and I believe we should get just as good results at an earlier age."

HIGH SCHOOL

I commend to your consideration the report of the Principal of the High School, Mr. C. H. Howe, particularly to his exposition of suggested additions to the course of study which are needed to bring our High School up to a point where it will more nearly reach the requirements of to-day. The plea for an emergency room also needs careful consideration. At present there is absolutely no place to take care of students who are suddenly taken ill except in the corridors, cloak-room, or basement. Sometime ago a girl was taken ill in school and had to wait for some time in a cloak-room, with no chance to recline, but was compelled to sit in an uncomfortable chair while a conveyance was summoned to take her to her home. The room was filled with the outside wraps of students, and was not a fit place in which to keep a sick person.

A word along the line of efficiency of the school may be in order. About thirty-five per cent. of the graduates of 1912 entered higher schools of learning. This is a particularly large percentage, and should be a source of gratification to the people. There were thirty-five graduates from the commercial department; of these, twenty-seven, or seventy-seven per cent., secured positions almost immediately. Of the others, five are at home, one is married, and one is acting as assistant clerk at the high school while taking extra work.

Some other interesting notes in regard to the High School will be found under the heading of "Need of a New High School Building."

I have heard some comments on the extremely high cost per pupil in the High School. Some estimates have gone even to \$100 per pupil. According to the records of the School Committee the average cost per pupil of average membership for moneys actually spent during the school year of 1911-1912 was \$45.09.

COMMERCIAL DEPARTMENT

	1912	1911
Number of graduates in June	35	26
Number at home	5	4
Married	1	0
Number visiting	1	1
Post graduates	0	1
Number waiting for a vacancy	0	1
Number attending higher institutions	2	1
Number holding commercial positions	26	16

NEED OF A NEW HIGH SCHOOL BUILDING

The conditions in the high school will be more aggravated next year than ever, although the total enrollment in the school this fall is about fifteen less than we had figured. We opened the term with a two session plan, but we found that we could shift back to the old plan of a single session. The double session was not fully satisfactory either to pupils, parents or school authorities. In spite of this I do not see how it is possible to avoid a double session for the next school year; that is, the upper classes will probably meet in the morning and the freshmen class will meet in the afternoon. There are two reasons for this. In the first place we have been offering French, German and Chemistry only four periods per week, and we feel that we should offer these at least five times per week, to meet the requirements of the New England College Entrance Board, and the School Committee has so voted. This will mean the addition of about fourteen extra recitations and an additional teacher. Now we have absolutely no place for another teacher without using a coat room, and of course that is out of the question, as we do not have sufficient room now for wraps. There are twenty-two vacant periods of which five are due to music and drill and nine to Room 4, which is still unsatisfactory as a recitation room for a class of any size, although an attempt was made last summer to remedy the defect of ventilation.

Last June 128 graduated from the ninth grades. Of the 128 promoted one moved away from town, 121 entered high school, and the other six went to work; that is about 95 per cent of those who finished the grammar school course entered high school. The present senior class numbers 67 and the present ninth grade has 172 in December. Not all of these will finish the course, but the number who will drop out will be small. Even if we make a liberal allowance for this, and the percentage of those who enter high school from the graduating class is lowered to eighty-five, which is an extremely low estimate for Wakefield, we shall then have between 135 and 140, as the principal part of the freshman class. Besides those who enter from the grammar schools we shall have some freshmen who have failed to pass, and also those who move into town and therefore enter from other schools; adding these, who will number approximately fifteen, we shall have a freshman class next fall of from 150-155. If all of the seniors graduate and about 145 enter, the membership is bound to increase; but not by the difference between 135 and 67, for there will be a few from the other classes who will leave school.

Now the additional recitations needed for the extra periods per week for the French, German and Chemistry, and the increase in the membership will make a double session necessary, the increase in the number of recitations alone will be enough to do this.

The mortality in all high schools is much larger than it should be. There has been much printed by the press trying to make out that the high school is a total failure. Anyone reading the comments of men who have been in school work for years, and who have followed up their graduates will find this statement entirely false. No one affirms that the high school is doing all it should do for the boys and girls of Wakefield. The course of study should be revised, and new subjects should be added. Among the changes or additions suggested are the following: Drawing should be given four times per week for those who are headed towards technical schools of different kinds; Spanish might be a valuable asset, particularly to those in the commercial course; Domestic Art should be added for those girls particularly

who do not intend to enter college or higher institutions; and manual training for the boy. I call your attention to that part of Principal Howe's report, which deals with these last two subjects.

While about 35 per cent of the senior class of 1912 entered higher institutions of learning, and about 80 per cent of the commercial class secured positions, something should be offered which would appeal to the others. Some subjects are distasteful to the students and appear to them to have no direct bearing upon anything which they intend to do after leaving school. I do not advocate giving up all cultural for the vocational, but I do believe in a judicious mixing of the two. We cannot give any above mentioned courses with the present conditions in the high school for we have absolutely no facilities for them.

As I have mentioned under another heading in this report, at least three of the large grammar schools are over crowded, one school having single sessions for the first and second grades. Something must be done to relieve these conditions. It would be a very expensive proposition to build additions to these three buildings. A new high school building seems to be the most economical thing for the town. We need a new building at present, and one will have to be built in the near future. If one is built soon the old building would be used to take care of the grammar grades and thus relieve the town of the expense of building additions to the grammar schools for a few years at the least. A new high school building would solve the problems that we have in the administration of our high school affairs and would leave the old building available for a new grammar school. By changing from nine to eight grades in addition, it appears to me that the problem of housing the pupils of the town will be adequately provided for, with the exception of the Franklin school, and large expenses put off for some time.

TEACHERS' SALARIES

Last spring the Teachers' Association presented a petition to the Committee to have their salaries increased. The School Committee recommended an increase of \$50.00 for each grade

teacher to take effect in September, 1912. The Town Finance Committee recommended that an increase of \$50.00 be granted to take effect April 1, 1912, and a further increase of \$50.00 to take effect January 1, 1913. The town voted to grant the recommendation of the Finance Committee and appropriated an additional sum to the amount already voted for the School Department sufficient to take care of the increase for 1912. The School Committee was very willing to adopt the expression of the town meeting and has voted the increases. By voting these increases the Committee has raised the maximum salary for grade teachers to \$650, and has made no distinction of eighth and ninth grade teachers.

This vote as an expression of the desire of the town did not effect the principals, special teachers, nor high school teachers. Of the three male principals in the grammar schools one receives \$1200, one \$1100, and one \$1000. All these men are married and have families to support. It seems to me that the arguments put forth by the grade teachers hold equally true for the principals and high school teachers, and that in all justice to them, they should also receive an increase in salary. The arguments on the cost of living and other things need not be entered into here. Other towns surrounding us have raised the salaries of all their teachers, and when we compare our maximum salary for high school of only \$750, we see that it is too small. I feel that the salaries of the principals, high school teachers, and special teachers should be increased.

During the summer the janitors petitioned for an increase in their salaries. As there was not enough money available the Committee did not see their way clear to grant the petition at that time, but they did vote an increase to take effect January 1, 1913.

SPECIAL TEACHERS

In my last annual report I spoke of special work by special teachers. We tried this particularly in the Lincoln School with very satisfactory results. Several pupils who would not have been promoted were enabled to catch up with their classes. Some

foreigners who were not illiterate as far as their own language was concerned, but who knew none or very little English were taught the language quicker than would be possible in a regular grade-room, and therefore were able to forge ahead more rapidly. One boy went from the first to the fifth grade within a year. It would be of decided benefit to the school system if we might have some arrangement like this for all the large buildings.

Under the heading of Crowded Conditions I have spoken of the value of ungraded rooms. What I said about the value of such a room for the Franklin School holds true for all of the larger buildings. If we had such rooms for all the grammar schools we would have fewer children who are not promoted, and we would also have a chance to take care of some who through ability might be able to overtake a grade ahead. Again, in such a room we could take care of the mentally deficient and sub-normal children. Here they could be given those things which they could do and would make more progress. The other children in the grades would be able to forge ahead faster because they would not be held back by the very slow pupils. The public school system, as a rule, is not elastic enough to take care of all kinds of children. Too many times they are all put into a grade, the wheel of time is given a twirl for one year, and then some expect that every child will come out exactly as well fit and qualified as every other. We should do something to make our system more elastic, and I feel that, by having an ungraded room, and a teacher to go about for individual help, we would take a long step forward.

NEED OF BETTER MANUAL TRAINING QUARTERS

At the present time our manual training work is carried on in the basement of the Lincoln School. This room is not suitable for this work, for in the first place the only means of ventilating the room is by the door and window boards, and consequently in cold weather there is practically no ventilation. The method of heating is also inadequate, with the result that often in cold weather it is practically impossible to do much work. The lighting is not good, for the windows are small, near the ground, and covered with wire netting as a protection to the glass. At pres-

ent we have no better available place, in fact no other place that could be used. A new High School building would solve this problem, for one of the rooms in the present High School building could be altered to fit our needs nicely and at comparatively low cost.

PRINCIPALS' CONFERENCES

We have continued the monthly conferences with the principals which we inaugurated last year. I have found them to be of great value to me as well as to the teachers. As a result of these meetings our work is becoming more unified, as the same general scheme is running through each building. The chance to exchange ideas and compare notes is working much to the advantage of our school system. I find the assistance of the principals of value in preparing new blanks or changing old to better suit our immediate needs, and I also find their advice valuable along the ordinary lines of school work. I feel that it is well worth the while to continue with these monthly conferences.

SUMMER SCHOOL

In a school system of between 2000 and 2500 pupils there are always some who for various reasons fall or stumble by the wayside. There are others, who with extra work, might well get ahead faster than their class-mates. There should be some way provided for these classes of children. One thing that would help, for it always has where tried, is a summer session. This would take care of those who fail in one subject or more in both the high and elementary schools, and would save time for these children. Those pupils who are promoted on trial would have a chance to catch up and remove any conditions. In such sessions more individual assisting would be given than is possible during the regular school year, for the enrollment of the classes would not be large. A single session each day would be sufficient, and the expense of maintaining this summer school would not be large; and last, but not least, our large and valuable school plant would not be idle all summer during the long vacation.

SCHOOL SAVINGS BANKS

For some time a system of stamp saving has been in vogue in the schools of Wakefield. The number using the system of course varies with the different schools, probably influenced by the interest the principal and teachers take in the scheme. Deposits have run as high as \$40 per week, but lately they have dwindled down to about \$12 per week. There are some things in favor of the stamp system but there are other things against it. If a card is lost, the owner of the card has no chance to recover the value expressed by the stamps on the card. The stamps are received at the Savings Bank as deposits, and a bank book is issued for the same, but not enough pupils are taking advantage of this part of the scheme.

It has seemed wise to try out the School Savings Bank idea. This is authorized by Chapter 211 of the Acts of 1911 of the State of Massachusetts under the heading "An Act to Authorize Savings Banks to receive Deposits from School Children," a part which reads as follows: "In order to encourage saving among the children in the schools of this Commonwealth, the corporation may, with the written consent of and under regulations approved by the commissioner and, in the case of public schools by the commissioner and the School Committee in the city or town in which the school is situated, arrange for the collection of savings from the school children by the principal or teachers of such schools or by collectors. All moneys so collected shall be entered on an individual deposit card, furnished by the corporation, but the total collections received by the corporation from any one principal or teacher may be entered in the name of such principal or teacher as trustee. When, however, the amount deposited by any one pupil and credited on the deposit card equals the minimum amount upon which interest is allowed, the corporation shall issue a pass-book to such pupil and thereafter, when the amount deposited by the pupil and credited on the deposit card equals the sum of one dollar, it shall be transferred to the deposit book by the corporation. The principal, teacher or person authorized by the corporation to make collections from the school children shall be deemed to

be the agent of the corporation, and the corporation shall be liable to the pupil for all deposits made with such principal, teacher or other person and entered upon the deposit card, the same as if the deposit were made by the pupil directly with the corporation." In the above quotation the word "corporation" refers to a savings bank.

The scheme will be tried out in the Greenwood School first, and if it proves better than the stamp savings it will undoubtedly be used throughout the town. I think one can see the salient features and good points of the savings bank idea in contrast with the stamp savings without more detailed explanation.

PARENTS' ASSOCIATIONS

The only Parents' Association which is in a flourishing condition is the Greenwood Association. There has been one connected with the Lincoln School and one with the Hurd School, but they have apparently died out. Principal Vardon makes the following report on the Greenwood Association: "The Greenwood Parents' Association" is continuing to be a very live body and an important factor in local school matters.

Too much praise cannot be given to the members for their aid on many occasions. Without them the exhibition of last September would have been an impossibility. This body arranged the exhibits, provided judges and printing, and took all the vast detail out of the hands of the teachers. All must admit that the exhibition was a success.

In addition to the above the association is more or less responsible for the following events:

January, 1912, Reception to Superintendent and teachers.

April, 1912, Talk by Miss Mary Ronan, Revere, on "Home Gardens."

May, 10, 1912, Illustrated lecture by E. H. Forbush, State Ornithologist of Massachusetts, on "What the Birds Do for Us; What We can Do for the Birds."

June 5, Garden talk and illustrated lecture, "Yellowstone Park."

Nov. 15, 1912, Illustrated talk, by Miss Isabel Flint, on "Scandinavia."

HOME GARDENS

The Greenwood School is the only one in the town which is doing anything especially along the lines of home gardens. To give an idea of what the principal is doing I shall give an excerpt from his report: "The home garden movement showed no sign of decrease last season. About one hundred and twenty purchased seeds and fifty more obtained those presented by the government. There was a decided improvement in the gardens, and an increase in the number who carried the work to a successful issue. Fifty-eight gardens were worthy of photographs and forty-eight of the views were converted into lantern slides for use at the exhibition." This exhibition was given early in the fall, and was entirely commendable.

It may be of interest to the people of Wakefield, and particularly of the Greenwood section, to know that the School Garden Association, with headquarters in Boston, bought several photographs of the home gardens of Greenwood pupils. Three of these were published in a pamphlet issued this fall by this Association. A picture of the garden of Stanley and Catherine Goodwin, Kendrick Road, is used as the decoration of the front page. The other two pictures used are of the gardens of Leon Blanchard, Harrison Avenue, on page 2, and Ada Dadley, Forest Street, on page 8.

FINANCIAL RECORDS

We have made a change in the manner of keeping our financial records. Formerly they were kept under six headings; viz., general or salaries, contingent, supplies, fuel, evening school, and receipts. We still have to keep a ledger with these headings to correspond with the appropriations by the town, but we have added a journal-ledger, which enables us to see at a glance under what departments the school appropriations are being spent. This form is recommended and used by the statistical department of the National Commission of Education at Washington and by the State Board of Education of Massachusetts. A summary of the expenses of the school department, drawn from the journal-ledger, is given under appendix D.

The main headings under the new form are as follows: Expenses of General Control (overhead expenses); Expenses of Instruction; Expenses of Operating School Plant; Expenses of Maintaining School Plant; Expenses of Auxiliary Agencies; Miscellaneous Expenses; Outlays (Capital Acquisition and Construction); Other Payments. Under General Expenses is given salaries of agents of School Committee, clerks and other expenses, which are printing, telephones, stationery, and school census; also superintendent of schools and educational control, including enforcement of compulsory educational laws. Under Expenses of instruction are found salaries of supervisors; principals of high and elementary; teachers, high and elementary; text books, high and elementary; stationery, supplies and other expenses of instruction, high and elementary. Under Expenses of Operating School Plant are the following: Wages of janitors and other employees, fuel and miscellaneous for high and elementary schools. Under Expenses of Maintaining School Plant is maintenance, which includes repairs and replacement of equipment for both high and elementary. Expenses of Auxiliary Agencies include libraries, promotion of health and transportation of pupils. Miscellaneous Expenses include payments of tuition to other schools, pensions, rent and sundries. The Outlay account takes care of new grounds and buildings, alterations of old buildings (not repairs), and new equipment, except replacements.

EVENING SCHOOLS

While we had a large evening school last year, the total enrollment for the fall term of this year is much larger. The total enrollment for the present term is 220. Because of the increase, we found it necessary to add another teacher to the corps. A few students who were listed as illiterates last year came to the office took and passed the tests for literacy. While the evening school is doing good work, especially for illiterates, there are some who do not take full advantage of their opportunities, and there are some others who feel that the mere fact that they attend the evening school entitles them to a certificate of literacy whether they do any work or not.

SEWING CLASS

There were thirty-five members of the sewing class during the year 1911-1912. The work was made as practical as possible, and the young ladies made many different garments which they used as soon as they were finished.

This year we are conducting this department under the provisions of Chapter 106 of the Acts of 1912, and have applied to the State Department for recognition as an approved state-aided practical arts course. I see no reason why we should not receive this recognition.

MILLINERY CLASS

A class in millinery was formed during the winter, and immediately become very popular. The course consisted of selecting material for and trimming hats. This year the work will be advanced as fast as the pupils can make progress.

MECHANICAL DRAWING

During the fall there was a strong plea by a few for a class in mechanical drawing. The number in the class has dropped gradually until now it is too small to continue at the present cost. The young men present are extremely interested, and are doing real, not play, work. Some are using the draftings for pattern making and castings, and I understand one has been at work upon a patent for some part of an automobile, and is doing his drafting in the class in mechanical drawing. I also understand that a year ago this young man knew practically nothing about mechanical drawing.

At the end of the evening school sessions those who were members of the evening school proper were invited to attend an entertainment and social provided by the Italian-American Club, a group of promising young Italians. Refreshments were served after speaking by the President of the Club and members of the School Committee.

EXHIBITION OF SEWING AND DRAWING

The sewing, millinery, and drawing departments combined for an exhibition after the course was finished. The display of hats,

neatly and tastily trimmed, and garments from shirt waists to complete dresses, some simple, some more elaborate in construction, was a revelation to the visitors. Drawings had a place on one side of the room. The exhibition was a complete success, and proved to the visitors the value of these departments in the evening school.

Comparison of registration and attendance at evening school for last year and for the past fall term :

Classes	Total Registration		Average Membership		Average Attendance	
	Oct.-Apr. 1911-1912	Oct.-Dec. 1912	Oct.-Apr. 1911-1912	Oct.-Dec. 1912	Oct.-Apr. 1911-1912	Oct.-Dec. 1912
Illiterate	94	103	64.17	84.80	54.38	78
Literate	53	55	30.15	46.55	23.45	40
Sewing	36	35	26.07	32	21.67	28.4
Millinery	16	16	15.11	14	13.11	14
Drawing	16	11	9.73	6	7.30	4.5
Totals	215	220	145.23	183.35	119.91	164.9

TRUANT OFFICER'S REPORT

Wakefield, Dec. 31, 1912.

WILLARD B. ATWELL, Supt.

DEAR SIR:—I herewith present my annual report as Truant Officer for the year ending Dec. 31, 1912 :

Number of cases investigated during the year, one hundred and twenty-four, divided as follows :

Negligence of parents	53
Truancy	24
Sickness	18
Want shoes, clothing	11
Miscellaneous	18
								124

One prosecution has been made during the year, the case being placed on file.

Respectfully submitted,

H. A. SIMONDS, Truant Officer.

CONCLUSION

We wish to thank the Woman's Relief Corps for the beautiful silk flags which they gave to some of the schools.

I feel that the past year has been prosperous, and the schools have made a distinct step forward. For this I am indebted to the hearty assistance from the principals, and the loyal support and co-operation of the Committee and teachers. I wish to take this opportunity to thank all who have helped to place our schools upon a higher plane.

Respectfully submitted,

WILLARD B. ATWELL.

High School Principal's Report

Mr. W. B. ATWELL,

Superintendent of Schools.

DEAR SIR :—Herewith is submitted my eighteenth annual report, and the twentieth in the series of High School Principals' reports.

TEACHERS

Since my last report more than the usual number of changes in the teaching corps has occurred. In June, Mr. Crossett resigned as head of the Commercial department to accept the submastership of the High School in Dedham. Miss M. Hannah Wait also, after a long and valuable service, resigned for personal reasons. The Science department, owing to the sad death of Mr. L. N. Brooks, was without a head for a portion of the year. Although Mr. Brooks had been in the service of Wakefield for a few months only, he had made a place for himself in the hearts of his pupils and of those who had the privilege of his acquaintance. His unfailing good nature, his simplicity of character, and his straight forwardness left a deep impress on the school.

These three vacancies and a new position made necessary by the requirements of the curriculum were filled as follows: Mr. John B. Sawyer, a graduate of Bates College and successful principal of Groveton (N. H.) High School, as submaster and head of the Commercial department; Miss Ethelyn M. Pattee, a graduate of Wellesley College and assistant in the North Stratford (N. H.) High School, as teacher of Elocution and History; Mr. Herbert Palmer, a graduate of the Massachusetts Institute of Technology and assistant in the department of Physics in the same institution, as teacher of Physics and Chemistry, and Miss Violet Peterson, a graduate of Mt. Holyoke College and teacher in the Chatham (Mass.) High School, as teacher of History.

SIZE OF THE SCHOOL

Although the school this year did not come up to the figure that, at the time of the writing of the last report, it seemed possible that it might, still up to the present time a larger number has been enrolled since the opening of school in September than ever before; viz., four hundred and five, distributed as follows:

	Boys	Girls	Total
First Year Class	68	68	136
Second Year Class	57	61	118
Junior Class	40	43	83
Senior Class	22	46	68
	<hr/>	<hr/>	<hr/>
	187	218	405

Again, as last year, the proportion of boys is noticeably large. The proportion could be made still larger, I believe, if the curriculum could be broadened so as to make a wider appeal.

For the year beginning next September I cannot see how we can fail to have a record breaking entering class, the enrollment of the ninth grade being at the present one hundred and seventy-nine. This fact taken in connection with the fact that the senior class is not an especially large one, seems to indicate a materially larger school than this year, perhaps four hundred and thirty or forty. If the prediction becomes a fact, I can see no way to administer the school except by dividing it into two parts, one to

come to school in the forenoon and one for the afternoon. I have no doubt, whatever, that such an arrangement will prove unsatisfactory. Our experience of last fall, when for a short time the freshman class came to school at ten o'clock and remained till three o'clock, indicates it.

TARDINESS

I would like to refer once more to a subject considered by me some two or three years ago, viz., tardiness. The record is far from satisfactory. On inquiry, however, I find that the difficulty is not confined to Wakefield. It is widespread. The investigation which I have been able to make, of the reasons for the tardiness in our school, shows me that there are cases of reasonable and therefore excusable tardiness, but that in the great majority of cases the reasons assigned are trivial. That the value of punctuality is not rated high enough, either by the pupil or his home, is apparent. The school cannot go much farther in its attempts to suppress this school evil, for I find that some pupils prefer to be absent rather than tardy. and so turn back home when they find they are going to be tardy. To show the estimate that is put by the school authorities upon tardiness, allow me to quote for the sake of the delinquents from the Rules and Regulations of the School Committee :

“Attendance must be regular and punctual. Pupils not in their rooms at the time of the last bell shall be marked tardy, and any pupil who is frequently tardy without adequate excuse shall be suitably warned and reported to parent or guardian, and, if the evil is not corrected, may be suspended from school until the parent or guardian shall give satisfactory assurance to the Superintendent that the irregularity will be corrected.”

In spite of all the efforts the schools may make, the evil of unnecessary tardiness will not be eradicated till the home and the school put the same estimate upon it.

EMERGENCY ROOM

There is need of an emergency room. Occasions are constantly arising where it is desirable for a pupil to lie down, e. g. in the case of a pupil taken suddenly faint or sick. Such a room, with

a couch and a supply of simple remedies, would be used more than the majority of people have any idea of. In a city near Boston a High School of 900 pupils, I am told by the Superintendent, uses an emergency room on the average once a day, and as many as six have been known to use it in a single day, both boys and girls. The ordinary factory has better accommodations for its help in the case of sudden illness than your High School building. The dressing rooms, corridors, stairways, and toilet rooms in the basements are the only available places now that can be used for sick pupils. Fainting girls have been revived in all these places.

COURSE OF STUDY

The course of study needs revision. It is several years now since the present course was adopted. Authorities say that every five years is none too often to revise a course.

In the discussions with which the public prints are filled, the criticism is common that the schools do not meet the demands of every-day life, that they do not touch the actual life of the pupil. The friendly critics of the High School occupy similar ground. The emphasis is being transferred from the subjects taught in school, to the pupils. As one says, "Instead of the subject being central the pupils are made central. What is necessary in order that they may conduct their lives with the greatest efficiency and satisfaction is being considered. The individual's health, shelter and clothing, social relations and conduct, and enjoyments become the focal points of the work."

A new valuation of High School studies is being established, and some day, perhaps not far distant, Manual Training, Physical Education, Agriculture, and Practical Arts for Girls will be deemed quite as important as the traditional subjects of the course. In order to make clear how such subjects would touch the actual lives of the pupils, may I be allowed to describe somewhat in detail the course in Practical Arts for Girls given at the Horace Mann High School, Teachers College, New York City. Much of the phraseology is that of Miss Charlotte Farnsworth, preceptress of the above school. The course is a senior elective course of two

periods weekly throughout the year. The subject is treated under five divisions :

1. ECONOMICS OF CLOTHING.
2. HOME SANITATION.
3. HOUSE FURNISHING.
4. SOCIAL RELATIONS AND CONDUCT.
5. RECREATION AND ENJOYMENT.

1. Economics of Clothing.—The general topic is “How to Clothe Ourselves.” A complete wardrobe is planned and the different articles of clothing proportioned, considering also the cost of each and the time it might be reasonably expected to wear.

The study of textiles is taken up from the standpoint of the shopper only. Each girl writes for samples of different kinds of material. These are examined carefully as to quality, width, and price per yard, then compared with standards of good quality that all may become familiar with the appearance, the feeling and the name of the materials. The class is taken on a shopping trip where attention is called to simple, good styles of clothing and materials.

2. Home Sanitation.—The second series of lessons is devoted to home sanitation and management, home nursing, and emergency work. The first question discussed is how to select a home, attention being drawn to the location of the house with reference to water, drainage, and accessibility. Special attention is given to the structure of the cellar and its importance in governing the quality of air. The planning and furnishing of the kitchen and pantry, with a comparison of various floor coverings and wall finishes is also considered. Next are studied the planning and keeping of the family budget, correctly proportioning expenditures to a given income. The last topic discussed is “What Everybody should Know in Home Nursing and Giving First Aid to the Injured.” Among the topics used are: furnishing a sick room; the making of a bed and care of patient in bed; the staunching of bleeding with practice in applying the simple and most used bandages; how to revive a person in case of fainting, drowning, or asphyxiation; treatment and care of burns, poisoning, stings, and bites.

3. House Furnishing.—This section of the course aims to open the eyes of students to the possibilities of good or bad taste in the home. "Choosing a Color Scheme" is first considered, followed by a study of the treatment of the walls of a room, including woodwork, wall coverings, portieres, and curtains. "Floors and Floor Coverings"; "Furniture: Its Proportions and Appropriate Ornamentation"; "Pictures and Casts: their Choice and Arrangement" are further topics to be studied. As practical work, the girls are required to draw out the floor plans of their own rooms, placing the door and windows and chief articles of furniture; then the side walls showing arrangement and spacing of furniture and pictures.

4. Social Relations and Conduct.—The aim of this division is to discover how to increase the effectiveness and pleasure, and reduce friction when individuals meet. These ends are sought by making the girl more aware of herself as a social factor, showing the meaning of, and how to attain, the best personal appearance, health, and manners, and how to exercise this personality in the home, the school, and society. The topic, "Courtesies and Customs of the Table" is considered a laboratory exercise, conducted in a model dining-room, the different members of the class taking turns in being hostess, guests, and waitresses.

Such a course, as thus briefly outlined, and supplemented by courses in cooking and laundry work, could hardly be called theoretical, and would cause those electing them to realize that school and everyday life are not very far apart.

PUBLIC SPEAKING

I had hoped to submit some considerations on the subject of public speaking, but it will be possible to present only one or two points for your consideration.

The claims of public speaking are very generally recognized, but very rarely satisfied. The French call us Americans a nation of mumblers, and we recognize the truth of the charge, but do little or nothing to remedy our defect. One has only to listen to the ordinary recitation to discover how the American voice has been neglected.

For more than twenty years "rhetoricals" have been a part of the Friday programme of every Senior. This is a good beginning, but the work ought to be extended. The subject is a very practical one. Almost every high school student will find himself, sooner or later, desiring to address himself to his fellows with persuasiveness. If he has been thoroughly trained, he will be heard.

VOCATIONAL TRAINING

It will be interesting to know that there are two young men now in school who are preparing to enter one of the half time vocational schools in Boston, in which they will go to school a week and work a week, thus alternating throughout the year. This suggests the direction of the current. Will Wakefield ever support such a half time school? Will her boys always be obliged to leave home to get such an education as they desire?

HIGH SCHOOL STATISTICS

	1908	1909	1910	Dec. 1910	Dec. 1911	Dec. 1912

*Estimated.

The dark faced figures of the table indicate the membership of the present Senior class throughout the course.

MISCELLANEOUS

The following graduates of the school entered higher institutions of learning last fall :

- Everett A. Carleton, Rhode Island State College.
- Marjorie Cartwright, Art School of the Museum of Fine Arts.
- Alma Eaton, Mt. Holyoke College.
- Adeline F. Hall, Salem Normal School.
- Esther E. Nelson, “ “ “
- Francis D. O’Connell, Boston University.
- Elizabeth P. Payne, Salem Normal School.
- Katharine N. Whitten, Wellesley College.
- George H. Abercrombie, Worcester Polytechnic Institute.
- Mary Bridge, Salem Normal School.
- Raymond G. Brown, Mass. Institute of Technology.
- Theodore F. Cram, New Hampshire State College.
- Edward S. Duffill, Mass. Agricultural College.
- C. Wesson Hawes, “ Institute of Technology.
- Carl H. Holmberg, “ “ “ “
- Philip W. Morrison, Jr., Rhode Island State College.
- Lillian M. Oram, Salem Normal School.
- Jessie L. Pease, Waltham Training School for Nurses.
- Russel B. Perkins, Dartmouth College.
- Helen Randall, Simmons College.
- Walter J. Wolfe, Mass. Institute of Technology.

The school is in receipt of the following gifts :

From the class of 1914, a carbon entitled “Spring,” by Mauve.

From the class of 1915, a carbon entitled “Autumn Gold,” by Inness.

From the Boys’ Debating Society, two silk flags and standard.

The Debater, the school paper, has been revived by the Senior class, and in December a very creditable issue came from the press.

In April, with the advice of Mr. Wilson, Music Supervisor, a pianola was purchased and also a membership in a musical library. The instrument is popular with the pupils, and is in great demand after the close of school.

Roland P. Payne, 1910, a member of the Junior class of the Mass. Agricultural College, was the recipient last June of the General Improvement Prize.

The Dartmouth College catalogue for this year contains among the list of faculty members the name of Walter A. Phelps, 1908, Instructor in Physics.

Respectfully submitted,

CHARLES H. HOWE.

GRADUATION EXERCISES, WAKEFIELD HIGH SCHOOL
CLASS OF 1912

Town Hall, Thursday, June 20 th, 8 o'clock

PROGRAMME

Overture and March

Chorus—The Glorious Morn (Cavalleria Rusticana) Mascagni

Oration (Salutary rank)—Shall we Separate?

A Supposed Speech of the Year 1812

GEORGE H. ABERCROMBIE

Declamation—The New American Farmer Casson

FRANCIS D. O'CONNELL

Semi-Chorus—Come and Dance Lemaire

Honor Part

*CARL H. HOLMBERG

Poem—The Trinity of Labor

MARJORIE CARTWRIGHT

Semi-Chorus—Now is the Happy Time (Spring
Song) Hosmer

Recitation—The Lady Slipper Orchid Bryce

ADELINE F. HALL

Semi-Chorus—Barcarolle Offenbach

Recitation—The Stone Cutter Gilbert Parker

DOROTHY W. CATE

Solo and Chorus—Largo Handel

Essay and Valedictory—The Eighteenth Century Woman

ESTHER E. NELSON

Presentation of Diplomas—Mr. William B. Atwell

Superintendent of Schools

Class Song—Princeton Melody

Orchestra

*Excused at his request

Motto :—Not to Try is to Fail

CLASS SONG

MARJORIE CARTWRIGHT

Oh, pale moon-gleam and starlit sea
 Ye zephyrs delicate,
 Receive the pagan heart of me,
 Intense, that cannot wait
 The vague, the Future tortured hours
 Of time-revolving Fate,—
 Oh, draw aside the veil that lowers,
 The shadows dissipate !

Oh, time, and tide, and winged wind
 All the wide world's expanse
 That calls the soul undisciplined
 To youth's blithe heedless dance,
 No past nor present do I claim
 Of thee to countenance,—
 But give, oblivion or fame,
 To-morrow's fitful chance !

Report of School Physician

During the last half of the school year, 1911-12, an effort was made to put vaccination on a definite basis. To that end all the children in the primary and grammar grades who did not have certificates of successful vaccination on file, were examined for scars. If one was found a certificate was issued, if not the parents were notified that the child had not been properly vaccinated. This necessitated the examination of over one thousand children and the issuing of proper certificates. It seemed as though this once done the records might easily be kept up-to-date, but the number of children entering school from other towns, and those returning after illness, etc., makes this item one of continual vigilance. This work has been kept up this year, and we now have practically complete records of vaccination of all children below the High School. The status of vaccination is somewhat uncertain on account of the attitude of a small number of parents who are opposed to having their children vaccinated. The law and the regulations of the Board of Health specifically state that children must be vaccinated before entering school, but make exception of those children who are certified by a physician as not "fit subjects for vaccination" with a further proviso that the "reason for their unfitness must be specified." It is everywhere recognized that it is unwise from a medical standpoint to vaccinate children who are ill, particularly those who have certain chronic diseases or those who have recently recovered from certain acute disorders. It is plainly the intent of the law that these children are the ones to be relieved from vaccination, and, in as much as most of these conditions are temporary, our ruling has been that such certificates are valid for a limited time only. But a few persons, opposed to vaccination under any conditions, have evaded the law by securing from physicians certificates of ill health for their children, some of them frankly confessing that their children were well, but that they did not propose to have them vaccinated. This town has had two epidemics of small pox in recent years. That it did not make greater inroads among the

scholars is because most parents had complied with the law and their children were vaccinated. If some few by evading the law succeed in nursing the menace of a future epidemic, it can not be charged to the administration of the Board of Health or school authorities.

As in previous years, most of the work of School Physician has been directed toward the control of contagious diseases in the schools. The School Physician has been notified of all contagious diseases reported if there are members of the family attending school. In the severe diseases, particularly scarlet fever and diphtheria, the room which the child attended has been visited, other children examined, and, if there seemed to be danger of infection, fumigation has been recommended. At Greenwood, this fall, the entire school was examined for scarlet fever, and the detection of a case in the stage of desquamation very likely saved an epidemic. Cases are continually being referred to me for diagnosis as to whether they should be excluded. In numerous instances children, known to be ill, have been visited at their homes to determine whether the illness was contagious. The School Physician does not give any advice as to treatment, or any prescriptions for medicine, or take any professional care whatever of cases of illness discovered in the schools. I have, however, vaccinated a few children whose parents neglected to do it, having in each case the consent of the parent in writing. It is a question, however, whether some means should not be found for the treatment at school of the contagious and parasitic skin diseases. In many cases a few days of well directed treatment would effect a cure, while such cases, left to the care of the parents, are often weeks in recovering. A list of the visits to schools since September 23d is as follows :

September 23. Hamilton, Warren, Prospect, Montrose, Woodville

September 25. Lincoln, Franklin, High.

“ 26. Greenwood.

“ 30. Hamilton, Woodville, Greenwood, Prospect.

October 4. Hurd.

“ 7. Woodville, Greenwood, Prospect.

- October 8. Hamilton, Warren.
 " 9. Lincoln.
 " 11. Greenwood, Woodville.
 " 15. Greenwood, Woodville, Montrose.
 " 17. Lincoln.
 " 18. Lincoln, Hamilton, Warren, Franklin.
 " 21. Hurd, Lincoln.
 " 22. Greenwood.
 " 28. Hurd, Prospect, Warren, Hamilton, Franklin.
 " 29. Greenwood, Woodville.
 " 31. Hamilton, Warren, Lincoln.
- November 1. Montrose.
 " 4. Hamilton, Warren, Lincoln.
 " 5. Hamilton, Franklin, Hurd, Lincoln.
 " 8. Warren, Lincoln.
 " 11. Lincoln.
 " 12. Lincoln.
 " 13. Lincoln.
 " 15. Lincoln, Montrose.
 " 18. Hamilton, Warren, Prospect, Greenwood, Woodville, Franklin.
- November 19. Lincoln, Hurd.
- December 2. Lincoln, Hurd, Prospect, Warren.
 " 4. Hamilton, Lincoln, Montrose, Woodville, Greenwood, Franklin.
- December 5. Lincoln.
 " 6. Lincoln.
 " 9. Lincoln, Hurd.
 " 10. Hamilton, Franklin.
 " 11. Hurd, Lincoln.
 " 13. Warren.
 " 16. Lincoln, Hurd, Montrose, Woodville, Prospect.
 " 18. Franklin, Hamilton, Warren, High, Greenwood.
- Total, ninety-five visits in twelve weeks of school.

In the calendar year 1912 eighty-one children were examined as required by law, prior to the issuance of age and schooling certificates. Numerous accidents have been attended

at the schools, and a general oversight of the sanitary and hygienic conditions has been exercised. Conferences are held with the principal and teacher in reference to pupils who seem in ill health or abnormal, and many notices have been sent to parents with reference to the physical condition of their children.

CHARLES E. MONTAGUE, M. D.

L. NOBLE BROOKS

Mr. L. Noble Brooks came to Wakefield in September, 1911, as head of the science department, and, although he had been in the service of Wakefield for a few months only, he had made a place for himself in the hearts of his pupils and of those who had the privilege of his acquaintance. His unfailing good nature, his simplicity of character, and his straightforwardness left a deep impress on the school.

Report of Library Trustees

TO THE CITIZENS OF WAKEFIELD :

The Trustees of the Beebe Town Library take pleasure in submitting to the citizens of the town a record of their endeavors to increase the efficiency of the departments entrusted to their care. The year 1912 has witnessed a number of additions and changes, the most important of which will be referred to in as brief a manner as possible.

A department for very young children was started in September by the addition of forty carefully selected books of nursery and kindergarten stories. These books are in circulation practically all of the time, a condition which emphasizes the extent to which they are appreciated.

Several books were also added in September for the benefit of the non-English speaking people, especially children. It was the aim to have them as elementary as possible and of an historical nature. It is to be hoped that these books will serve as a nucleus to a much larger collection in the future.

The demand for books seems to be increasingly more varied, especially on non-fiction subjects, and many additions during the year have been by request, a practice which the Trustees have endeavored to encourage.

During August a metal ceiling was put into the Library, which greatly improves its appearance. While these repairs were being made it was necessary to close the Library, but arrangements were made for returning books to the Reading Room Attendant during the regular Library hours, and fines were temporarily suspended.

Miss Ruth Gowen resigned Aug. 1, 1912, and Miss Emma L. Campbell was appointed Assistant Librarian. At the same time Mrs. Katherine Madden was appointed as an Attendant.

The circulation has now exceeded 54,000, as will be seen from the Librarian's report, and is the largest in the history of the Library.

The Trustees feel it their imperative duty to again call the attention of every citizen to the inadequateness of our Library quarters and the facilities for handling such a large circulation. Under present conditions it is necessary to constantly rearrange the books in order to make more room, a procedure which creates much confusion and means low efficiency. Many books are also not available, owing to storage on top of the book cases and in other parts of the building.

During the coming year it will be necessary to provide, if possible, new shelving in the delivery room. The practice of placing books within easy access and where patrons of the Library can make their own selection, is much appreciated, and it is the desire of the Trustees to extend this practice so far as the limited space permits.

The continued growth of the Greenwood branch emphasizes the appreciation of the people in that section of the town for the placing of the facilities of the Library within easy reach. Your Trustees believe that it is only a question of time when branches in other sections of the town, notably Montrose and Woodville, should be equipped with branch libraries.

Among other needs which the town must soon face are the morning opening of the Library, and sufficient assistance to the Librarian to enable her to take a more active part in the purchase of books and to keep in touch with the work and methods of other libraries. A constant attendant for the Reading Room is necessary to preserve order at all times and to eliminate some of the troublesome features of the past year, such as loss of magazines and abuse of the furniture.

These needs, as well as others mentioned in previous reports, require more money, and it is the opinion of your Trustees that the appropriation for the coming year should be increased so as to enable a gradual expansion of our Library and Reading Room. The receipts and expenditures of the past year are as follows :

LIBRARY

Appropriation	\$1,028 70
Income from dog tax	921 30
Income from trust funds	280 20
Income from fines, etc., including Branch	187 24
Balance unexpended, 1911	4 63

For the ensuing year the Trustees recommend for the Library the appropriation of \$2,050, including the dog tax, and for the Reading Room \$275.

The Board desires to testify to the faithfulness and efficiency of the Librarian and her Assistants, all of whom are heartily in accord with the work and upon whom much of the success of the Library depends. The interest of the Librarian is shown by membership in the Massachusetts Library Club and by frequent visits to the Massachusetts Library Commission, all of which have been extremely helpful and productive of many new ideas.

Respectfully submitted,

HERVEY J. SKINNER,

For the Trustees.

January 6, 1913.

THIRD ANNUAL REPORT

OF THE

Water and Sewerage Board

OF THE

TOWN OF WAKEFIELD

FOR THE

YEAR ENDING DECEMBER 31, 1912

Third Annual Report of the Water and Sewerage Board

The annual report of the Wakefield Water and Sewerage Board is herewith presented, including the tenth annual report of the Water Department and the thirteenth annual report of the Sewer Department.

The total receipts of the Water Plant for 1912	\$38,579 69
Ordinary expenditures	33,972 49
<hr/>	
Surplus	\$4,607 20
For use of Metropolitan water	3,060 51
<hr/>	
Net surplus	\$1,546 69

At the annual meeting the town appropriated \$15,000 for meters. One thousand four hundred and forty-seven meters have been purchased, the greater part of which have been installed.

Another appropriation will be required to purchase the remainder of the meters and complete the work of installation.

The town having decided to continue the use of Crystal Lake, we recommend that an appropriation be made for improving the lake and its tributaries.

The matter of driven wells being prominently in the minds of the people of the town, an appropriation, sufficient to thoroughly test that phase of the water situation, should be made.

			<hr/>	
Net expenditure			\$5,023 10	
Overdraft				\$23 10

In addition to the above construction work, 144 feet of 6-inch main was laid, late in the fall, in a part of Greenwood Avenue, where Mr. L. J. Gordon had built a house, not knowing that there was no water main in the street. This work was done with money advanced by Mr. Gordon, under an agreement that the same should be returned to him from the construction appropriation of 1913.

Respectfully submitted,

CHARLES A. DEAN,

JAMES H. KIMBALL,

THOMAS G. O'CONNELL,

Wakefield Water and Sewerage Board.

Report of Overseers of the Poor

The Overseers in presenting their annual report for the year just passed are pleased to state that they have carefully attended to their duties, and all applications carefully considered, and all worthy people have been provided for.

In looking over the buildings at the almshouse we found them in need of immediate repair, and these repairs were carefully attended to. The almshouse was wired and electric lights placed in every room and all the halls, and all oil lamps removed from house. All the buildings at the farm were painted with two coats of paint and incidental repairs made, so that the almshouse property to-day is in good condition, and the board wishes to extend an invitation to the public to inspect the property at any time.

All the repairs and painting were taken care of by their annual appropriation.

At the present time there are twelve inmates at the almshouse, seven male and five female, all of whom are aged and feeble and require constant attendance and medical assistance.

The board, through close application to their duties, have disposed of a number of cases that have been receiving aid for a considerable length of time.

HUGH CONNELL, Chairman,
WM. F. BOWMAN,
ALBERT D. CATE, Secretary.

INVENTORY, TAKEN DEC. 29, 1912

2 horses	\$ 500 00
19 cows	1,565 00

Board of Health

[illegible]

Auditors' Report

The Board of Auditors herewith present to the Town of Wakefield its report for the fiscal year ending Dec. 31, 1912.

From Jan. 1, 1912, to Dec. 31, 1912, 3,397 orders, amounting to \$285,907.14, have been drawn by the Board of Selectmen on the Town Treasurer. We have examined the vouchers for these payments and have verified the arithmetic of all bills coming before the Board of Selectmen for payment during the year.

We have verified the accounts of such departments as pay money into the Treasury, and have examined the books of the Collector of Taxes.

In submitting our report to the citizens of Wakefield there are several points to which we wish to draw attention. In so doing our only aim is to place the method of municipal financing and municipal accounting of the Town of Wakefield upon a basis as thoroughly businesslike as possible. Perhaps the most important is the matter of departmental receipts. Under the present method the bills are made out and the cash collected by the same department, oftentimes by the same individual. This method in our opinion should be changed. The source from which the bills emanate should be independent of the department or individual collecting cash against these bills. A more businesslike way would be to have a Town Collector, whose duty it shall be to collect all money from whatever source, including taxes, due the town. Thus there is a constant check between the collector and each of the various departments. It also relieves boards or commissions, which are subject to yearly changes, of the duty of collecting against the bills rendered by a previous board, a duty which has not always been performed.

Under a collector the revenue of the town will pass through the hands of one man, he to be properly bonded, instead of being handled by many boards, under no bonds, and some of necessity more capable than others. We believe that the entire financial affairs of a department, such as remitting bills and in turn receiv-

ing cash against these bills, should not be lodged in the hands of any one department or any one individual.

Another matter to which we wish to draw attention is the using of receipts by some of the departments. We believe that all receipts or reimbursements, regardless of their nature, should remain in the Town Treasury and be not available for expenditure by the department collecting same, unless the law provides otherwise. Make the appropriation at the spring meeting sufficient to carry a department through the entire year, and in making this appropriation name a definite amount. The appropriation of expected receipts or credits is the appropriation of an unknown amount.

We believe that each of the various town boards or officers should have a separate and distinct appropriation for the maintenance of their particular department, this appropriation to include salary. By this method the expenditure of money under the term "Miscellaneous Account" will be brought to a minimum, and the cost to the town of any board or officer revealed at a glance.

The receipts of a department are deposited with the bank in two ways, viz., either by the department itself or handed to the Treasurer and deposited by him. Under existing conditions the only check upon receipts is by comparing the amount deposited, as per the figures of the Town Treasurer, with the amount which the various departments claim to have deposited or should have been deposited. This check is satisfactory so far as it goes, but it falls far short of the mark. This method provides a check upon the cash received by the Treasurer, but does not provide a check upon the cash received by the various departments. When you consider that the receipts credited to the Municipal Light Plant alone were approximately \$73,000, and to the Water Department approximately \$39,000, the importance of this question is realized.

What is needed is a check between departments and consumers, or those having dealings with the departments. The only method of obtaining this check, under existing conditions, is by an audit of each individual transaction of every department, a task which, under the system now in vogue, is well nigh prohibitive. We believe it to be our duty to call attention to the possibilities existing under the present system.

Wakefield is a large and a growing town. Systems and methods that were satisfactory years ago are not efficient today. Departments should carefully scrutinize their bills. All supplies bought should be bought to the best possible advantage. A thorough understanding and a spirit of co-operation amongst the various boards must exist if the best results are to be attained.

The passing of the year 1912, in our opinion, brings one year nearer the time at which all cities and towns in the Commonwealth will be compelled, by a legislative act, to adopt a uniform system of municipal accounting.

It has always been our aim to have the annual town report in the hands of the citizens at the earliest possible date. We are frequently delayed through some of the departments not presenting their reports until long after the time prescribed by the Town By-laws has passed. If this date was more closely adhered to by the various departments, many days would be saved in the publication of the report.

In the floating debt statement of the Treasurer's report is shown an excess of liabilities over assets amounting to \$22,735.84. This apparent deficit is caused collectively as follows :

1st. Through expected or anticipated receipts not materializing.

2nd. Through the large amount of Tax Titles taken by the Town for which the Treasurer has not been reimbursed.

3rd. Through uncollected taxes, viz., moth taxes and sewer taxes not being shown as an asset in the statement of the floating debt.

4th. By an error in figuring the net tax levy.

In compliance with the vote of the Town we have compiled the one hundred and first annual town report and submit the same.

Respectfully submitted,

WILLIAM M. KELSO,

WILLIAM J. STOUT,

WILLIAM O. ABBOTT,

Board of Auditors.

Park Commissioners' Report

The Board of Park Commissioners has the honor to submit herewith its annual report, covering the municipal year Dec. 31, 1913.

The expenditures of the department are shown in the Auditor's report, page 249.

By reason of its importance the first to be referred to is the

COMMONS AND PARK

The large outlay incurred during the winter of 1911 and 1912, placed the Commons and Park, including the Rust Street and Flag Staff, in better condition than for several years. The value of the severe pruning and trimming of the elm and maple trees has been evident during the past year, and they are now assuming more graceful proportions than ever. No trees have died or been removed the past year, and the careful and efficient spraying by the Muck Department has had the effect of holding in check the ravages of the Gypsy and Brown Tail Moths, and also the more recent enemy of the elms, the Elm Leaf Beetle. It was the intention of this Board early in the season to expend quite a large portion of the appropriation at their disposal in improving the surface of the Park by planing and resurfacing with loam and seeding it down, as there are several parts of it which are badly in need of this treatment, but under the conditions arising during the summer, it seemed wise to the Commissioners to direct the men intended for this purpose to the improvements being made at the Harts Hill Reservation, made possible by the liberality of one of our fellow townsmen. There is but a thin surface of loam on a large portion of the Park, especially at the southerly end of Lake Ojannagovick. With the increasing population of our town, and the excellent street railway facilities, has come a large in-

crease in the number of people who use the Park and Common for rest and recreation. As a consequence of this, the surface of the Park will require a larger outlay to keep it in its present healthy and attractive appearance. The State Boulevard, for which the General Court of the Commonwealth appropriated \$50,000, will undoubtedly be constructed within a few years, and this should impress our citizens with the importance of liberal appropriations each year for the improvement of the Park, especially along the easterly shore of the lake. Much of the land acquired a few years ago, especially portions between Main Street and the lake, requires considerable filling to make it available for park purposes, and an appropriation large enough to include at least a portion of the cost of this should be made each year. We commend these suggestions to the thoughtful consideration of our citizens.

DRINKING FOUNTAIN

The old drinking fountain on the Common, which has done duty for many years, has outlived its usefulness, and to put it in condition to comply with the sanitary requirements of the law would be a useless expense. Probably a modern fountain suitable for the purpose could be installed for about \$75. This should be done previous to the coming summer.

BAND CONCERTS

That good music is appreciated by our own townspeople, and also by large numbers of the citizens of adjoining towns and cities, was evident during the late summer and fall by the large attendance at the four concerts which were given on the Park. Much of the success of these concerts was due to the appropriation made by the town, augmented by contributions from some of our citizens, and the co-operation of the Bay State Street Railway Company, who gave free transportation to the musicians. We trust that the article in the Town Warrant for our annual meeting calling for an appropriation for this purpose, will receive favorable consideration.

HARTS HILL RESERVATION

The most important improvement on any of the town's park lands was made possible through the generosity and by the suggestions of our esteemed townsman, Mr. John J. Round. To accomplish these much needed improvements, required an expenditure of \$2,100. Of this amount Mr. Round contributed \$1,700, exclusive of the \$100 subscribed by him for band concerts on the Park. The old wall along Main Street was removed, and a granite faced retaining wall with cement capstones was erected along nearly the entire Main Street frontage. Two handsome granite pillars at the driveway entrance and stone steps from the street near the former Flint estate were built to render access easier to the ball field. A water pipe was laid from Main Street nearly to the ball field, and a Sanitas drinking fountain erected. This will also be used in the winter season for flooding several acres with water and creating an artificial pond, which will undoubtedly be appreciated by all persons who delight in skating. About four hundred young evergreen trees were planted on the elevated part of the reservation, and nearly all of them are alive at the present time. The Board of Park Commissioners are especially pleased at the prospect of a lookout tower and station to be erected on the summit of Harts Hill, which, while it will be a source of much pleasure to those who are familiar with the locality, we trust it may also be the means of attracting larger numbers of our citizens to this picturesque and interesting part of Wakefield's park system. While much was accomplished during the season, there still remains much to be done to complete the work already under way. The driveway should be extended and paths constructed to the top of the rock, and the ball ground relocated. The level land along Main Street should be rolled and seeded down, and we feel confident that our citizens, bearing in mind the liberality of the one who made possible this splendid improvement, will willingly vote for the necessary amount to complete the work already begun. For this purpose we recommend an appropriation of \$500.

The Park Commissioners are indebted to Mr. O. E. Starkweather, Superintendent of Streets, for valuable suggestions and

also engineering work in connection with the improvements made on this reservation.

WAKEFIELD JUNCTION PLOT

As stated in the report of this Board for the municipal year of 1911, efforts were being made then, and have been continued during the past year, to induce the Boston & Maine Railroad Co., who are the owners of an adjoining piece of land, to co-operate with this Board in making a park of both the properties. Interviews almost without number have been held with officials of the road, and under the direction of this Board plans were made by a competent landscape architect showing the proposed joint improvements. These plans were submitted to Mr. Byrnes, Vice-president of the Railroad Company, who expressed his approval of them and promised co-operation. No definite reply has been received up to the time of writing this report, but we feel confident that an arrangement can be effected, probably in the early spring, whereby the co-operation of the railroad company, so essential to the proper development of this land, will be given, and one which will be satisfactory to all parties concerned. Should co-operation be declined, it would be advisable to proceed to develop this plot by using the balance available which was given by the donor of the land.

We recommend that the town raise and appropriate for park purposes for the ensuing municipal year the sum of one thousand five hundred and fifty dollars (\$1,550), five hundred of said amount to be expended on Harts Hill Reservation. This should be exclusive of any amount providing for band concerts.

Respectfully submitted,

EUGENE S. HINCKLEY, Chairman,

ARTHUR P. KNIGHT,

GEORGE W. ABBOTT, Secretary,

Park Commissioners.

Wakefield, Jan. 31, 1913.

ANNUAL REPORT

OF THE

WAKEFIELD

Municipal Light Board

AND MANAGER

OF THE MUNICIPAL LIGHT PLANT

TOWN OF WAKEFIELD

Report of the Municipal Light Board

The Wakefield Municipal Light Commission presents herewith its 19th Annual Report for the year ending December 31, 1912.

The work of the Board during the past year has been routine, and on account of matters needing special attention has also taken more time than is usually required in connection with the management of the plant.

The population of Wakefield for the year 1895, which was the first complete year during which the plant was operated by the town, was 8,304. The present population is estimated at nearly 12,000. Among this increase in our population there are many who are not familiar with the careful consideration which the voters of the town in former years gave to the question of municipal ownership of the water, gas and electric light plants, when these franchises were finally acquired by the town, and there are also many who have always been opposed to municipal ownership.

The same feeling of unrest which has prevailed throughout the United States has manifested itself in Wakefield, and notwithstanding the great criticism that the people are making of the railroads, the express companies, and the telephone and telegraph companies, there are those who are ready to advocate the retiring of Wakefield from the field of municipal ownership in gas and electricity, notwithstanding the treatment the people are receiving from quasi-public corporations who control competition.

This constant agitation by the opponents of municipal ownership who seize upon the slightest excuse to create dissatisfaction, and the danger of the introduction of politics into the management of these town affairs, are the principal things that threaten the success of municipal ownership. Wakefield is to be congratulated in being remarkably free from the latter danger during the past management of its public enterprises.

At the Reading Town Meeting held in March, 1912, the committee of that town, appointed at the meeting in November, consisting of the Selectmen and the Light Commissioners, to which the question of granting a franchise for furnishing gas to the Town of Reading by the Town of Wakefield, was referred, made a report and action upon the entire matter was postponed by the Town of Reading.

In June, 1912, Reading again gave this matter consideration and, acting under an article in the Town Warrant, dated June 25, voted to authorize the Selectmen to grant a franchise to the Town of Wakefield for supplying gas to the inhabitants of the Town of Reading under a certain agreement.

Accordingly your commissioners had articles inserted in the Town Warrant dated July 15, 1912. After much discussion it was voted that the commissioners be authorized to supply Reading with gas at the town line. In accordance with this vote the following letter was sent to the Selectmen of the Town of Reading :

WAKEFIELD, MASS., Aug. 2, 1912.

MESSRS.

ALBERT W. CLARK,

FREDERICK D. MERRILL,

EDWIN L. HUTCHINSON,

Selectmen Town of Reading.

GENTLEMEN :

The Wakefield Municipal Light Commissioners, according to agreement, brought the matter of authorization for them to sign the agreement which the Town of Reading authorized your Board to sign, for the establishment of a distributing plant for gas in the Town of Reading and the furnishing of gas for the same, by the Town of Wakefield, before the Town of Wakefield in a Town Meeting assembled.

The Town of Wakefield refused to authorize the Wakefield Municipal Light Commissioners to sign this agreement, but authorized the Municipal Board to furnish gas only to Reading at the Town line between Reading and Wakefield.

We are of the opinion that this decision was largely influenced by doubts brought forward in regard to certain legal aspects in the matter.

Very truly yours,

EDWIN C. MILLER,

Chairman, Municipal Board.

On July 1, 1912, acting under instructions from the People's Gas & Electric Co., of Stoneham, the furnishing of gas to the Town of Reading at the town line was discontinued by the Town of Wakefield. In October, a franchise having been granted to the Malden & Melrose Gas Light Co., by the town of Reading for furnishing gas to its inhabitants, your Commissioners again turned on the gas at the town line, and are now furnishing gas for this company to use in supplying the inhabitants of the Town of Reading.

On June 25th the resignation of Mr. A. B. Morton as Manager of the Wakefield Plant, to take effect on August 3, was received. This was accepted with reluctance. As he had received an unsolicited offer from the National Gas & Electric Co. of Chicago to become Superintendent of their plant at Rome, New York, at such an advance in salary which your Board could not meet, we had no other course open but to accept it. During Mr. Morton's five years' management of the Wakefield Plant he did much able work, and his courtesy and consideration to the town's people and to the employees, as well as his strict attention to his duties, was fully appreciated by the Board on behalf of the Town.

On August 15 Mr. S. L. Cole was appointed Manager of the plant. Since graduating from the Mass. Institute of Technology in 1905, he had been engaged constantly in gas and electrical work, and we feel that he will successfully continue the able management of his predecessor.

ELECTRICAL DEPARTMENT

During the latter part of 1911 it was evident that the engines were operating very uneconomically as regard the steam consumption. Accordingly arrangements were made to buy the entire current of electricity from Reading. It being a question of the ability of the Reading Plant to carry the full load under all circumstances, it was not thought desirable to discharge our engineer who had proved himself a competent and careful employee. Accordingly under his direction the engines were overhauled and the cylinders rebored.

When it was evident that it was not safe to depend on the Reading plant for all of our load, our own plant was again started and the engines were found to be running at their normal condition as to economy in the use of steam. Other minor repairs have been made to the electrical plant. The time is rapidly approaching when the Town must decide what they will do to meet the increase in the use of electricity, both for lighting and for power. It is difficult to estimate what may be the probable increase in the use of electricity for power, and your Commissioners believe the question when decided should be settled in such a way that any increase in the use of electricity for power may be taken care of when it comes. By reference to the figures of the Manager the increase in the output of electricity for the year can be ascertained.

STREET LIGHTING

The success of the experiment of removing the arc lamps and substituting incandescent lamps, tried last year, has been assured.

Your Commissioners have removed during the two years all of the arc lamps for street lighting and replaced them with incandescent lamps.

Your Commissioners believe by these changes that the street lighting of the Town has been much improved at practically no increase in the amount of electricity consumed.

The following new incandescent lamps have been installed: one on Murray Street, one on Pleasant Street, one on Cedar Street, two on Curve Street, six on Vernon Street.

POLE LINES

Under an agreement with the Telephone Company, dated Nov. 1, 1894, there have been a large number of poles belonging to the Telephone Company to which the wires of the Town were attached, and many poles belonging to the Town to which the telephone wires were attached, replaced with new poles.

The Telephone Company have placed a great many wires into conduits and also have gathered many together into cables during the past year, and doubtless the time is approaching when the Town will consider the advisability of placing some of the electric wires under ground in conduits.

If this could be done on the main street from Water Street to the Rockery, all of the poles could be removed except those necessary for use by the street railway and for street lighting. A great deal of work has been done, taking the slack out of the electric lines and seeing they were properly fastened to the cross arms, and they are in much better condition than they were a year ago.

GAS DEPARTMENT

Another bench of retorts has been renewed this year. This bench was installed with an outside producer furnace, similar to the one installed last year, which has given good satisfaction. The gasometer and smoke stack have been painted and other necessary repairs done for the upkeep of the plant.

The amount of water and coal gas produced for the year can be ascertained from the report of the Manager.

FIRE ALARM

The cost of maintaining the Fire Alarm System necessarily increases as more boxes are added and the system extended. The iron wires rust and deteriorate in time and so breaks in the system become more frequent. In a severe wind storm there have been as many as twenty-two breaks to repair, caused largely by the breaking of limbs of trees.

A circuit extending from the Central Fire Station through Main and Lafayette Streets, and through North Avenue, to the Municipal Light Plant, has been placed in underground conduits. On this circuit the following alarm boxes have been placed on iron pedestals: Box 35, Main Street, near Albion; Box 34, Main Street, corner Lafayette; Box 61, North Avenue, corner Church Street.

Box 135, Central Engine House, and all apparatus in Central Fire Station, and Volunteer Hose House on Foster Street, have been connected to the underground system.

We recommend that other circuits be put into conduits as soon as the Town can undertake the expenditure necessary.

CONCLUSION

It was desired by the Commissioners to reduce the rates this year. However, on account of the increase in the cost of labor, of crude oil, gas and steam coal, insurance due to the new Employee's Liability Law and for other reasons, it did not seem practical to do this.

Crude oil, used in the manufacture of water gas, advanced from $3\frac{1}{4}$ c. to $5\frac{3}{4}$ c., and will probably be further advanced in 1913.

We supplied no gas to Stoneham this year, and supplied Reading but nine months of the year. However the increase consumption in Wakefield offstood these losses in part; the net decrease in consumption being but 9.1% and net decrease in revenue 3.3%.

The output of electricity increased 8.6%, and the revenue increased 12%. This would indicate that the cost of street lighting has not materially increased this year.

By vote of the Town the laborers on the highway work were increased to \$2.25 per day instead of \$2.00. For this reason your Commissioners were also obliged to advance the pay of laborers as well as the other employees effected by the eight hour law.

Your Commissioners thought it wise to take out liability insurance under the new law, as the danger of heavy damages, in case the Town attempted to carry its own insurance, was very great.

The Manager and all of the employees of the Plant have worked harmoniously and faithfully to make the operation of the Plant successful, and it is hoped that affairs will adjust themselves in such a way and that the consumption of gas and electricity will increase so that later there may be some reductions in the rates to the consumer.

EDWIN C. MILLER, Chairman,

CURTIS L. SOPHER, M.D.

L. WALLACE SWEETSER, Secretary.

Report of Manager

MESSRS. EDWIN C. MILLER,

L. WALLACE SWEETSER AND DR. CURTIS L. SOPHER,
Municipal Light Board of Wakefield.

GENTLEMEN—The nineteenth annual report of the Manager, showing the operation of the plant for the year ending December 31, 1912, is respectfully submitted.

F. E. BUNKER, Chairman,

G. E. CAMPBELL, Secretary,

H. A. SIMONDS, Treasurer.

Report of Finance Committee

The recommendations of the Committee for the year ending December 31, 1913, are herewith respectfully submitted.

Of these amounts one-fifth for the School Department and one-sixth for the other departments were appropriated at the January 1913 town meeting.

SCHOOL DEPARTMENT

General payrolls \$76,000 00

This amount includes \$2,000, estimated receipts from tuition.

TREASURER'S DEPARTMENT

Maturities in 1913, provided by previous votes, including Appropriations in 1912 after tax levy had been made, amounting to \$38,278 00

Amounts to be deducted :

To be taken from Water

Plant Receipts . . . \$4,000 00

Meters 1,500 00

To be taken from Light

Receipts 9,500 00

 \$15,000 00

To enter tax levy \$23,278 00

Interest \$22,743 75

Estimated for interest on

temporary loans . . . 5,000 00

Overdraft 1912 481 63

 \$28,225 38

Amounts to be deducted :

To be taken from Water

Receipts . . .	\$7,960 00
----------------	------------

Interest meter loan . .	570 00
-------------------------	--------

To be taken from Light

Plant Receipts . . .	4,701 25
----------------------	----------

	<u>\$13,231 25</u>
--	--------------------

To enter tax levy . . .	\$14,994 13
-------------------------	-------------

STATE AND COUNTY CHARGES

State, for list see Treasurer's report .	\$30,713 56
--	-------------

County	8,599 73
------------------	----------
